Welcome to LEGO Jurassic World!

Introduction

Yes, it's a jungle out there. Jurassic World is a wild place, huge and unpredictable. It's easy to get lost and run afoul of greedy theme park moguls or hungry 50-foot reptilians. Lucky for you, we put together this little park guide.

How to Use This Guide

First, we introduce all the basics of gameplay—how the game flows, how to explore, how to break or build stuff, when to fight or flee, and so on. This includes a review of all the great park souvenirs you can collect. We also introduce the amazing Dino Customizer that you'll find in the park centers.

Second, we list every character (human and dinosaur) and vehicle available in the game and when they appear. You also get details about the special abilities available for both man and beast.

Third, we carefully walk you through LEGO Jurassic World, step by step. This includes both Story and Free Play modes.

Fourth, we review all four of the spectacular hub areas: two on Isla Nublar, and two on Isla Sorna.

And finally, we give you checklists to use for checking off all the achievements, trophies, and cheats that you can earn in the game.

The Basics

Meet the Game Pieces

Story Mode

Each [Lego Brick](#) features a few unique actions and there are just over two dozen ingredients and all of [Jurassic World Dominion](#)'s characters, vehicles, and dinosaurs are represented. Here's a look at the most important pieces you'll be using in the Story Mode. Please note that [Dr. Ian Grant](#) has a Story Mode exclusive piece.

Free Play Mode

Free Play Mode is the only environment where you can create a Dino Rescue Base and build the dinosaurs you've saved over the course of [Jurassic World Dominion](#). Here's a look at the Free Play Mode pieces that are not in Story Mode. Note that each [Jurassic World Dominion](#) dinosaur has a unique piece and that's also not listed.

Vehicles Mastery Pieces

[Lego Brick](#) Packs, the only vehicles or dinosaurs you can unlock in Free Play Mode. You can access a store in the Hub area where you can buy [Lego Brick](#) Packs with [Lego Studs](#). Each pack costs 1,000 [Lego Studs](#) and contains one of the following vehicles or dinosaurs. Here's a look at the Mastery pieces that you'll receive when you've built one of each.

Hub Areas

The action is not over at the game's Dino Rescue Center mission select area, which contained areas in the Hubble. In the Hub, You can access three additional areas and locations to enable missions in Story Mode or Free Play Mode. But for each mode, Story Mode and Free Play Mode, you'll have to unlock the Hub areas first.

Brick Things

One of the great things about LEGO games is that you can smash almost everything in sight and easily gain a pile of [Lego Studs](#). Here's a look at the most important [Lego Brick](#) pieces you'll be using in the game. Please note that [Dr. Ian Grant](#) has a unique piece and that's also not listed. Another note is that [Lego Brick](#) pieces are not listed in the Free Play Mode section.

Build Tool

Each of the [Lego Brick](#) pieces listed below is a tool that you'll be using in the game. Please note that [Dr. Ian Grant](#) has a unique piece and that's also not listed in the Free Play Mode section.

Characters & Vehicles

Introduction

You can acquire many playable characters—good and evil, brave and foolish, human and lizard-like—in LEGO Jurassic World. Many have special weapons/tools or other abilities at their disposal. You can also acquire a wide selection of cool vehicles for quick transport across the hub landscapes.

© 2015 The LEGO Group. ™ & © Universal Studios and Amblin. ™ & © Warner Bros. Entertainment Inc. (s15)

Characters & Vehicles

How to Unlock & Collect Characters

LEGO Jurassic World features two different ways to “collect” playable characters. Story characters are the folks who join your traveling party at various points as you play through the 20 levels of Story Mode. All of these people become automatically available to you, free of charge, whenever you switch to Free Play Mode.

As you play through the Story, level by level, you also unlock dozens of other characters that subsequently appear in the park hub areas. These unlocked characters must be purchased if you want to add them to your playable party in Free Play Mode. Most are affordable, but a few special bonus characters are very expensive.

To purchase any unlocked character in a hub area, just walk up to him/her and press Use; then press the Buy button indicated onscreen. Alternatively, when in Free Play, bring up the character grid and purchase the characters directly from there.

Characters & Vehicles

Character Abilities

Almost every character in the game has at least one special ability that provides added value. Here's a quick rundown of the abilities available in LEGO Jurassic World.

Ability	Description
Academic	Solve equation puzzles written on whiteboards to reveal useful items.
Agile (Female)	Female characters can leap higher than their male counterparts. They can also use special pink/blue agility objects to reach new areas.
Bolt Cutters	Characters with bolt cutters can slice through special LEGO padlocks and chains.
Bone-Build	Paleontologists can use their expert knowledge of dino anatomy to reassemble piles of bones.
Buddy Boost	Characters can boost up a buddy to a higher area from a "boost pad."Small characters cannot be the booster.
Camouflage	Characters with this stealth skill can sneak past dinosaurs and security systems.
Climb	Scale walls with LEGO handholds to reach new areas.
Crowbar	Crowbar skills let characters break into otherwise inaccessible areas.
Dig	Diggers can dig in stud piles to unearth new objects.
Droppings Rummage	Some folks are willing to dig through piles of dinosaur droppings to find important items and clues.
Electric Charge	Expertise with electric stun-rods lets characters "jumpstart" or power up broken electrical objects or LEGO generators.
Electric Rifle	Characters with these ranged weapons can shoot electric switch targets.
Glide	Billy Brennan can jump and deploy his parachute to glide short distances across otherwise impassable gaps.
Grapple	Characters can toss grappling hooks at special "grapple plugs" and pull down objects or climb the attached rope.
Grow Plant	Plant experts called botanists can grow plants quickly.
Hacker	Hackers can access special LEGO computer terminals to manipulate nearby objects.
Illuminate	Some characters can illuminate dark areas. Ian Malcolm uses flares; Timmy Murphy uses night-vision goggles; Zach Mitchell uses a torch.
InGen Access	Jurassic Park staff can use InGen security clearance panels to access special areas of the park.
Jurassic World Access	Jurassic World staff can use Jurassic World access panels to open special areas of the new park.
Photography	Characters with cameras can take photos at designated photo-spots. The flash can also stun dinosaurs.
Repair	Certain handy characters use their tools to fix broken LEGO objects.
Rope/Vine Cutter	Characters with blades can slice through ropes and plant vines. Grant uses his Raptor Claw; Owen uses his knife.
Scanner	Certain high-level Jurassic World employees carry scanners that can interact with sensor panels to reveal important LEGO objects.
Scream	Several female characters can scream at a high enough pitch to shatter LEGO glass.
Seesaw	Get bounced by a buddy to a higher area or over a barrier. One character steps onto the seesaw first then a buddy jumps on to create the bounce. Small characters cannot use this ability.
Sharpshoot	Characters with rifles or other ranged weapons (such as Lex Murphy's baseball) can hit LEGO bull's-eyes, switches, or other targets.
Small Access	Small characters can crawl into vents, hatches, and other access chutes to emerge in new locations.
Tracker	Hunters can use tracking objects to track footprints that lead to clues or hidden objects.
T. rex Scent	Eric Kirby can toss jars that scare away Compsognathus packs.

Characters & Vehicles

Story Characters

Here's a list of the free playable characters that you collect as you progress through the game's Story Mode.

Movie 1

Icon	Name	Abilities
	Robert Muldoon	Tracker, Sharpshoot, InGen Access
	Jophery Brown	Electric Charge
	Alan Grant	Dig, Rope/Vine Cutter, Bone-Build
	Ellie Sattler	Droppings Rummage, Grow Plant, Agile
	John Hammond	InGen Access
	Ian Malcolm	Illuminate, Academic
	Gerry Harding	Tracker, Sharpshoot, InGen Access
	Lex Murphy	Scream, Hacker, Agile, Sharpshoot
	Timmy Murphy	Bone-Build, Illuminate, Small Access
	Alan Grant (Montana)	Dig, Rope/Vine Cutter, Bone-Build
	Ellie Sattler (Montana)	Agile, Droppings Rummage, Grow Plant
	Alan Grant (Survivor)	Dig, Rope/Vine Cutter, Bone-Build
	Ellie Sattler (Survivor)	Agile, Droppings Rummage, Grow Plant
	Timmy Murphy (Survivor)	Illuminate, Small-Access, Bone-Build
	Lex Murphy (Survivor)	Agile, Hack, Scream
	Ian Malcolm (Survivor)	Academic, Illuminate

Movie 2

Icon	Name	Abilities
	Ian Malcolm (Isla Sorna)	Illuminate, Academic
	Eddie Carr	Repair, Sharpshoot, Tracker
	Nick Van Owen	Photography, Crowbar, Bolt Cutters
	Sarah Harding	Droppings Rummage, Agile, Photography
	Kelly Malcolm	Agile, Scream
	Roland Tembo	Tracker, Sharpshoot
	Robert Burke	Dig, Bone-Build
	Ajay Sidhu	Tracker, Grapple, Sharpshoot
	Carter	Repair, Bolt Cutter, Crowbar

Movie 3

Icon	Name	Abilities
	Alan Grant (Isla Sorna)	Dig, Rope/Vine Cutter, Bone-Build
	Paul Kirby	Repair, Grapple
	Billy Brennan	Climb, Glide, Photography
	Udesky	Sharpshoot, Tracker
	Amanda Kirby	Scream, Agile
	Eric Kirby	T. rex Scent, Camouflage, Droppings Rummage, Small Access
	Cooper (Runway)	Tracker, Sharpshoot, Rope/Vine Cutter
	Soldier	Sharpshoot, Rope/Vine Cutter
	Eric Kirby (Disguise)	T. rex Scent, Droppings Rummage, Camouflage
	Alan Grant (Lecture)	Dig, Rope/Vine Cutter, Bone-Build

Movie 4

Icon	Name	Abilities
	Owen Grady	Climb, Rope/Vine Cutter, Droppings Rummage, Camouflage
	Barry	Electric Charge, Tracker, Grapple
	Supervisor Nick	Jurassic World Access, Scanner, Repair
	Handler Ellis	Electric Charge
	Gray Mitchell	Bone-Build, Small Access, Photography
	Zach Mitchell	Illuminate, Repair
	Claire Dearing	Jurassic World Access, Agile, Scanner
	Zara	Agile, Scream
	Owen Grady (Survivor)	Climb, Droppings Rummage, Camouflage
	Claire Dearing (Lab)	Agility, Scanner, Jurassic World Access
	Claire Dearing (Survivor)	Agility, Scanner, Jurassic World Access
	Zach Mitchell (Survivor)	Repair, Illuminate
	Gray Mitchell (Survivor)	Bone-Build, Small-Access, Photography
	Scientist Phil	Jurassic World Access, Academic

Characters & Vehicles

Dinosaurs

Dinosaur Abilities

One of the best things about LEGO Jurassic World is that you get to be a dinosaur, if you want. You do this several times as part of the main story, and you also gain playable dinosaur characters as you collect Amber Bricks. These bricks unlock dino DNA for the Dinosaur Customizers in the Visitor and Innovation Centers and at the Dino Spawners in the hubs.

As you might expect, dinosaurs can do some things that humans can't. Here's a quick rundown of the abilities you can gain when you play as one of these fearsome prehistoric creatures.

Ability	Description
Roar	Creatures with this ability can break both Amber LEGO and "dinosaur strength" objects.
Pounce	Velociraptors can use raptor rails to leap great heights and access higher areas.
Scent Tracking	Velociraptors can pick up a scent and follow its trail.
Charge	Dinosaur can ram through cracked LEGO barriers using its head.
Tail-Slam	Dinosaur can shatter cracked LEGO barriers using its tail.
Goo Spit	Dilophosauruses can spit venom goo at black LEGO objects to destroy them.
Rope/Vine Slash	Velociraptors can slice through LEGO vines.
Flight	Pteranodons and Dimorphodons can fly.
Swim	The Mosasaurus can swim.
Dino Strength	Some large dinosaurs can destroy large LEGO objects.
Quake	Very large dinosaurs like the Apatosaurus and Brachiosaurus can stomp and break "quake LEGO" objects—i.e., cracked ground sections.
Camouflage	Indominus Rex can use camouflage to move stealthily.
Tiny Access	Compsognathus (or Compy, for short) can move through special tiny passages called "Compy Tubes."
Dino Switches	Some dinosaurs can bite and pull special wall switch-handles to activate mechanisms.

Playable Dinosaurs

Dinosaurs are categorized as Small, Medium, or Large. You can select only small dinosaurs (base or custom) from your character menu, but you can select dinosaurs of any size at the Dino Spawners in the hub areas, including all of your custom dinosaurs.

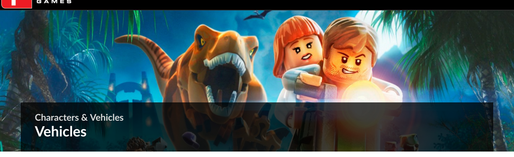
Playable from Character Menu

Icon	Dinosaur	Special Abilities
Small Dinosaurs		
	Velociraptor	Pounce, Scent Tracking, Rope/Vine Slash, Dino Switch
	Dilophosaurus	Goo Spit
	Gallimimus	None
	Compsognathus (Compy)	Tiny Access
	Troodon	None
	Pachycephalosaurus	Charge
Baby Dinosaurs		
	Velociraptor (Baby)	None
	Triceratops (Baby)	Charge
	Tyrannosaurus Rex (Baby)	None
	Stegosaurus (Baby)	None

Playable from Dino Spawners

Icon	Dinosaur	Special Abilities
Note: All Small dinosaurs are also available from spawner.		
Medium Dinosaurs		
	Triceratops	Charge
	Stegosaurus	Tail-Slam
	Parasauropholus	None
	Corythosaurus	None
	Ankylosaurus	Tail-Slam
Large Dinosaurs		
	Tyrannosaurus	Roar, Dino Strength
	Apatosaurus	Quake
	Brachiosaurus	Quake
	Baryonyx	Roar, Dino Strength
	Spinosaurus	Roar, Dino Strength
	Indominus Rex	Roar, Camouflage
Flying Dinosaurs		
	Dimorphodon	Fly
	Pteranodon	Fly, Pteranodon Switches

© 2015 The LEGO Group. ™ & © Universal Studios and Amblin. ™ & © Warner Bros. Entertainment Inc. (s15)



Vehicles

As with characters, you encounter a number of unlockable vehicles while playing through the Story Mode—35 of them, to be exact. As you move through the hub areas you can find Vehicle Spawners in a number of locations. To buy a vehicle you've unlocked, just activate the spawner, select the unlocked vehicle icon, and press Accept to pay the purchase price shown. (Assuming you have enough studs in your bank account, of course.)

Once purchased, the vehicle can be spawned for free from any spawner on the islands. Here's a list of the vehicles, their cost, and when they're unlocked.

Movie 1

Icon	Vehicle Name	Level Unlocked	Cost
	Fork Lift	1	50000
	Road Sweeper	1	
	Jurassic Park Responder	1	Free
	Jurassic Tour Vehicle	3	50000
	Jurassic Park Responder (Soft Top)	4	
	Jurassic Park Responder (Roll Cage)	5	

Movie 2

Icon	Vehicle Name	Level Unlocked	Cost
	Isla Sorna Gatherer	6	50000
	Isla Sorna Observer	6	
	The Van Owen	6	
	Hunter Scout	7	
	Hunter Snare ATV	7	
	Hunter Snagger	8	
	Hunter Harasser	8	
	Hunter Snare	9	
	Site B Transport	9	
	San Diego Speedster	10	
	Police Patrol Car	10	

Movie 3

Icon	Vehicle Name	Level Unlocked	Cost
	Site B Transport (Rusty)	11	50000
	Pickup Truck	11	
	Hunter Command	12	
	Site B Saloon	13	
	Hunter Transport	14	
	Hunter Trapper	15	

Movie 4

Icon	Vehicle Name	Level Unlocked	Cost
	Jurassic Constructor	16	50000
	Jurassic Buggy	16	
	Jurassic World Transport	16	
	Jurassic World Observer	17	
	Gyrosphere	17	
	Jurassic Park Responder (Rusty)	18	
	Jurassic Pursuer	18	
	Jurassic ATV	19	
	InGen Transport	19	
	Mobile Veterinary Unit	19	
	InGen Command	20	
	ACU Transport	20

Collectibles

Story Mode

Story Mode is the main adventure in LEGO Jurassic World. It takes you through the events of the first four Jurassic Park movies, from the discovery of Isla Nublar to the escape from Isla Sorna. You can play Story Mode in co-op with a friend, and you can switch between characters at any time.

Isla Nublar Main Adventure

Level	Objectives
1-1 Welcome to Jurassic Park	Find the Visitor Center
1-2 Raptor Attack	Escape the Raptors

Isla Nublar Free Play

Free Play lets you revisit any level you've already completed in Story Mode. You can play with any character you've unlocked, and you can switch between characters at any time. Free Play is a great way to collect all of the studs, minikits, and other collectibles in each level.

Isla Nublar Bonus Levels

Bonus levels are unlocked by collecting a certain number of minikits in Free Play. They are short, challenging levels that reward you with a lot of studs and a unique character.

Isla Sorna Main Adventure

Level	Objectives
2-1 Arrival	Find the Trailer
2-2 Compy Attack	Escape the Compys

Isla Sorna Free Play

Isla Sorna Bonus Levels

Trophies and Achievements

Trophy	Description
Bronze	Complete the Isla Nublar Main Adventure
Silver	Complete the Isla Sorna Main Adventure
Gold	Complete all Story Mode levels
Platinum	Unlock all other trophies

Collectibles

Welcome to Jurassic World Evolution Wiki, a community-driven wiki for Jurassic World Evolution.

Jurassic World Evolution

Radio Dinosaur

Radio Dinosaur is a Dinosaur in Jurassic World Evolution. It can be found in the Isla Nublar Map. It is a Herbivore Dinosaur. It is a Medium Dinosaur. It is a Radio Dinosaur. It is a Dinosaur.

Name	Value
Dinosaur	Radio Dinosaur
Dinosaur	Herbivore

Isla Nublar Cage

Isla Nublar Cage is a Cage in Jurassic World Evolution. It can be found in the Isla Nublar Map. It is a Cage. It is a Cage. It is a Cage

Lego Ninjago: Shadow of Ronin
Level 15: Pack, Shutdown.

Level 5.6: Reckoning Rumble

In Hero Mode with Mr. Freeze, you can't shoot, but a recharging beam. Same with Lobo and the Power Clamp, to shoot the enemy's ship.

Pick Another Boat Numbnuts!

Lobo's Ship

Collateral Chase

Use the Power Clamp and the Harpoon with Collateral to take pleasure in the carnage that ensues. No Achievements or Trophies, but it's entertaining. Collateral Chase: Yes

Item	Name	Abilities
	Ram Boom	Ram
	Lob Missiles	Fire
	Power Missiles	Fire

Ram

Ram Boom is better than Lob Missiles because it's more powerful and can be converted with enhancements like incendiary and explosive. Ram Boom: Incendiary, Explosive, Fire Rate, Ram Damage, Ram Cooldown, Ram Boom Damage

Fire

The Lobo's Ship's main weapon is called Lobo Missiles (Bound to Y/A). Some Upgrades are: Large Missile Blast, Lobo Missiles Damage, Lobo Missiles Fire Rate, Lobo Missiles Incendiary, Lobo Missiles Explosive, Lobo Missiles Cooldown

While the Missiles are Lobo Missiles that are the Ship Missiles are Homing.

Maintenance Mod

The Maintenance Mod is a Mod that can be used to repair the Ship. Some Upgrades are: Maintenance Mod Cooldown, Maintenance Mod Repair Amount, Maintenance Mod Repair Time, Maintenance Mod Repair Time Reduction, Maintenance Mod Cooldown Reduction

Item	Name	Abilities
	Mini Sabre	Changing Technique, Fire Time, Fire Cost, Spin
	Sabre Firework	Rocket, Headbutt, Infinite Ammo

Hover Bot Shuttle Code

Bot Pit: Collect, open, and build. Navigate: push the Joy-Con sideways. Hoverbot: While using Hover Bot Shuttle Code, you can use the Hover Bot to collect studs and other items. Hover Bot Shuttle Code: Yes

Hover Bot Shuttle Code

Bot Pit: Collect, open, and build. Navigate: push the Joy-Con sideways. Hoverbot: While using Hover Bot Shuttle Code, you can use the Hover Bot to collect studs and other items. Hover Bot Shuttle Code: Yes

Finding Her Stuff

Use the Hover Bot to find the Missing Mission and Target of Opportunity Mission and Locate Kit Kabinet

Use the Hover Bot to find the Missing Mission and Target of Opportunity Mission and Locate Kit Kabinet. Then

Completing the Prologue will unlock the Adventure Mode for the Indiana Jones and Temple of Doom levels.

Now that you've learned the basics of the Combat System, it's time to put it to the test. Your first mission will be a simple one. Your objective is to rescue the Prisoners of War.

Rescue the Prisoners

Enter the Jungle and head down the path to the first Prisoner of War. Kill the Indian Soldiers that attack you. Once the Indian Soldiers are dead, rescue the Prisoner of War. Loot the Indian Soldiers' corpses for ammo.

Kuna Fishing	Dropping Revenge Fish, Rare Jade, Prosperity
Kuna Fishing	Dropping Fish, Common Gold Nuggets

Kuna Fishing Achievement

Kuna Fishing is a mini-game that you can play at any Kuna Fishing Spot. Kuna Fishing Spots are marked on the map with a Fishing Rod icon. You can interact with a Kuna Fishing Spot by pressing the Interact button. Once you've interacted with a Kuna Fishing Spot, you will be prompted to cast your line. Press the Interact button again to cast your line. Wait for a fish to bite your line. Once a fish bites your line, press the Interact button again to reel in the fish. Repeat this process until you've caught 10 fish.

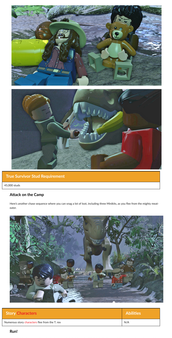
Rescue the Prisoners

Enter the Jungle and head down the path to the first Prisoner of War. Kill the Indian Soldiers that attack you. Once the Indian Soldiers are dead, rescue the Prisoner of War. Loot the Indian Soldiers' corpses for ammo

Jurassic World Evolution

Level 08: The Hunted

As the instructor-icon shows in the new scene, Roland Thinks-twice that the Operations Building isn't far away. But suddenly, thundering footsteps awaken everybody. A trap's 'n' an ayard's packed sprint from the camp!



Stage Survivor Stud Requirement

- 47,500 studs

Attack on the Camp

Here's another chase sequence where you can snag a lot of loot, including three Minifigs, as you flee from the mighty rexie!

Story Characters	Abilities
Depending when Aaarrrkkk Buy from Ep 7, Jaw	Agility

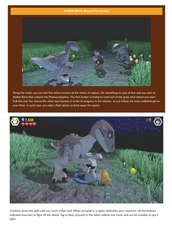
Run!

Immediately steer your character to the screen's far left & grab a Minifig & stashed amongst the camp equipment—one of three. Hit the marked dump the escape route. Then, as in the previous chase sequences, steer your character's escape path (with the route of other dots) so collect items and grab where you need the grab back to start but, scare floating skeins and bag.

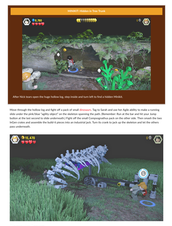
Shortly after the chase begins, you can collect a Minifig stashed in the camp gear on the far left side of the screen.

In the middle stretch of the chase, the escaping trails veers to Chart left (your right) and the camera swings to a side view. Then the chase veers back, running toward the camera again. When the chase's guide your character to the far right, one of the screen to steer a another. Rinsed.

In the final stretch, the camera swings behind your Rexy. as they're a toward a waterfall. And over the fun! When log is using a Hitchh Hunting about it.



The last stretch leads through the backside of a waterfall. Once you leap through the water, the chase is over. Mind it, as the T. rex comes off of its Rexy's Rocks, but for Hitchh cooler it, she or the delight of its laughter.



The Long Grass

The Young survivors emerge in savannah grass from the Summit one only a side meadow of tall grasses. As the Indom waters Behind the breakfast path, a scrap of hungry hot plants! Information's suddenly converged on them.

Get Aquad-V

Drive around the garage and destroy the Lego Studs. Use the Batmobile to destroy the Mini Batcave. Once the Mini Batcave is destroyed, collect the Mini Vehicle.

LEGO City Undercover
Chase McCain

Chase is back and he's causing trouble in the city! Undercover for the LAPD, Chase is often called in when a crime requires an undercover operative. Chase's methods are unorthodox, to say the least. Chase doesn't play by the rules and he's not afraid to break a few laws to get the job done.

The Survivor: Dual Requirement

Area: Vice City

The Docks

After the Vice City Mayoral Debate, Chase begins there are screaming. People start fleeing. And the big baddies, Ivan and Boris, are nowhere to be found.

Boris	Ivan
Boris Wants His Statue	Everything Between Them Has Gone To Hell
He Wants His Statue	Destroyed Boris' Academy Statue

Mission Pursuits

Boris is on the run in the warehouse. Legoland under Attack and all over. The Mafia collapses the Undercover. Vice City seems to already be the playing field of Chase. The city is in ruins and the playing field is huge and Vice City is in ruins.

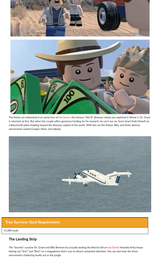
Cars in the Way! (Cargo Hold)

Inside the cruiser, both enemies and the Police guards. Stealth open. Hey, big yellow thieves! Hello! Lots and lots and lots! Stealth open. Hey, big yellow thieves! Hello! Lots and lots and lots! Big Yellow thieves! Hello! Lots and lots and lots!

Level 11: Landing Site

Walkthrough, Guide, 11

The scene takes back to Rhampton. Dr. Ravi Grant works his one final stand after Big Mo. The encounter lasts not for, but Amanda Kirby discovers her unmanned and they see Sarah Arnold, whom Ravi invented. But worries for Sarah's actually in training not, so he meets with a wealthy cousin, Ryan and Amanda Kirby.



Ryan Grant is interested in and some of Sarah's work. He then leaves "time-lift" discovery which he is responsible in Phase 2. Dr. Grant is reluctant at first. But when the couple offers generous funding for his research, he can't say no. Ravi Grant finds himself on the Landing Site with his cousin Ryan and the rest of the cast. With the new facility, and more dancing environments around Cowgirl, Sarah, and Whitney.

Boss Survivor Duel Requirement

Fulfill each

The Landing Strip

The "success" scene for Grant sets Billy Bronson to actually leading the Beach with an Ally Survivor Amanda Kirby means Sarah Arnold. Ryan Grant is also a Survivor Duel, as well as allied all-complete objectives. You can also find Ryan Grant consecutive clustering levels as in the couple.

Boss	Story Characters	Abilities
	Alan Grant (Ally Survivor)	Dig, Rapid Fire Collar, Bone Bolt

Find a Way into the Control Area

Head to the eastern path and take down the Velociraptor. Use the Stego's Stomp Attack to break the wall and then follow the path to the Mesozoic Gate. Head through the gate and you'll find the Compsognathus on the other side.

Head to the eastern path and take down the Velociraptor. Use the Stego's Stomp Attack to break the wall and then follow the path to the Mesozoic Gate. Head through the gate and you'll find the Compsognathus on the other side.

Welcome to the Toy Story 3 Walkthrough for the Wii. Here you will find a complete walkthrough for the game, including all of the Toy Box Challenges, Collectibles, and Trophies. Please feel free to contribute to this guide if you have any information that is not listed here.

Update 24.2 Patch Notes
Level 3/5 Showdown

Welcome, new recruits! Welcome to Erangel. After the events that led to the Erangel 3.0 Evolution and Train Station Redevelopment, we've been busy at work on the Level 3/5 Showdown!

Free Play Walkthrough: Movie 1

Free Play Mode

Once you've completed the LEGO Jurassic World story, you're more than ready to take a crack at the Free Play version of each level. In Free Play Mode, you play through the missions again, but with instant access to every single character you've unlocked in the game. This makes it possible to collect all of the Minikits plus the Amber Brick in each level.

Each level has 10 Minikits and one Amber Brick. You also earn a Gold Brick whenever you collect all Minikits in a level, so Free Play adds to your Gold Brick tally as well.

Play the Story First!

We strongly recommend playing through all 20 levels of the game's Story Mode before trying Free Play Mode. Every skill needed to snag all the Minikits will be right at your fingertips!

Note that this chapter assumes you're familiar with navigating each level from your Story Mode playthrough. If you get stuck between Minikit sections here, just go to our Story walkthrough for detailed, step-by-step instructions on how to get through the level.

Non-Story Level Collectibles Only!

Some Minikits and Amber Bricks can be collected during your first playthrough of the story. Those are covered in our Story Walkthrough. This chapter covers the Minikits and Amber Bricks that you couldn't reach in Story Mode.

Free Play Walkthrough: Movie 1

Level 01: Prologue

Raptor Transfer

MINIKIT: Crowbar & Droppings Rummage

After you get up the ladder to the raptor cage, use Nick Van Owen's crowbar to open the gated enclosure on the left. Tag to any character who can droppings rummage such as Ellie Sattler, and find the Minikit in the droppings pile.

The Dig Site

AMBER BRICK: Dark Cave

Once you get to the dig site's middle terrace next to the characters trying to fix the thumper, tag to a character with Illumination ability (like Ian Malcolm with his flare). Enter the dark cave to grab the Amber Brick. This unlocks the Gallimimus!

MINIKIT: Bolt Cutters & Road Sweeper

This one requires two steps. On the dig site's upper terrace, use Nick Van Owen's bolt cutters to slice the chain lock on the crate next to the paleontologist's trailer. Assemble the build-it pieces into a Road Sweeper.

Hop aboard the vehicle and drive it over the three sand piles on the upper terrace, each one marked by three LEGO bricks. When you drive over the third sand pile, you automatically get the Minikit.

MINIKIT: Small-Access Tent & Bellows Build-It

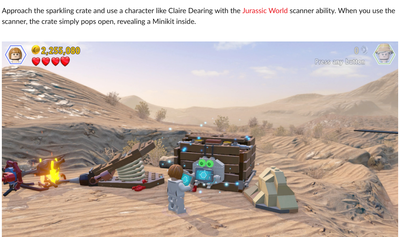
Send a character with Small-Access ability (like Timmy Murphy) to enter the blue tent on the dig site's upper terrace. You emerge on the high terrace, past the helicopter that blocks other forms of access to this area!

On the high terrace, you see a guy trying to roast a whole chicken on a tiny fire. He needs help. Smash the two tan crates behind and assemble the build-it pieces into a big bellows. Hop onto the bellows to squeeze it and give the cooking fire a nice boost. Your Minikit appears! Before leaving this terrace, check the next Minikit section.

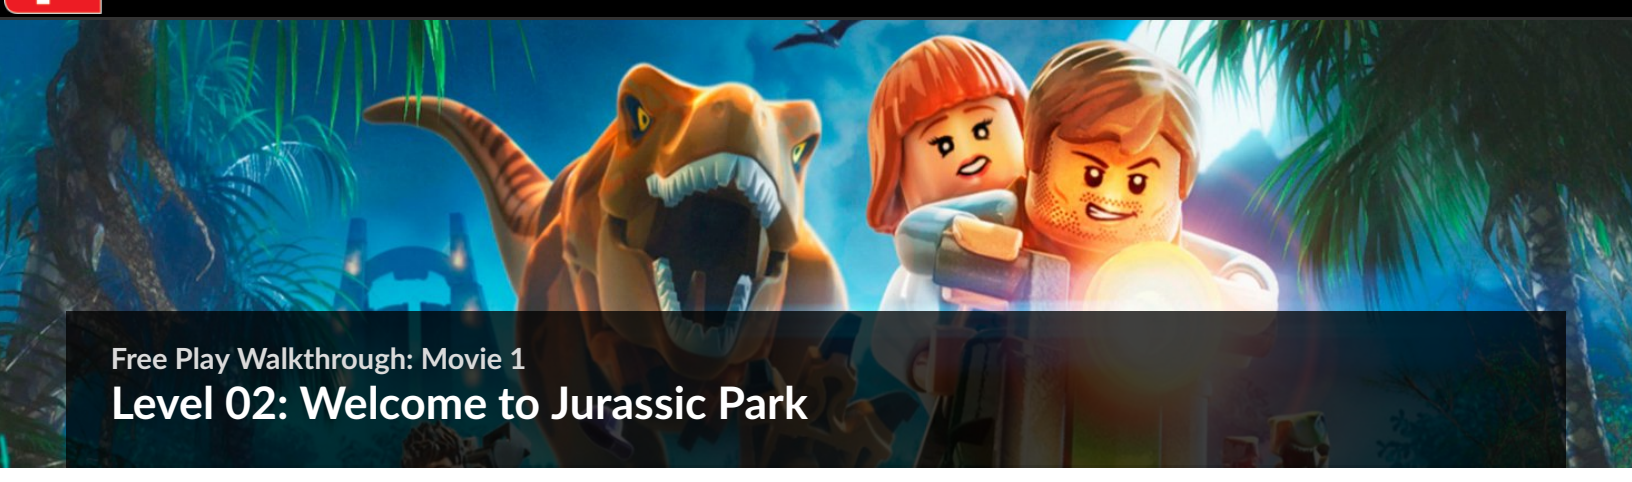
MINIKIT: Small-Access Tent & Scanner

As in the previous section, send a character with Small-Access ability (like Timmy Murphy) to enter the blue tent on the dig site's upper terrace. You emerge on the high terrace, past the helicopter that blocks access otherwise.

Approach the sparkling crate and use a character like Claire Dearing with the Jurassic World scanner ability. When you use the scanner, the crate simply pops open, revealing a Minikit inside.



© 2015 The LEGO Group. ™ & © Universal Studios and Amblin. ™ & © Warner Bros. Entertainment Inc. (s15)



Free Play Walkthrough: Movie 1

Level 02: Welcome to Jurassic Park

Raptor Enclosure

MINIKIT: Small Droppings Pile

Send a character like Ellie Sattler with the Droppings Rummage ability to search the small droppings pile at far right on the upper level. You pull out build-it pieces that assemble into a Minikit.

MINIKIT: Agility Hop

Use any female character's Agility ability to hop over the pink/blue agility bar atop the fence in the back-left corner of the upper level. The Minikit sits out in the open on the other side.

MINIKIT: Compy Tube in Container

Down on the lower level to the left, send a Compsognathus into either one of the green Compy Tube hatches on the container. Push both buttons inside (turning them from red to green). The Minikit spawns outside of the crate; collect it to add it to your total.

MINIKIT: InGen Panel Door

Tag to a character with InGen Panel access, such as Robert Muldoon. Walk to the Ingen Panel from level 1 on the side of the enclosure. Use the panel with the three button prompts. The enclosure opens and releases a Minikit.

Triceratops Recovery

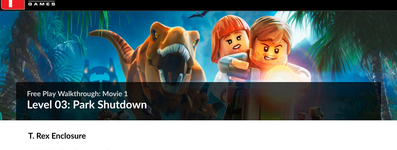
MINIKIT: Dark Cave Kit

After you grow the three-flowered plant and jump to the terrace above the sick Triceratops, send a character with the Illumination ability (like Ian Malcolm with his flare) into the dark cave to grab the Minikit inside.

MINIKIT: Dig Spot

After you get across the river, use a digger character like Alan Grant to smash foliage and dig up the small loose dirt pile. You unearth build-it pieces that can be assembled into a Minikit.

© 2015 The LEGO Group. ™ & © Universal Studios and Amblin. ™ & © Warner Bros. Entertainment Inc. (s15)



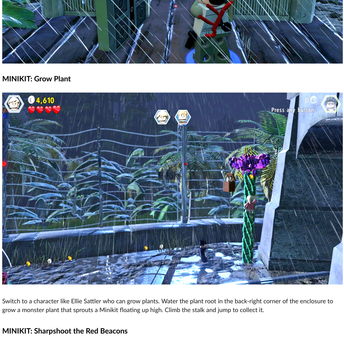
Free Play Walkthrough: Movie 1

Level 03: Park Shutdown

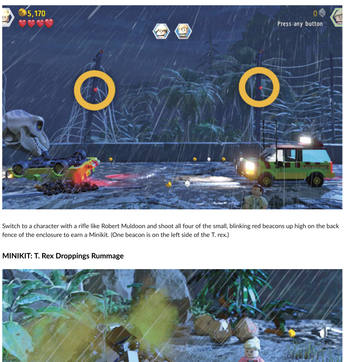
T. Rex Enclosure

MINIKIT: Pry Open the Restroom

At the start, head right and switch to a character with a crowbar like Nick Van Owen. Use the crowbar to pry open the restroom door. The lawyer hiding inside, Don Gennaro, gladly tosses you a Minikit.

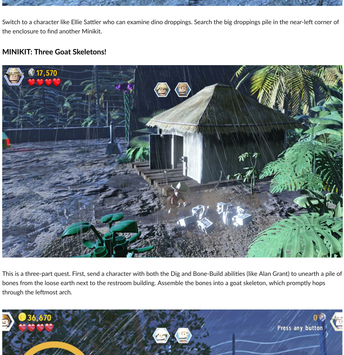


MINIKIT: Grow Plant



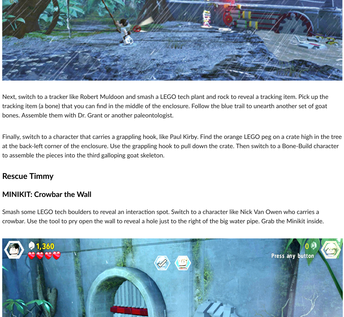
Switch to a character like Ellie Sattler who can grow plants. Water the plant root in the back-right corner of the enclosure to grow a monster plant that sprouts a Minikit floating up high. Climb the stalk and jump to collect it.

MINIKIT: Sharpshoot the Red Beacons



Switch to a character with a rifle like Robert Muldoon and shoot all four of the small, blinking red beacons up high on the back fence of the enclosure to earn a Minikit. (One beacon is on the left side of the T. rex.)

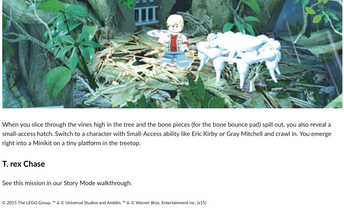
MINIKIT: T. Rex Droppings Rummage



Switch to a character like Ellie Sattler who can examine dino droppings. Search the big droppings pile in the near-left corner of the enclosure to find another Minikit.

MINIKIT: Three Goat Skeletons!

This is a three-part quest. First, send a character with both the Dig and Bone-Build abilities (like Alan Grant) to unearth a pile of bones from the loose earth next to the restroom building. Assemble the bones into a goat skeleton, which promptly hops through the leftmost arch.



Next, switch to a tracker like Robert Muldoon and smash a LEGO tech plant and rock to reveal a tracking item. Pick up the tracking item (a bone) that you can find in the middle of the enclosure. Follow the blue trail to unearth another set of goat bones. Assemble them with Dr. Grant or another paleontologist.

Finally, switch to a character that carries a grappling hook, like Paul Kirby. Find the orange LEGO peg on a crate high in the tree at the back-left corner of the enclosure. Use the grappling hook to pull down the crate. Then switch to a Bone-Build character to assemble the pieces into the third galloping goat skeleton.

Rescue Timmy

MINIKIT: Crowbar the Wall

Smash some LEGO tech boulders to reveal an interaction spot. Switch to a character like Nick Van Owen who carries a crowbar. Use the tool to pry open the wall to reveal a hole just to the right of the big water pipe. Grab the Minikit inside.

MINIKIT: Dark Tree Hollow

Send a character with a light source (like Ian Malcolm) into the hollow of the big tree to find a Minikit.

MINIKIT: Small-Access Up Tree

When you slice through the vines high in the tree and the bone pieces (for the bone bounce pad) spill out, you also reveal a small-access hatch. Switch to a character with Small-Access ability like Eric Kirby or Gray Mitchell and crawl in. You emerge right into a Minikit on a tiny platform in the treetop.

T. rex Chase

See this mission in our Story Mode walkthrough.

Free Play Walkthrough: Movie 1

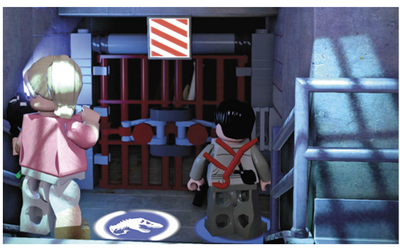
Level 04: Restoring Power

Gallimimus Chase

See this mission in our Story Mode walkthrough.

Maintenance Shed

MINIKIT: Crowbar the Gate



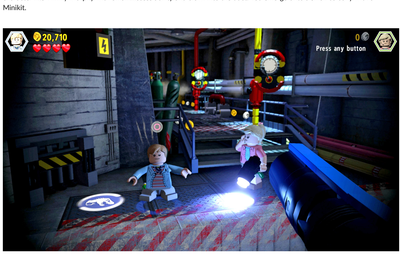
After you descend the initial staircase, go left and take the first turn down the steps to find a Minikit behind a red gate. Switch to Nick Van Owen and use his crowbar to pry open the gate and grab the kit.

MINIKIT: Electric Charge

Upon reaching the gap that you bridge by shooting down the ceiling pipe, smash the pallet leaning on the back wall to find the charge point. Switch to a character like Jophery Brown with the Electric Charge ability and use his stun rod on the charger to reveal the Minikit.

MINIKIT: Small-Access Duct

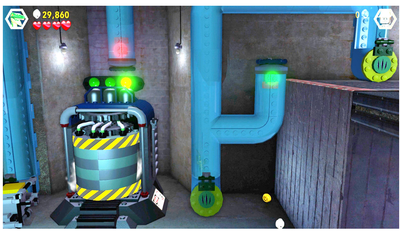
Right after crossing the gap using the fallen pipe, turn left and smash the LEGO objects to find the low duct. Switch to a character like Timmy Murphy with Small-Access ability and crawl into the duct. You emerge onto a small balcony with a Minikit.



TWO MINIKITS: Special Free Play Area!

This detour leads to two Minikits in a newly accessible area, unseen in your Story playthrough. After you descend the second long staircase (as directed by John Hammond), head left all the way to a small droppings pile. After Ellie rummages out some pieces, smash the pallet behind the pile and assemble them into a low vent. Switch to a small-access character and crawl in to reach a completely new area.

Your goal in here is to turn on three green lights atop the containment chamber below. Switch to a Compsognathus and follow the Compy Tubes around, turning the red lights to green. (Smash a cart to access the tube left of the chamber.) When you reach the third light switch in the tube directly above the chamber, it opens to reveal the Minikit inside.



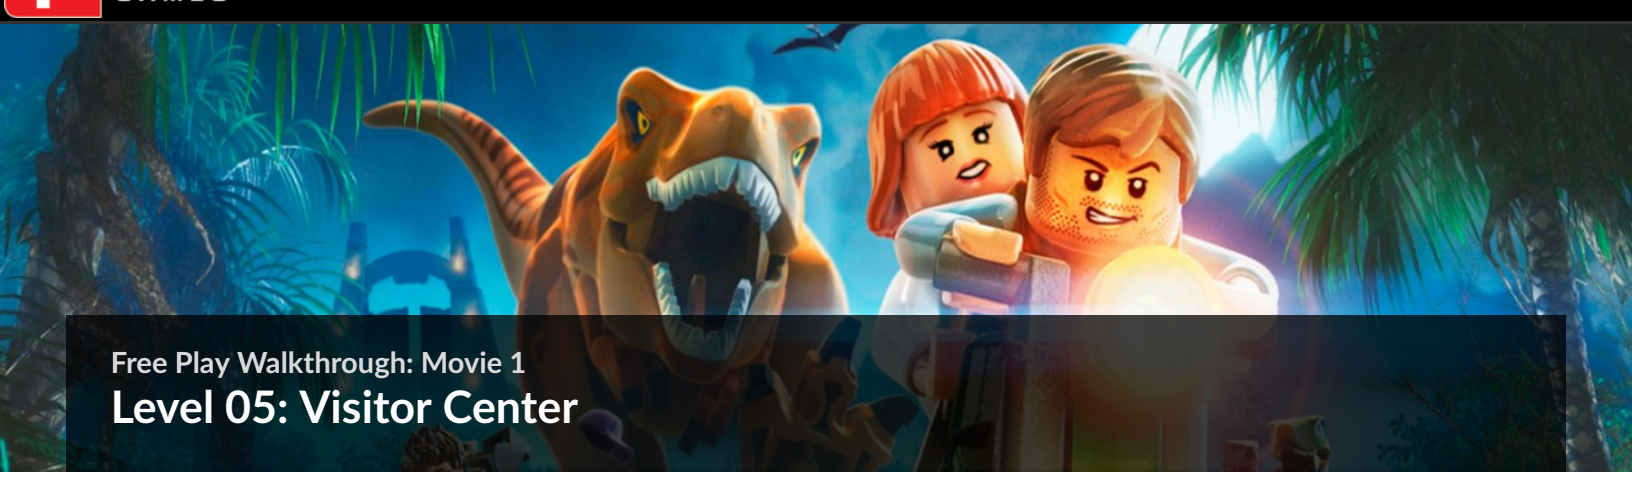
But that's not all! Go back up the tube, turn right at the T-intersection, and exit to the right onto a high platform. Smash the two brown crates there and assemble the pieces into another Minikit! Switch to another character to assemble them—the Compy can't do it. Then drop down to the floor and grab the Minikit from the chamber.

The Raptor Pack

MINIKIT: Scent Trail & Dig

Just before reaching the huge droppings pile from which you rummage footbridge pieces, smash the LEGO on the right side of the trail to find a yellow scent mist. Switch to your raptor character and activate his scent tracking; then follow the scent trail until you unearth a loose dirt pile. Switch to a digger character like Alan Grant and dig up the build-it pieces. Assemble them into a Minikit.

© 2015 The LEGO Group. ™ & © Universal Studios and Amblin. ™ & © Warner Bros. Entertainment Inc. (s15)



Free Play Walkthrough: Movie 1

Level 05: Visitor Center

Kitchen Escape

MINIKIT: InGen Access to Freeplay Area!

Near the end of this mission, the Murphy kids are by the freezer. Switch to any character with InGen Access ability (Gerry Harding or John Hammond, for example) and use the access panel on the right wall. This automatically adds a Minikit to your collection and opens the door to a new area unavailable in Story Mode: the Visitor Center Gift Shop! (See the next two Minikit sections.)

MINIKIT: Gift Shop Mini-Builds

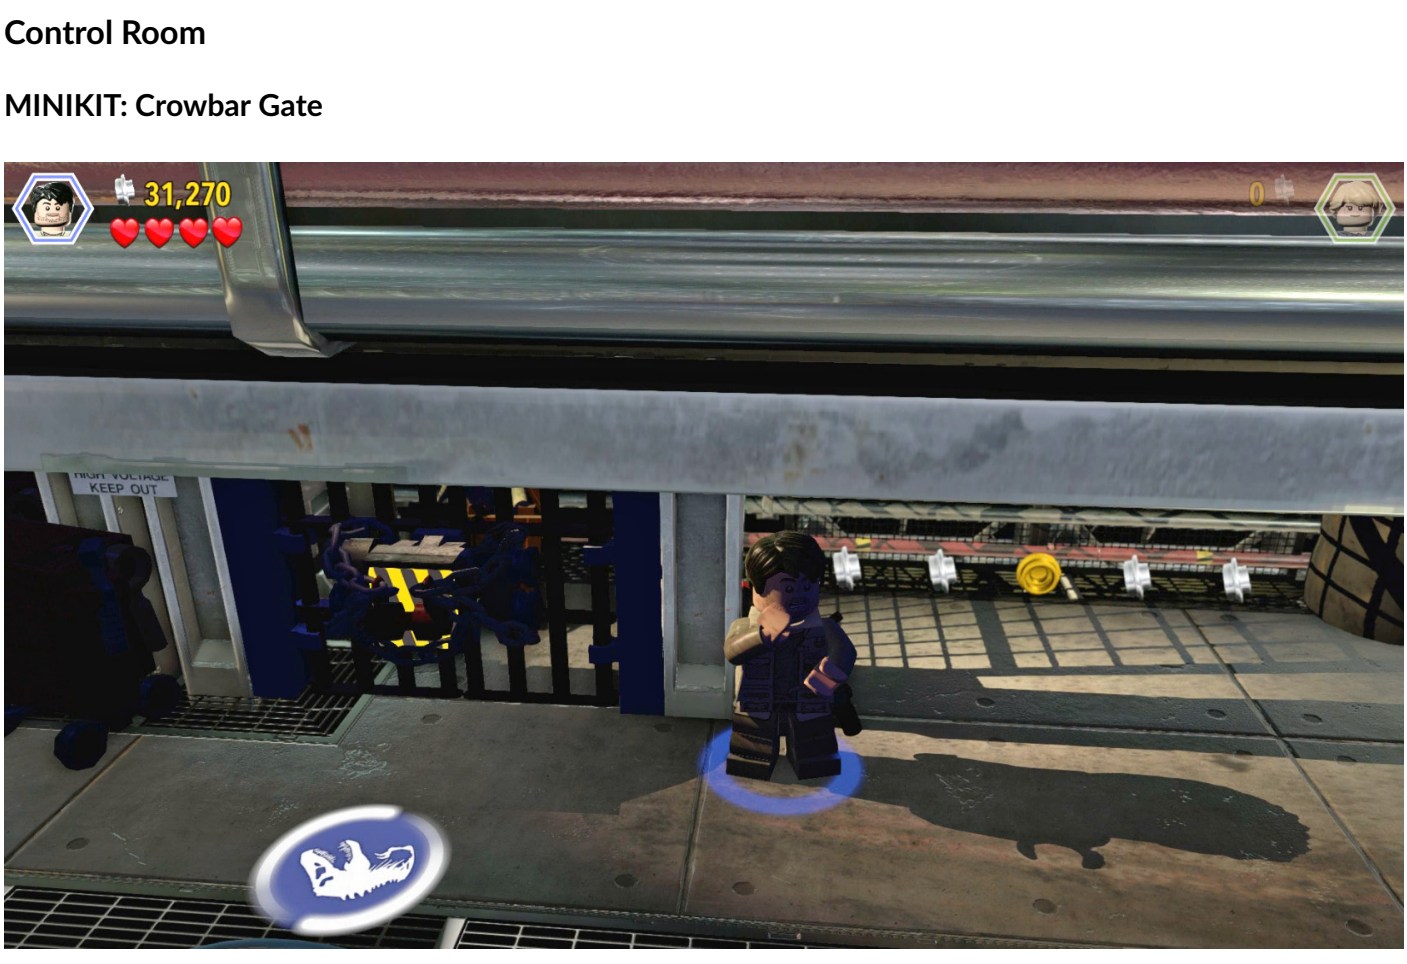
Assemble all three piles of build-it pieces to complete the scale model. You automatically add a Minikit.

MINIKIT: Gift Shop Grab

Simply step into the dino icon and use the claw machine. The claw automatically grabs a handful of build-it pieces and drops them through the slot onto the floor. Assemble them to get your Minikit!

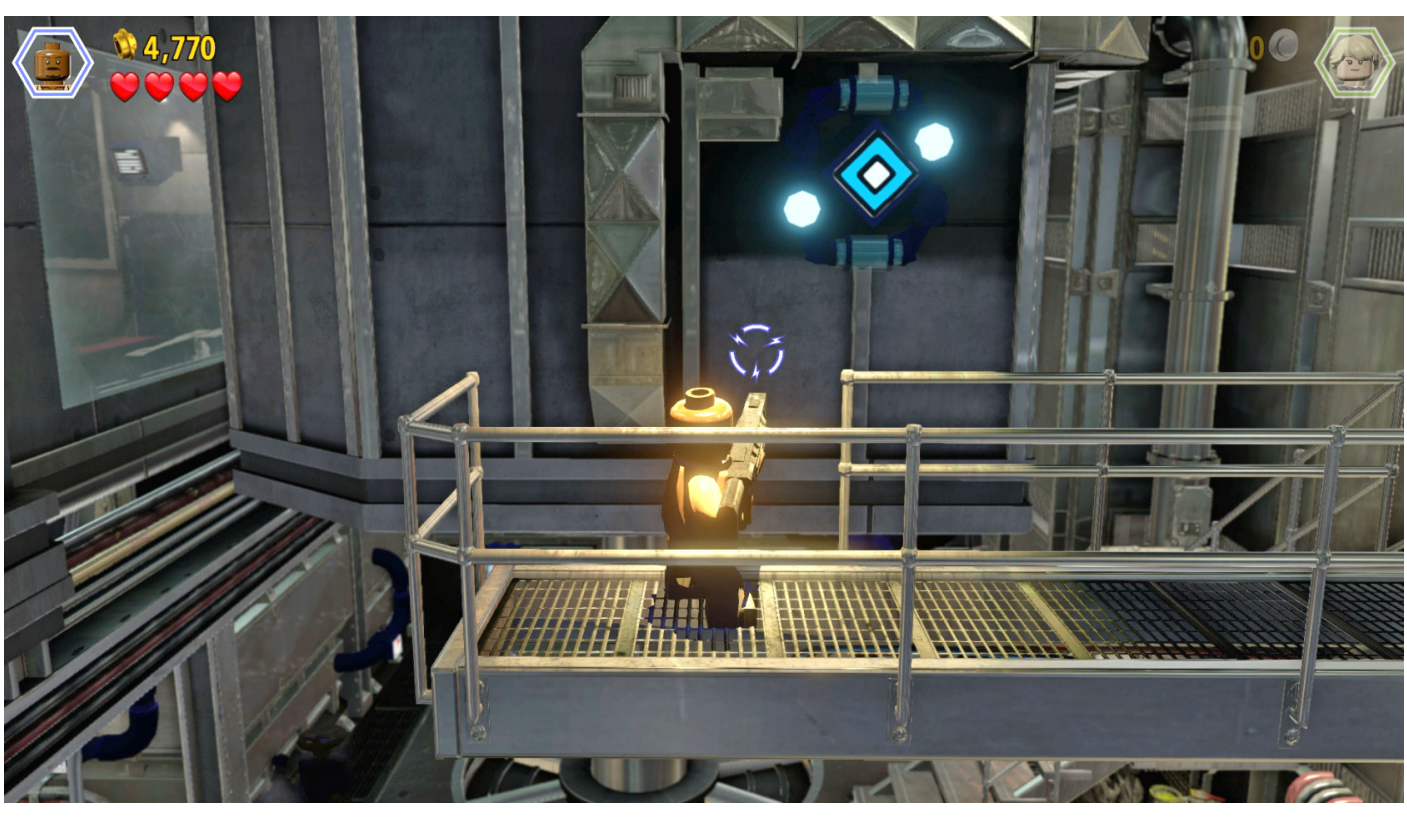
Control Room

MINIKIT: Crowbar Gate



After Timmy Murphy uses the small-access duct to get downstairs from the Control Room, switch to a crowbar character like Nick Van Owen. Use his crowbar to pry open the metal bars of the gate just to the right of the fuse box. A Minikit sits inside.

MINIKIT: Electric Target



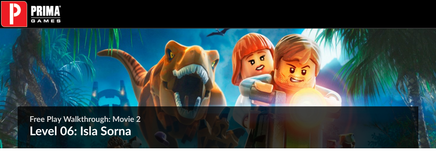
From the fuse box under the Control Room, head down the walkway all the way to the right. Climb the staircase to find an electric target. Switch to Barry and use his electric rifle to shoot the target. The theater viewing room swivels, revealing an open room. Step into the room and grab the Minikit!

Main Hall

MINIKIT: Bolt Cutter & High Jump

When you reach the room behind the raptor trapped in the wall bars, use a female character to jump over the pink/blue agility bar into the next room. Smash stuff to reveal the chain-locked gate. Switch to a character with bolt cutters (like Nick Van Owen) and slice through the chains. Only the top half of the bars drop away, however, so you need an Agile character to high-jump over the bars. Then head to the left where a Minikit is stashed out of sight.

© 2015 The LEGO Group. ™ & © Universal Studios and Amblin. ™ & © Warner Bros. Entertainment Inc. (s15)



Free Play Walkthrough: Movie 2

Level 06: Isla Sorna

Eddie's Workshop

MINIKIT: Bone Build-Its

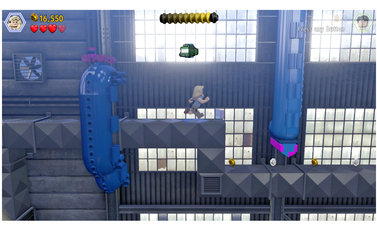
Smash three recycling bins into bone build-it pieces; then use a Bone-Build expert like Alan Grant to assemble the piles into skeleton chickens. One bin is just left of the paint-mixing machine; a second is next to the steps leading down from the big engine on the conveyor belt; and a third is to the left of the mobile lab.

MINIKIT: Electric Target & Agility

Here's a two-part task. After riding the "high hide" to the upper level, switch to Barry and use his electric rifle to shoot the electric target.

This shuts off a vent blasting steam from one of the two vertical ducts to the right. It also puts a glowing jump point on the floor.

Switch to an agile female character and use the jump point to hop up the three Wall Kicks to the top of the duct. Run along the duct using the pink/blue agility bars to go over and under obstacles until you reach the two steam vents. Jump past each one when it momentarily turns off. (The second one is a little tricky!) The Minikit sits at the end of the duct.



MINIKIT: Electric Target & Goon Fight

An electric target is perched atop a cage-like structure underneath the staircase leading down to the final area where workers are completing the Mobile Lab. Use Barry's electric rifle to shoot the electric target. This triggers the arrival of a succession of some hostile (but smiling) guys in lizard suits, one by one, emerging from another cage across the workshop. When you knock out ten goons, a Minikit appears in their cage for the taking.

Finding Sarah

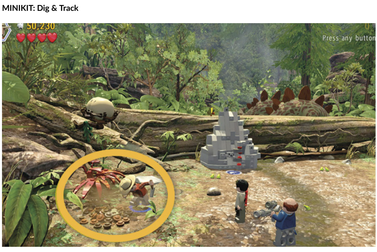
MINIKIT: Cracked LEGO Under Bendy Log

Before you jump two characters up to the twin vines and pull down the big bendy log, note the orange glow of cracked LEGO underneath it. Switch to a dinosaur that can break such objects, like a Triceratops or Pachycephalosaurus, and smash open the cave to nab the Minikit inside.

MINIKIT: Three Droppings Rummages

Use a character like Ellie Sattler who can droppings rummage in the three big piles of dino droppings in the mission. The first one is just across the river from the start. The second (circled in our shot) is on the second terrace, just under the nest and the bull's-eye target. The third droppings pile is on the top terrace, close to the camera and tucked behind the big log in front. When you rummage all three you get a Minikit.

MINIKIT: Dig & Track



On the top terrace where you see the Stegosaurus herd, find the loose dirt pile at far left. Switch to Alan Grant and dig up the tracking object; then use Eddie Carr to pick it up and follow the trail until he unearths some build-it pieces. Assemble them into a Minikit.

Stegosaurus Herd

MINIKIT: Duck Shooting Range

Use a bone-builder like Alan Grant to assemble the bone pile in the Stegosaurus pit; then crank the red switch. Four duck targets start cycling along the log. Switch to a character with a rifle and shoot them while dodging tail attacks to win a Minikit. (This one is tough!)

Free Play Walkthrough: Movie 2

Level 07: InGen Arrival

Camp Sabotage

MINIKIT: Charge the Floodlights

Charge the three batteries of floodlights in the area with a stun rod character like Jophery. The first one is just left of the Pachycephalosaurus's cage; the second is up in the camp, next to the crate you bolt-cut open for the banana; and the third is in the back-left corner of the upper camp, behind the Triceratops cage.

MINIKIT: Scanner Access

The sparkling blue cage in the far-right corner of the middle camp area has a sensor array on it. Send a scanner character like Claire Dearing to scan the shack and reveal a glowing orange LEGO crack. Switch to a dinosaur with a strong charge like Triceratops and smash the crack. Then enter and grab the Minikit.

MINIKIT: Black LEGO Spit Targets

Look for three black LEGO objects with green sparkles. The spit of a Dilophosaurus is the only way to break apart these objects. One is in the middle camp near the stairs you build. Another is in the upper camp to the right of the big Stegosaurus cage. The third one is over behind the Triceratops cage. When your Dilophosaurus has shattered all three, you automatically collect the Minikit.

MINIKIT: Small-Access to Ludlow's Tent

Smash everything on the far side of the rightmost generator in the upper camp to reveal a small crawl access entrance. Send a small character like Timmy Murphy or Eric Kirby into the duct to emerge in Ludlow's tent. Sneak over to the Minikit while Ludlow blathers on to the press.

MINIKIT: Scare Off the Compys

Switch to Eric Kirby in the upper camp and find the Compy swarm in the back-left corner. Toss a bottle of T. rex scent to scatter them from the plant root they're guarding. Switch to a plant-growing character like Ellie Sattler to water the root. When its flower blooms, hop up and collect the Minikit inside.

Mobile Lab

MINIKIT: In the Bush

Smash the plant in the near right corner to uncover a pile of loose dirt. Switch to Dr. Grant and dig up the dirt to find a Minikit.

MINIKIT: Scent Trail

Switch to a raptor and use the yellow scent mist to start following the scent trail. Keep going until the raptor digs up a plant root. Then switch to a plant grower like Ellie Sattler to water it and produce a Minikit.

Level 08: The Hunted

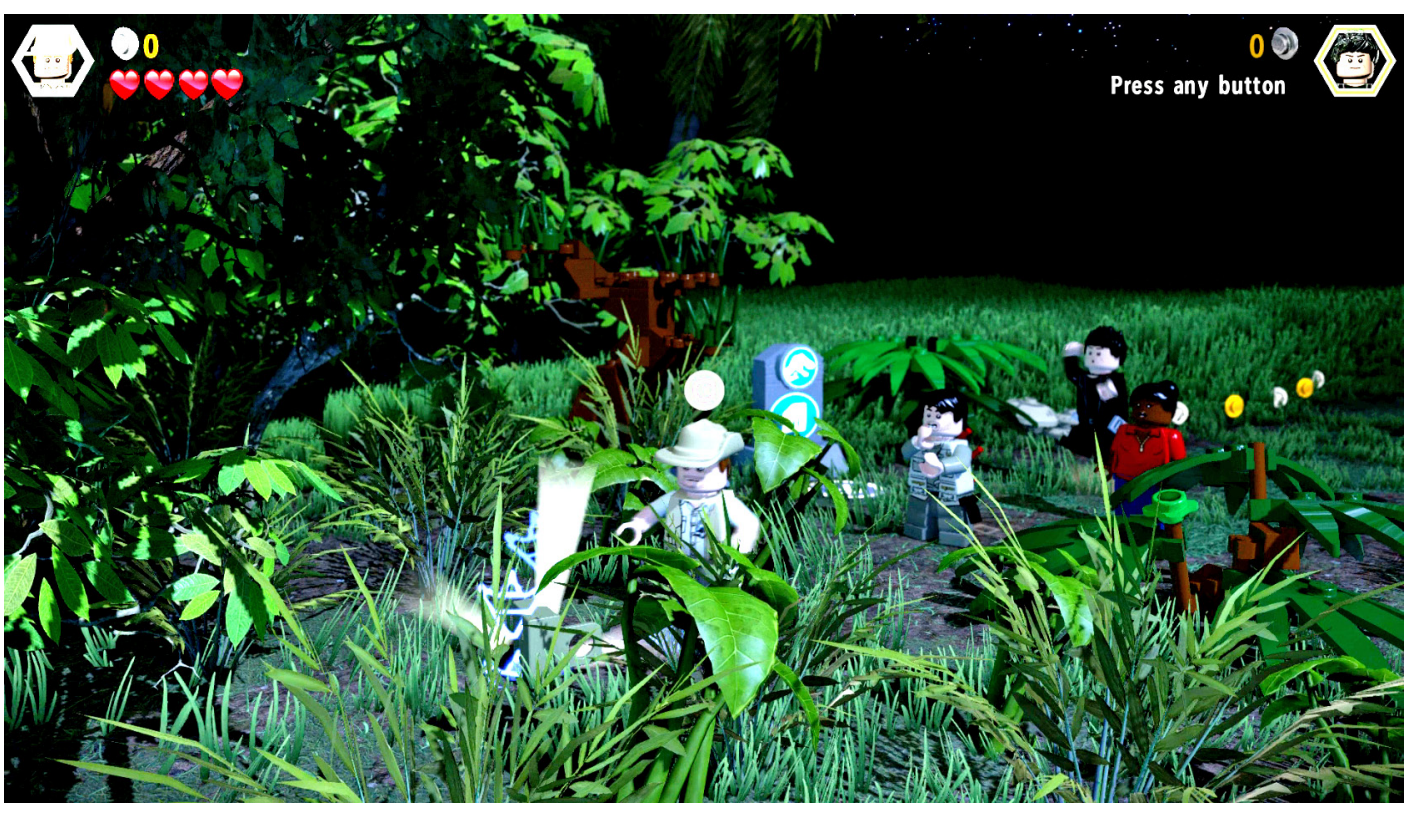
Attack on the Camp

See this mission in our Story Mode walkthrough.

The Long Grass

MINIKIT: Tracking the Backpack

Switch to a tracker like Robert Muldoon right away and pick up the backpack just to the left of the start. Follow the tracks until you unearth build-it parts. Assemble them into a Minikit!



MINIKIT: Dig Spot

Look for the loose dirt just past the weeds mowed down by the lawnmower you built. Switch to Alan Grant and dig up build-it bone pieces; then bone-build them into a grappling catapult. Turn its red crank handle to shoot it and then reel in the Minikit.

MINIKIT: Scatter the Compys

Find the small clearing on the near side where Compys swarm around some Minikit build-it pieces. Switch to Eric Kirby and toss a bottle of T. rex scent at the swarm. When the Compys run off, build and collect the Minikit.

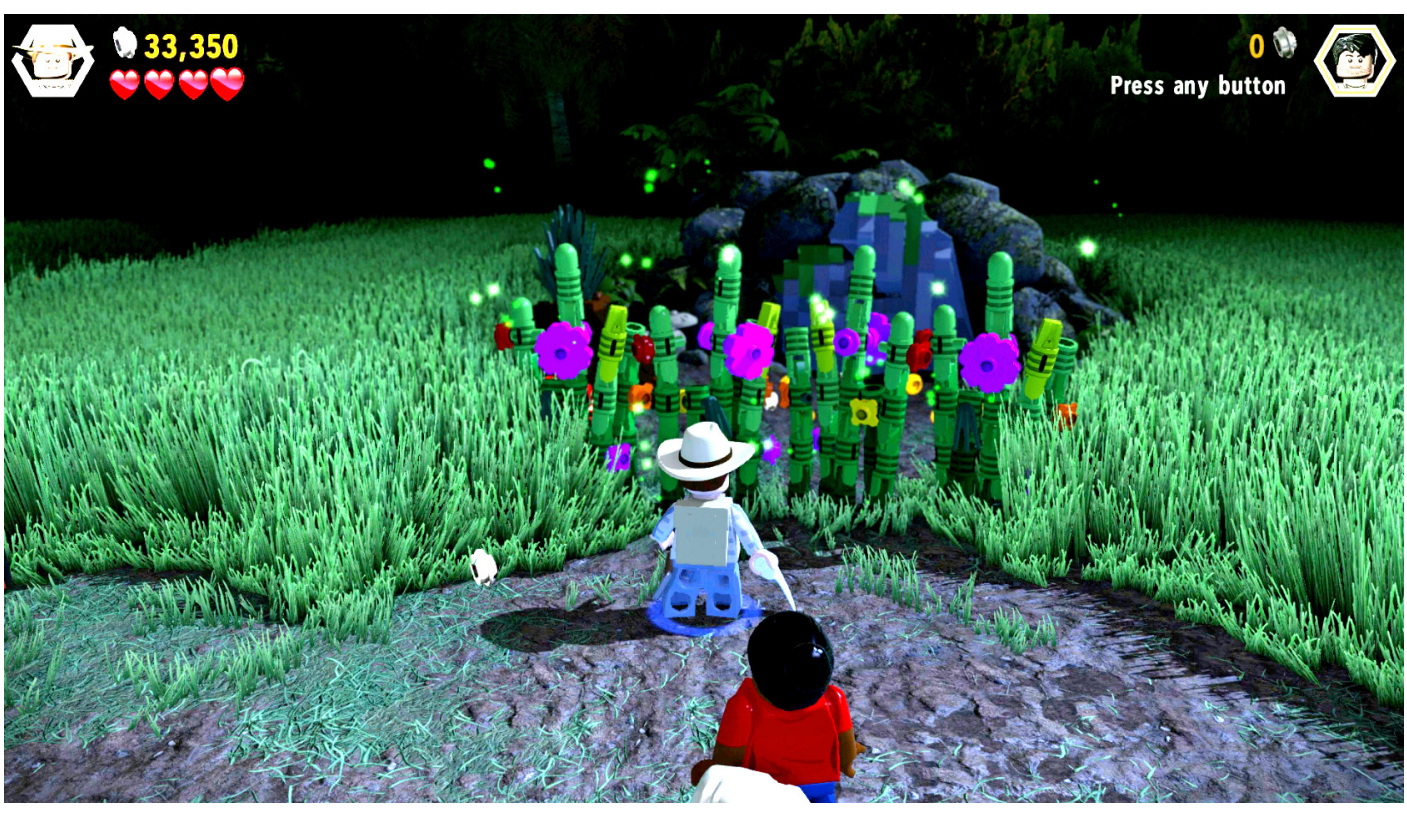
MINIKIT: Dilophosaurus Spit

A shimmering black LEGO mound sits to the left of the crate that Nick Van Owen opens with bolt cutters to release Compys. Switch to a Dilophosaurus and spit repeatedly at the mound, melting it down until you can grab the Minikit sealed inside.

MINIKIT: Mushroom Scent

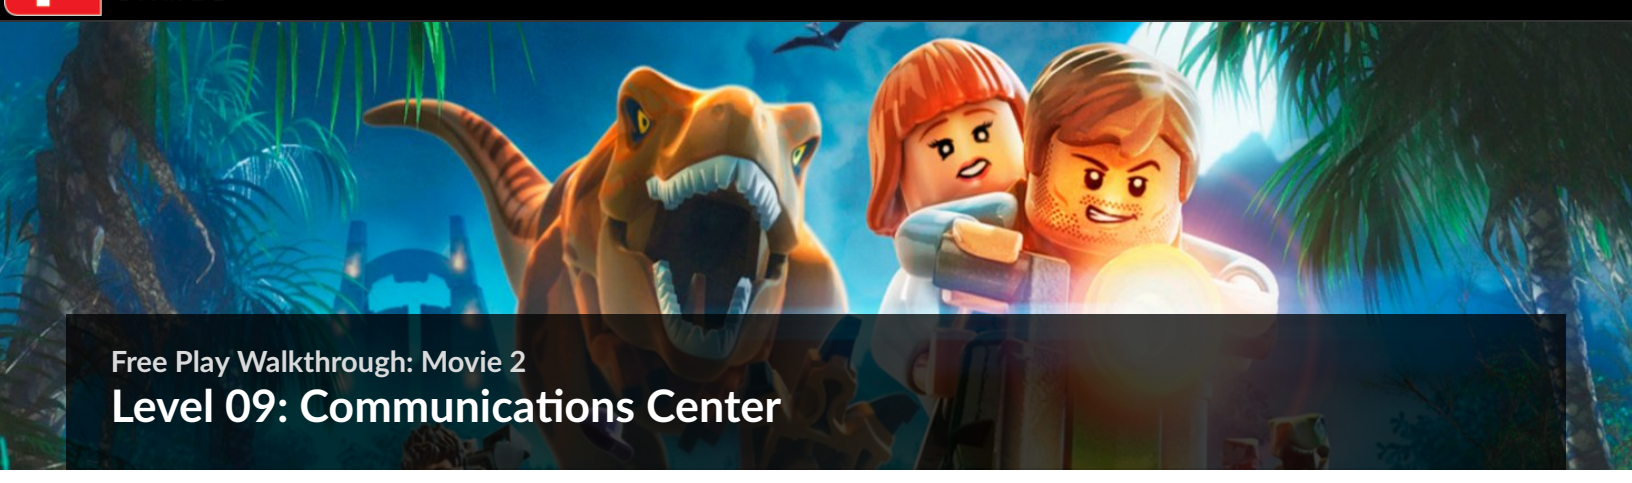
In the clearing with the abandoned truck, smash the mushrooms to reveal a yellow scent mist. Use a raptor to track the scent down a narrow trail through the grass to a picnic spot. Smash up the carton of foodstuffs and assemble the build-it pieces into a Minikit.

MINIKIT: Dark Cave



Send a vine-cutter like Alan Grant or Owen Grady to slice through the wall of vines just in front of the abandoned truck. Switch to Nick Van Owen and use his crowbar to tear apart the boulders. Finally, switch to a character with the Illumination ability like Ian Malcolm to enter the dark cave and grab the Minikit inside.

© 2015 The LEGO Group. ™ & © Universal Studios and Amblin. ™ & © Warner Bros. Entertainment Inc. (s15)



Free Play Walkthrough: Movie 2

Level 09: Communications Center

Compound

AMBER BRICK: Shoot the targets

Use the raptor scent tracker near the first gate. This leads to build-it pieces near the neon garage sign. Use the build-it pieces to create an electric target. Tag to Barry and shoot the target to reveal a second one. Shoot the second target to spawn the Amber Brick.

Radio Tower

MINIKIT: Dark Alcove

After you get across the footbridge on the second floor, smash the wall structure to reveal a dark area behind the Buddy Boost. Send a character like Ian Malcolm or Zach Mitchell in with a light source to find the Minikit.

MINIKIT: Shoot the Skeleton

After you swing across the twirl poles to the pink/blue agility wall, drop to the platform below. Switch to any character with a rifle and shoot the bull's-eye with the skeleton sitting on it to earn a Minikit.

MINIKIT: Small-Access Vent

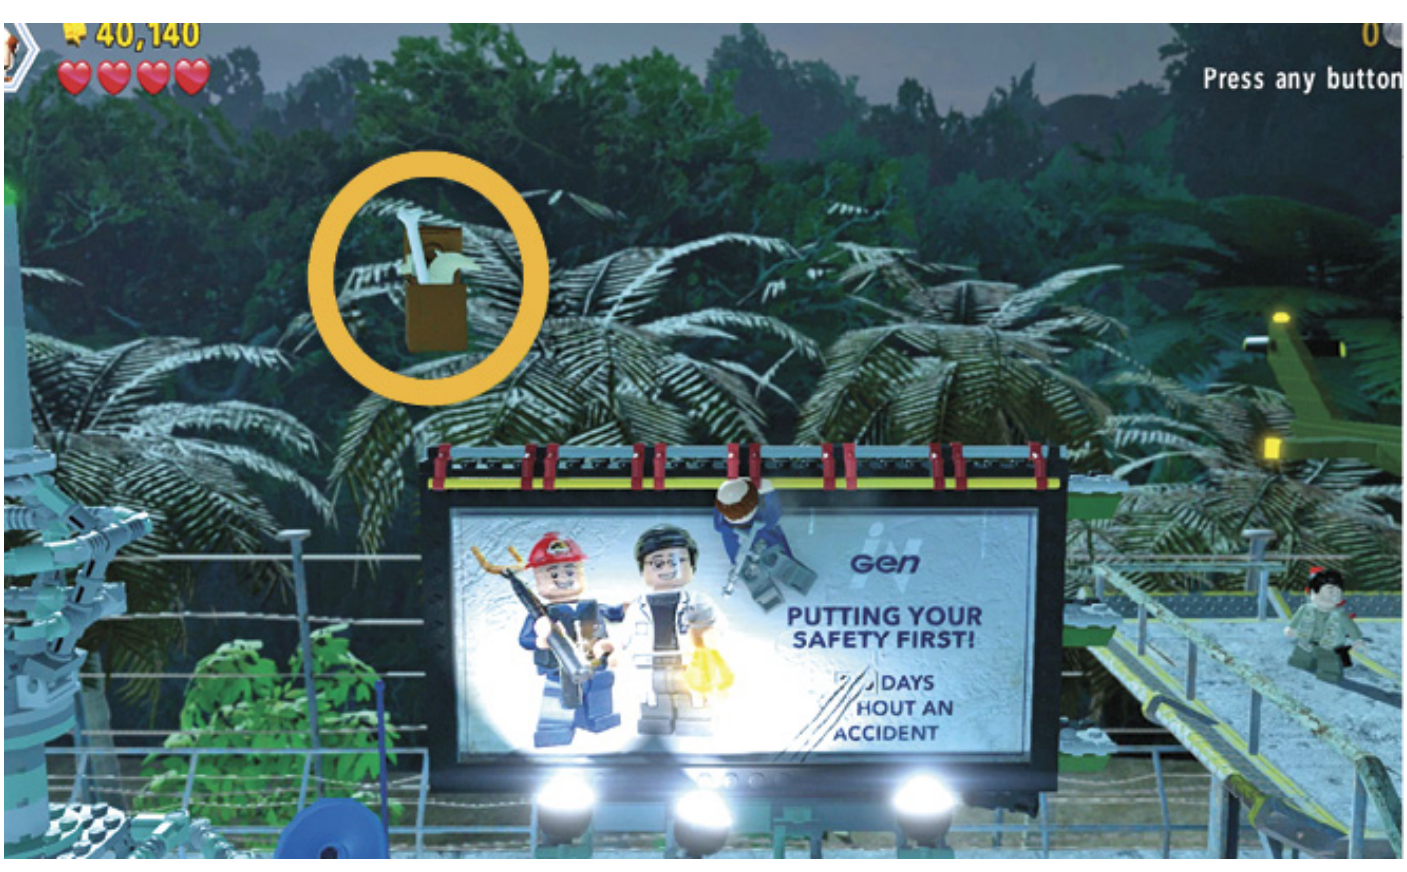
After Kelly Malcolm shatters the glass cabinet on the top walkway with her Scream ability, smash the LEGO in the left corner to reveal a low hatch. Send a small-access character like Gray Mitchell inside to emerge on a small balcony directly below with a Minikit (circled).

Rooftops

MINIKIT: Fix the Blue Dishes

Characters with the Repair ability like Eddie Carr can fix the three broken blue satellite dishes on the rooftops. One is in the back-right corner after your first zip-line trip. The second is on the balcony walkway after you hop across the light poles. The third is near where you land after the second zip-line trip, over on the far roof where Nick Van Owen waits.

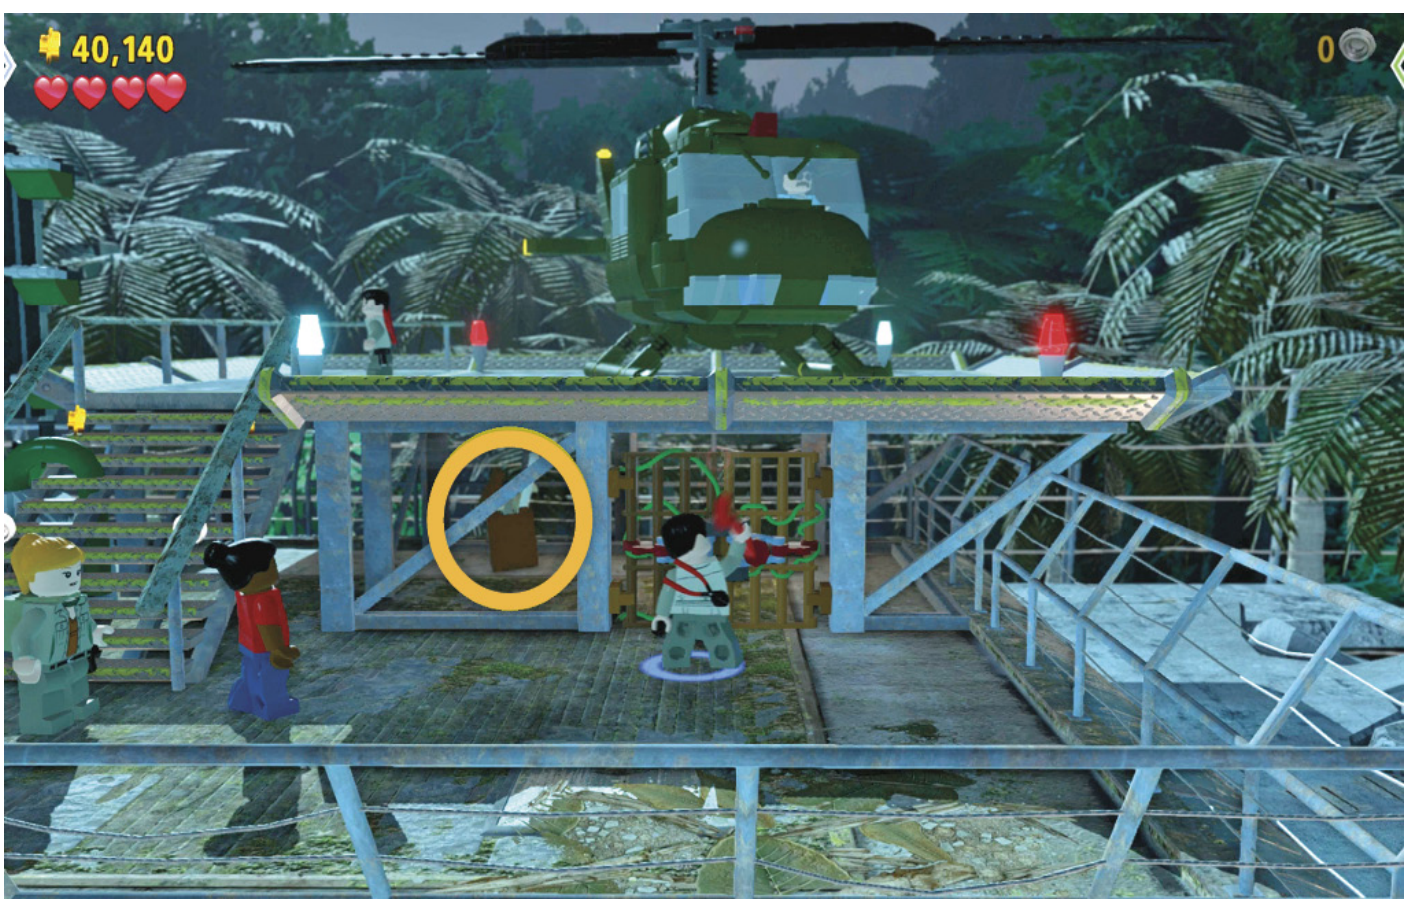
MINIKIT: Billboard Bull's-Eye



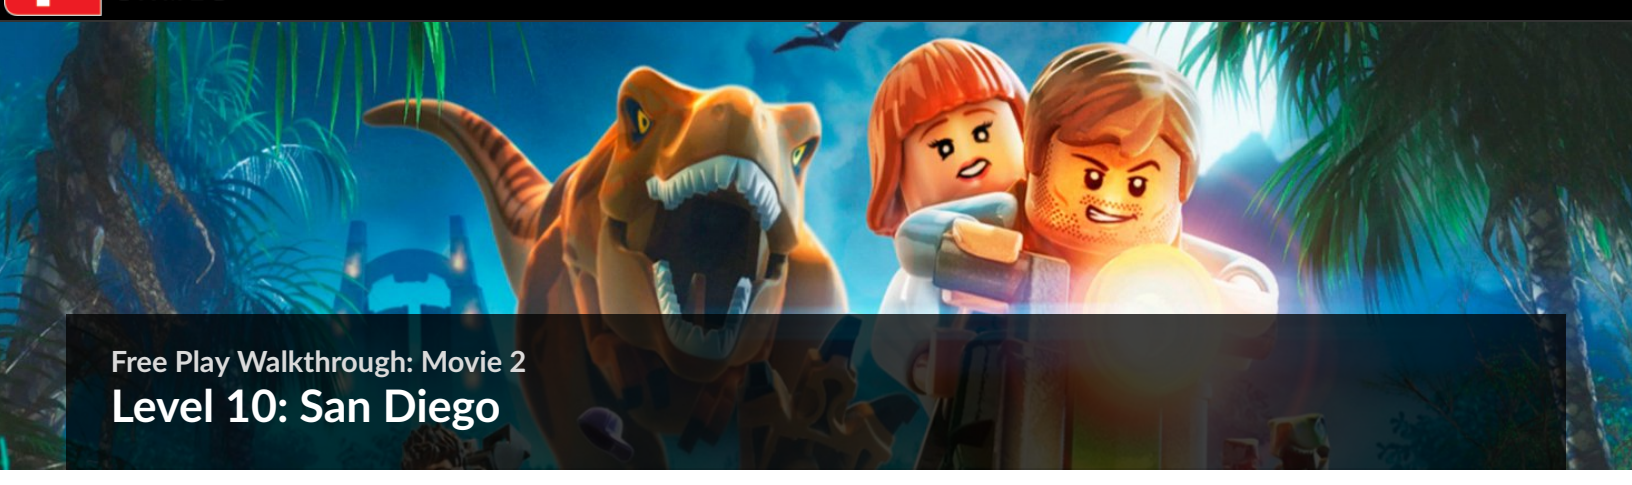
Switch to a character with a rifle and shoot the bull's-eye on the billboard sign on the rooftop with the helipad. Hop up the handhold blocks revealed and slide left on the hang bar until you're under the floating Minikit. Then jump up to snag it.

MINIKIT: Crowbar Storage

Switch to Nick Van Owen (even though he's also on the helipad) and use his crowbar to pull open the gate directly underneath the helipad. Enter the compartment to grab the Minikit inside.



© 2015 The LEGO Group. ™ & © Universal Studios and Amblin. ™ & © Warner Bros. Entertainment Inc. (s15)



Free Play Walkthrough: Movie 2

Level 10: San Diego

The Docks

MINIKIT: Security Shack Glass

From the start, turn right and find the guard shack with the LEGO glass door. Switch to a character with the Scream ability (like Lex Murphy or Kelly Malcolm) to shatter the glass. Then enter and grab the Minikit inside.

MINIKIT: Cage Cutter

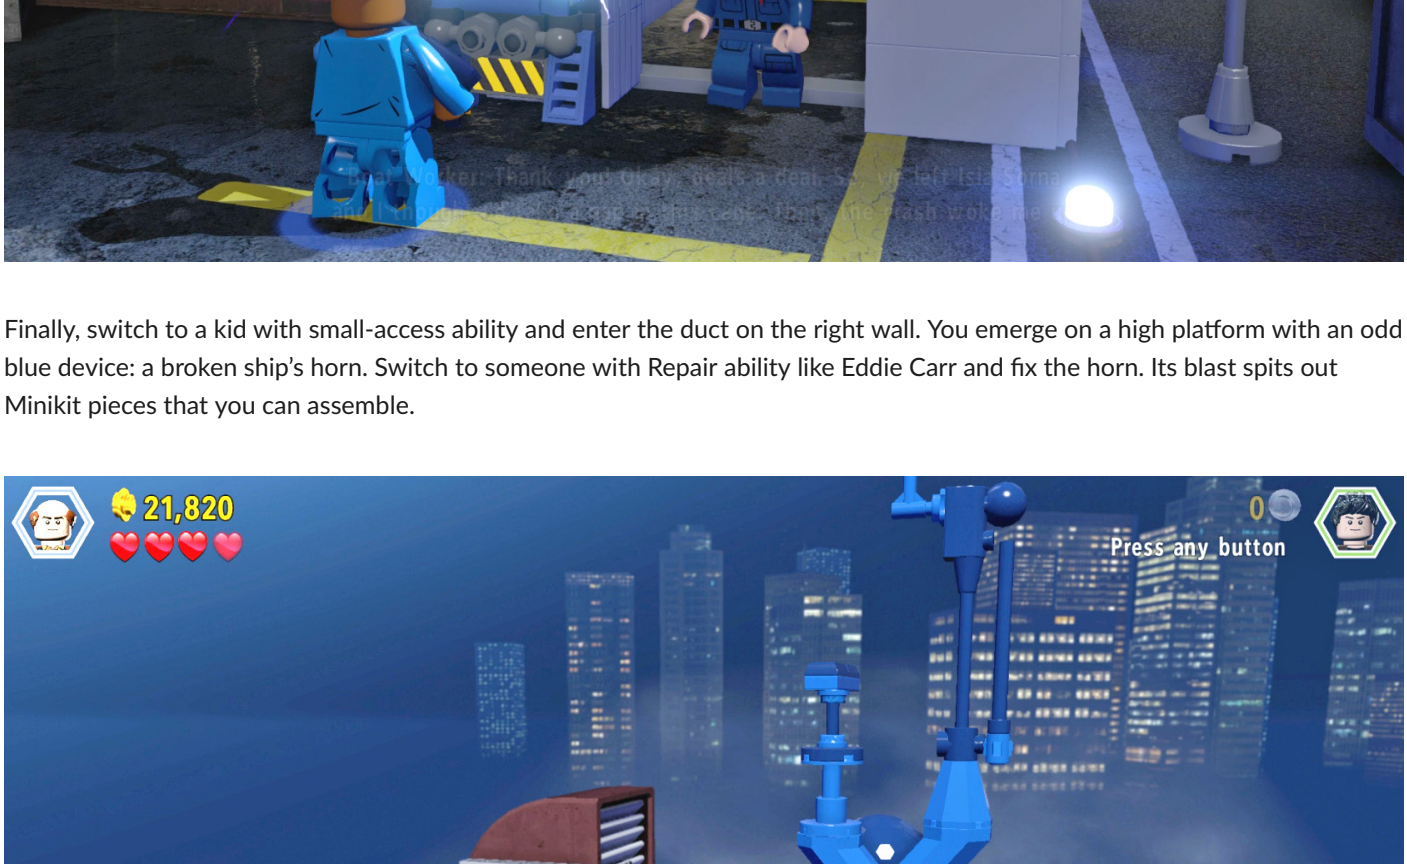
After using the crane and moving down the dock to the left, you find a locked cage. Switch to Nick Van Owen and use his crowbar to pry it open. Then grab the Minikit inside the cage.

THREE MINIKITS: InGen Access to Stern

The ship's stern section holds three Minikits in one area! Go to the InGen panel just past the door to the helm and switch to any character with InGen Access, like Gerry Harding or John Hammond. Enter the three-button code to open the stern access door.

Be ready! When you step through the door, a large pack of tough Troodons attacks. After you knock them out, switch to Barry and shoot the electric target with his electric rifle. After some crazy spinning, the cargo lift arm drops a Minikit.

Switch to somebody with a stun rod, like Jophery Brown. Use it on the charge slot to release the boat worker who eventually hands over another Minikit.

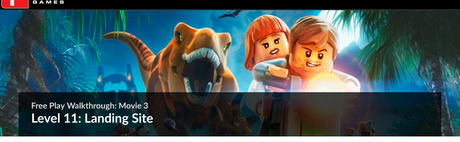


Finally, switch to a kid with small-access ability and enter the duct on the right wall. You emerge on a high platform with an odd blue device: a broken ship's horn. Switch to someone with Repair ability like Eddie Carr and fix the horn. Its blast spits out Minikit pieces that you can assemble.

San Diego Streets

All collectibles are available in Story Mode. See our Story Mode walkthrough for this mission.

© 2015 The LEGO Group. ™ & © Universal Studios and Amblin. ™ & © Warner Bros. Entertainment Inc. (s15)



Free Play Walkthrough: Movie 3

Level 11: Landing Site

The Landing Strip

MINIKIT: Airplane Hatch

Switch to a female character and use her Agility to leap from the glowing jump point to the grab bar and pull open the hatch. The Minikit falls out into pieces, and you must build it to collect it.

MINIKIT: Black LEGO in Jeep

Parked next to the plane's left wing is a truck with a black LEGO crate in the back. Spit on it with your Dilophosaurus to break it apart; then switch to a human or raptor to assemble it into a Minikit.

MINIKIT: Shoot Gas Canisters

Use a character with a rifle to shoot three gas canisters marked with bull's-eyes to earn a Minikit. All three sit on the ground along the runway. The first one is directly behind the airplane. The second is on the corner of the storage shed to the right of the main control building. The third canister is at the far end of the runway.

MINIKIT: Small Access to Hacker Terminal

See that computer terminal through the control room window? Use a small-access character to enter the low duct on the front of the building. Inside, switch to a character with the Hacker ability (like Lex Murphy) and access the terminal. Move the onscreen pointer over the airplanes as they appear on the radar scan and press your Attack button to "guide" them in to the center circle. This calls in an aerial care package drop outside: a Minikit.

MINIKIT: Bone Scent Tracking

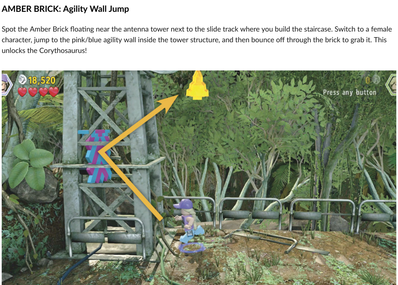
Smash the pot of bones out on the runway not far from the plane. It releases a scent mist that you can track with a velociraptor. Follow the trail until the dino unearths build-it pieces that assemble into a Minikit.

MINIKIT: Bolt Cut the Dark Crate

Switch to a bolt-cutter character like Nick Van Owen and slice through the chains locking the crate next to the blue lift platform. It's scary dark inside, so switch to someone with a light source; then snag the Minikit.

AMBER BRICK: Agility Wall Jump

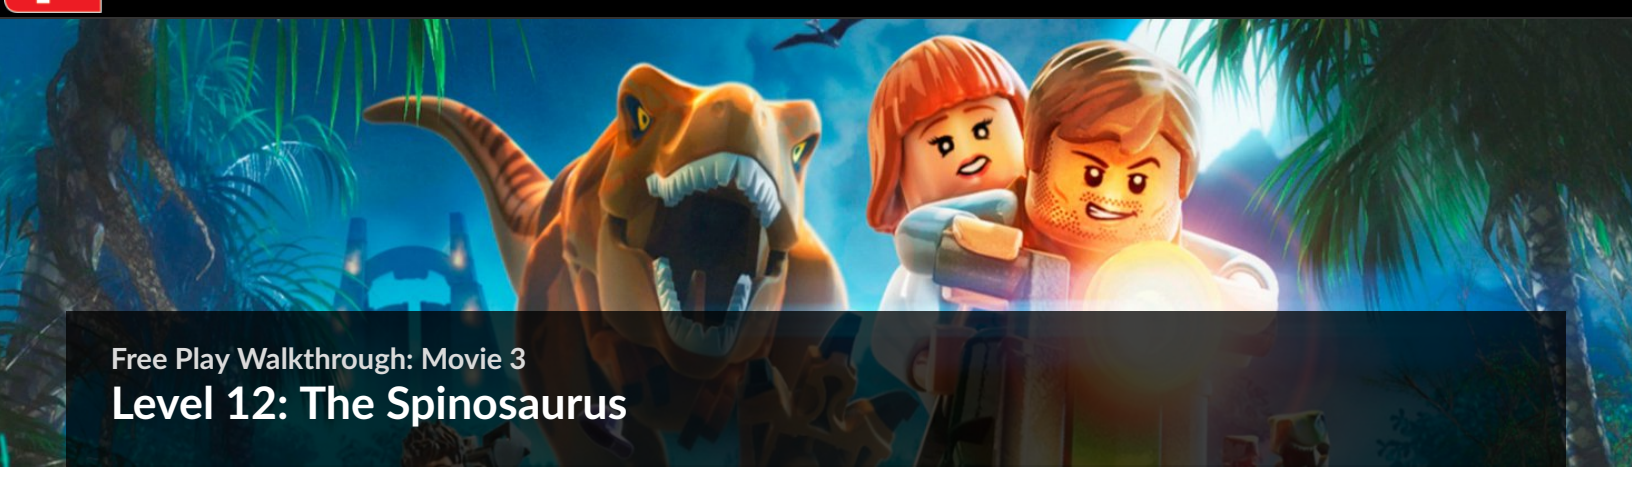
Spot the Amber Brick floating near the antenna tower next to the slide track where you build the staircase. Switch to a female character, jump to the pink/blue agility wall inside the tower structure, and then bounce off through the brick to grab it. This unlocks the Corythosaurus!



Spinosaurus Escape

All collectibles for this mission are available in Story Mode.

© 2015 The LEGO Group. ™ & © Universal Studios and Amblin. ™ & © Warner Bros. Entertainment Inc. (s15)



Free Play Walkthrough: Movie 3

Level 12: The Spinosaurus

Spinosaurus vs. T. rex

MINIKIT: Raptor Scent Track

Use a Velociraptor to pick up the scent at the start of the level, close to the camera. Follow the trail, dig up the Minikit, and collect it.

MINIKIT: Cracked Boulder

Find the big boulder with an orange glowing crack and smash it with a dinosaur charge to get the Minikit inside.

The Crash Site

MINIKIT: Engine Kit

One of the plane's engines hangs from vines up high in the tree. It has an electric target on it. Switch to Barry and shoot the target with his electric rifle to fire up the engine until it spits out a Minikit.

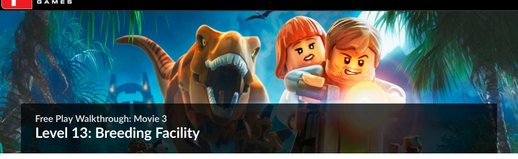
AMBER BRICK: Rummage & Pounce

Just across the river to the right sits a big helping of dino droppings. Switch to a character like Ellie Sattler or Sarah Harding that can rummage and pull out build-it pieces for a raptor rail. Assemble it up high in the tree; then switch to a raptor and pounce to it. The Amber Brick sits on the branch just behind the rail! This unlocks the Baryonyx.

MINIKIT: Small-Access Tree

Look for an entrance in the massive tree trunk at the right edge of the area. Send a small-access kid in to emerge on a high ledge with a Minikit.

© 2015 The LEGO Group. ™ & © Universal Studios and Amblin. ™ & © Warner Bros. Entertainment Inc. (s15)



Free Play Walkthrough: Movie 3

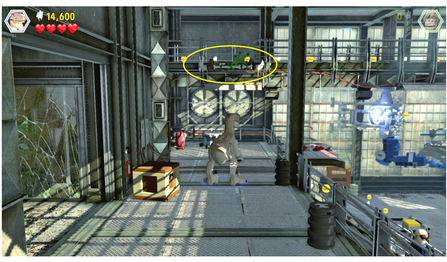
Level 13: Breeding Facility

Lab Interior

MINIKIT: Dino Charge the Cracked Car

Near the start, slam into the cracked LEGO car out front using one of your powerful dinosaurs.

MINIKIT: Raptor Pounce to Upper Walkway

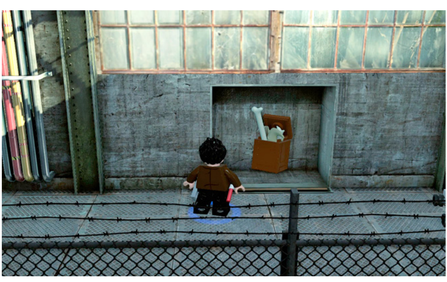


When you emerge onto the balcony overlooking the central atrium, head away from the camera and spot the raptor rail on the upper walkway above. Switch to a raptor and pounce up the rail.

MINIKIT: Electric Dark Room

Look for an electric target underneath the main staircase that descends into the lab's central atrium. Shoot it with Barry's electric rifle to open the door beneath it. The room is dark, so switch to a light-carrying character like Ian Malcolm to find the Minikit in the back.

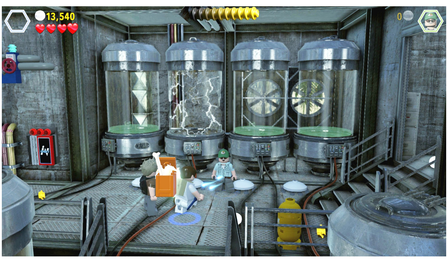
MINIKIT: Scholar Board



When you get to the whiteboard full of diagrams on the upper level, switch to Ian Malcolm and solve the puzzle, clicking on squares in the same sequence they light up. The board slides open to reveal a Minikit.

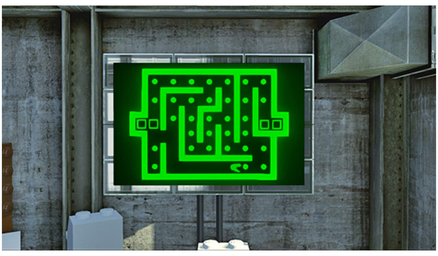
MINIKIT: InGen Access & Tank Transfer

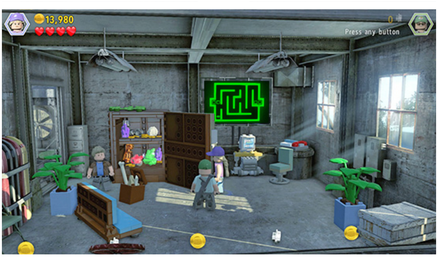
Switch to a character with InGen Access such as John Hammond or Gerry Harding and use the InGen panel near the specimen tanks. Four pads appear. Move across the pads until the fluid filled with build-it pieces flows into the single broken tank and spills out. Assemble the pieces into a Minikit!



MINIKIT: Hack Open the Safe

Enter the office on the upper level and switch to a character with hacking skills such as Lex Murphy. Use the computer to bring up a game screen. Simply move your chomping dinosaur until it eats every dot in the maze. This opens the safe and a Minikit falls out.

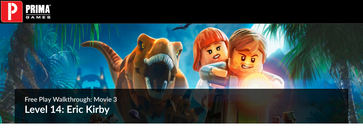




Corridor Chase

Both of the Minikits in this mission can be collected in Story Mode. Check our Story Mode walkthrough for details.

© 2015 The LEGO Group. ™ & © Universal Studios and Amblin. ™ & © Warner Bros. Entertainment Inc. (s15)



Level 14: Eric Kirby

Eric's Hideout

MINIKIT: Grapple the First Truck

After you get past the first raptor on the path, switch to any character with a grappling hook (like Paul Kirby) and pull off the door of the overgrown truck. Minikit pieces fall out. Assemble them to get your prize.

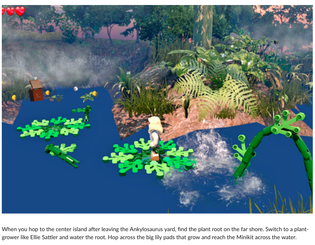
MINIKIT: Spit on the Second Truck

When you reach the second raptor, you can score a Minikit before you sneak past the dino. Switch to a dilophosaurus and spit on the black LEGO glittering with green sparkles on the back of the truck at the corner. Minikit pieces shower out, ready to be assembled.

MINIKIT: Shoot the Targets

Switch to Barry and use his electric rifle to shoot the electric target in the big yard where you find the ankylosaurus. This shuttles a big crate with a bullseye over the yard. Shoot the bullseye. The crate drops Minikit pieces for you to assemble and collect.

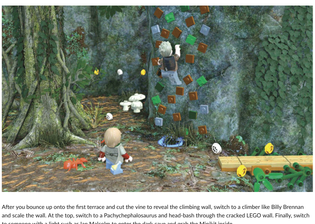
MINIKIT: Grow Lily Pads



When you hop to the center island after leaving the Ankylosaurus yard, find the plant root on the far shore. Switch to a plant-grower like Ellie Sattler and water the root. Hop across the big lily pads that grow and reach the Minikit across the water.

The Coast

MINIKIT: Climb, Charge, Light Up

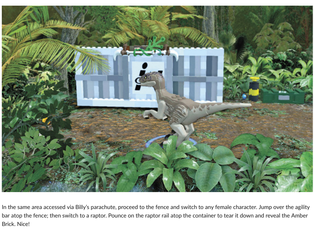


After you bounce up onto the first terrace and cut the vine to reveal the climbing wall, switch to a climber like Billy Brennan and scale the wall. At the top, switch to a Pachycephalosaurus and head-bash through the cracked LEGO wall. Finally, switch to someone with a light such as Ian Malcolm to enter the dark cave and grab the Minikit inside.

MINIKIT: Glide & Scent Trail

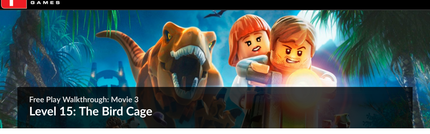
When you reach the top terrace, switch to Billy Brennan and use the parachute to glide across the gap to the left of the big droppings pile. (A red/white arrow marker appears when you get close to the spot to take off.) Switch to a raptor and follow the yellow scent trail down the slope to a Minikit. Then read the following section.

AMBER BRICK: Agility & Pounce



In the same area accessed via Billy's parachute, proceed to the fence and switch to any female character. Jump over the agility bar atop the fence; then switch to a raptor. Pounce on the raptor rail atop the container to tear it down and reveal the Amber Brick. Nice!

© 2015 The LEGO Group. ™ & © Universal Studios and Amblin. ™ & © Warner Bros. Entertainment Inc. (s15)



Free Play Walkthrough: Movie 3

Level 15: The Bird Cage

Pteranodon Nests

MINIKIT: Sharpshoot Bird Toys

Three large bird toys marked with bull's-eyes hang in the aviary. Shoot all three with a rifle character to earn a Minikit. The first one hangs over the first gap that you cross via narrow plank. The second toy hangs underneath the walkway to the right of where you build a rocket to drive off the second Pteranodon. The third bird toy hangs in the walkway on the other side of the build-it diving board. (Be sure to shoot the third toy before Billy uses the diving board!)

MINIKIT: Dark Cave

Once you lower the makeshift walkway after using the twirl poles to cross the big gap, a dark cave in the back wall is revealed. Send a light-bearing character like Ian Malcolm into the cave to grab the Minikit.

MINIKIT: Crowbar Crate

After you drive off the first Pteranodon, send Nick Van Owen to pry open the yellow crate under the dinosaur's nest with his crowbar. Inside you find a Minikit.

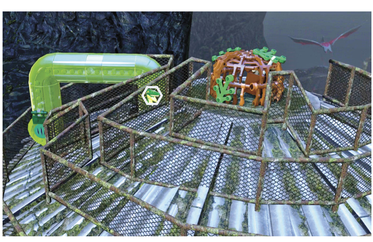
AMBER BRICK: Grow a Bounce Pad and Backtrack

After you drive off the first Pteranodon, switch to a plant-growing character like Ellie Sattler and water the plant root near the nest. This grows into a bouncy flower.

Bounce Billy Brennan onto the mesh cage covering the walkway. Run along the cage's top to the climbing wall and clamber across the wall to the next section of cage. Then proceed to the Amber Brick! This unlocks the mighty Spinosaurus.

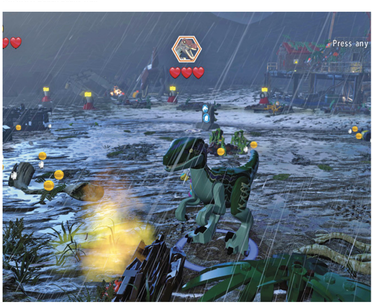
MINIKIT: Compy Maze

Eventually, you reach a green Compy Tube. Switch to a Compy and crawl in. Follow the tube to the simple fence maze and work through to the wooden cage. Smash the cage and grab the Minikit inside.



Spinosaurus Showdown

MINIKIT: Beach Scent Trail

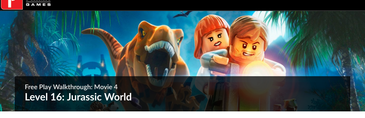


Use a Velociraptor to pick up the scent at the start of the level, close to the camera. Follow the trail and dig up the build-it pieces. Construct the skeleton and collect the Minikit that pops out.

MINIKIT: Small-Access Shack

When you get Paul Kirby across the floating debris and onto the platform, find the low duct on the second level. Switch to a small-access kid like his son Eric and crawl through into the shack interior.

© 2015 The LEGO Group. ™ & © Universal Studios and Amblin. ™ & © Warner Bros. Entertainment Inc. (s15)

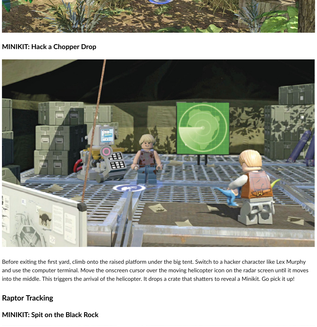


Level 16: Jurassic World

Raptor Research Arena

MINIKIT: Crowbar the Truck

After firing the pig cannon, explore the yard to the right. Switch to a crowbar character like Nick Van Owen and pry the back gate off the red truck parked on the yard's right side. Hop in the truck bed to grab the Minikit.

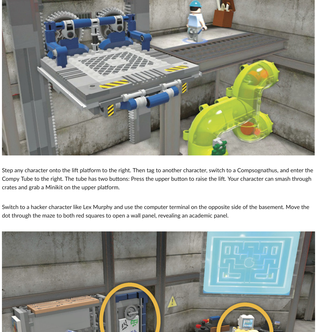


MINIKIT: Hack a Chopper Drop

Before exiting the first yard, climb onto the raised platform under the big tent. Switch to a hacker character like Lex Murphy and use the computer terminal. Move the onscreen cursor over the moving helicopter icon on the radar screen until it moves into the middle. This triggers the arrival of the helicopter. It drops a crate that shatters to reveal a Minikit. Go pick it up!

Raptor Tracking

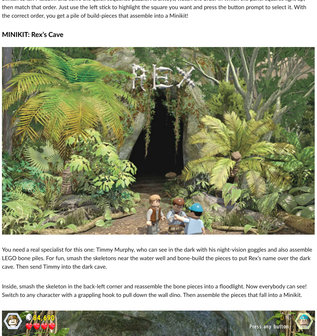
MINIKIT: Spit on the Black Rock



As your raptors pursue the pig across the stream, you reach an area where a sparkling black LEGO boulder sits up the hill to your left. Switch to a Dilophosaurus and spit at the boulder to shatter it. A Minikit is inside.

Indominus Paddock

TWO MINIKITS: Special Free Play Basement!



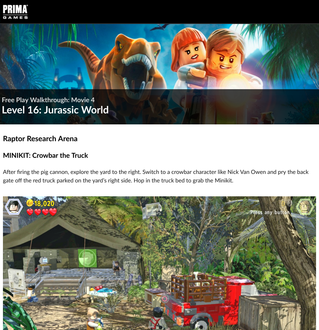
Two Minikits are hidden in a basement room off the Indominus paddock. As the mission opens, switch to a charging dinosaur like Pachycephalosaurus. Then smash through the glowing orange LEGO crack at the bottom of the deep trench that the Indominus dug. Proceed through the opening into the basement room.

Step any character onto the lift platform to the right. Then tag to another character, switch to a Compsognathus, and enter the Compy Tube to the right. The tube has two buttons: Press the upper button to raise the lift. Your character can smash through crates and grab a Minikit on the upper platform.

Switch to a hacker character like Lex Murphy and use the computer terminal on the opposite side of the basement. Move the dot through the maze to both red squares to open a wall panel, revealing an academic panel.

Switch to Ian Malcolm and solve the quick sequence puzzle. As always, watch the order in which the panel squares light up; then match that order. Just use the left stick to highlight the square you want and press the button prompt to select it. With the correct order, you get a pile of build-pieces that assemble into a Minikit!

MINIKIT: Rex's Cave



You need a real specialist for this one: Timmy Murphy, who can see in the dark with his night-vision goggles and also assemble LEGO bone piles. For fun, smash the skeletons near the water well and bone-build the pieces to put Rex's name over the dark cave. Then send Timmy into the dark cave.

Inside, smash the skeleton in the back-left corner and reassemble the bone pieces into a floodlight. Now everybody can see! Switch to any character with a grappling hook to pull down the wall dino. Then assemble the pieces that fall into a Minikit.

MINIKIT: Three Claw-Mark Photos

After receiving the report that the Indominus Rex is still in the paddock, switch to any character with a camera (Nick, Sarah, Billy, or Grad and use the photo spot to snap a shot of the claw marks on the wall. Continue on to the wall charger and snap a second photo from the photo spot. After you get past the Indominus, take the third photo from the back corner near the sensor panel. You automatically collect the Minikit.

Free Play Walkthrough: Movie4

Level 17: Gyrosphere Valley

Gyrosphere Escape

All collectibles for this mission are available in Story Mode. See our Story Mode walkthrough for details.

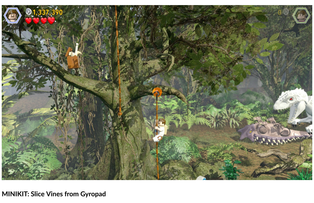
Gyrosphere Attack

MINIKIT: Cracked LEGO Boulder

At the start, switch from Gray to a charging dino like the Pachycephalosaurus and smash the nearby boulder with the glowing orange crack. Assemble the build-it pieces that fall out into a Minikit.

MINIKIT: Grapple Climb

Also at the start, find the orange grapple peg up in the tree to the left. Use a character with the Grapple ability to hook the peg and leave the rope hanging down. Climb the rope, leap across to another rope, and climb to the Minikit sitting on a high branch.

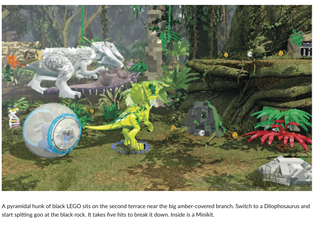


MINIKIT: Slice Vines from Gyropad

After you build and climb the ramp to the second terrace, switch to a character with a knife/claw like Owen Grady or Alan Grant. Cut away the vines over the gyro-launch pad.

Tag over to Zach in the sphere and drive onto the pad to get launched to a lower meadow where a Minikit sits. Then roll to the nearby pad to launch back to the second terrace!

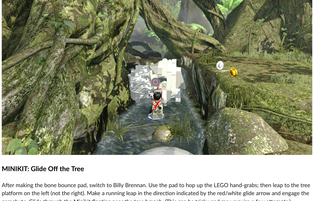
MINIKIT: Tough Black LEGO



A pyramidal hunk of black LEGO sits on the second terrace near the big amber-covered branch. Switch to a Dilophosaurus and start spitting goo at the black rock. It takes five hits to break it down. Inside is a Minikit.

MINIKIT: Stream Boulder

After crossing the rolling bridge that spans the small stream, hop down into the stream and switch to Nick Van Owen. Use his crowbar to pull apart the big boulder in the stream. Assemble the build-it pieces into a Minikit.



MINIKIT: Glide Off the Tree

After making the bone bounce pad, switch to Billy Brennan. Use the pad to hop up the LEGO hand-grabs; then leap to the tree platform on the left (not the right). Make a running leap in the direction indicated by the red/white glide arrow and engage the parachute. Glide through the Minikit floating near the tree branch. (This can be tricky and may require a few attempts.)

MINIKIT: Dig the InGen Panel

Once you cross the river, hop down to the lowest terrace and find the loose dirt pile. Switch to Alan Grant and dig up the build-it pieces, then use them to repair the nearby InGen access panel. Now switch to somebody with InGen Access (Gerry Harding or John Hammond) and use the panel, entering the three-button code to open the grate. Hop down to grab the Minikit.

MINIKIT: Grow Spot Near Tree

In the last clearing (where the T. rex has the Ankylosaurus by the tail), smash away the foliage near the huge tree trunk to the left to find a plant root. Switch to Ellie Sattler or another plant-growing character and water the root to sprout a big flower with a Minikit on top.

MINIKIT: Crane Scanner

In the last clearing, switch to a character (like Claire Dearing) who has the Scanner ability. Use the scanner at the sparkling Jurassic World sensor panel hanging on the crane tower. You automatically get a Minikit.

Free Play Walkthrough: Movie 4

Level 18: Out of Bounds

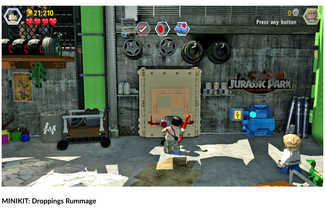
Parking Garage

MINIKIT: InGen Access to Compys

From the start, go left past the injured Compy to find an InGen access panel. Switch to a character with InGen access (John Hammond or Gerry Harding) and use the panel to open the door and release a swarm of 12 hostile Compys! Knock out all 12 and a Minikit appears in the doorway.

MINIKIT: Crowbar Closet

Go up the ramp from the truck and switch to Nick Van Owen. Use his crowbar to pry open the storage closet between the two Compy Tubes and grab the Minikit.



MINIKIT: Droppings Rummage

Once you get outside the garage, find the large droppings pile just right of the broken truck. Switch to a rummager like Ellie Sattler and dive in to find a Minikit.

MINIKIT: Shoot & Track

Outside, switch to a sharpshooter/tracker like Roland Tembo or Udesky and shoot the bull's-eye target up in the tree by the fence at far right. A tracking object drops to the ground. Pick it up and follow the blue tracks until a raptor suddenly ambushes you! Fight it off using the button prompts onscreen to get your Minikit.

MINIKIT: Rock Climb to Dark Cave

Outside, switch to Billy Brennan or Owen Grady and scale the climbing wall to the upper terrace. Switch to a light carrier like Ian Malcolm to enter the dark cave at the right end of the terrace and grab the Minikit.

Indominus Escape

MINIKIT: Track & Grow

After Indominus Rex breaks through the wall (where you build the giant chainsaw), switch to a tracker character like Barry. Pick up the tracking object and follow it until he unearths a plant root at a wall of vines. Switch to a plant grower like Ellie Sattler and water it to produce another vine. But this one pulls apart the vine wall, revealing a Minikit.

AMBER BRICK: Shoot Three Butterfly Flowers

On the main floor, switch to a sharpshooter character and shoot the bull's-eye target on the blue/purple flower up high to the right. This flushes a butterfly that flutters across the room to a second flower, where another bull's-eye pops up. Shoot that target to flush the butterfly again.

Track the insect leftward to a third flower and shoot the bull's-eye that appears. This flushes a whole family of butterflies, and an Amber Brick appears on the floor! This one unlocks the Indominus Rex.

MINIKIT: Crowbar Gate

On the top level, use Nick Van Owen's crowbar to pry open the locked red gate. Collect the Minikit just inside.

Free Play Walkthrough: Movie 4

Level 19: Under Attack

Main Street

MINIKIT: Black LEGO Souvenirs

Look for three different black LEGO merchandise stands in front of stores along Jurassic World's Main Street. (Remember, black LEGO has a green shimmer.) At each stand, switch to a Dilophosaurus and spit goo to shatter them. The first is in front of the Ice Cream shop at the far-right end of the street. The second is just inside the Coffee Shop at the far-left end of the street. The third stand is in front of the Jurassic Traders Giftshop. When all three are destroyed, you get a Minikit.

MINIKIT: Cinema Popcorn

When you're with Owen and Claire on Main Street's left end, approach the front entrance of the 3D Theatre, switch to Nick Van Owen, and use his crowbar to pry the doors open. Step inside and smash the popcorn cart. Assemble the broken pieces into a Minikit.

MINIKIT: Duct & Rummage

Look for the alley just right of the Juice Bar with a low duct. Gray Mitchell can fit, but you need a small-access character that can also rummage droppings. Switch to Eric Kirby and crawl in the duct. You emerge on the roof where Eric can search the big droppings pile for a Minikit.

MINIKIT: Arcade Minigame

Once you get inside the Arcade, send a hacker character like Lex Murphy to play the arcade game attached to the big screen. Move the dinosaur head through the maze to eat all of the white dots, and then move it to the green exit square at the far right.

MINIKIT: Grow the Plant

Send a plant grower character like Ellie Sattler or Sarah Harding to water the plant root behind the overturned truck near Jurassic Traders Giftshop. Climb the stalk to the roof to collect the Minikit up there.

The Alpha

MINIKIT: Grow Plant

After driving off the first raptor with the build-it rocket, find the nearby plant root in the back of the area. Switch to a plant growing character like Sarah Harding to water the root and grow a big flower. A Minikit floats directly above it. Hop on the flower and leap up to grab the kit.

MINIKIT: Cracked LEGO Log

After pulling the mercenary from under the log, switch to a charging dinosaur like the Pachycephalosaurus. Then ram the glowing orange crack in the rock wall behind the log to smash open a shallow cave. Enter and grab the Minikit inside.

MINIKIT: Scent Trail

Before saving the last mercenary from the Indominus Rex, get behind the log and switch to a Velociraptor. Use the yellow scent mist behind the military truck in the clearing near the Indominus to start a scent trail. Follow it until the raptor digs up a Minikit.

Raptor Pursuit

The collectible in this mission is available in Story Mode. See our Story Mode walkthrough for details.

Free Play Walkthrough: Movie 4

Level 20: Showdown

Innovation Center

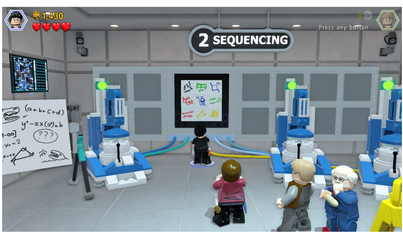
AMBER BRICK: InGen Access to Extraction Lab

At the mission start, switch to a character with InGen access like John Hammond and use the nearby panel. Enter the three-button code and enter the newly opened doorway into the Jurassic World Creation Lab. You start out in the Extraction room. A security camera won't let you enter the room in the back, where you can see a Jurassic World access panel.

Activate Owen Grady's Camouflage ability and sneak past the camera. Switch to Claire Dearing to use the access panel. Pick up the Amber Brick that falls from the shelf. This unlocks the Mosasaurus. Note: You'll stay in the Creation Lab for the next three Minikit sections!

MINIKIT: Academic Panel in Sequencing

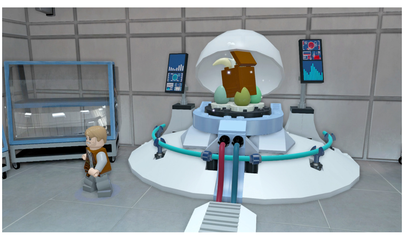
Once you gain access to the Creation Lab (see the previous Amber Brick section), proceed to the second room, Sequencing, and approach the academic panel on the back wall. Switch to an academic character like Ian Malcolm and solve the simple sequence puzzle, selecting squares in the same order they light up. This produces a Minikit.



MINIKIT: Hacking Minigame in Assembly

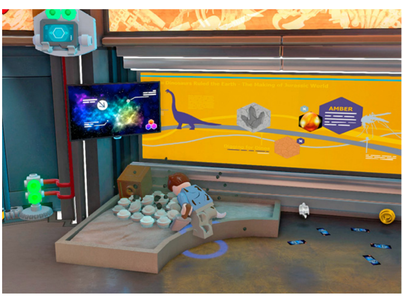
Once in the Creation Lab (see the Amber Brick section), proceed to the third room, the Assembly lab. Switch to a hacker character like Lex Murphy and use the computer in the back right corner. You see a double-helix strand of DNA on the left with matching pairs of bases, plus one highlighted with no matching base. Move the cursor over the matching DNA base on the right and press your Attack/Charge button to select it. Repeat three times to complete the puzzle.

MINIKIT: Incu-Builder in the Hatchery



Once you gain access to the Creation Lab (see the Amber Brick section), proceed to the fourth room, the Hatchery lab. Smash up everything in the lab, and then use the build-it pieces to assemble two active incubators. Grab the Minikit that pops out of the incubator across the room.

MINIKIT: Dig the Sandpit



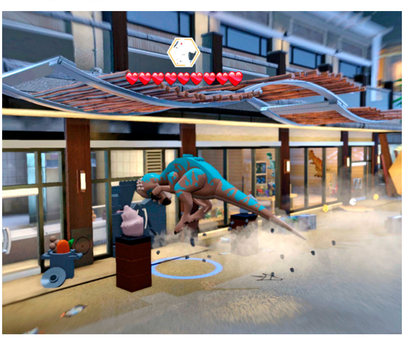
In the start area, send a digger like Alan Grant past the first big sandpit to the second, smaller pit marked with loose dirt. Dig up the build-it pieces and assemble them into a Minikit.

Boardwalk Showdown

MINIKIT: Shop Window Scream

When Gray uses the small-access vent to reach the balcony for his first photo of the Indominus Rex, go to the LEGO glass window first. Switch to a character with the Scream ability like Kelly Malcolm or Sarah Harding and use it to shatter the window; then grab the Minikit inside.

MINIKIT: Cracked Shop Door



On the first street where you build the cannon, switch to a charging dinosaur like the Pachycephalosaurus and charge into the first shop door on the left side. It shatters and you earn a Minikit.

© 2015 The LEGO Group. ™ & © Universal Studios and Amblin. ™ & © Warner Bros. Entertainment Inc. (s15)

Hub Areas

Introduction

When beginning the game, you are taken directly into the first Jurassic Park levels. Once complete, you are taken to the helipad on Isla Nublar. From here, you can either go to the Jurassic Park hub or the Jurassic World hub. Later, you can take the helicopter to the island of Isla Sorna where the hubs for Jurassic Park: The Lost World and Jurassic Park III are located.

As you play through the Story Mode, you unlock and advance through the various areas. The game world of LEGO Jurassic World is divided into two main islands with two movie hubs on each island. Each movie hub is divided into several different areas which are related to the levels of the game. In these areas, you can collect Red Bricks and Gold Bricks, complete races, heal dinosaurs, take photographs, and save Workers in Peril. Each of these requires you to complete a challenge. Some are quite simple while others are more involved. When first beginning the game, all of the characters needed to complete these challenges are not available. Therefore, it's a good idea to play through all the Story Mode levels. By the time you get to the end, you will have unlocked characters with all of the abilities needed to complete the hub challenges.

Map Kiosks

Each area has a map kiosk. They are marked with a blue circle with the letter "i" in the middle. When you use one of these kiosks, a small screen appears showing the challenges available in that area, as well as how many you've completed. The locations of the challenges then appear on the map so you can more easily find them. Keep an eye out for these map kiosks. They help you find all the challenges so you can get those Red Bricks and other collectibles.

Red Bricks, Gold Bricks, and Challenges

There are several different types of challenges. Completing a Red Brick challenge unlocks a Red Brick. Gold Brick challenges add a Gold Brick to your collection. Completing Sick Dino, Worker in Peril, Photograph, and Race challenges not only add the appropriate collectible to your collection, but they also reward you with a Gold Brick.

Arena of Valor Map Guide

Arena of Valor has a total of 3 maps: 5v5 Map, 3v3 Map, and 1v1 Map. Each map has its own unique features and gameplay mechanics. Here's a guide to help you understand each map:

5v5 Map - Tulen Valley

Feature	Description
Jungle	The jungle is filled with neutral monsters that can be killed for gold and experience.
Lanes	There are three lanes: top, mid, and bottom. Each lane has towers and minions.
Towers	Towers are defensive structures that attack enemy minions and heroes.
Inhibitors	Inhibitors are destroyed to spawn super minions.
Nexus	The Nexus is the main objective. Destroy the enemy Nexus to win the game.
Dragon	The dragon is a powerful neutral monster that grants a buff to the team that kills it.
Baron	The Baron is a powerful neutral monster that grants a buff to the team that kills it.
Fountain	The fountain is a safe zone where players can heal and buy items.
Brush	The brush is a hiding spot where players can ambush enemies.
River	The river is a body of water that separates the top and bottom lanes.

Tulen's Landfall

Tulen's Landfall is the starting area for the 5v5 map. It is a large, open area with a few trees and rocks. The area is filled with neutral monsters that can be killed for gold and experience. The area is also home to the fountain, where players can heal and buy items.

Mechanicus Mine

Mechanicus Mine is a large, open area with a few trees and rocks. The area is filled with neutral monsters that can be killed for gold and experience. The area is also home to the fountain, where players can heal and buy items.

Tulen Valley

Tulen Valley is a large, open area with a few trees and rocks. The area is filled with neutral monsters that can be killed for gold and experience. The area is also home to the fountain, where players can heal and buy items.

Tulen Canyon

Tulen Canyon is a large, open area with a few trees and rocks. The area is filled with neutral monsters that can be killed for gold and experience. The area is also home to the fountain, where players can heal and buy items.

3v3 Map - Tulen Valley

Feature	Description
Jungle	The jungle is filled with neutral monsters that can be killed for gold and experience.
Lanes	There are two lanes: top and bottom. Each lane has towers and minions.
Towers	Towers are defensive structures that attack enemy minions and heroes.
Inhibitors	Inhibitors are destroyed to spawn super minions.
Nexus	The Nexus is the main objective. Destroy the enemy Nexus to win the game.
Dragon	The dragon is a powerful neutral monster that grants a buff to the team that kills it.
Baron	The Baron is a powerful neutral monster that grants a buff to the team that kills it.
Fountain	The fountain is a safe zone where players can heal and buy items.
Brush	The brush is a hiding spot where players can ambush enemies.
River	The river is a body of water that separates the top and bottom lanes.

Tulen's Landfall

Tulen's Landfall is the starting area for the 3v3 map. It is a large, open area with a few trees and rocks. The area is filled with neutral monsters that can be killed for gold and experience. The area is also home to the fountain, where players can heal and buy items.

Mechanicus Mine

Mechanicus Mine is a large, open area with a few trees and rocks. The area is filled with neutral monsters that can be killed for gold and experience. The area is also home to the fountain, where players can heal and buy items.

Tulen Valley

Tulen Valley is a large, open area with a few trees and rocks. The area is filled with neutral monsters that can be killed for gold and experience. The area is also home to the fountain, where players can heal and buy items.

Tulen Canyon

Tulen Canyon is a large, open area with a few trees and rocks. The area is filled with neutral monsters that can be killed for gold and experience. The area is also home to the fountain, where players can heal and buy items.

1v1 Map - Tulen Valley

Feature	Description
Jungle	The jungle is filled with neutral monsters that can be killed for gold and experience.
Lanes	There are two lanes: top and bottom. Each lane has towers and minions.
Towers	Towers are defensive structures that attack enemy minions and heroes.
Inhibitors	Inhibitors are destroyed to spawn super minions.
Nexus	The Nexus is the main objective. Destroy the enemy Nexus to win the game.
Dragon	The dragon is a powerful neutral monster that grants a buff to the team that kills it.
Baron	The Baron is a powerful neutral monster that grants a buff to the team that kills it.
Fountain	The fountain is a safe zone where players can heal and buy items.
Brush	The brush is a hiding spot where players can ambush enemies.
River	The river is a body of water that separates the top and bottom lanes.

Tulen's Landfall

Tulen's Landfall is the starting area for the 1v1 map. It is a large, open area with a few trees and rocks. The area is filled with neutral monsters that can be killed for gold and experience. The area is also home to the fountain, where players can heal and buy items.

Mechanicus Mine

Mechanicus Mine is a large, open area with a few trees and rocks. The area is filled with neutral monsters that can be killed for gold and experience. The area is also home to the fountain, where players can heal and buy items.

Tulen Valley

Tulen Valley is a large, open area with a few trees and rocks. The area is filled with neutral monsters that can be killed for gold and experience. The area is also home to the fountain, where players can heal and buy items.

Tulen Canyon

Tulen Canyon is a large, open area with a few trees and rocks. The area is filled with neutral monsters that can be killed for gold and experience. The area is also home to the fountain, where players can heal and buy items.

Jurassic Park: The Lost World

Jurassic Park: The Lost World is the second full park location on different isles. You start out on this Isla's Wilding base map. Here you'll find the Raptor Territory, Tyrannosaurus Territory, a Communications Center, and a number of Hunting Trophies and Hunting Challenges.

Stegosaurus Territory

There are plenty at the docks, and marking into the jungle. The first area is Stegosaurus Territory. There are four challenges here.

Stegosaurus Territory Challenges

Number	Trophy	Mechanic
S1	Gold Medal	Perform a Stegosaurus Tail Whip attack on a Stegosaurus. Use the right analog stick to aim the tail, then press the Attack button.
S2	Gold Medal	Perform a Stegosaurus Tail Whip attack on a Stegosaurus. Use the right analog stick to aim the tail, then press the Attack button.
S3	Gold Medal	Perform a Stegosaurus Tail Whip attack on a Stegosaurus. Use the right analog stick to aim the tail, then press the Attack button.
S4	Gold Medal	Perform a Stegosaurus Tail Whip attack on a Stegosaurus. Use the right analog stick to aim the tail, then press the Attack button.

Smash and Run

It's safe to get into the Bell Ranch in this area, you just need the different scientist outfit. However, you also need to do it without the Park Ranger gear. A Mercenary Ambush is also active in this area, so be careful and kill them as quick as possible. Pay attention to the guard who has Raptors with a name and use the Tranquilizer Gun to take down the Raptor first. Then kill the guard. Once you've done that, you'll get the Smash and Run Trophy.

Use the fruit and bait from bears here to lure the Raptor Nuevo to run and smash the second wall. You can keep the fruit and bait when you leave the area and come back to the area to lure the Raptor more. Smash the wall and kill the Raptor to unlock it as a Hunting Trophy. Then kill the Raptor Nuevo to unlock the Smash and Run Trophy.

Mobile Lab Site

The Chelets are the area in the front area, just come across and kill the scientist and it's just the Park Ranger and kill scientist in the area. Kill the Raptor Nuevo here to unlock the Mobile Lab Site Trophy. Then kill the Raptor Nuevo to unlock the Smash and Run Trophy.

Mobile Lab Site Challenges

Number	Trophy	Mechanic
S1	Gold Medal	Use a Tranquilizer Gun to put to sleep a Raptor Nuevo near the Cliff Edge in Mobile Lab Site. There are two Raptor Nuevo in this area.
S2	Gold Medal	Kill a guard in a yellow/red/blue shirt. The Trapper Lake Area is 7.
S3	Gold Medal	Kill a guard in a yellow/red/blue shirt. The Trapper Lake Area is 7.
P	Photograph	Photograph a Raptor Nuevo with the Raptor Nuevo in the frame. Once you have it, kill the Raptor Nuevo.
S4	None	Kill the guard in a yellow/red/blue shirt. The Trapper Lake Area is 7.

The Cage Gold Brick

The Gold Brick is accomplished in all the Isla Wilding areas and is located in the middle of the Cage Gold Brick area. Kill the Raptor Nuevo in this area. There is also a Raptor Nuevo in the area that you can kill. Then kill the Raptor Nuevo in the area. Collect the Gold Brick to complete the Trophy.

Hunting Plains

The Hunting Plains is in the middle of the trail and it's inside open compound to the north area. There are a total of four challenges here.

Hunting Plains Challenges

Number	Trophy	Mechanic
S1	Gold Medal	Use Tranquilizer Gun Nuevo to tranquilize a Gas Nuevo near Hunting Plains.
S2	Gold Medal	Kill a Raptor Nuevo with one of the melee weapons. Kill a Raptor Nuevo in the area to the north of the Hunting Plains.
S3	None	Kill a Raptor Nuevo with one of the melee weapons. Kill a Raptor Nuevo in the area to the north of the Hunting Plains.
S4	Gold Medal	Kill a Raptor Nuevo with one of the melee weapons. Kill a Raptor Nuevo in the area to the north of the Hunting Plains.

Hunting the Dino

The challenge is accessible from the Dino Watch Hide Tower 7. Use and archive all the guide for an even more detailed information.

When you come upon the Ant Thrombeys, the Dino Hero needed to feed the Alive are visible, the ice cream cone, banana, and

Pay to feed the Dino and you'll get the pet. Use and Ant Hero's medium to feed Dino to earn the pet. Then you'll be Mid-Late, collect the Dino using your Dino, and don't let it catch it. Return to the Thrombeys and feed him the Dino.

Pay to Earth feeding will challenge through the challenging will defeat the Thrombeys to unlock a trophy there. Pay to Mercury Trophy, pick up the item and follow the Dino Lures and Raptors around the Ant Hero. Put up the Hyenas and feed it to the Ant Hero.

Feed the Ant Hero Dino to the catch will when you feed the Dino to Lures. Once the skeleton has built it's home, then the Ant Hero Dino will be a pet. Return to the Thrombeys and feed him the Dino.

Hunter Camp

Hunter Camp will open up a area to the out of the jungle. While one of them will light you, there are others that need one shot kills and also have opportunities with dozens of small herds.

Hunter Camp Challenges

Number	Trophy	Mechanic
S1	Gold Medal	Kill a Raptor Nuevo with one of the melee weapons. Kill a Raptor Nuevo in the area to the north of the Hunting Plains.
S2	Gold Medal	Kill a Raptor Nuevo with one of the melee weapons. Kill a Raptor Nuevo in the area to the north of the Hunting Plains.
S3	Gold Medal	Kill a Raptor Nuevo with one of the melee weapons. Kill a Raptor Nuevo in the area to the north of the Hunting Plains.
S4	Gold Medal	Kill a Raptor Nuevo with one of the melee weapons. Kill a Raptor Nuevo in the area to the north of the Hunting Plains.

Musical Pieces

A great part is that the Ant Hero Dino, there's a Dinosaur with the ability of Dinosaur to pick up. The Dino Dinosaur has four different unlocked Raptors. Watch at the Raptor Nuevo and use the Dino Dinosaur to pick up the Raptor Nuevo. Then you can feed the Raptor Nuevo to the Ant Hero Dino. Feed the Raptor Nuevo to the Ant Hero Dino. Feed the Raptor Nuevo to the Ant Hero Dino.

Isla Sorna

Unlocked by finishing the second through third visiting during Prime 1, the open-world Isla Sorna is located via the West Ingen Trail map. Sorna has an

Isla Sorna Challenges

Brick	Type	Details
01	Gold Brick	Defeat Ingen forces without using Jurassic Park weapons. Use Stealth 3 or higher + cover of Compys and Dilophosaurus to avoid detection.
02	Gold Brick	Rescue the Ingen scientist and all the dinosaurs.
03	Gold Brick	Search for objects and pull the dino switch.
04	Gold Brick	Collect all Ingen Tranq Darts.
05	Gold Brick	Use Tranq Darts to take out dinosaurs and complete missions; earn the scientist's quick-time Tranq Dart.

Pond E-E-A

Submit to a session with the Ingen ladies and shake the place down to take the Nerfy rocket, and a smaller version of the same from which you get the missile. The Tranq Gun is complete the age. The Gold Brick appears on the Pacifico's pond.

Crash Site

The area filled with skeletons where Ashima is Brick in the first scientist, Gold Bricks, one of which is by viewing the location. Here you collect a pond and the Raptors in the side area. Ignore the Tranq. The Gold Brick from the Pond.

Crash Site Challenges

Brick	Type	Details
01	Gold Brick	Find the Gold Brick in the Crash Site area. Use the camera to find it near Jurassic Park Gate. Hint: Look for a Gold Brick in the Crash Site area.
02	Gold Brick	Find the Gold Brick in the Crash Site area.
03	Gold Brick	Find the Gold Brick in the Crash Site area.

Trees Have Eyes

The trees located in cages all regularly the ruin with one to the top-line Bricks. Three of the Hammond's unlock-upgrade all the Gold Bricks. Use the Gold Brick in the Crash Site area. Use the Gold Brick in the Crash Site area. Use the Gold Brick in the Crash Site area

Checklists

Cheats

Whenever you find a precious Red Brick hidden in a hub area, you can go pay to activate it at the Holoscape terminal inside the Visitor Center (Isla Nublar) or the Innovation Center (Isla Sorna). The transaction makes a special ability available. To finish activation, press your pause button, select “Extras,” then scroll to the ability and toggle it on/off.

Red Bricks are very expensive—the cheapest is 100,000 studs, and some cost millions! But each one bestows a very valuable skill or, in some cases (as in “Helium Voiced” or “Hybrid Disguises”), a very amusing skill.

Some call these abilities “cheats.” So do we. Here’s a quick list of the cheatin’ abilities bestowed when you purchase Red Bricks.

Cheats		
Cheat	**Cost in Studs**	**Description**
Score 2X	1,000,000	Doubles the number of studs the player collects
Score 4X	2,000,000	Multiplies the number of studs the player collects by 4
Score 6X	3,000,000	Multiplies the number of studs the player collects by 6
Score 8X	4,000,000	Multiplies the number of studs the player collects by 8
Score 10X	5,000,000	Multiplies the number of studs the player collects by 10
Invincibility	5,000,000	Player takes no damage
Minikit Detector	200000	White arrows point to where minikits are located in levels
Red Brick Detector	200000	Red arrows point to where Red Bricks are located in hubs
Gold Brick Detector	200000	Gold arrows point to where Gold Bricks are located in hubs
Amber Brick Detector	200000	Amber arrow points to where the Amber Brick is in the level
Fast Build	100000	Characters build LEGO even faster
Attract Studs	100000	Characters collect studs from further away than normal
Collect Ghost Studs	100000	Player collect the light blue studs that lead them to each level
Compy Mode	100000	Makes all characters shrink to compy size!
Destroy On Contact	100000	LEGO objects break without punching, just walk into them
8-Bit Music	100000	The background music is replaced with retro video game style music
Nedry Disguises	100000	Makes all characters wear a Hawaiian shirt and shorts
Fast Interact	100000	Speeds up control panels
Hybrid Disguises	100000	Dresses all characters in dinosaur costume
Helium Voices	100000	Increases the pitch of all voices

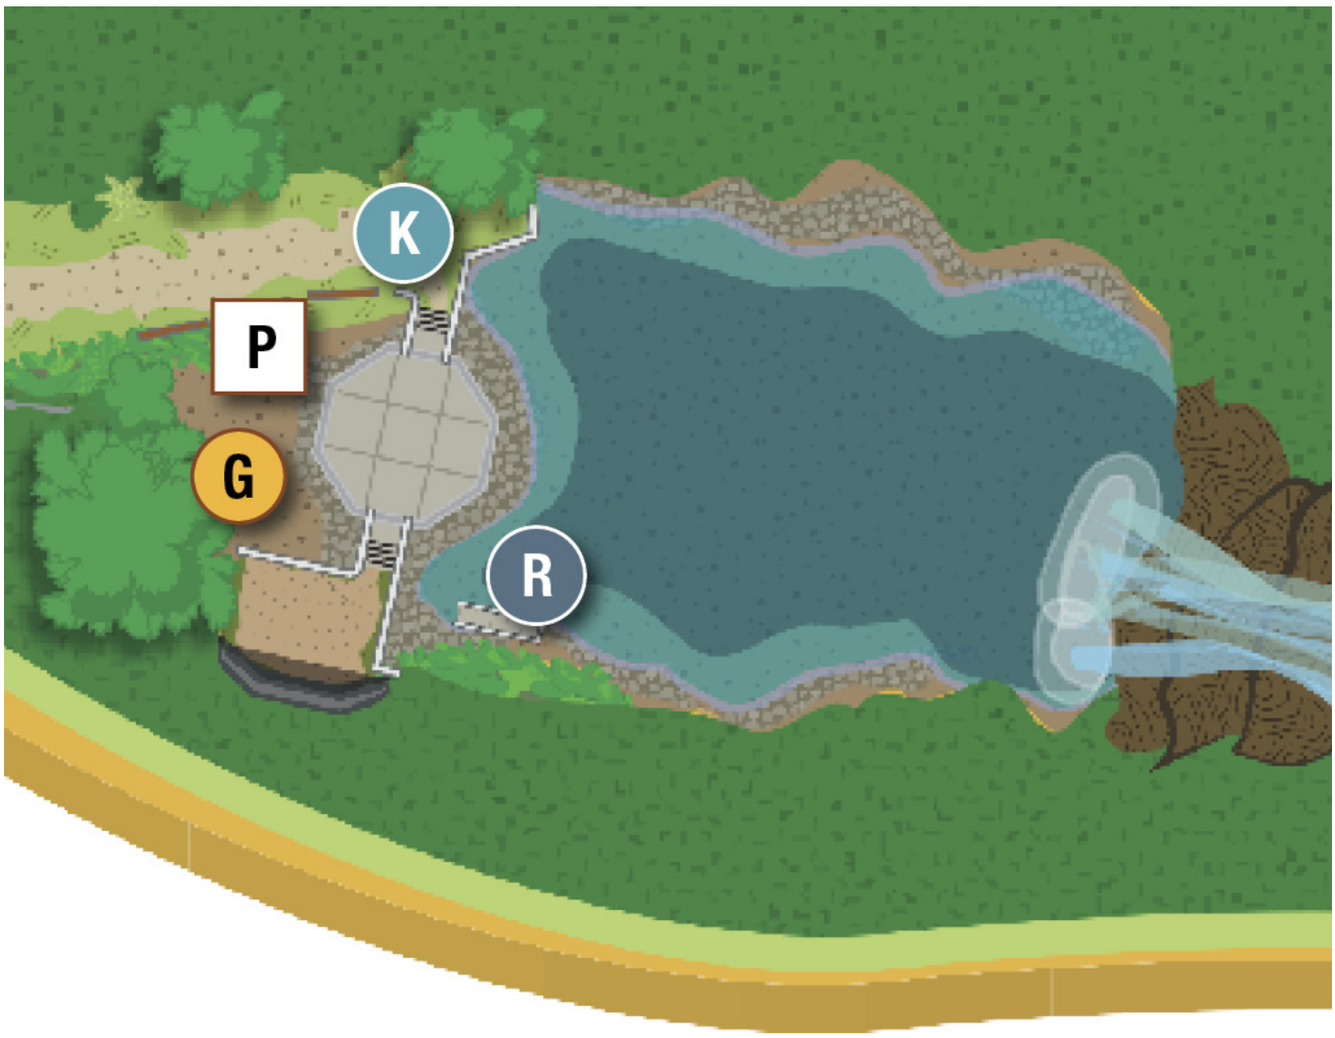
Hub Area Challenges: Jurassic Park

Isla Nubar Helipad

Isla Nubar Helipad

The Isla Nubar Helipad is the first area you enter during the game. There are three challenges here.



Isla Nubar Helipad Challenges		
Icon	**Type**	**Notes**
G	Gold Brick	Hit the target in the tree with a projectile. Switch to a raptor and follow a scent trail to find a grow spot. Then use a character with that ability to water the plant so a flower blooms with a Gold Brick inside.
P	Photograph	Break up a rock near the helipad to reveal a tripod. Select a character with a camera and use the tripod. Get the photo and a Gold Brick as well.
R	Race	Race a remote control toy boat through a series of checkpoints before time runs out. (See “The Race for a Gold Brick.”)

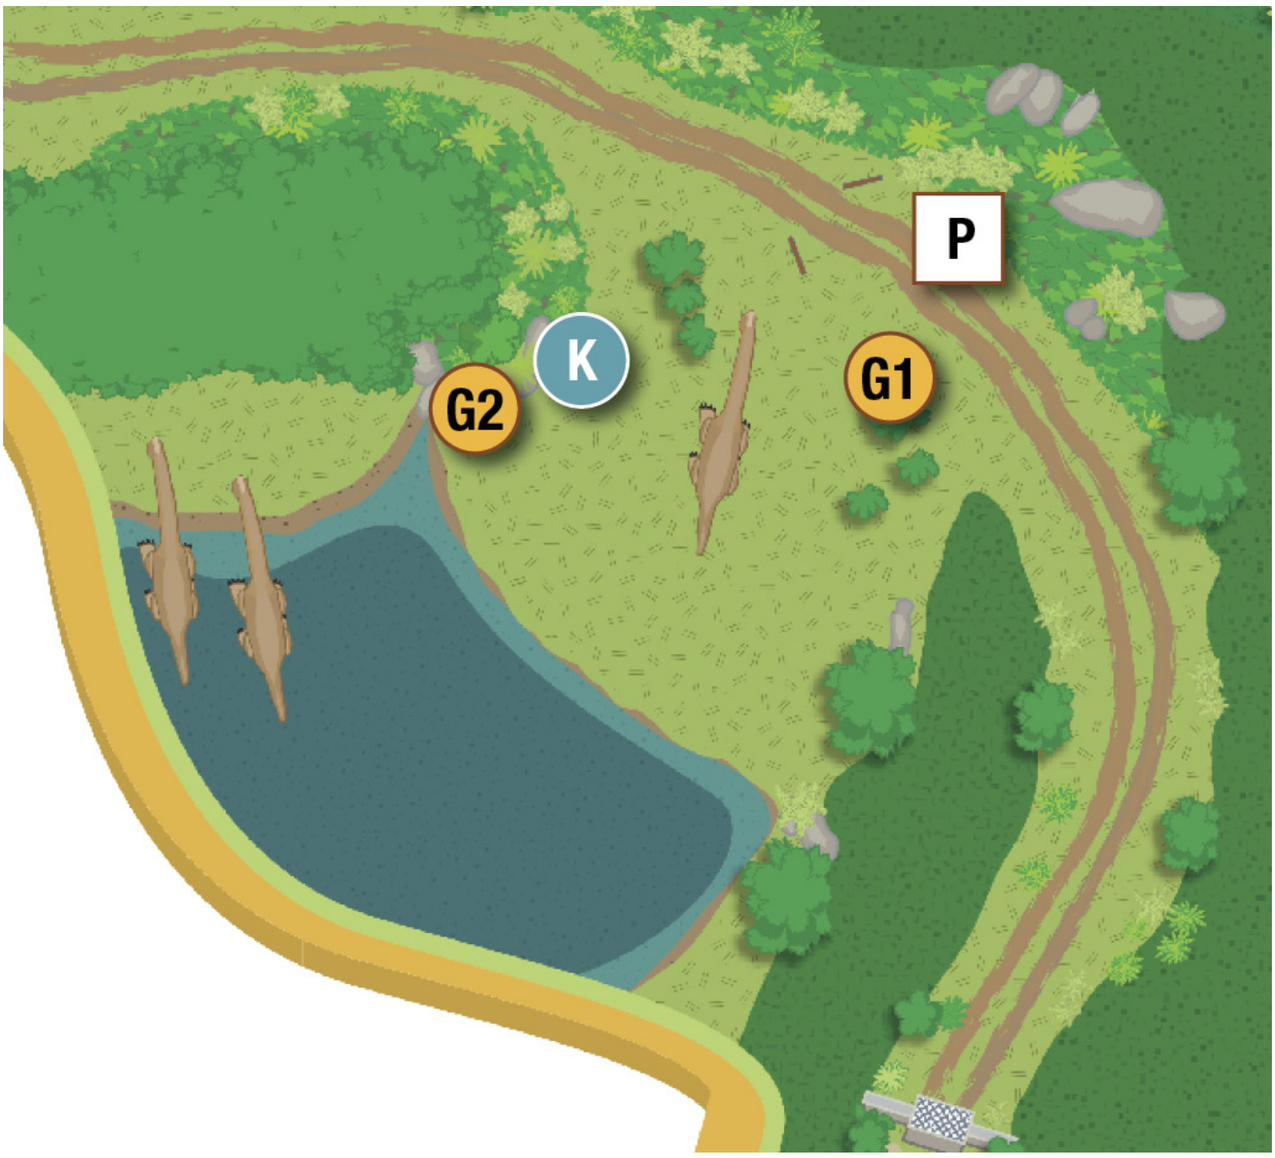
© 2015 The LEGO Group. ™ & © Universal Studios and Amblin. ™ & © Warner Bros. Entertainment Inc. (s15)

Hub Area Challenges: Jurassic Park

Brachiosaurus Plains

Brachiosaurus Plains

As you travel from the helipad to the Visitor Center, you pass by the Brachiosaurus Plains. There are three challenges located in this area.



Brachiosaurus Plains Challenges		
Icon	**Type**	**Notes**
G1	Gold Brick	To get this Gold Brick, you will need to shoot a target and break up a black rock with some venomous dino spit. (See “The Gold Brick Up in a Tree.”)
G2	Gold Brick	Select a dinosaur that can break cracked rocks. Break the cracked rock. Switch to a character who can go into dark areas and enter the cave to find this Gold Brick.
P	Photograph	Dig up an apple from a dig spot across the road from the plains. Use a character with the tracking ability to follow a trail to a tripod. Then switch to a character with a camera to take the photo and earn a Gold Brick.

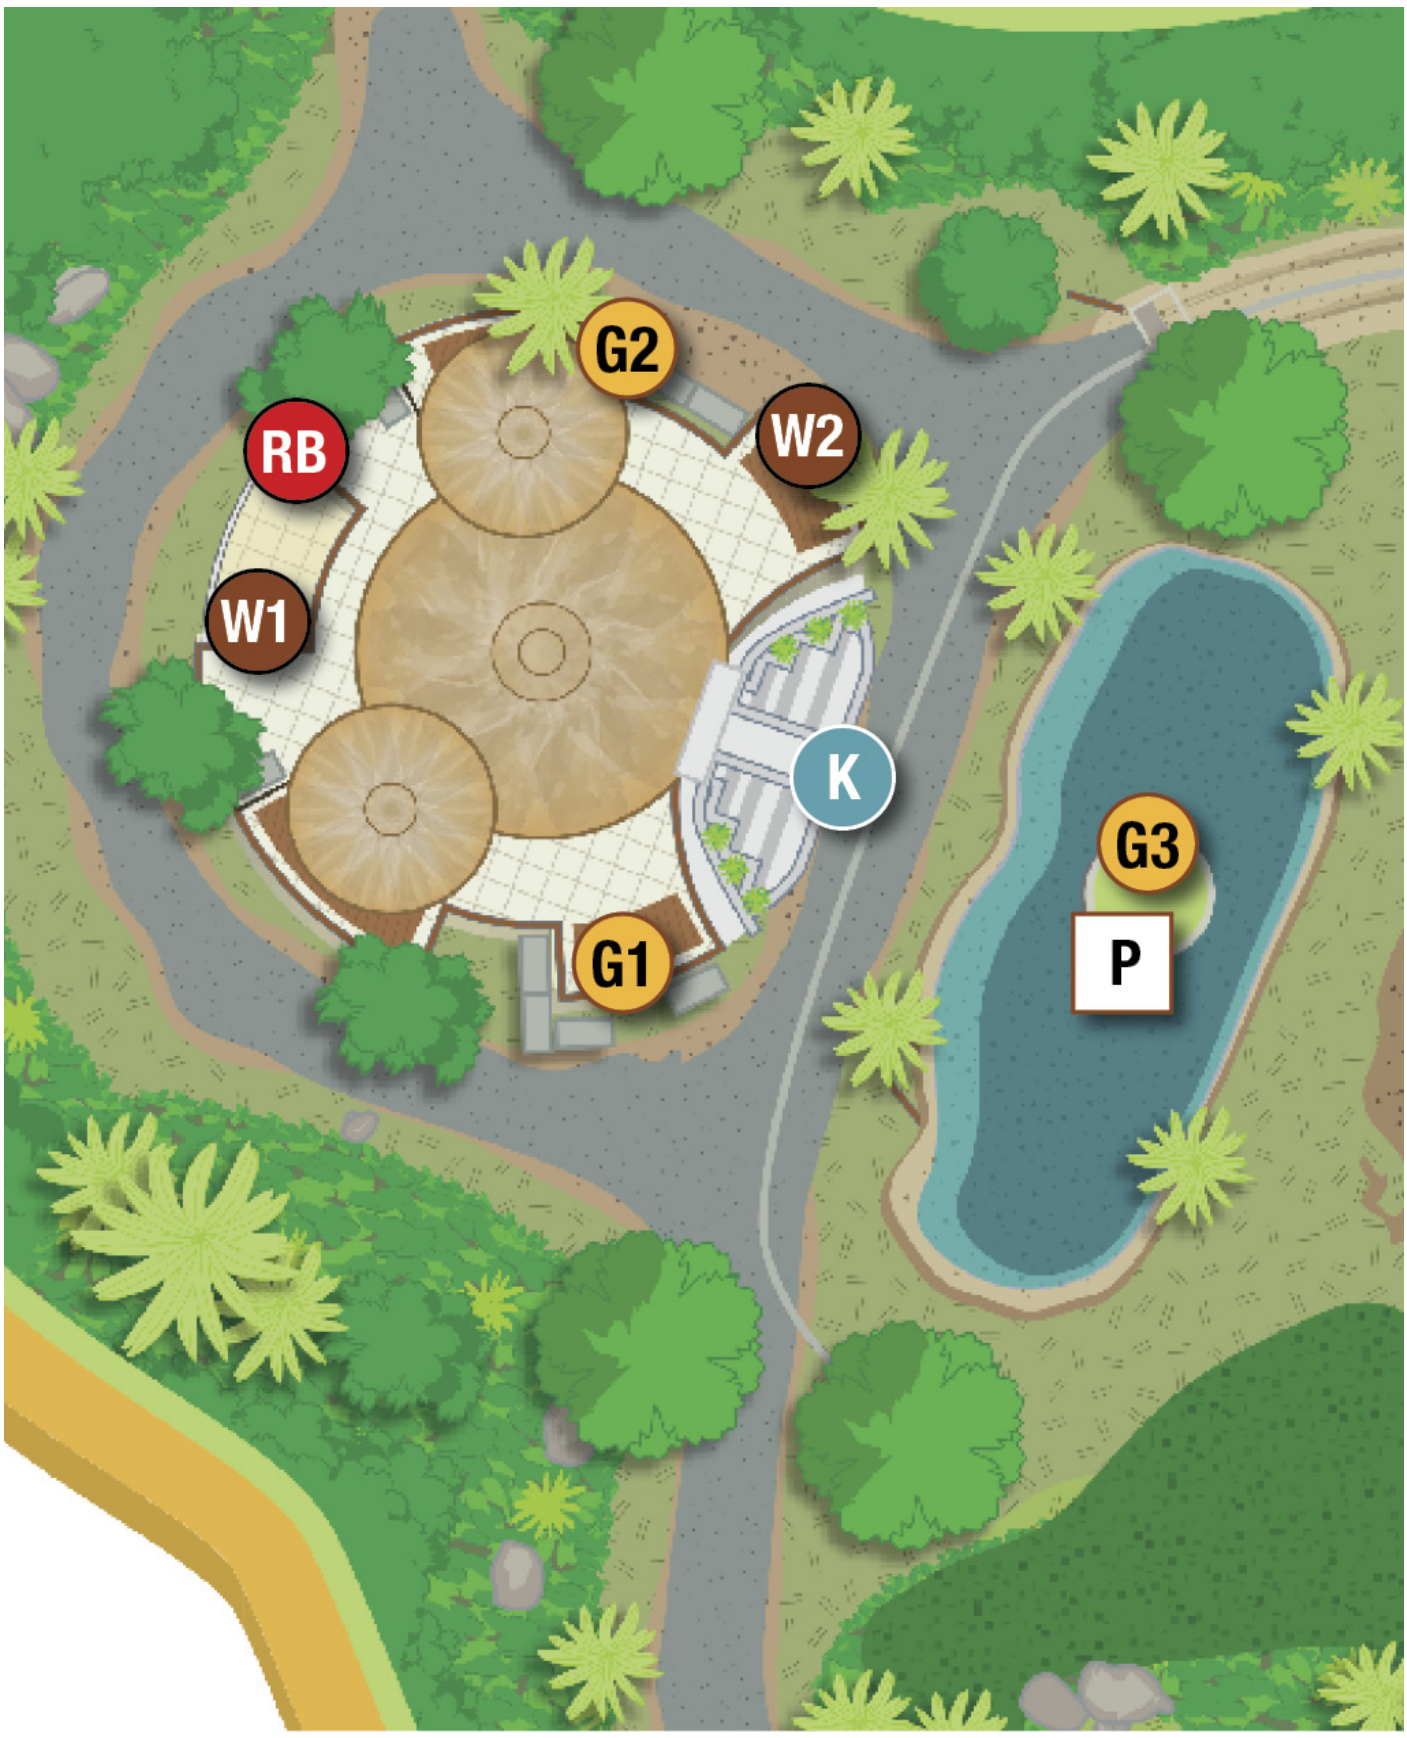
© 2015 The LEGO Group. ™ & © Universal Studios and Amblin. ™ & © Warner Bros. Entertainment Inc. (s15)

Hub Area Challenges: Jurassic Park

Visitor Center

Visitor Center

The Visitor Center area has seven different challenges. In addition, when you go inside the building, you can access the console for purchasing Red Bricks. There is also the DNA lab where you can create your own dinosaurs using parts from dinos already unlocked by collecting Amber Bricks while playing through Story Mode and Free Play.



Visitors Center Challenges

Icon	Type	Notes
G1	Gold Brick	Use the scaffolding on the left side of the Visitor Center to get up to the patio on the roof. (See “Scaffolding Up to the Roof.”)
G2	Gold Brick	On the right side of the Visitor Center, use a raptor to pounce onto a scaffold using the raptor rail. Switch to a character who can wall climb to get the Gold Brick.
G3	Gold Brick	Use a character with a grappling hook to pull on the tree with the orange hook on it in the pond across the road from the Visitor Center. Then get to the island in the pond by jumping onto the floating log and plants and collect the Gold Brick.
P	Photograph	Once on the island in the pond, break some crates on the dock. Switch to a tracking character and pick up an object and follow the trail to pieces that assemble into a tripod. Select a character with a camera and use the tripod to take a photo and also get a Gold Brick.
RB	Red Brick	At the gate at the back of the Visitor Center, select a character with an electric rifle to shoot the blue target to open a door on the left. Finally, switch to someone who can go into dark areas to enter the garage and collect the Red Brick.
W1	Worker in Peril	Use bolt cutters to cut the lock on the gate at the back of the Visitor Center. Then switch to a character with a stun rod to charge up the generator and open the door to free Dino Handler Bob and earn a Gold Brick as well.
W2	Worker in Peril	After getting the Gold Brick on the right side of the Visitor Center by wall climbing, jump onto the roof. Move to the small rope holding the worker and cut it with a knife or raptor claw to free the worker.

© 2015 The LEGO Group. ™ & © Universal Studios and Amblin. ™ & © Warner Bros. Entertainment Inc. (s15)

Hub Area Challenges: Jurassic Park

Raptor Territory

Raptor Territory

Raptor Territory can be reached by following a road leading from behind the Visitor Center. To get inside, you need a character who can rummage to search the large pile of dino droppings for a key. Then unlock the gate to enter the territory. There are a total of seven different challenges inside this area.

Raptor Territory Challenges		
Icon	**Type**	**Notes**
G1	Gold Brick	Use a small character to climb through a hatch at the base of the tower and get to the top. Then jump onto the zip line and ride it down to get the Gold Brick along the way.
G2	Gold Brick	You need to light up the raptor enclosure and then grapple a crate to get this Gold Brick. (See “Light Up the Raptor Enclosure.”)
G3	Gold Brick	Use a character with a scanner to open the door to the raptor pen. Switch to a dinosaur that can break cracked rock and bust your way in to get a Gold Brick.
G4	Gold Brick	Use a raptor to open the InGen container by pouncing on the raptor rail. Then defeat the dinos within the time limit to get the Gold Brick.
R	Race	Select a raptor for this race. You need to pounce on raptor rails and jump through a series of checkpoints before the timer runs out to complete the race and earn a Gold Brick.
W1	Worker in Peril	Use a crowbar on the locked door of the tower to free a trapped worker. Plus you collect a Gold Brick for your efforts.
W2	Worker in Peril	A raptor is attacking Ray Arnold. Select a character with a camera and take a photo of the raptor to scare it away with the flash. You save Ray and get a Gold Brick.

© 2015 The LEGO Group. ™ & © Universal Studios and Amblin. ™ & © Warner Bros. Entertainment Inc. (s15)

Hub Area Challenges: Jurassic Park

Jurassic Park Gate

Jurassic Park Gate

The gate is the main entrance for the tour route which takes you around the various dinosaur paddocks. Don't just drive on through. There are four challenges here.

Jurassic Park Gate Challenges		
Icon	**Type**	**Notes**
G1	Gold Brick	Climb up the torches on the left side of the outer gate to get to this Gold Brick.
G2	Gold Brick	Use a character with the repair skill to fix a parking gate so a worker can get his vehicle to earn a Gold Brick.
P	Photograph	Cut away vines to find a tripod and then use a camera. (See "Take a Photo of the Gate to Jurassic Park.")
R	Race	Drive through a series of checkpoints that take you around the entire tour route without the timer running out to complete this race and earn a Gold Brick.

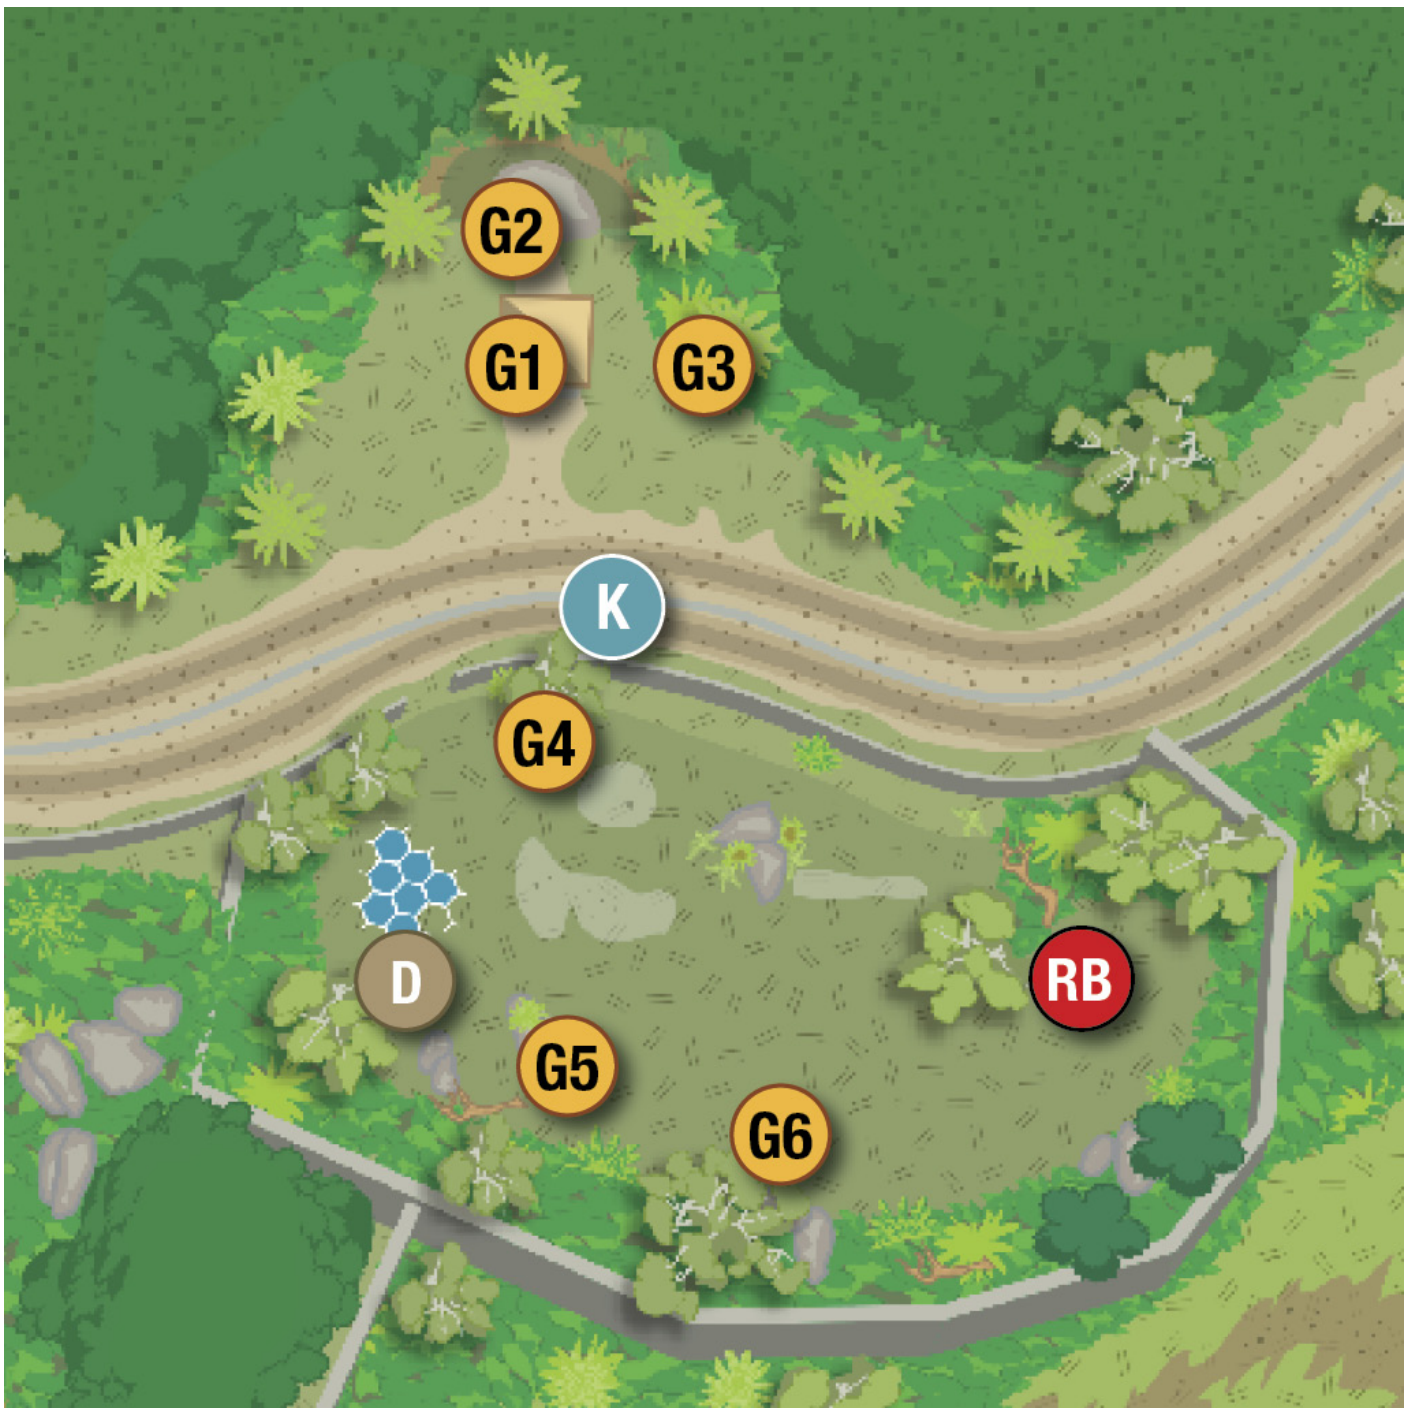
© 2015 The LEGO Group. ™ & © Universal Studios and Amblin. ™ & © Warner Bros. Entertainment Inc. (s15)

Hub Area Challenges: Jurassic Park

Dilophosaurus Territory

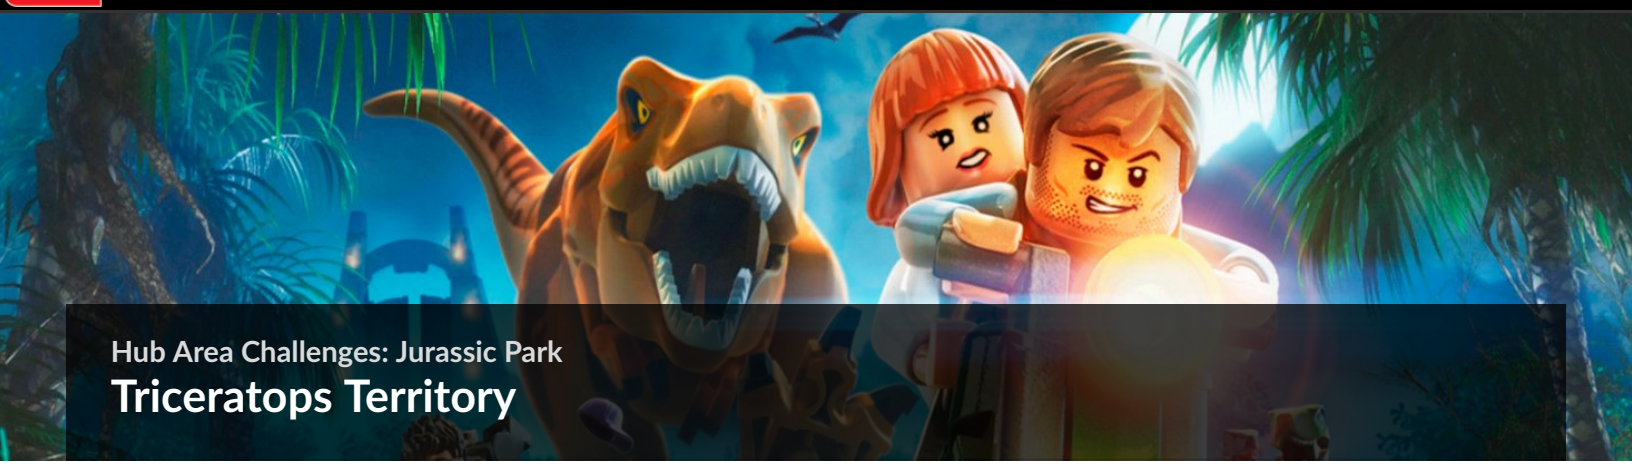
Dilophosaurus Territory

Continue along the route leading from the gate. The next area you come to is Dilophosaurus Territory. Expect to use this spitting dinosaur to help you complete the eight challenges.



Dilophosaurus Territory Challenges		
Icon	**Type**	**Notes**
D	Sick Dino	Find three items to feed this sick Dilophosaurus to heal it. (See “Healing the Sick Dilophosaurus.”)
G1	Gold Brick	Dig up the dirt to the left of the hut to reveal a tracking item. Assemble the bones into a bouncy so you can jump to the roof of the building and get the Gold Brick.
G2	Gold Brick	Use a raptor claw or knife to cut away vines. Then select a character who can go into dark areas to enter the cave and get the Gold Brick.
G3	Gold Brick	Shoot a target in a tree to the right of the building and a Gold Brick drops.
G4	Gold Brick	Use a Dilophosaurus to spit at the black fruit in three different trees to get this Gold Brick.
G5	Gold Brick	Select a dino that can break cracked objects. Use it to break open the cracked yellow device to get this Gold Brick.
G6	Gold Brick	Use a grappling hook to pull down a nest of eggs from atop a rock. Switch to a raptor and follow a scent trail that leads to this Gold Brick.
RB	Red Brick	Break up a cracked log using a dino with this ability. Then switch to a Dilophosaurus and spit at the large black rock. Finally, water the grow spot to reveal the Red Brick atop a flower.

© 2015 The LEGO Group. ™ & © Universal Studios and Amblin. ™ & © Warner Bros. Entertainment Inc. (s15)

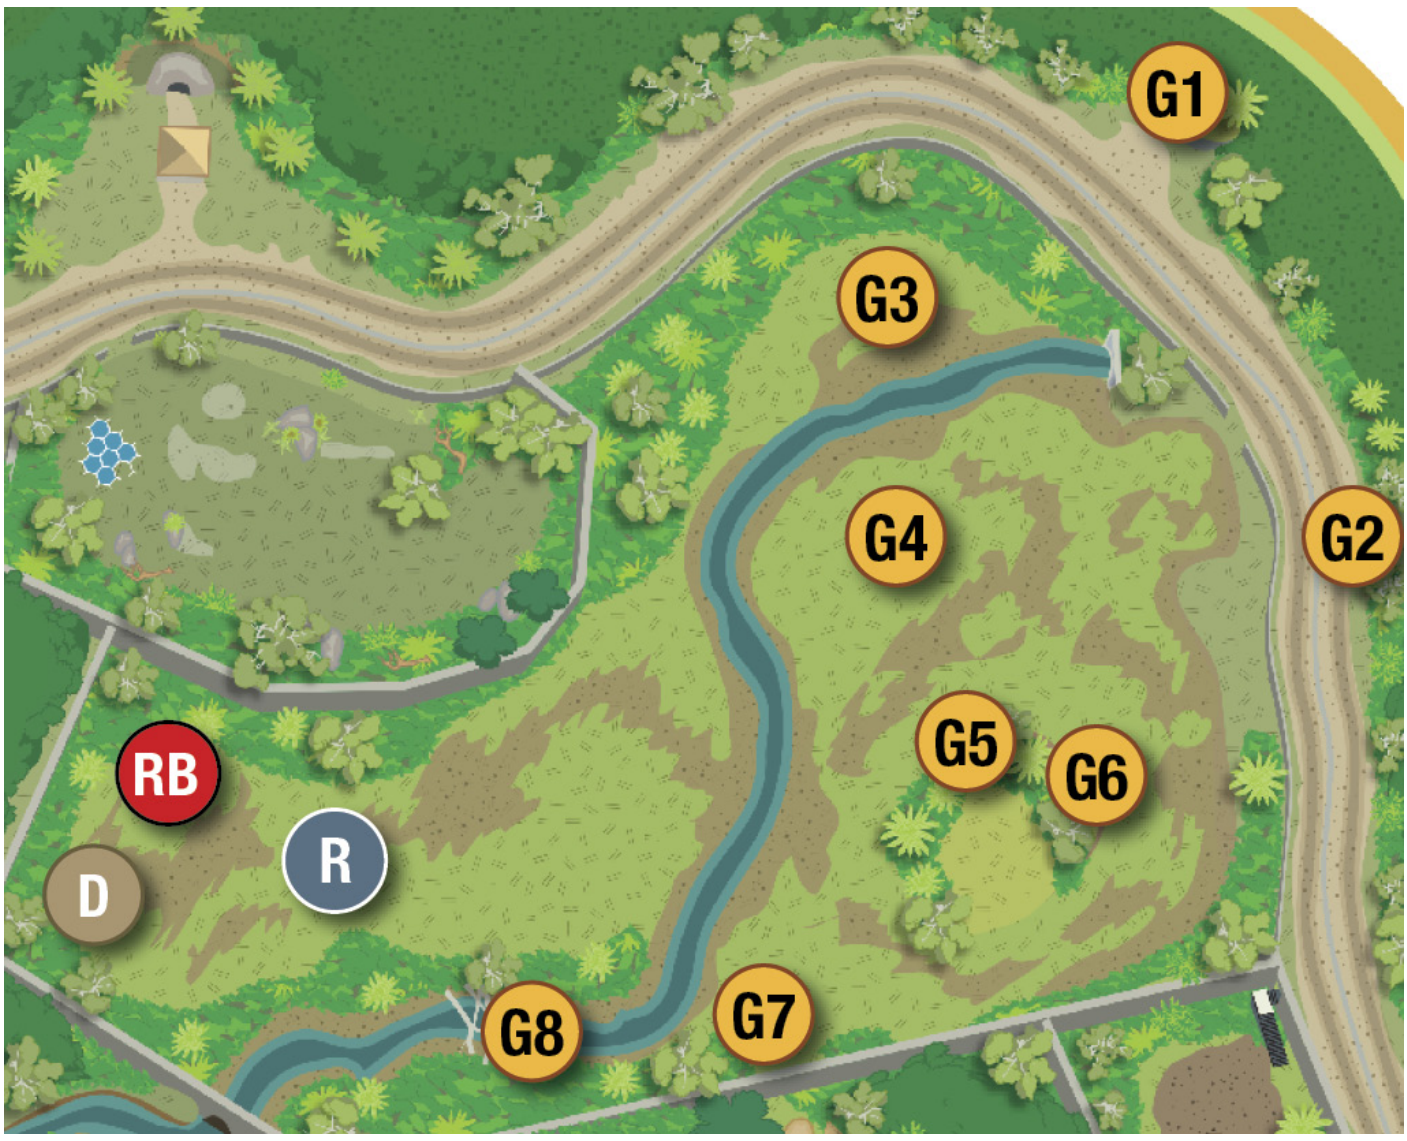


Hub Area Challenges: Jurassic Park

Triceratops Territory

Triceratops Territory

The next area along the tour route is Triceratops Territory. Be sure to visit this area since it contains 11 challenges! In the middle of the area near the stream, you find an InGen control panel. Select a character who can use these panels and put in the correct code to raise a bridge so you can cross the stream.



Triceratops Territory Challenges		
Icon	**Type**	**Notes**
D	Sick Dino	There is a sick Triceratops in this area. (See “Heal the Sick Triceratops.”)
G1	Gold Brick	Break up a plant along the side of the road; then track a trail to a dig spot. Water it to grow a bouncy plant which helps you jump to a ledge to get the Gold Brick.
G2	Gold Brick	Select Timmy Murphy and go into a dark cave alongside the road. Assemble the bones into a box which releases the Gold Brick.
G3	Gold Brick	Use a dino with the roar ability to shatter a large amber rock. Build a small bridge out of the pieces. Cross the bridge and use a tracking character to pick up a cherry and follow a trail to the Gold Brick.
G4	Gold Brick	Select the Pachycehphalosaurus. You must destroy 10 cracked pillars within 90 seconds. The key is to hold down the Attack button to make this dino run and charge into the pillars. If you don’t run, you can’t complete this in time. Beat this challenge to get the Gold Brick.
G5	Gold Brick	Use Eric Kirby’s T. rex scent to clear the Compy herd away from some bones.Then hit the bones to find the Gold Brick
G6	Gold Brick	Select a dinosaur from the dino pad that can destroy a quake object below a ridge with a ground pound. Then switch to a character and ride the geyser that appears to the top of the ridge to get this Gold Brick.
G7	Gold Brick	Select a strong dinosaur such as a T. rex and use it to pull apart a large object to get to the Gold Brick inside.
G8	Gold Brick	Select a dino able to use strength pulls, such as the T. rex, to pull apart a large LEGO boulder near the river to reveal a Gold Brick.
R	Race	Use the Triceratops you healed or another dinosaur to race through checkpoints before the timer runs out to complete the race and win a Gold Brick.
RB	Red Brick	Break up the crates next to the building by the sick Triceratops. Assemble the pieces into a computer. Switch to a character who can hack computer systems. Move the cursor over the x-ray and select the different parts of the Triceratops as required until you get the Red Brick.

© 2015 The LEGO Group. ™ & © Universal Studios and Amblin. ™ & © Warner Bros. Entertainment Inc. (s15)

Hub Area Challenges: Jurassic Park

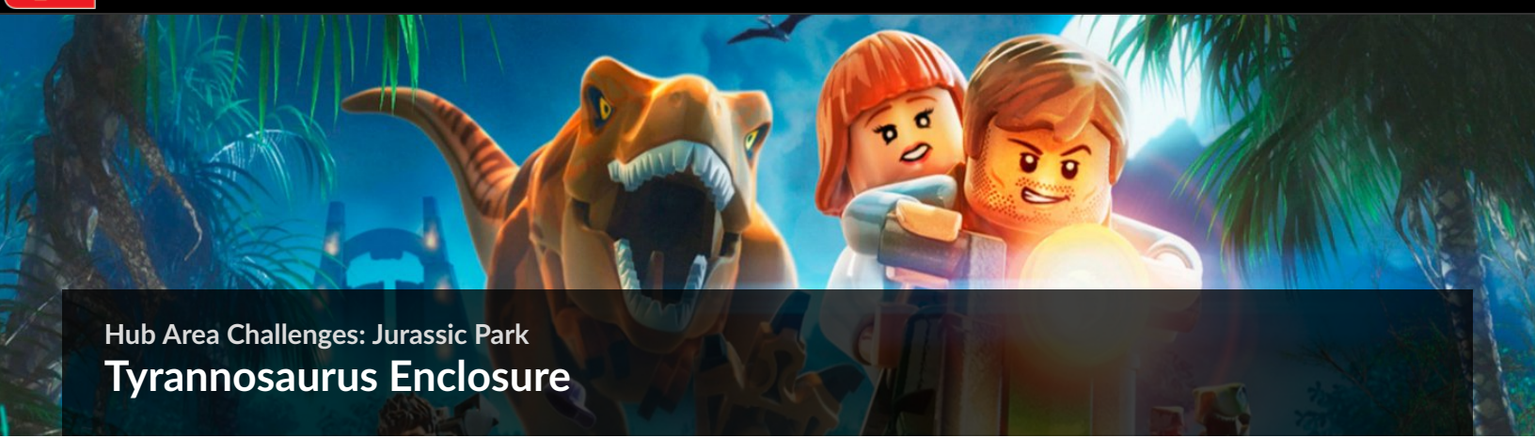
Herbivore Territory

Herbivore Territory

There are seven challenges in this area. Some are along the road while the rest are inside the enclosure. Just follow the tour route around to get here.

Herbivore Territory Challenges		
Icon	**Type**	**Notes**
G1	Gold Brick	You need to wall climb and glide to get this Gold Brick. (See “Glide for Gold.”)
G2	Gold Brick	Use a Dilophosaurus to spit venom at a large black rock to break it so you can get to the Gold Brick inside.
G3	Gold Brick	Use a raptor to pounce up a raptor rail and get onto the top of a scaffold where the Gold Brick is located.
G4	Gold Brick	Select a character with an electric rifle and shoot two blue targets to get this Gold Brick.
G5	Gold Brick	Rummage through some dino droppings near the map kiosk. Upon finding a sausage, switch to a raptor and follow the scent trail to the Gold Brick.
RB	Red Brick	Use a dino who can break cracked objects to break a rock. Then switch to a character who can go into the dark to enter a tunnel to get the Red Brick.
W	Worker in Peril	Use a knife or raptor claw to cut a rope and release a trapped worker. You also get a Gold Brick. (Completed in Story Mode.)

© 2015 The LEGO Group. ™ & © Universal Studios and Amblin. ™ & © Warner Bros. Entertainment Inc. (s15)

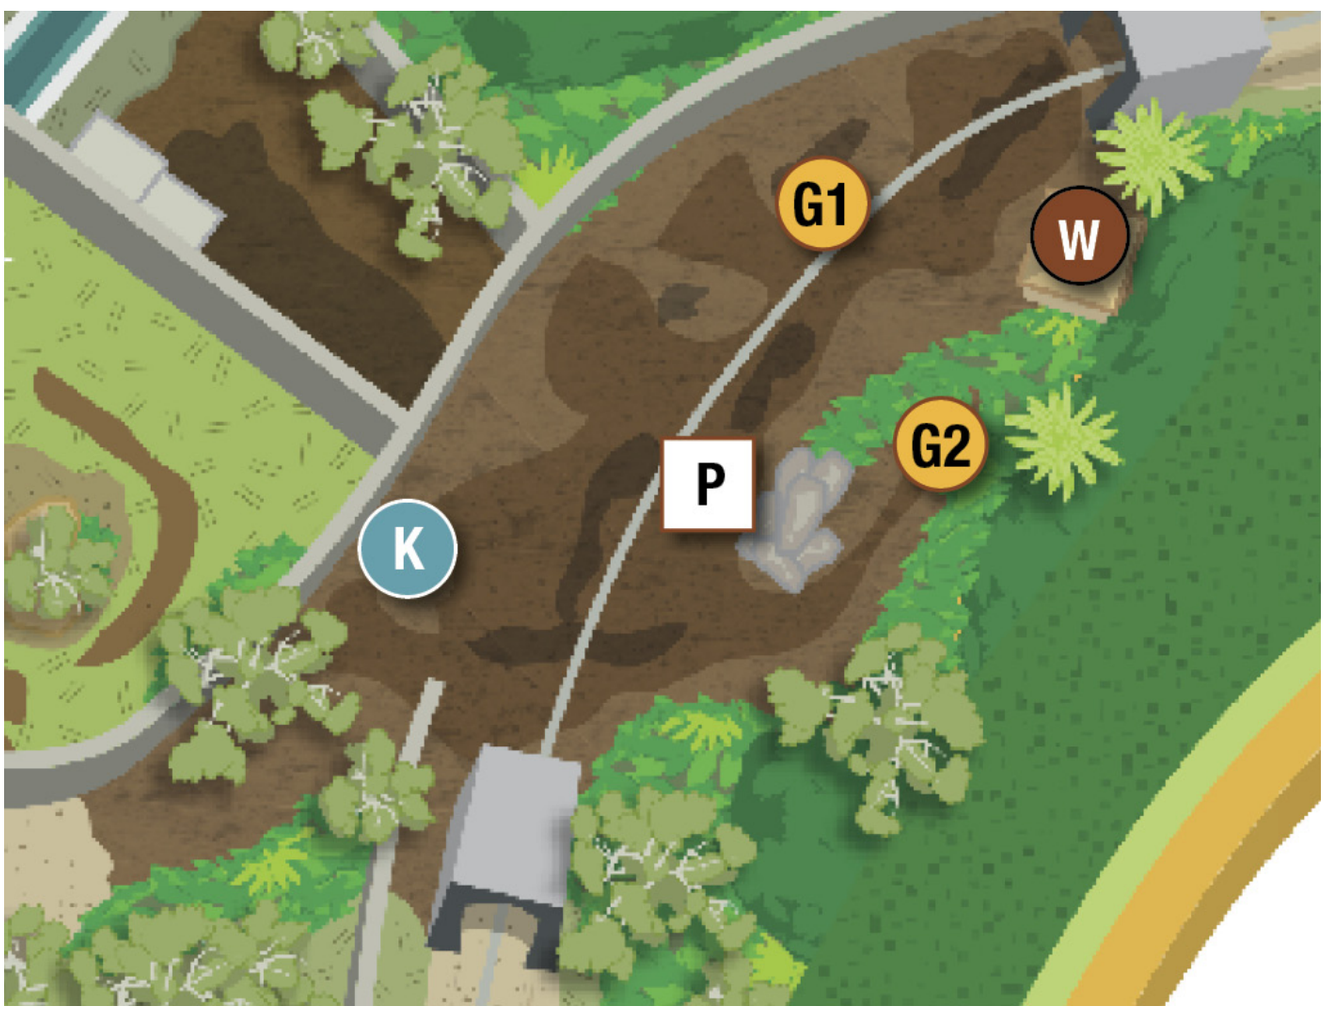


Hub Area Challenges: Jurassic Park

Tyrannosaurus Enclosure

Tyrannosaurus Enclosure

The fencing of the Tyrannosaurus Enclosure has been damaged. Luckily, the T. rex is not around. However, there are still four challenges you can complete. Better hurry before the large dino returns looking for something to eat.



Tyrannosaurus Enclosure Challenges		
Icon	**Type**	**Notes**
G1	Gold Brick	Fix one of the tour vehicles to get this Gold Brick. (See “Vehicle Repair.”)
G2	Gold Brick	Rummage through a large pile of dino droppings to find an object. Then switch to a character who can track a trail that leads to the Gold Brick.
P	Photo	Dig up a spot along the side of the road to find a tripod. Then select a character with a camera to take a photo and collect a Gold Brick.
W	Worker in Peril	Donald Gennaro is caught in the restroom. Use a character with a crowbar to free the person and also get a Gold Brick while you are at it.

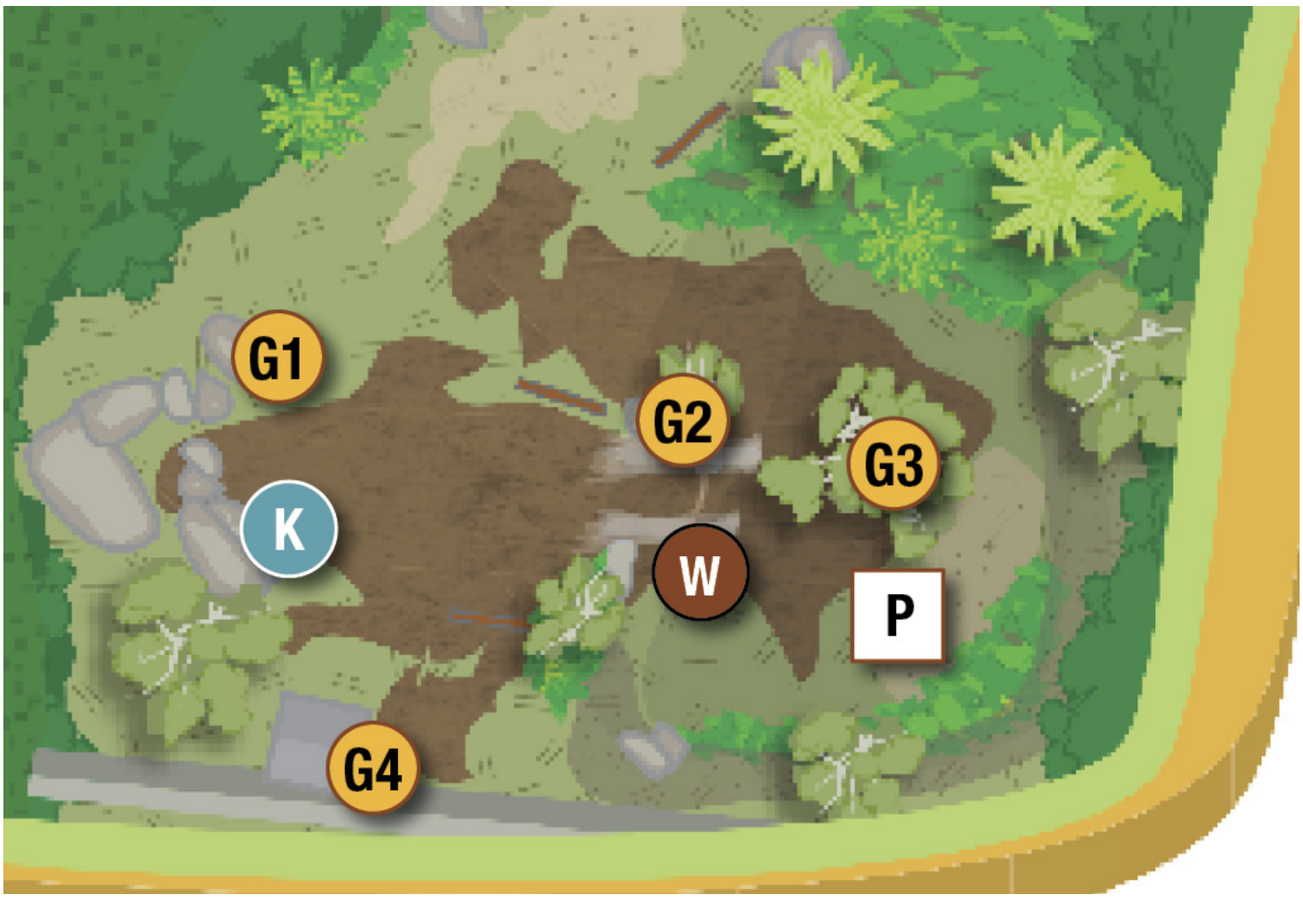
© 2015 The LEGO Group. ™ & © Universal Studios and Amblin. ™ & © Warner Bros. Entertainment Inc. (s15)

Hub Area Challenges: Jurassic Park

East Dock Route

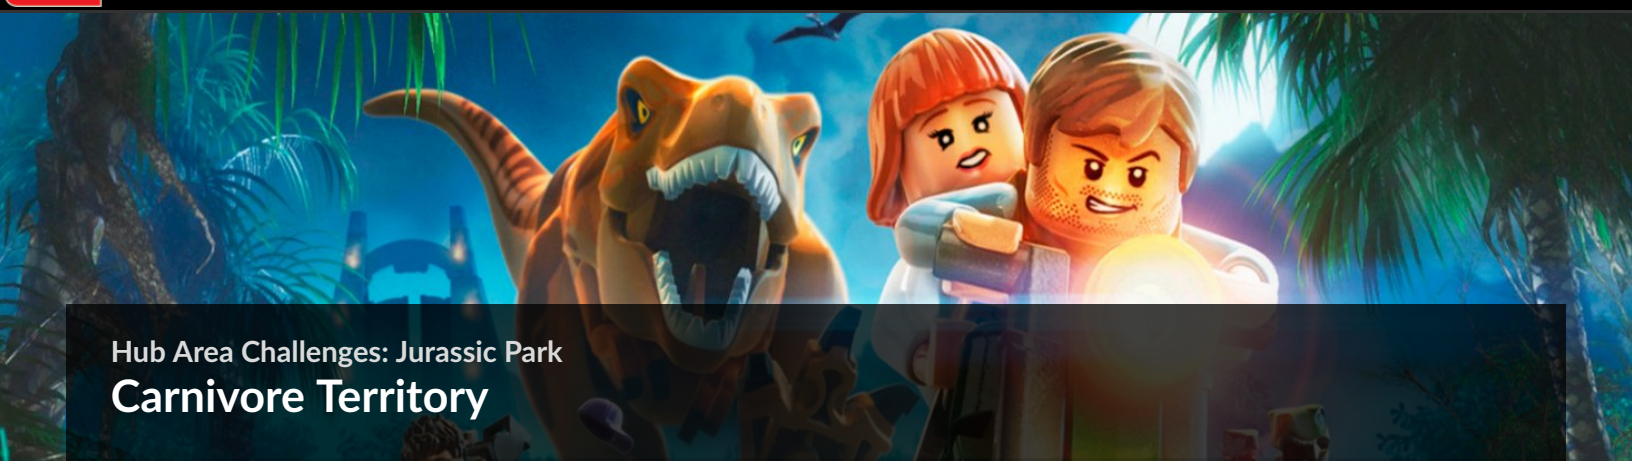
East Dock Route

If you take a detour from the tour route and follow a dirt road, you will find the East Dock Route area. There are six challenges here, so be sure to visit this area so you can add to your collection.



East Dock Route Challenges		
Icon	**Type**	**Notes**
G1	Gold Brick	Jump up a series of posts, starting with the shortest, to get to the Gold Brick floating above the tallest post.
G2	Gold Brick	Use a Dilophosaurus to spit at a black rock near the stuck vehicle. Dig up a spot that is revealed and assemble the pieces into a giant shaving cream can to get this Gold Brick.
G3	Gold Brick	This Gold Brick is hidden in a cave at the bottom of the slope. (See “Double Layers of Protection.”)
G4	Gold Brick	Use a character with the scream ability to shatter the glass window of the small building; then jump through to get the Gold Brick.
P	Photo	A tripod is located at the bottom of the slope. Use a character with a camera to take a photo and get a Gold Brick too.
W	Worker in Peril	A worker is stuck in a vehicle at the bottom of the slope. Use a crowbar to help him get out to safety and collect a Gold Brick while you are at it.

© 2015 The LEGO Group. ™ & © Universal Studios and Amblin. ™ & © Warner Bros. Entertainment Inc. (s15)



Hub Area Challenges: Jurassic Park

Carnivore Territory

Carnivore Territory

Carnivore Territory is located toward the end of the tour route as the road turns and begins returning toward the main gate. Enter this area through an opening in the fence with some steps over the wall. There are nine challenges in this area.

Carnivore Territory Challenges

Icon	Type	Notes
G1	Gold Brick	Use a dino who can break cracked rocks to get to the far left side of the enclosure. Then defeat the Compys within the time limit to earn a Gold Brick.
G2	Gold Brick	As a raptor, find a scent trail near the middle of this enclosure. Follow the trail to dig up a trophy; destroy the trophy and then continue following the trail to the Gold Brick.
G3	Gold Brick	Jump up a series of posts to get to the top of a tree stump. Then use a character with the glide ability to get to a ledge where a Gold Brick is waiting.
G4	Gold Brick	Shoot the blue target on the bunker outside the main paddock with an electric rifle. Then use a character who can go into dark areas to enter the dark building to get the Gold Brick.
G5	Gold Brick	Shoot a target up in a tree near the vehicle pad. Using a character with the tracking ability, pick up a banana that falls and follow the trail to a grow spot. Water it with a character who has this ability and then bounce on the flower which grows to get to the Gold Brick on top of the roof of the building.
G6	Gold Brick	Select a Compy and move into the Compy tube. Switch to a character with a rifle or projectile and hit the target to move a section of the tube; then move the Compy, shoot the target again, and the dino can reach the end of the tube to open a cage with a Gold Brick inside.
G7	Gold Brick	Cut away some vines along the road to reveal a small hatch. Switch to a small character, then go through a series of hatches to get to a cave on the side of a cliff. Use a character who can go into the dark to enter the cave and get the Gold Brick.
R	Race	Use a Pachycephalosaurus for this race and hold down the Attack button to run through the checkpoints before the timer runs out. Complete the race to get a Gold Brick.
RB	Red Brick	Find three dinosaur eggs. (See “Egg Hunt.”)

© 2015 The LEGO Group. ™ & © Universal Studios and Amblin. ™ & © Warner Bros. Entertainment Inc. (s15)

Hub Area Challenges: Jurassic Park

Tour Route Exit

Tour Route Exit

This area is spread out along the road leading back toward the main gate.

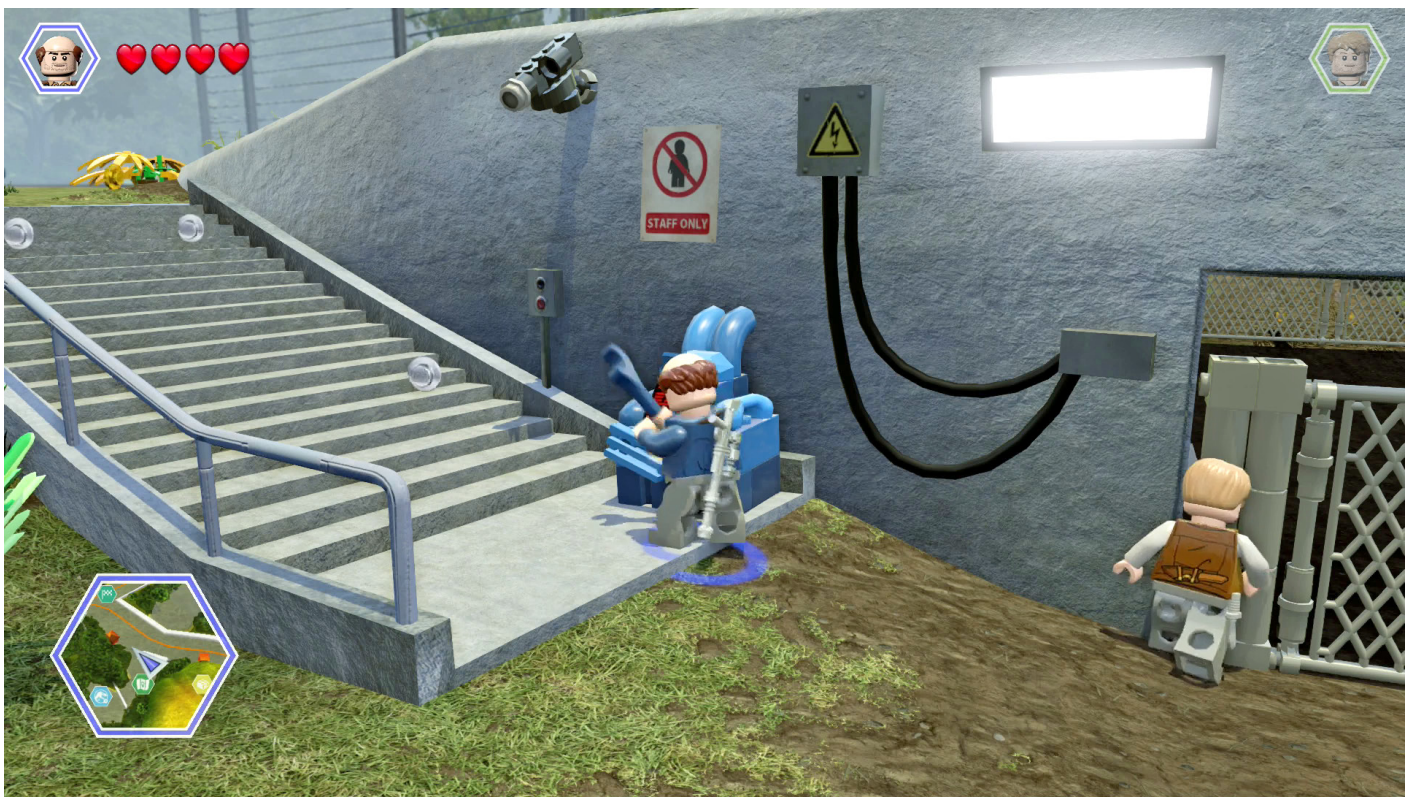
Tour Route Exit Challenges		
Icon	**Type**	**Notes**
G1	Gold Brick	This Gold Brick is located in a fenced off area. (See “Breaking In to Get the Gold Brick.”)
G2	Gold Brick	Use a small character to go through a hatch on the side of the road. Switch to a female character and twirl around poles to get to the Gold Brick.
W	Worker in Peril	A worker is surrounded by a Compy herd along the side of the road. Use Eric Kirby to clear away the tiny dinos and save the worker and get the Gold Brick.

© 2015 The LEGO Group. ™ & © Universal Studios and Amblin. ™ & © Warner Bros. Entertainment Inc. (s15)

Hub Area Challenges: Jurassic Park

Gallimimus Territory

Gallimimus Territory



This area is a bit tougher to get into than some of the others. There is a tunnel that goes under the road leading back to the main gate. Use a character with the ability to repair and fix the controls and open the gate to the tunnel. Then move through the tunnel to get into the Gallimimus enclosure where the map kiosk is located. Pick up the Gold Brick in the tunnel to get started. There are 12 challenges in this area! Some are located within the enclosure while the rest are along the road outside.

Gallimimus Territory Challenges		
Icon	**Type**	**Notes**
D	Sick Dino	Heal the sick Gallimimus to complete this challenge and earn a Gold Brick. (See “Heal the Gallimimus.”)
G1	Gold Brick	This area is only accessible from a path behind the lake opposite the Visitor Center. Use a character who can operate a hand scanner to open a door. Then switch to a character who can go into the dark to get the Gold Brick.
G2	Gold Brick	Break up a crate next to the restroom and assemble it into a pivoting plank. Stand in the Buddy Boost; then switch characters. Get a boost from the first character to jump to the other side of the plank and propel the other character onto the roof. Walk across the scaffold to get the Gold Brick.
G3	Gold Brick	Use a character who can scream to shatter the glass of a vending machine next to a restroom to get this Gold Brick.
G4	Gold Brick	After fixing the controls to the tunnel that goes under the road, pick up the Gold Brick inside.
G5	Gold Brick	Water three grow spots spread across this paddock to make flowers bloom. The Gold Brick is in the third flower.
G6	Gold Brick	Use a large dinosaur who can break quake LEGO in this area to get another Gold Brick.
G7	Gold Brick	As a T. rex or other dino that can roar, break the three Amber rocks in the area and drive the Gallimimus into a pen to get the Gold Brick.
G8	Gold Brick	Use a strong dinosaur such as T. rex to pull on a rock to break it and expose a cave. Send in a character who can go into dark places to get the Gold Brick.
P	Photo	This area is only accessible from a path behind the lake opposite the Visitor Center. Use a Dilophosaurus to spit at a black rock and break it. Assemble the pieces into a tripod; then use a character with a camera to take the photo and get a Gold Brick.
R	Race	Use a dinosaur to race through the checkpoints before the timer runs out. Complete the race to earn a Gold Brick.
RB	Red Brick	Break a crate near a yellow feeding device and assemble the pieces into a raptor rail. As a raptor, grab onto and pull the rail. Switch to a character and turn the crank on the side of the device. Swap back to the raptor and release the rail. Do this two more times to get the Red Brick.

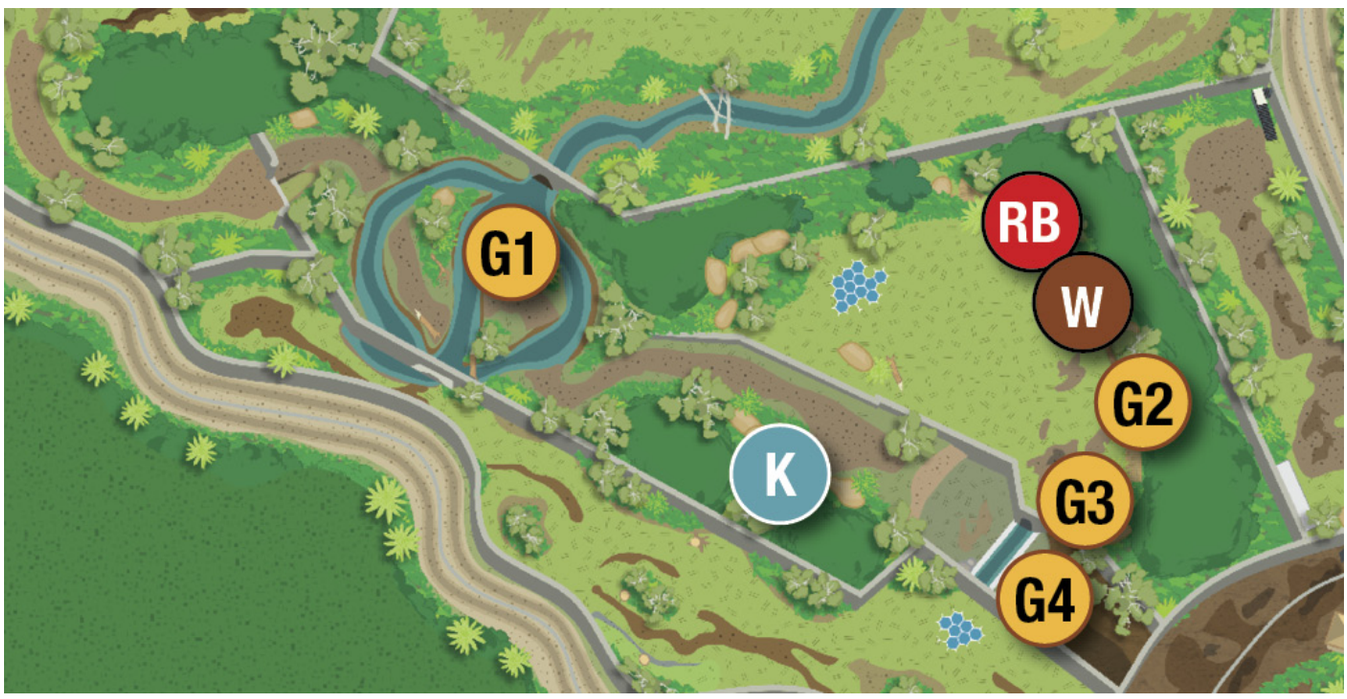
© 2015 The LEGO Group. ™ & © Universal Studios and Amblin. ™ & © Warner Bros. Entertainment Inc. (s15)

Hub Area Challenges: Jurassic Park

Tyrannosaurus Territory

Tyrannosaurus Territory

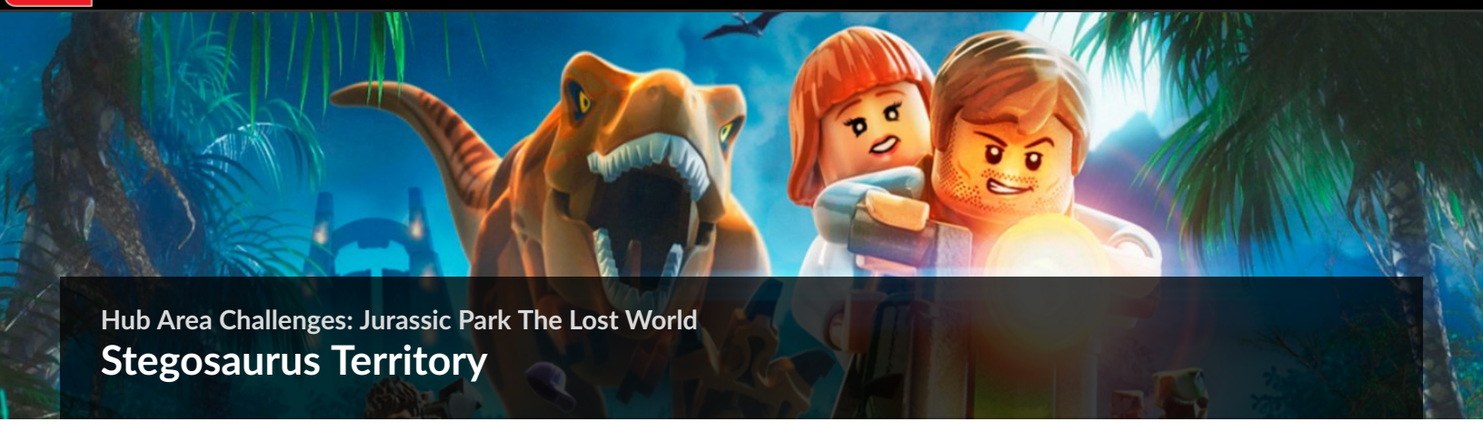
The only way into Tyrannosaurus Territory is to follow a path leading from Gallimimus Territory. You will have to get past a few obstacles on the way. This area contains six challenges. The main part of the area is divided into a lower and an upper level. Most of the challenges are on the upper level. In order to get to this part of the area, shoot a blue target with an electric rifle to lower a ladder.



Tyrannosaurus Territory Challenges

Icon	Type	Notes
G1	Gold Brick	After crossing the stream by hopping over the lily pads, switch to a character who can climb to get to the top of a large rock and get the Gold Brick.
G2	Gold Brick	Hit the targets in this shooting gallery to get the Gold Brick. (See “Target Shooting.”)
G3	Gold Brick	Break up a cracked log by using a dinosaur who has this ability to get this Gold Brick.
G4	Gold Brick	While on the upper level, stand on the wall near the cracked log where there are some sparkles in the air. Use a character with a parasail to glide across the lower area to a platform with a Gold Brick on it.
RB	Red Brick	Use a strong dinosaur to pull apart a cage to get the Red Brick inside.
W	Worker in Peril	One of the workers is stuck in Amber. Use a dinosaur with the roar ability to shatter the Amber and release the worker. You also get a Gold Brick.

© 2015 The LEGO Group. ™ & © Universal Studios and Amblin. ™ & © Warner Bros. Entertainment Inc. (s15)



Hub Area Challenges: Jurassic Park The Lost World

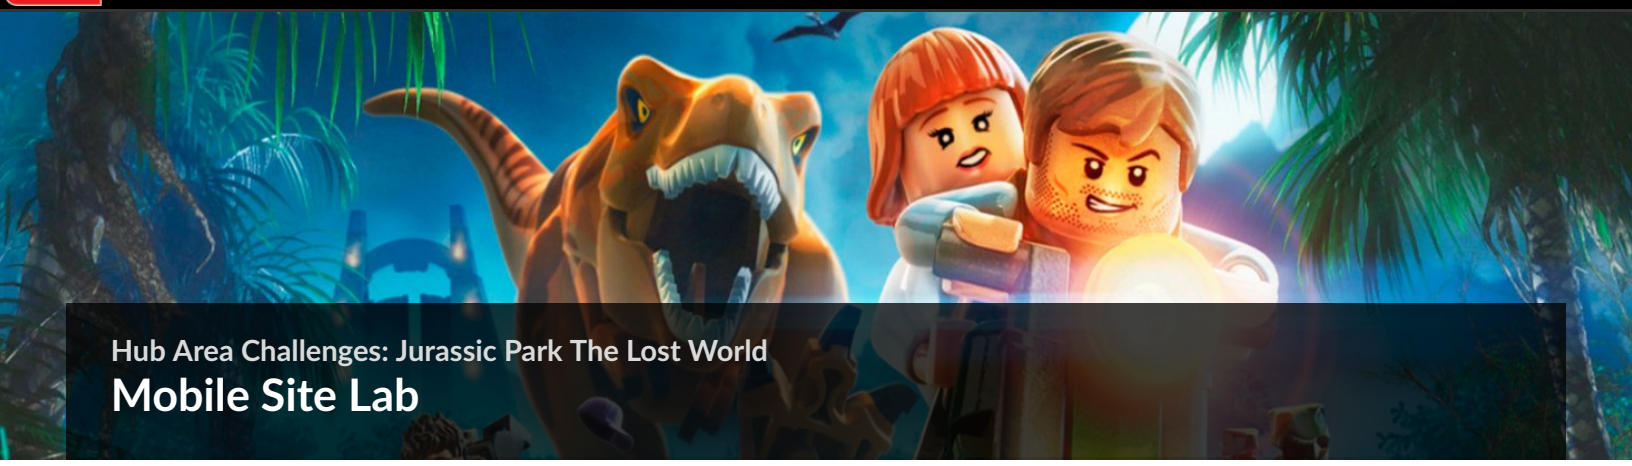
Stegosaurus Territory

Stegosaurus Territory

Once you arrive at the docks, start trekking into the jungle. The first area is Stegosaurus Territory. There are five challenges here.

Stegosaurus Territory Challenges		
Icon	**Type**	**Notes**
G1	Gold Brick	Select a dinosaur that can break cracked objects to break a large lantern-shaped object. Then defeat the hunters within the time limit to get this Gold Brick.
G2	Gold Brick	Use a Dilophosaurus to spit venom at a black rock. Then switch to a small character to go through the hatch. Push a crate along some checkered tiles to break it and get the Gold Brick.
G3	Gold Brick	Use a crowbar to free a Stegosaurus that has its tail caught to get this Gold Brick.
G4	Gold Brick	As a raptor, pounce to a ledge using a raptor rail and break some plants to get to the Gold Brick.
RB	Red Brick	Smash a number of cracked walls to get this Red Brick. (See “Smash and Run.”)

© 2015 The LEGO Group. ™ & © Universal Studios and Amblin. ™ & © Warner Bros. Entertainment Inc. (s15)

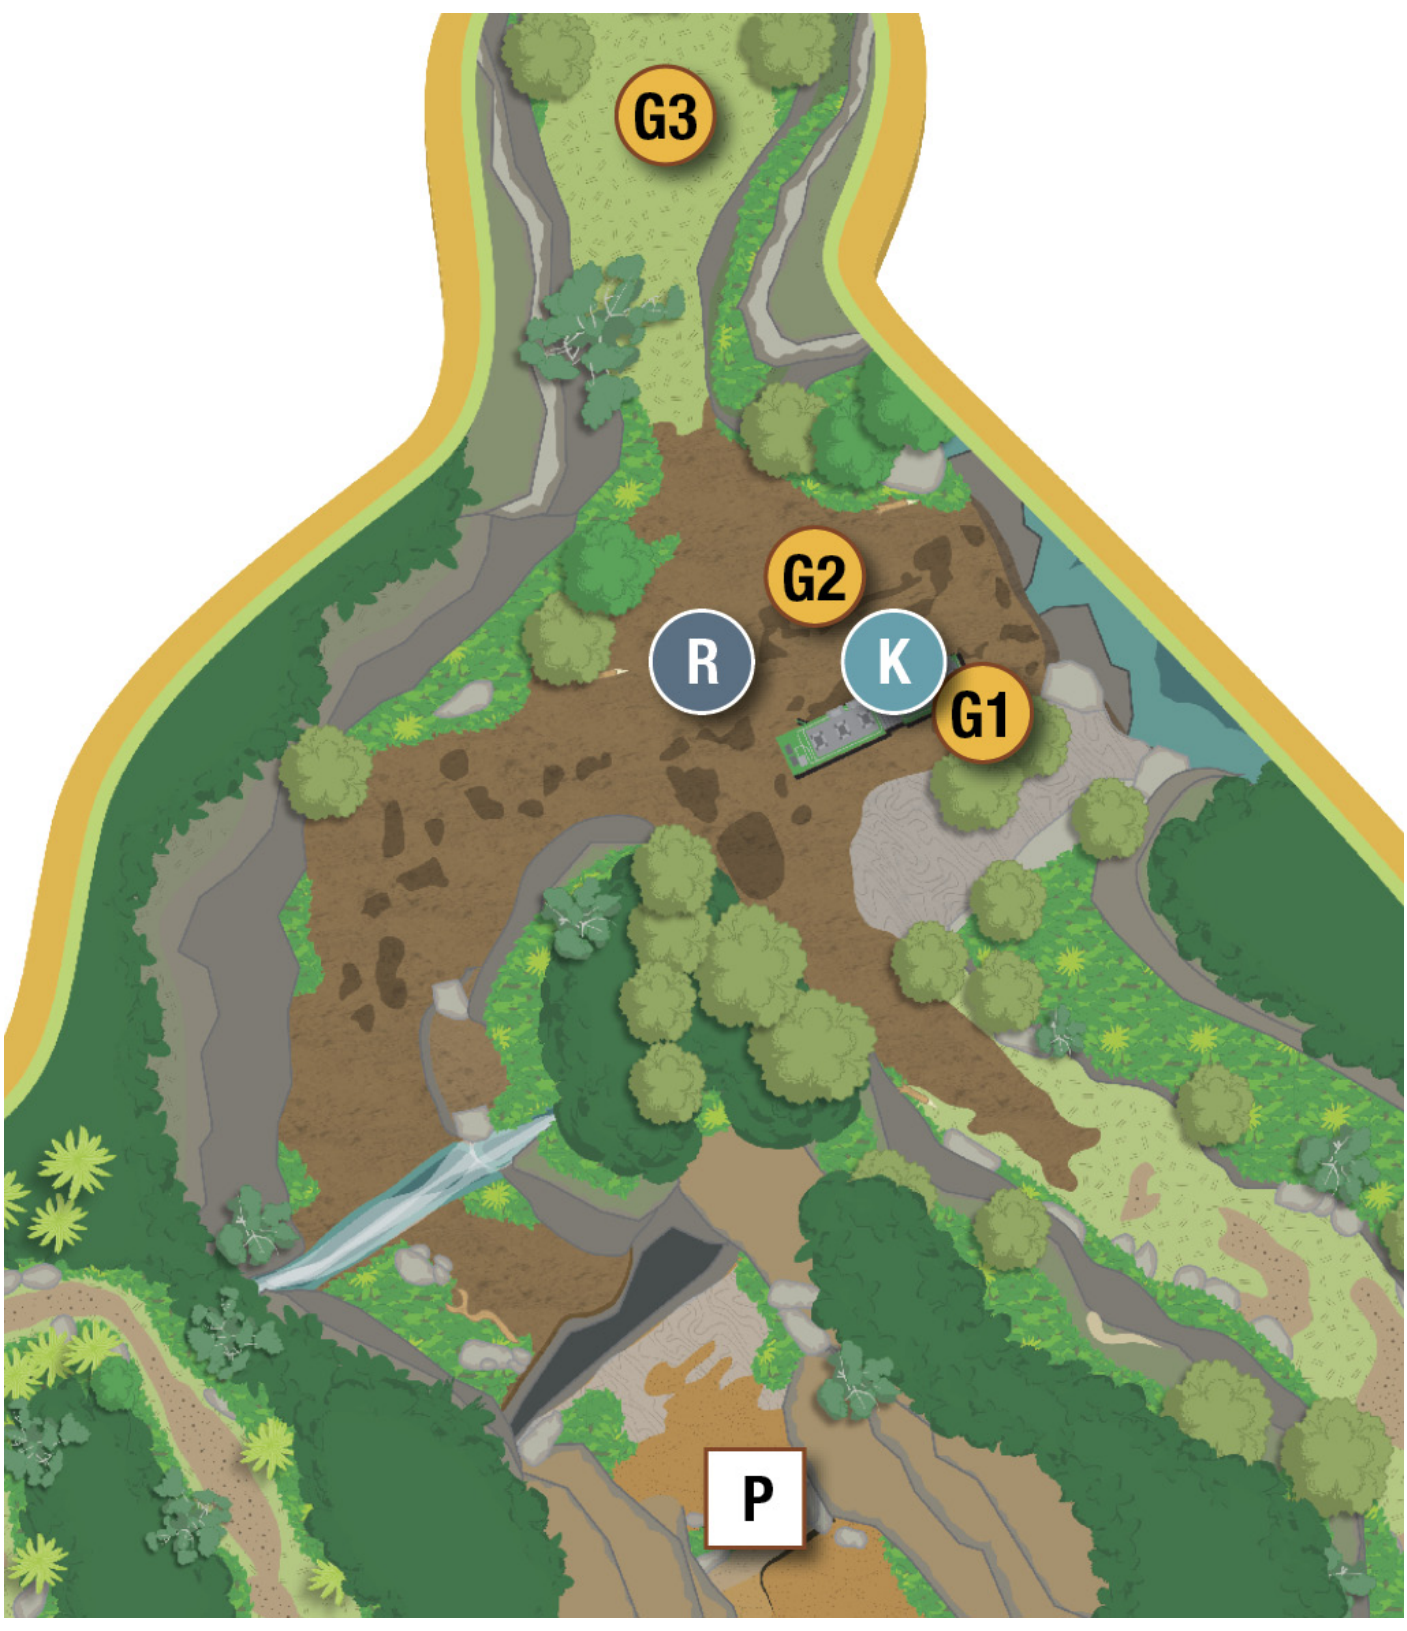


Hub Area Challenges: Jurassic Park The Lost World

Mobile Site Lab

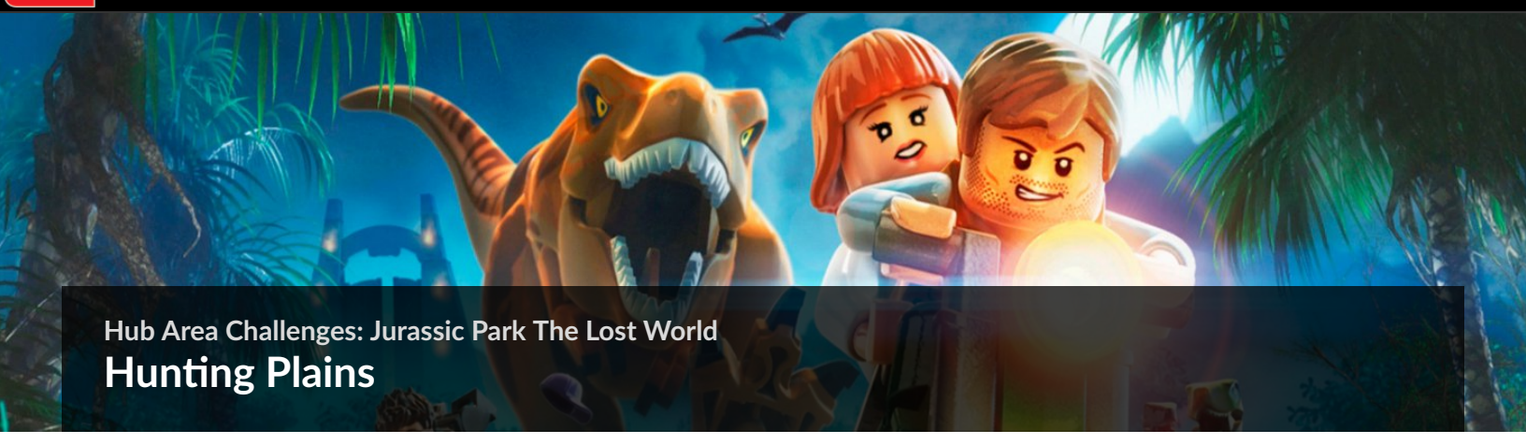
Mobile Lab Site

The Mobile Lab Site area is the first one you come across with the vehicle pad. It also has five challenges which are scattered around this area. While the race takes you back to the previous area, the photograph challenge leads you forward to the next area.



Mobile Lab Site Challenges		
Icon	**Type**	**Notes**
G1	Gold Brick	Use a Dilophosaurus to spit at a pile of black rocks near the cliff's edge to break them up. Then move in and get the Gold Brick.
G2	Gold Brick	Water a grow spot with a character with that ability. When a flower blooms, a Gold Brick drops out.
G3	Gold Brick	You must rescue a captured Gold Brick. (See "The Caged Gold Brick.")
P	Photograph	Follow the trail around toward the Hunting Plains; then break a rock and build a tripod. Select a character with a camera and take the photo.
R	Race	Race through a series of checkpoints within the time limit. Since you need to be able to jump and run, use a Gyrosphere to do this.

© 2015 The LEGO Group. ™ & © Universal Studios and Amblin. ™ & © Warner Bros. Entertainment Inc. (s15)

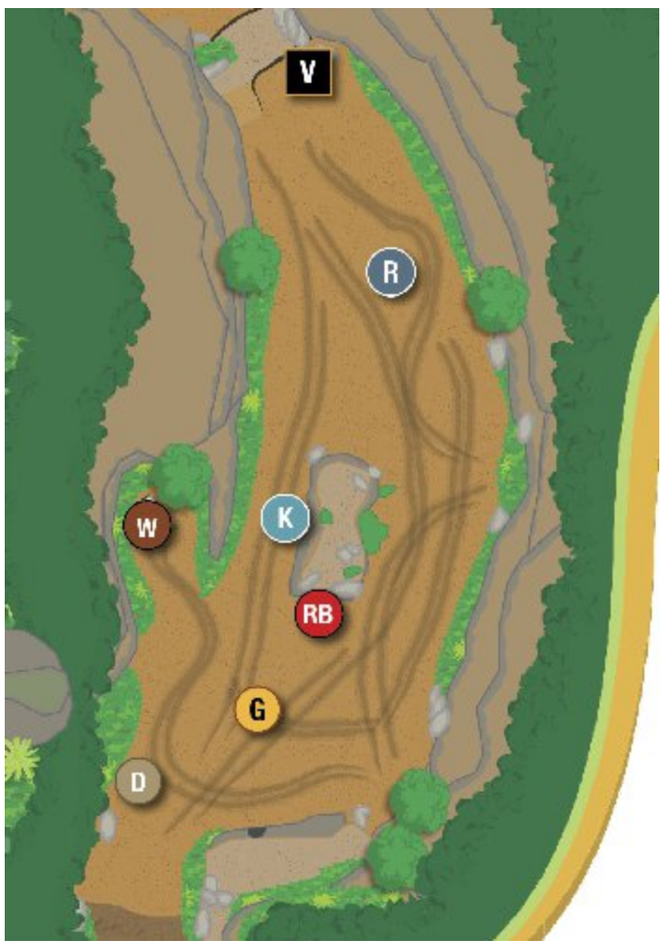


Hub Area Challenges: Jurassic Park The Lost World

Hunting Plains

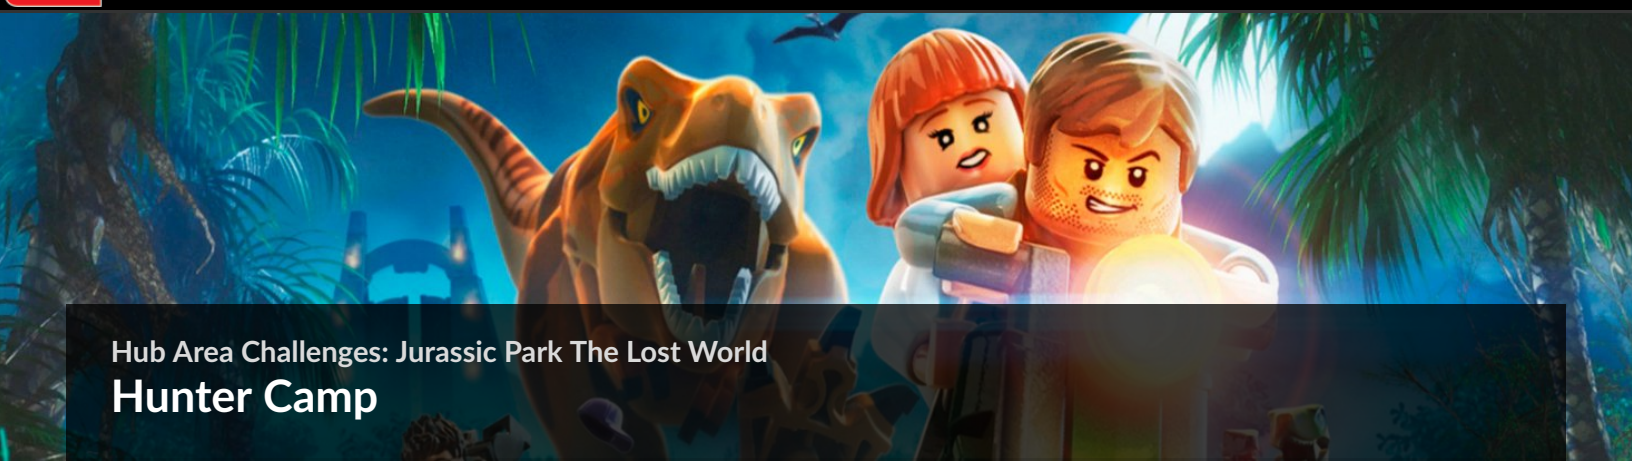
Hunting Plains

The Hunting Plains is in the middle of the hub and it's wide open compared to the other areas. There are a total of five challenges here.



Hunting Plains Challenges		
Icon	**Type**	**Notes**
D	Sick Dino	See "Healing the Dino." (Completed in the Story Mode's Hub Transit 7.)
G	Gold Brick	Select a large dinosaur that can break quake LEGO; then use it to break three of the pads to get the Gold Brick.
R	Race	Select a vehicle and then race around this area without letting time run out to complete the race and earn a Gold Brick.
RB	Red Brick	Use the Gyrosphere fling pad to break tech. Use the roar ability on the amber revealed and collect the Red Brick.
W	Worker in Peril	A worker is surrounded by a Compy herd. Use Eric Kirby's ability to drive them away to save the worker and get a Gold Brick.

© 2015 The LEGO Group. ™ & © Universal Studios and Amblin. ™ & © Warner Bros. Entertainment Inc. (s15)

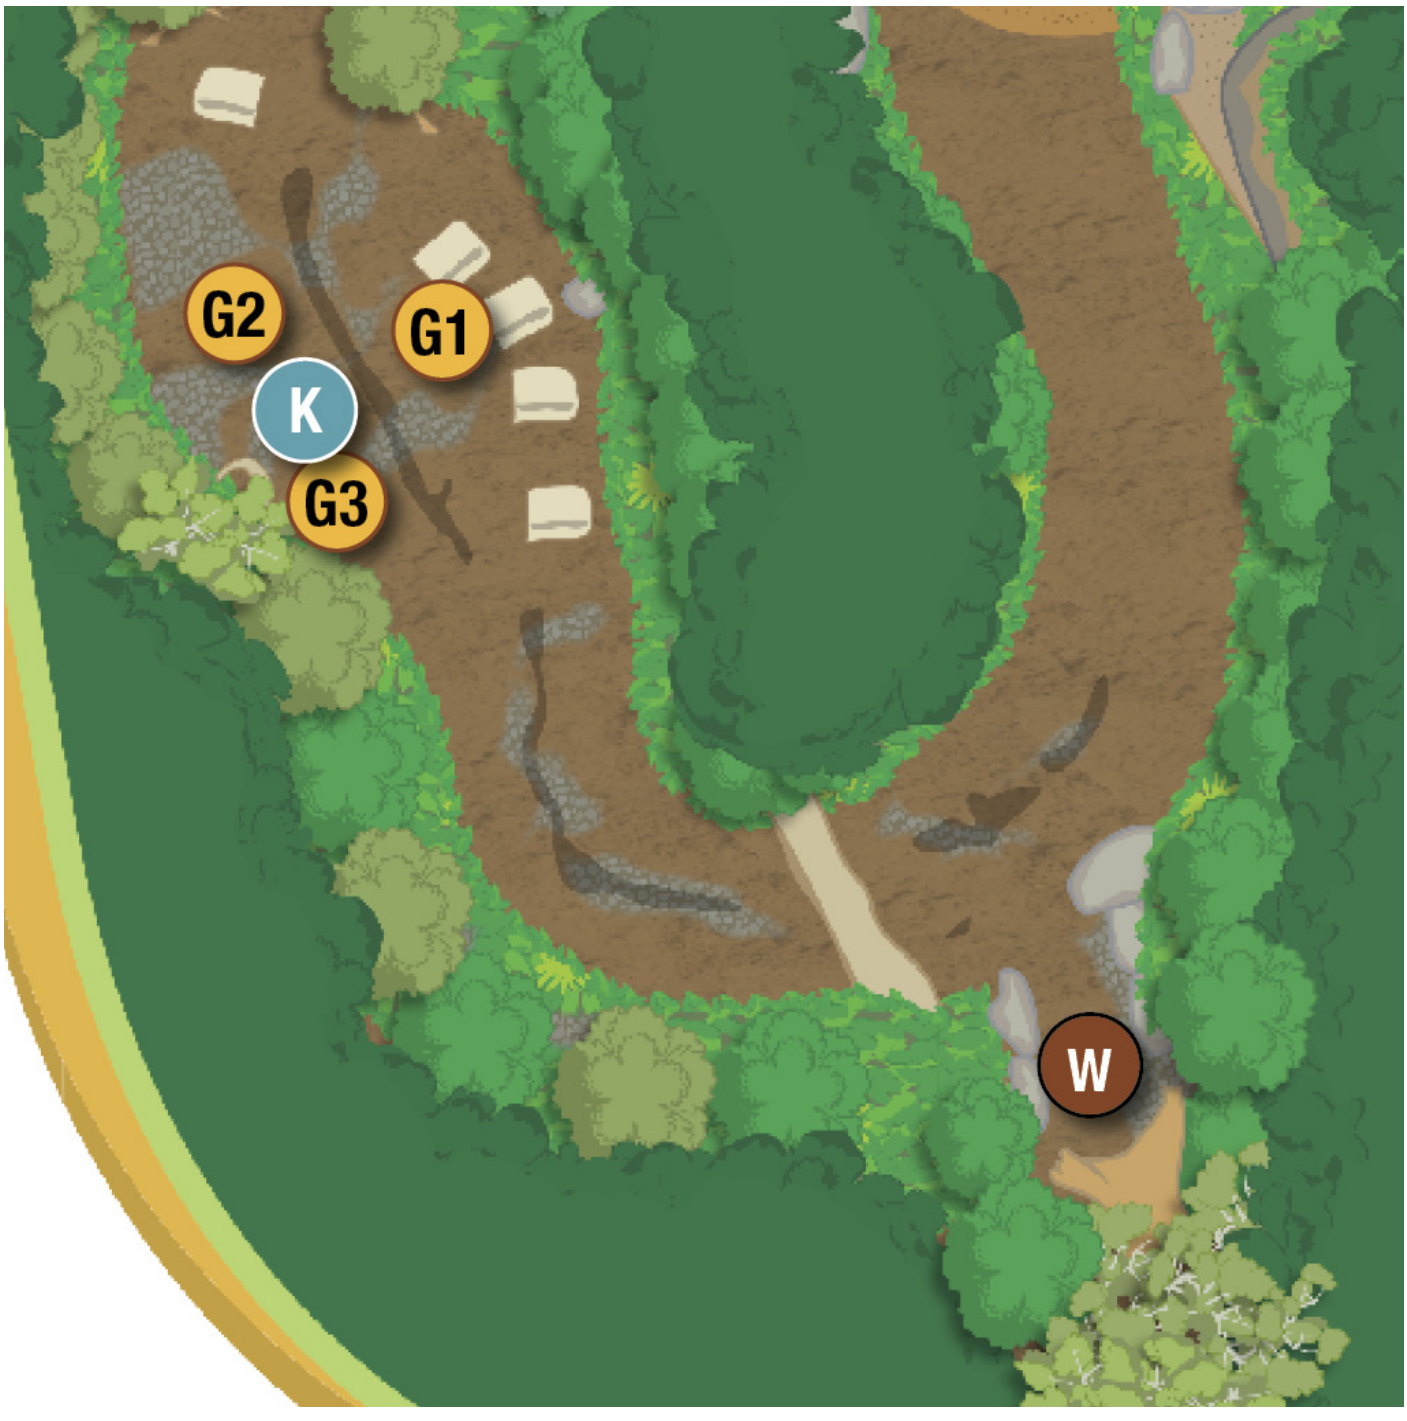


Hub Area Challenges: Jurassic Park The Lost World

Hunter Camp

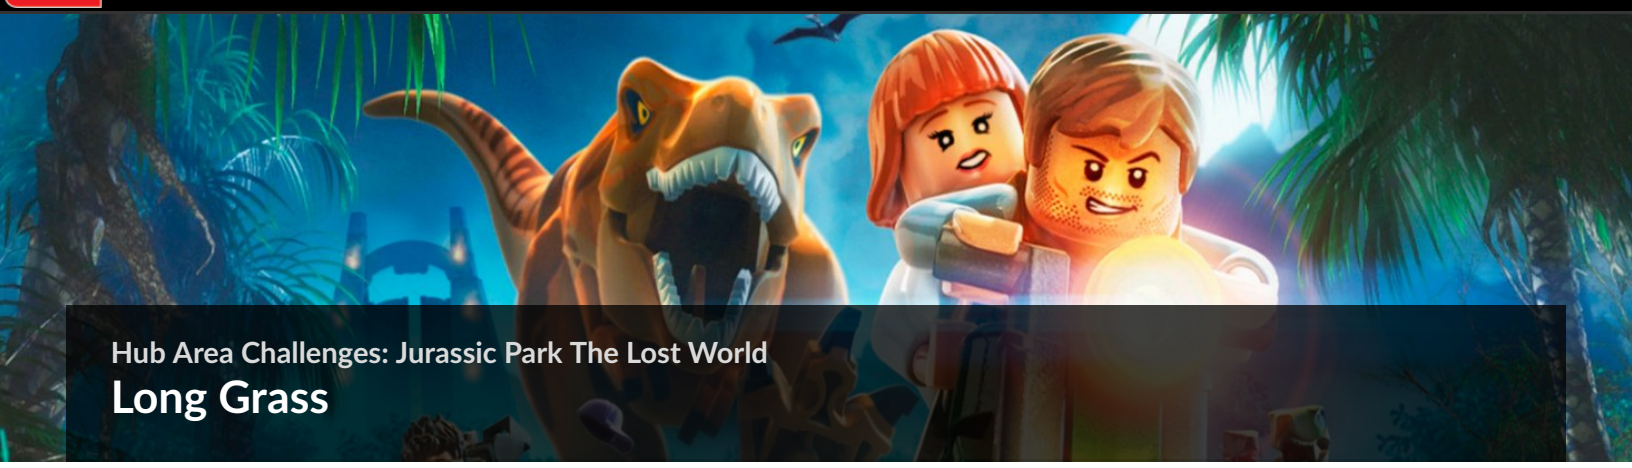
Hunter Camp

The InGen hunters have set up camp in this part of the jungle. While a few of them will fight you, there are others that need your help and will show their appreciation with rewards of Gold Bricks.



Hunter Camp Challenges		
Icon	**Type**	**Notes**
G1	Gold Brick	Break up some crates near the tents and assemble the pieces into a giant marshmallow for toasting over the campfire to get this Gold Brick.
G2	Gold Brick	Grow some flowers and play music to get this Gold Brick. (See “Musical Flowers.”)
G3	Gold Brick	A hunter has lost his rifle. Use a small character to go through a hatch in the tree to find the rifle. Pick it up and take it back to the hunter to get a Gold Brick.
W	Worker in Peril	Cut away a wall of vines with a knife or raptor claw; then use Eric Kirby to drive away a Compy herd to save this worker and get a Gold Brick.

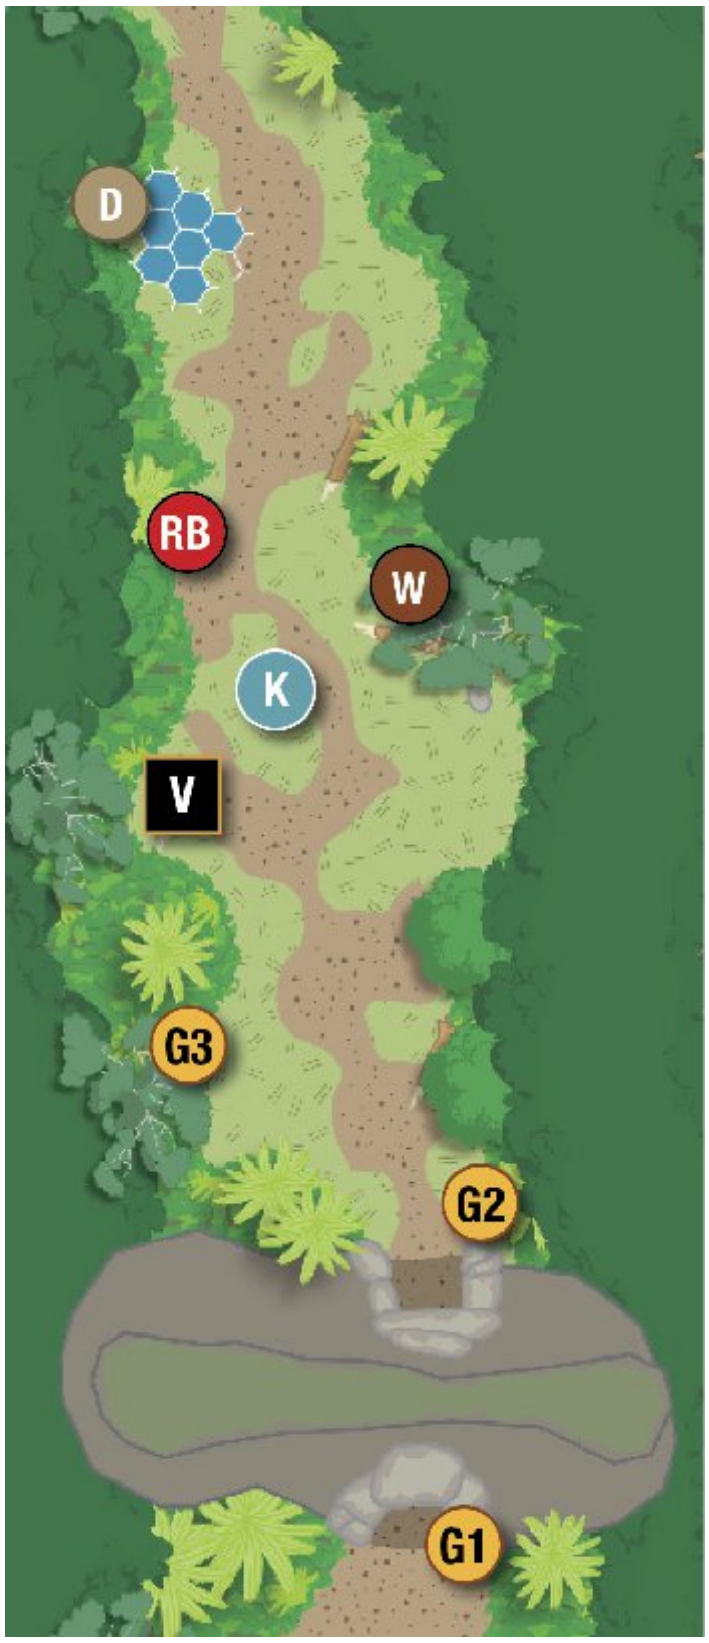
© 2015 The LEGO Group. ™ & © Universal Studios and Amblin. ™ & © Warner Bros. Entertainment Inc. (s15)



Hub Area Challenges: Jurassic Park The Lost World

Long Grass

Long Grass

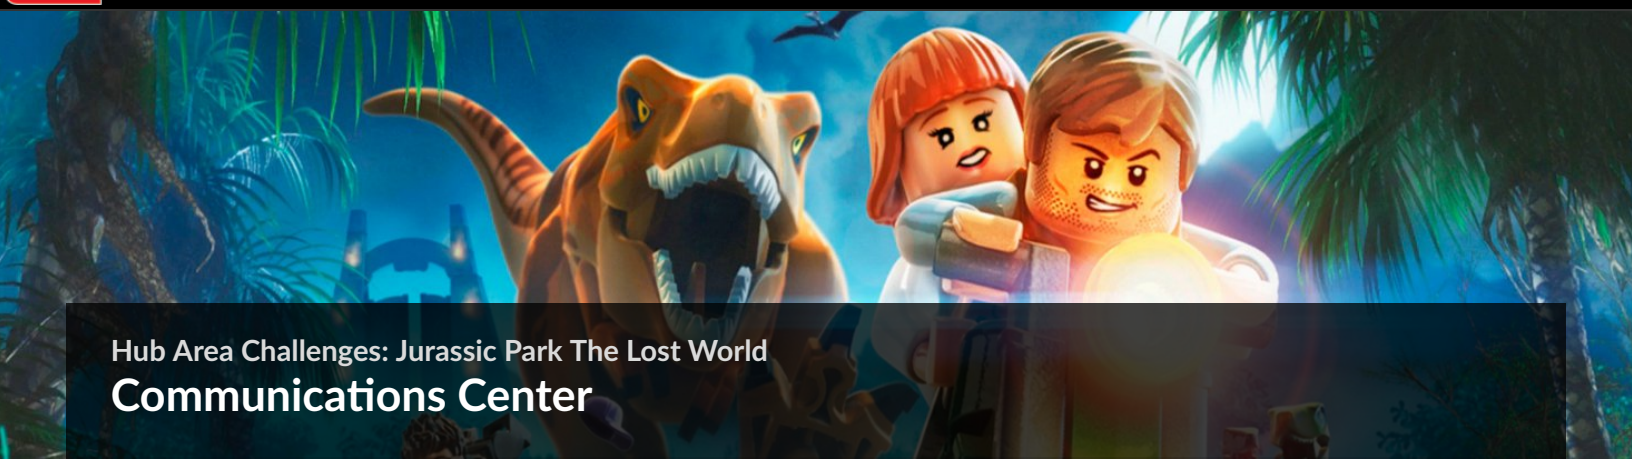


This area contains six challenges which are all located near one another. While some are fairly obvious, others are a bit more hidden. Be sure to look around and even look up to find objects that will lead you to Gold Bricks and a Red Brick.

Long Grass Challenges

Icon	Type	Notes
D	Sick Dino	Heal a sick Velociraptor to get this Gold Brick. (See “Raptor Recovery.”)
G1	Gold Brick	On the outside of the waterfall tunnel, use a grappling hook on an orange piece. Then climb up the rope and jump across the grab points to get the Gold Brick.
G2	Gold Brick	Use a crowbar to pry open a rock to get at the Gold Brick.
G3	Gold Brick	Select a raptor and pull on a raptor rail to get to the Gold Brick.
RB	Red Brick	Switch to a raptor and follow a scent trail around the area to find the Red Brick.
W	Worker in Peril	A worker is stuck under a vehicle. Pull the worker out from under the vehicle and get the Gold Brick.

© 2015 The LEGO Group. ™ & © Universal Studios and Amblin. ™ & © Warner Bros. Entertainment Inc. (s15)

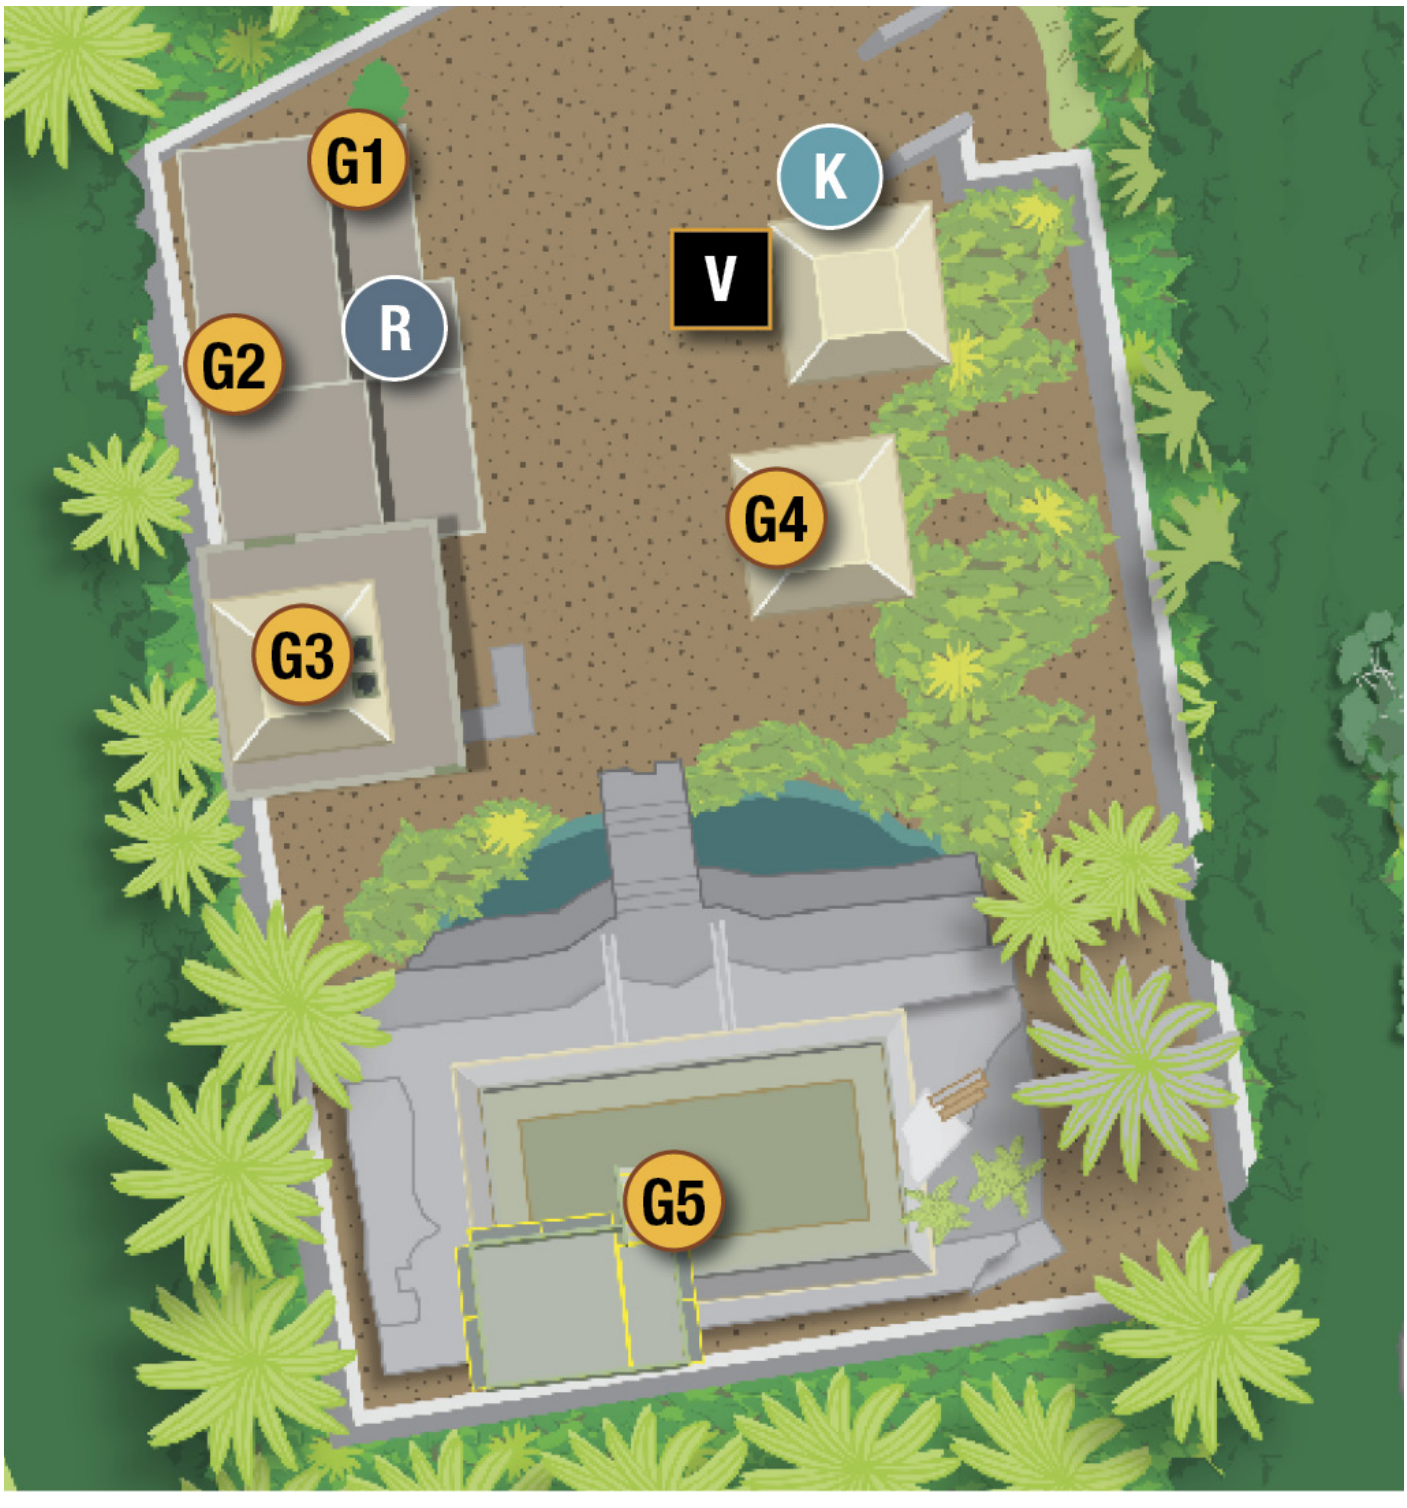


Hub Area Challenges: Jurassic Park The Lost World

Communications Center

Communications Center

The Communications Center is located at the end of the long and winding trail which began at the docks. Six challenges are here, all within the walled compound. You will need to get on the roofs of two buildings for a few of the challenges.



Communications Center Challenges		
Icon	**Type**	**Notes**
G1	Gold Brick	This Gold Brick is located in a garage. (See “Car Repair.”)
G2	Gold Brick	As a raptor, follow scent trails on the roof of the building to find the Gold Brick.
G3	Gold Brick	Go around the back of the tower and break up objects to find a hatch. Use a small character to go through the hatch and get to the top of the tower. Then use a screaming character to shatter the glass to get the Gold Brick.
G4	Gold Brick	Use a Dilophosaurus to spit several times at the black sign on the wall to break it into pieces and get the Gold Brick.
G5	Gold Brick	Switch to a Compy and go through Compy Tubes to get the Gold Brick
R	Race	As a raptor, pounce onto the garage roof using the raptor rail; then race through a series of checkpoints which require you to jump. Complete the race before time runs out and get a Gold Brick.

© 2015 The LEGO Group. ™ & © Universal Studios and Amblin. ™ & © Warner Bros. Entertainment Inc. (s15)

Hub Area Challenges: Isla Sorna

Ingen Compound

InGen Compound

This is the area around InGen research lab that you explored in level 13, “The Breeding Facility.” Five simple Gold Brick challenges can be found here.

InGen Compound Challenges		
Icon	**Type**	**Notes**
G1	Gold Brick	A lone Compy attacks when you step onto the paved area. Defeat it to trigger a wave of Compy attackers. Knock out the enemies within the time limit.
G2	Gold Brick	Shoot the electric switch in the yard with an electric rifle.
G3	Gold Brick	Switch to a raptor and pull the dino switch.
G4	Gold Brick	See “Find G-E-N.”
G5	Gold Brick	After you shatter the glass entrance with a scream character, solve the academic panel inside the facility.

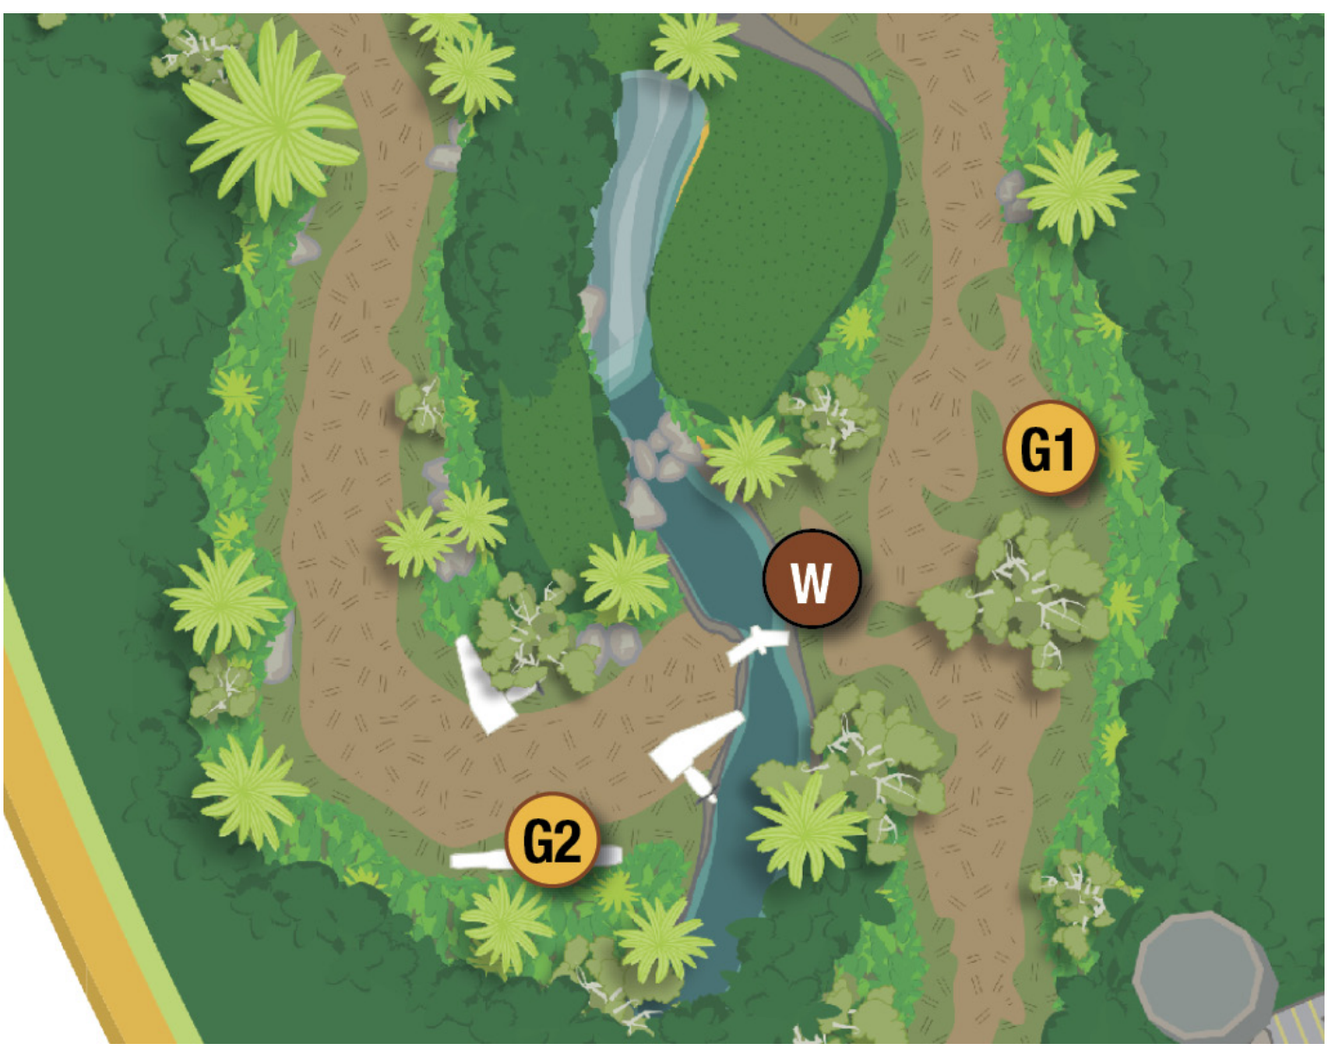
© 2015 The LEGO Group. ™ & © Universal Studios and Amblin. ™ & © Warner Bros. Entertainment Inc. (s15)

Hub Area Challenges: Isla Sorna

Crash Site

Crash Site

This area filled with airplane debris features a Worker In Peril and three Gold Bricks, one of which is for rescuing the worker. Also note a raptor scent trail that begins in this area ends in the next area, Spinosaurus Territory. The Gold Brick that you find counts toward the total listed for that area, not this one.



Crash Site Challenges		
Icon	**Type**	**Notes**
W	Worker In Peril	Cut through vines near the tailpiece bridge over the stream to find a rope winch. Slice that too to cut down Ben Hildebrand from the tree.
G1	Gold Brick	See “Three Nest Eggs.”
G2	Gold Brick	Use a charging dinosaur to smash open the cracked airplane fuselage and snag the Gold Brick from the cargo hold.

© 2015 The LEGO Group. ™ & © Universal Studios and Amblin. ™ & © Warner Bros. Entertainment Inc. (s15)

Hub Area Challenges: Isla Sorna

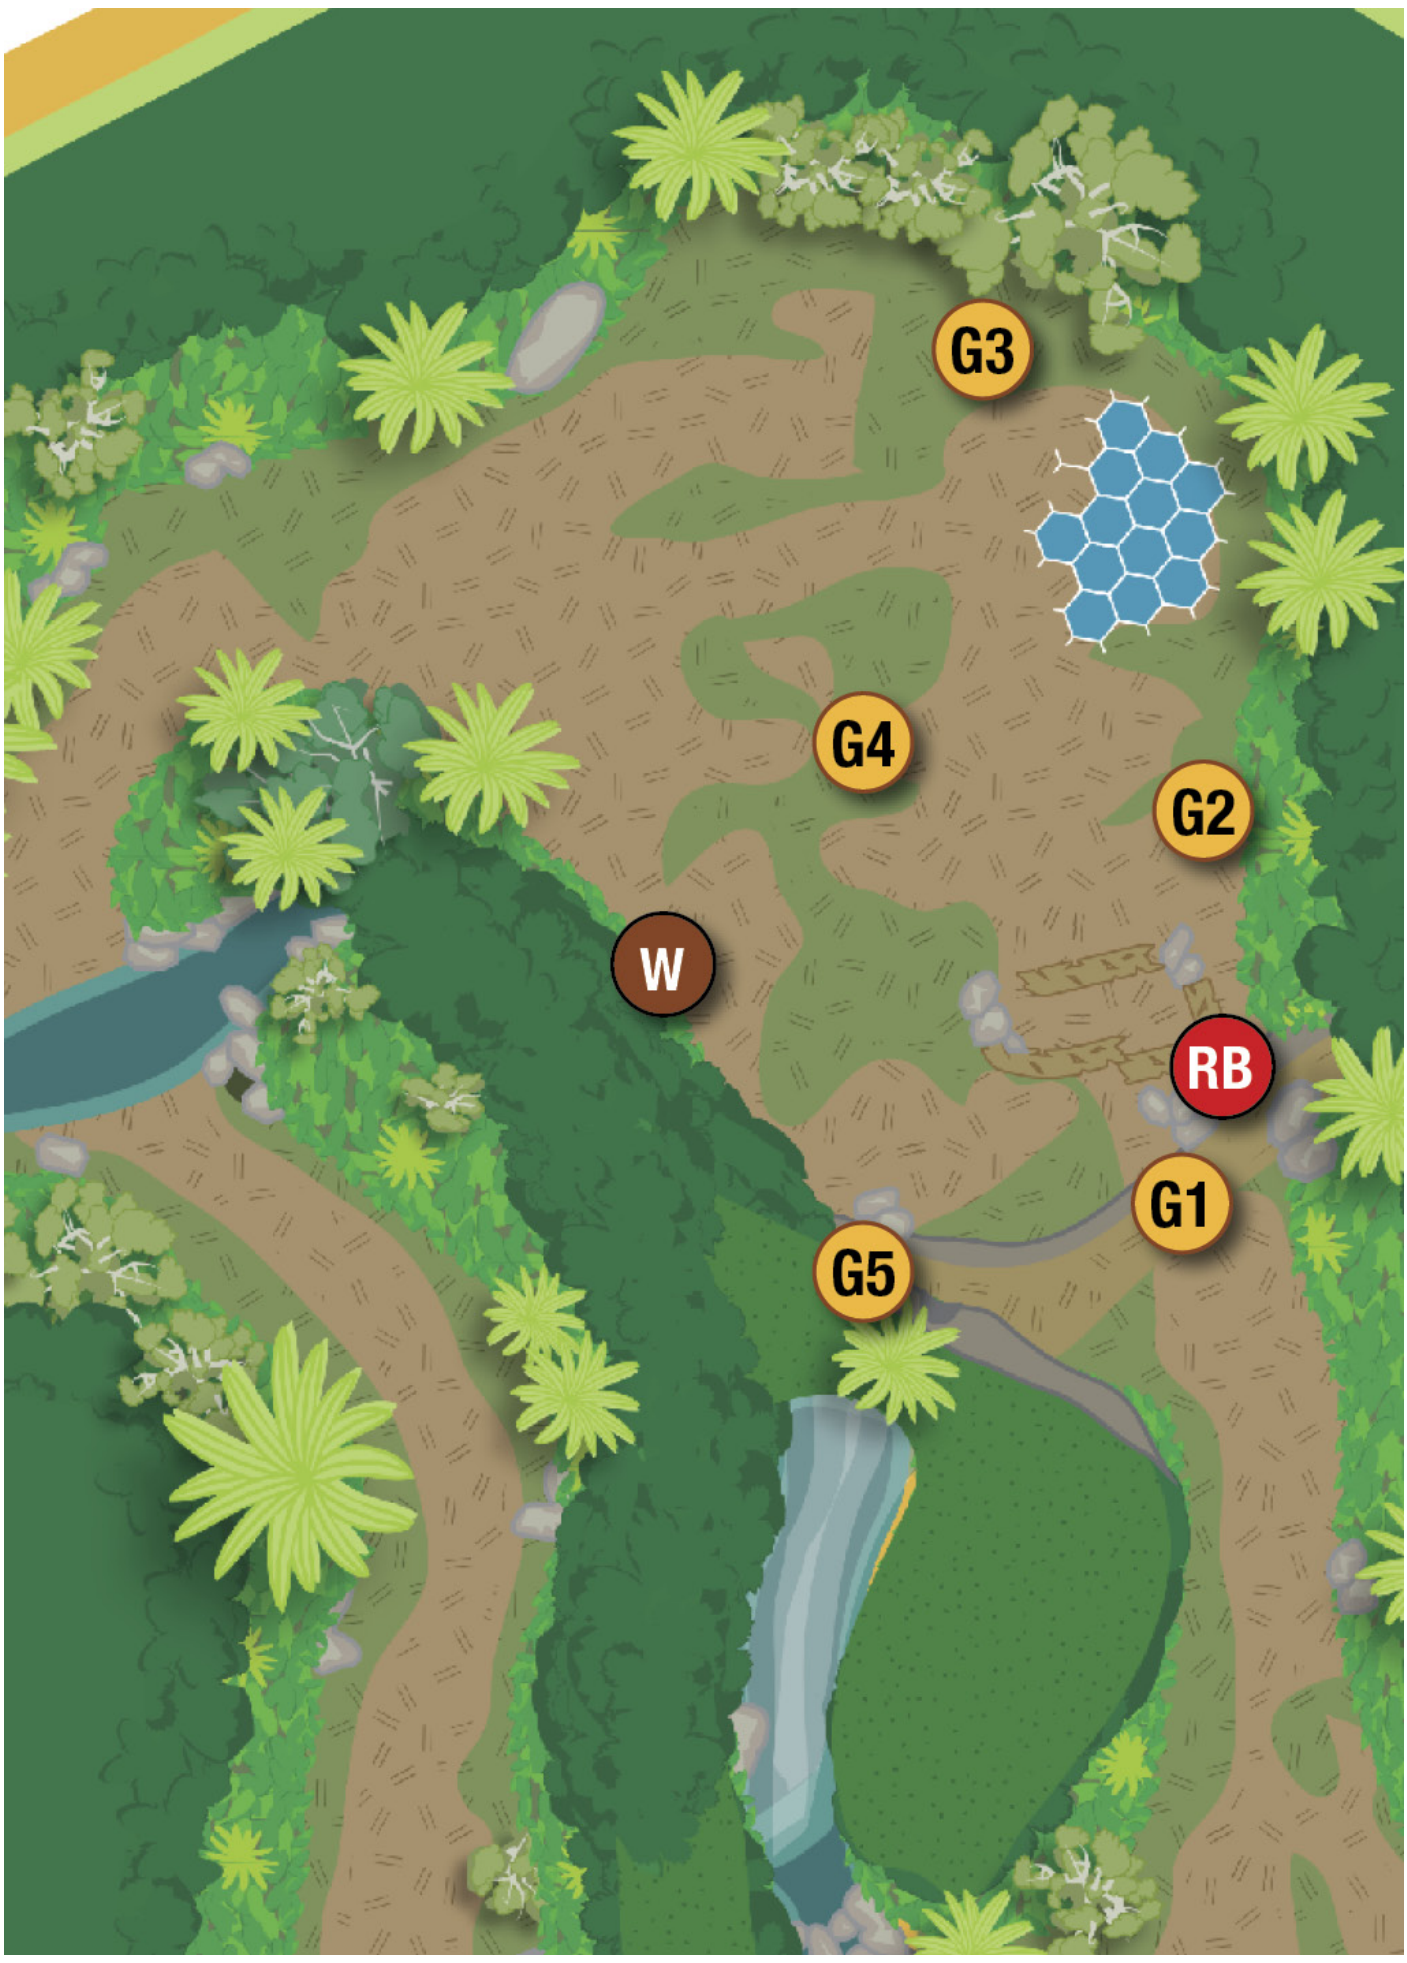
Spinosaurus Territory

Spinosaurus Territory

This big clearing includes a useful Dinosaur Spawner. Look for a Worker In Peril, six Gold Bricks (including one for saving the worker), and a valuable Red Brick. Note that one of the Gold Brick challenges is a raptor scent trail that actually starts back at the Crash Site area. Note also that you must assemble the spawner's control panel from a pile of build-it parts before you can use it.

Spawner Cost

You need 90 Gold Bricks in your collection before you can use the dino spawner.



Spinosaurus Territory Challenges

Icon	Type	Notes
G1	Gold Brick	Back at the Crash Site, switch to a raptor and follow the scent trail that starts at the tailpiece bridge. It leads up the trail to the cliff edge where the raptor unearths a Gold Brick.
G2	Gold Brick	Rummage in the droppings pile; then assemble the build-it pieces into a phone booth. A Gold Brick falls out!
G3	Gold Brick	Water the plant root near the dino spawner. Jump to the twirl poles that sprout from the flower that grows and swing over to the green vine. Climb the vine and jump through the Gold Brick.
G4	Gold Brick	Spawn a T. rex from the dino spawner and use its roar to shatter the amber block in the center of the clearing. This triggers an attack wave of bone Velociraptors! Destroy the enemies within the time limit to earn the Gold Brick.
G5	Gold Brick	See "Cave Brick."
W	Worker In Peril	Send the T. rex you just spawned over to the worker trapped in a bone cage and bite off the dino-strength barrier to free Nash and earn a Gold Brick.
RB	Red Brick	Spawn a Compsognathus and find the opening in the logs. Work your way through the short maze to reach the Red Brick.

© 2015 The LEGO Group. ™ & © Universal Studios and Amblin. ™ & © Warner Bros. Entertainment Inc. (s15)

Hub Area Challenges: Isla Sorna

Eric's Hideout

Eric's Hideout

This is the same enclosure and island where you completed Level 14, "Eric Kirby." Look for five Gold Bricks in this fairly straightforward area.

Eric's Hideout Challenges		
Icon	**Type**	**Notes**
G1	Gold Brick	See "Scan & Slam the Vent."
G2	Gold Brick	Switch to a Dilophosaurus and spit at the black LEGO in the open garage just to the right of the observation tower to get a brick.
G3	Gold Brick	Switch to Eric Kirby and hop across the water to the crate next to the Compy swarm. Stop there and toss a bottle of T. rex scent to scatter them. Grab the brick from the truck hatch that pops open.
G4	Gold Brick	Water the plant root on the shore just across from the truck to grow a wild vine with two bounce-pad flowers. Bounce to the second flower; then bounce up again to the Gold Brick floating above it.
G5	Gold Brick	Back on shore, use the goo spit of a Dilophosaurus to break apart the black LEGO near the truck and reveal a cave. Switch to an illumination character (like Ian Malcolm with a flare) to enter and grab the brick inside.

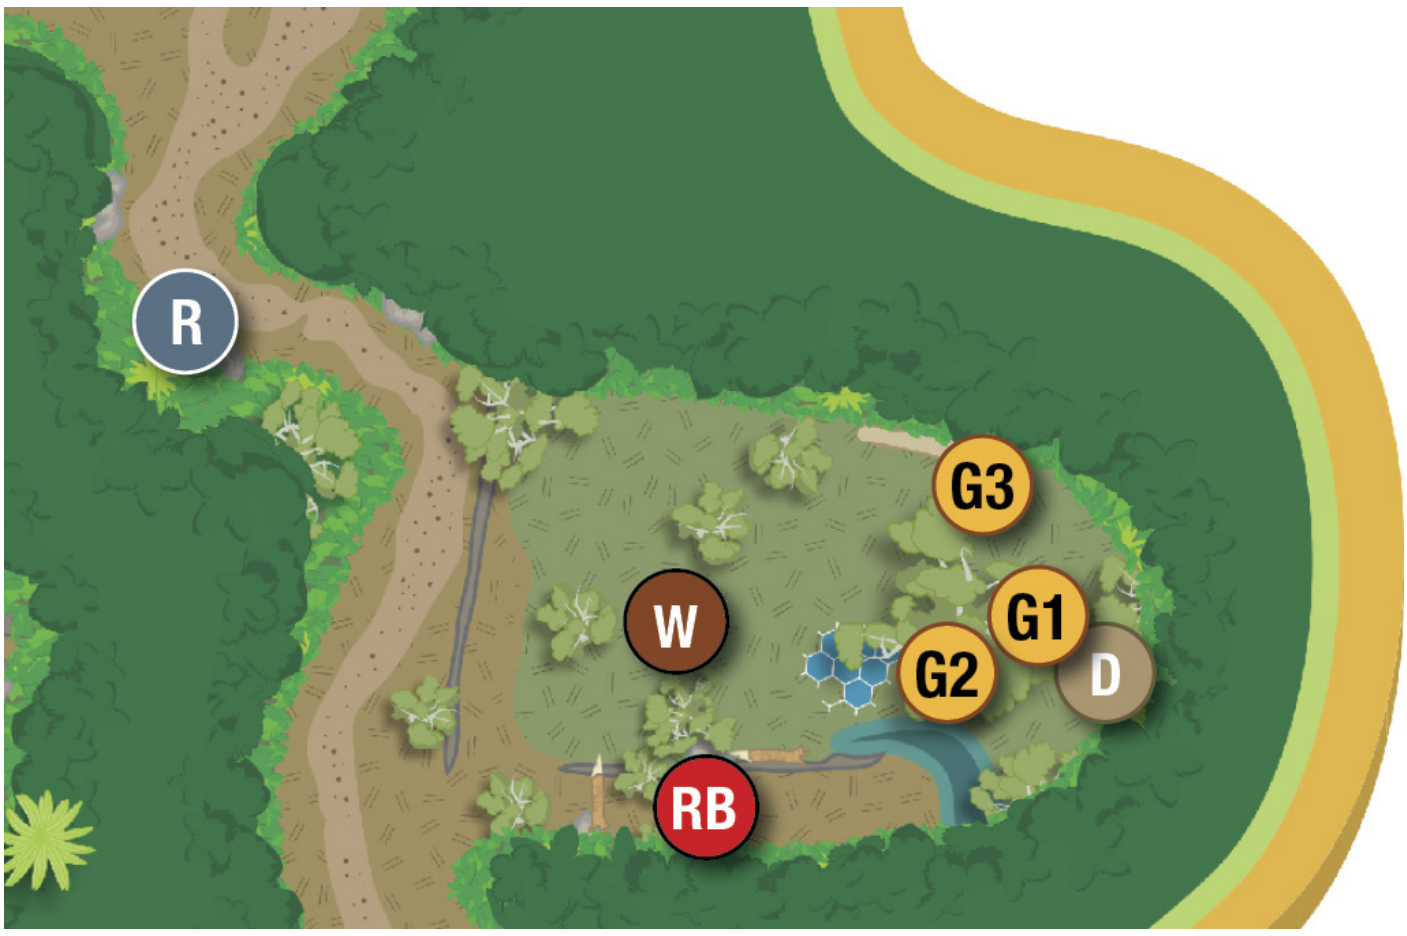
© 2015 The LEGO Group. ™ & © Universal Studios and Amblin. ™ & © Warner Bros. Entertainment Inc. (s15)

Hub Area Challenges: Isla Sorna

Ankylosaurus Territory

Ankylosaurus Territory

This area features a nice variety of collectibles. Heal a sick dino, rescue a worker, and complete a race, all of which earn a Gold Brick each. Also look for three more Gold Bricks and a Red Brick. Here's a tip: You need a custom dinosaur to get one of the Gold Bricks—a Velociraptor with a T. rex head; now it can roar like a big dino!



Ankylosaurus Challenges

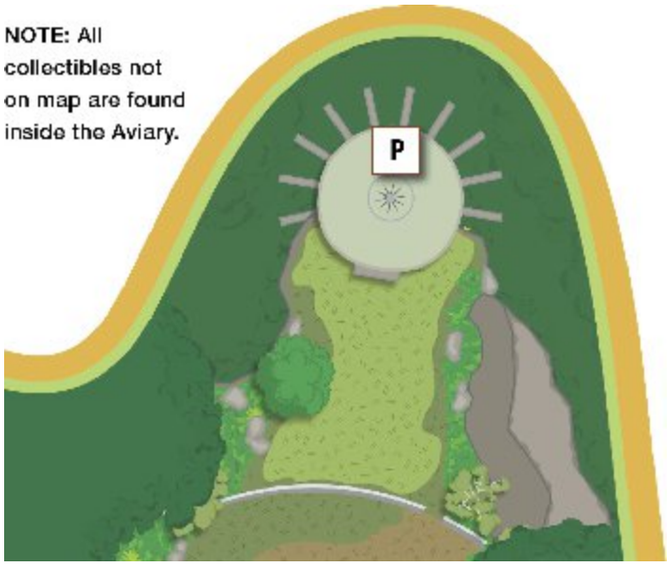
Icon	Type	Notes
W	Worker In Peril	Pull out the worker stuck under the log to pick up a Gold Brick.
RB	Red Brick	A big nest sits nearly hidden on a narrow terrace to the right just as you enter the area. Deliver three lost eggs to the nest and get a Red Brick in return! One egg is on the ground at the base of the tree not far from the kiosk. Another is behind the wall of vines near the sick dino. The third is on the terrace where the nest sits, just beyond it.
G1	Gold Brick	Have Eric Kirby toss a bottle of T. rex scent to chase the Compy pack away from the loose dirt pile near the sick dino. Dig in the dirt to find a Gold Brick.
G2	Gold Brick	Use a dinosaur with charge ability to bash open all four of the cracked LEGO boulders around the area. You find a Gold Brick inside the fourth rock, regardless of order.
G3	Gold Brick	Here's a really tricky one. There's a Gold Brick inside that amber rock in the clearing. But you can't spawn a large dinosaur at the dino spawner here, so you need a custom dinosaur to shatter the amber. At a Dinosaur Customizer in the Visitor Center or the Innovation Center, add a head with the Roar ability (like T. rex) to a small or medium dinosaur like the Velociraptor. Return to Ankylosaurus Territory and use that dinosaur to roar at the amber rock, releasing the Gold Brick inside.
D	Sick Dino	See "Healing Ingredients."
R	Race	Spawn a Gyrosphere at the Aviary vehicle pad and drive up to the starting gate at the top of the path. This race runs straight down the path to the beach. Beat the time for each gate to win a Gold Brick.

© 2015 The LEGO Group. ™ & © Universal Studios and Amblin. ™ & © Warner Bros. Entertainment Inc. (s15)

Isla Sorna Aviary

Isla Sorna Aviary

This huge space is unlike anything you've seen before. It calls for a lot of flying—far more than any of your humans can do with a mere parachute. But the dino spawner here lets you produce Pteranodons and Dimorphodons, so you're all prepared.



Isla Sorna Aviary Challenges		
Icon	**Type**	**Notes**
P	Photograph	Find the photo spot near the window on the entry level before you descend the stairs into the aviary.
G1	Gold Brick	Fly a dino through the rock arch to snag a Gold Brick floating in the center.
G2	Gold Brick	Smash three skeleton crews: a band directly across from the spawner; a lone picnicker on the low, small outcropping; and a bony tennis match on the narrow peninsula sticking out from the side opposite the spawner.
G3	Gold Brick	Defeat Troodons defending their eggs down on a lower plateau. Knock out the enemies and win the brawl to pick up a Gold Brick in the middle of the three eggs.
G4	Gold Brick	Fly a Pteranodon to the center bridge and pull then release the walkway switch to smash the debris blocking the way. Glide Billy across the bridge gap; then switch to a crowbar character and pry open the gate. Walk left to the closed gate; you can see the Gold Brick just beyond it. Switch to the Pteranodon and pull then release the switch above the walkway to open the gate. Switch back to your human character to walk in and grab the brick.
G5	Gold Brick	Walk Billy Brennan onto the diving board and press Use. Fly through the stud circles and land on the small platform to get the Gold Brick.
R	Race	Just above the spawner is the first gate of an aerial checkpoint race. Hit all the gates in time to earn a Gold Brick.
RB	Red Brick	See "Pulling Switches."

© 2015 The LEGO Group. ™ & © Universal Studios and Amblin. ™ & © Warner Bros. Entertainment Inc. (s15)

Hub Area Challenges: Jurassic World

Main Street

Main Street

Jurassic World's main thoroughfare is bustling with crowds. Here you can find five Gold Bricks plus a photography spot and a Worker in Peril that can earn you two more Gold Bricks.

Main Street Challenges		
Icon	**Type**	**Notes**
P	Photograph	Take a photo on the corner where Main Street meets the waterfront walk.
G1	Gold Brick	See "Smash the Saxophones."
G2	Gold Brick	Send a hacker like Lex Murphy to play the driving game in the Arcade on the waterfront walk. Make it across the finish line in time by avoiding the cars along the road.
G3	Gold Brick	Shoot the electric switch above the Arcade with an electric rifle to activate the rocket ship ride and earn a brick.
W	Worker In Peril	Help the poor fellow trapped under the Cupcakes shop security door. Send a Velociraptor to pull and release the dino switch between the shop and the Theatre.
G4	Gold Brick	Shoot the bull's-eye in the souvenir stand to trigger a shooting gallery. Shoot all six new bull's-eyes that appear to win the Gold Brick.
G5	Gold Brick	Find the climbing blocks on the pillar here near the entrance to the monorail. Hop up the blocks to the roof; then run to the right until you reach the Gold Brick.

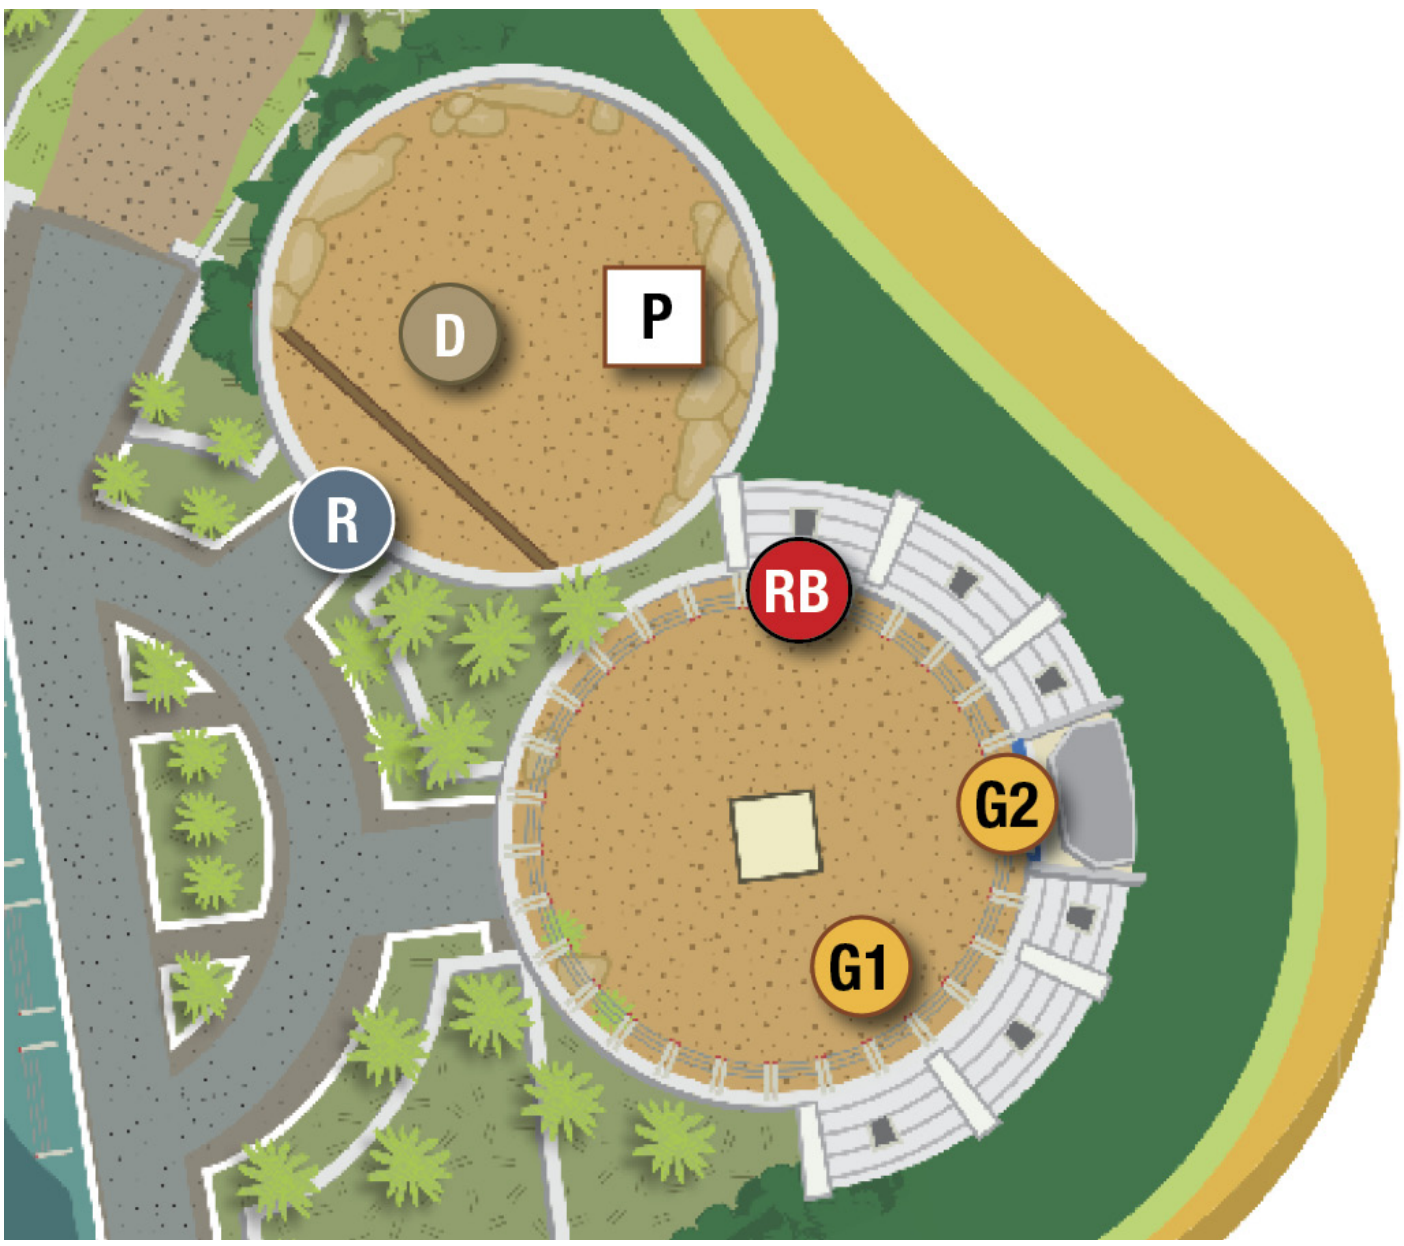
© 2015 The LEGO Group. ™ & © Universal Studios and Amblin. ™ & © Warner Bros. Entertainment Inc. (s15)

Hub Area Challenges: Jurassic World

East Boardwalk

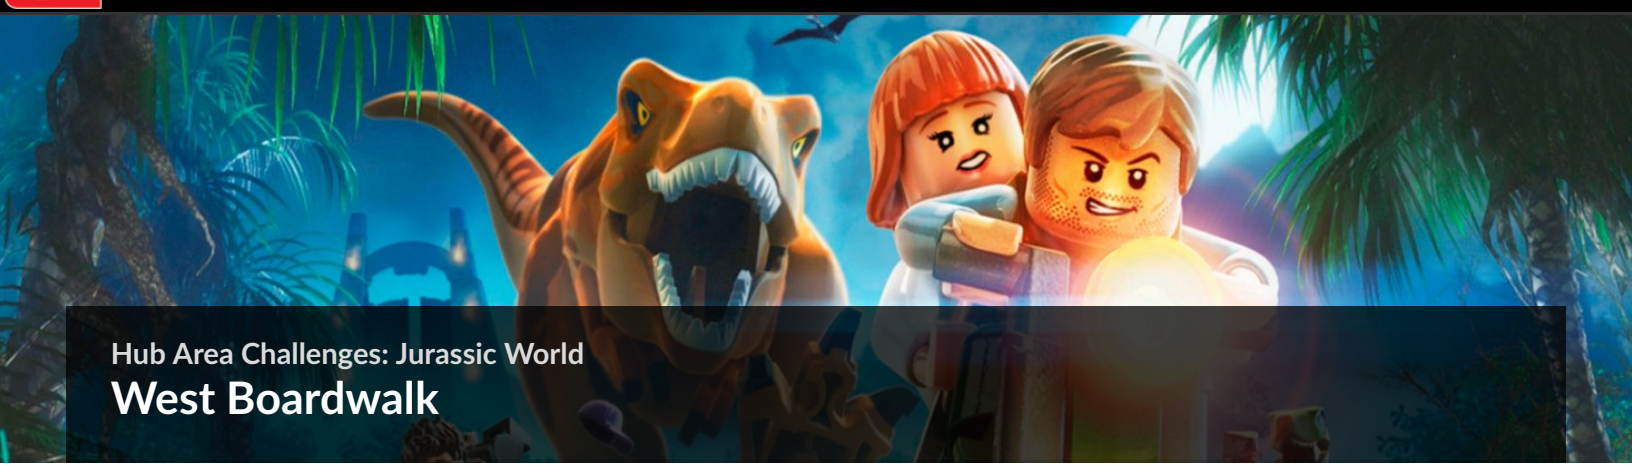
East Boardwalk

The East Boardwalk area features three freestanding Gold Bricks, plus bricks for using a photography spot, healing a sick dino, and a completing checkpoint race. You can also find a Red Brick here too.



East Boardwalk Challenges		
Icon	**Type**	**Notes**
P	Photography	Take a photo at the spot in the Petting Zoo just to the left of the soccer goal.
D	Sick Dino	See “Dino Food.”
R	Race	Switch to a fast runner like Gallimimus and start the race from the gate at the entrance to the Petting Zoo. Follow the gates all the way back to Safari Plains to win.
G1	Gold Brick	In the Pachycephalosaurus Arena, follow the scent trail with a raptor to unearth a Gold Brick.
G2	Gold Brick	Use a Pachycephalosaurus to head-bash through the cracked LEGO door. Then defeat the waves of attackers within the time limit.
G3	Gold Brick	Score a goal three times in the petting zoo.
RB	Red Brick	In the Pachy Arena, use a raptor to pull and release the dino switch to bring up a black LEGO target. Switch to a Dilophosaurus and spit goo at the eight targets within the time limit to win a Red Brick.

© 2015 The LEGO Group. ™ & © Universal Studios and Amblin. ™ & © Warner Bros. Entertainment Inc. (s15)

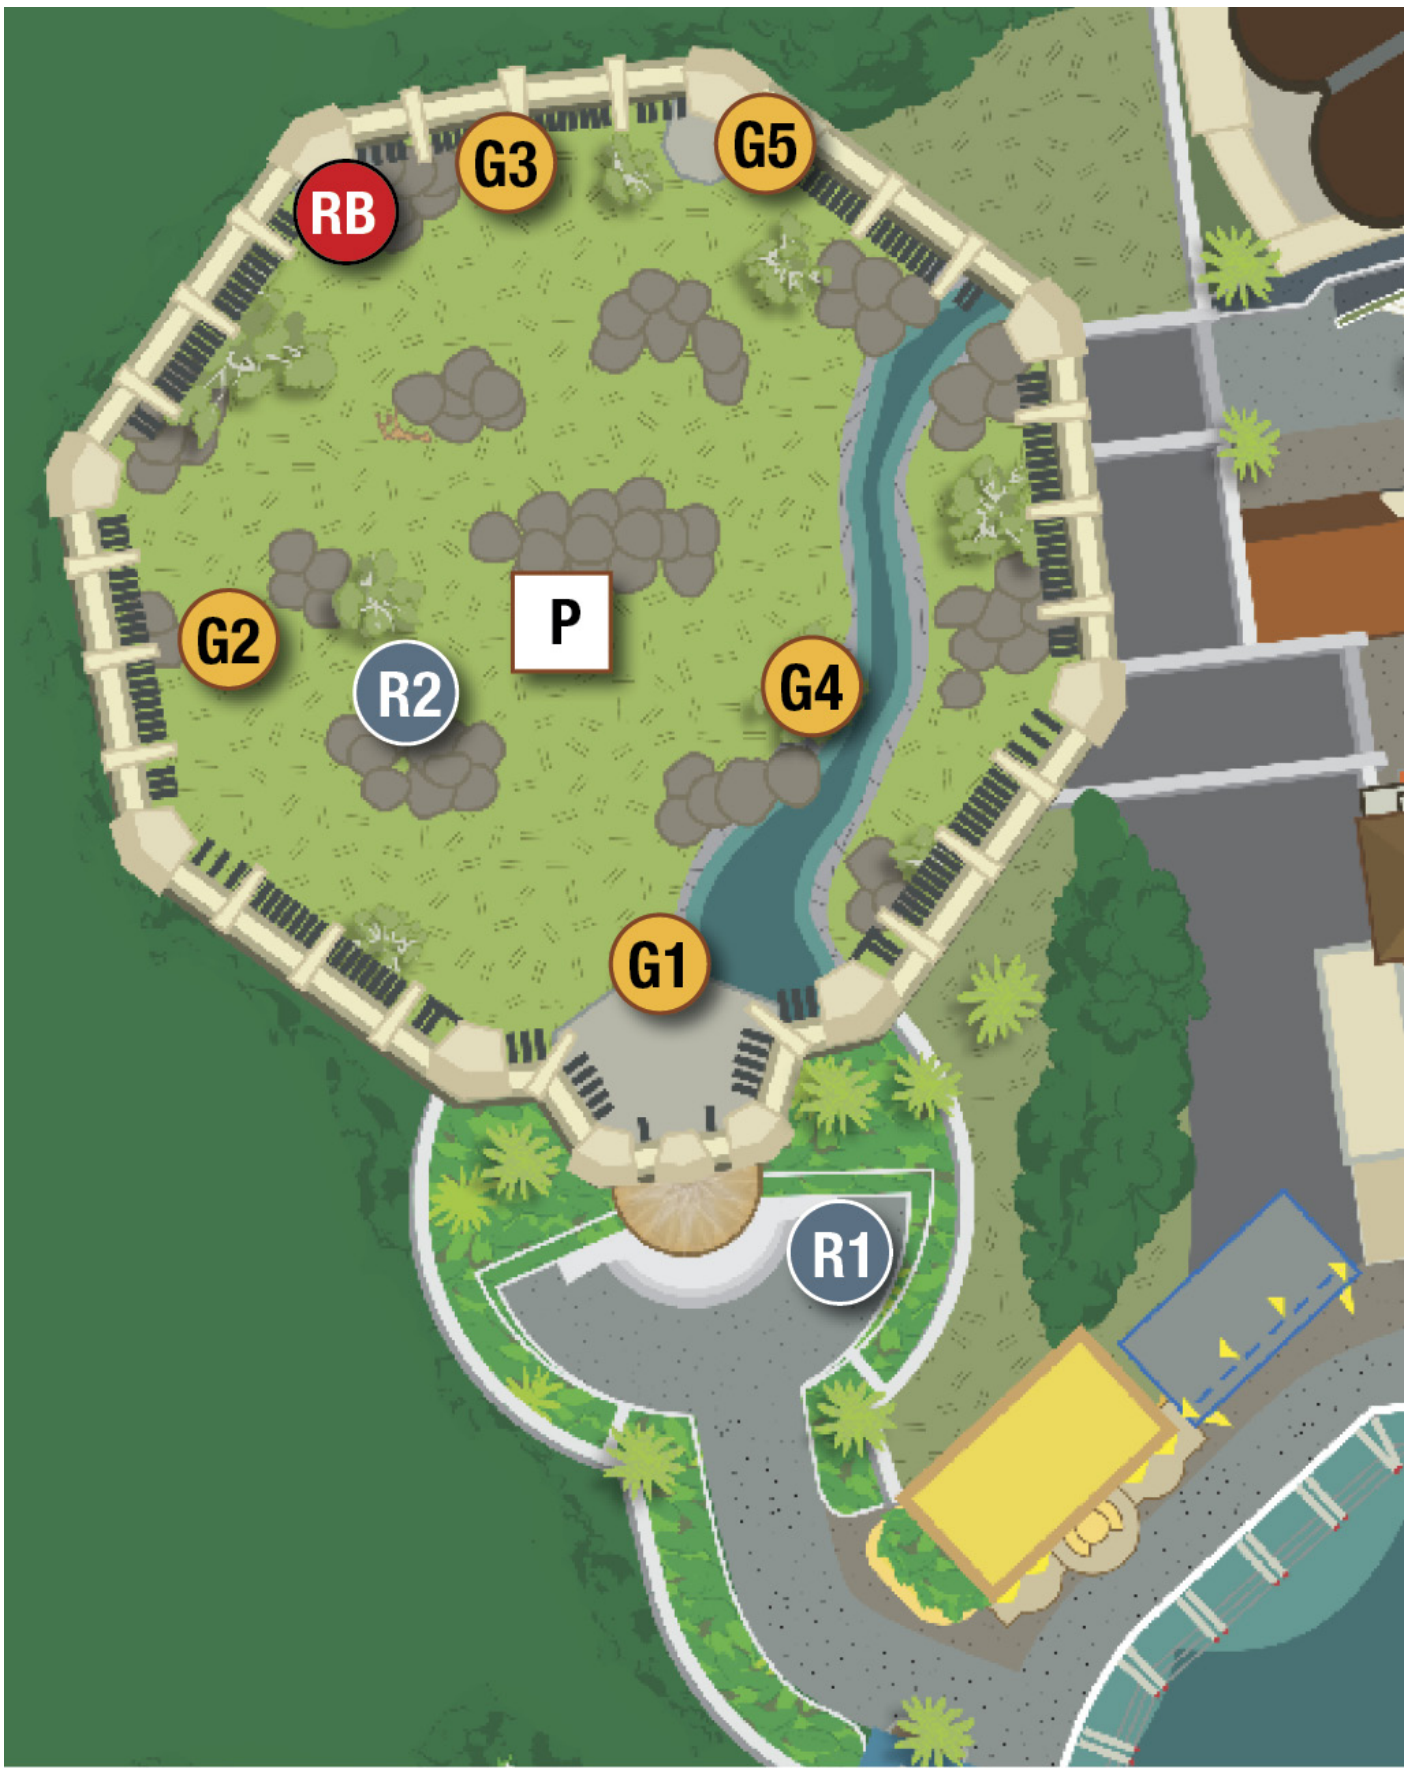


Hub Area Challenges: Jurassic World

West Boardwalk

West Boardwalk

The highlight of the West Boardwalk is the T. rex paddock. Look for a photo spot, a Red Brick, a pair of races (one inside and one outside the paddock), and five standalone Gold Bricks.



West Boardwalk Challenges		
Icon	**Type**	**Notes**
R1	Race	Use a crowbar to open the pigpen on the patio outside the T. rex paddock. Hop on the speedy pig and ride to the starting gate just ahead. Beat the time at each gate to earn a Gold Brick. The course takes you all the way to Gyrosphere Valley!
G1	Gold Brick	After you use Jurassic World Access to unblock the lift platform then ride down, shoot the electric switch left of the lift with an electric rifle. This releases the T. rex into the pen and drops a Gold Brick up on the viewing balcony.
P	Photography	Find the photo spot in the center of the paddock near the central rock formation.
G2	Gold Brick	Use T. rex's roar to shatter the amber on the dino spawner, uncovering a Gold Brick.
G3	Gold Brick	Use T. rex's roar to shatter the amber hatch over the academic board by the big entry doors. Solve the equation to open the gate and release four Gallimimuses. Switch to T. rex and hunt them all down to earn a Gold Brick that appears on the ground by the big gate.
RB	Red Brick	See "Red Brick Tower."
R2	Race	Mount the cow on the low rock near the left tower and ride to the starting gate. Race through the course in time to earn a Gold Brick. (Like the pig, the cow is very fast.)
G4	Gold Brick	Switch to a charging dinosaur and smash all four of the cracked LEGO boulders in the enclosure to earn a Gold Brick.
G5	Gold Brick	Use a Compy to climb the right tower via the green Compy Tube. A Gold Brick sits on the platform, waiting for you.

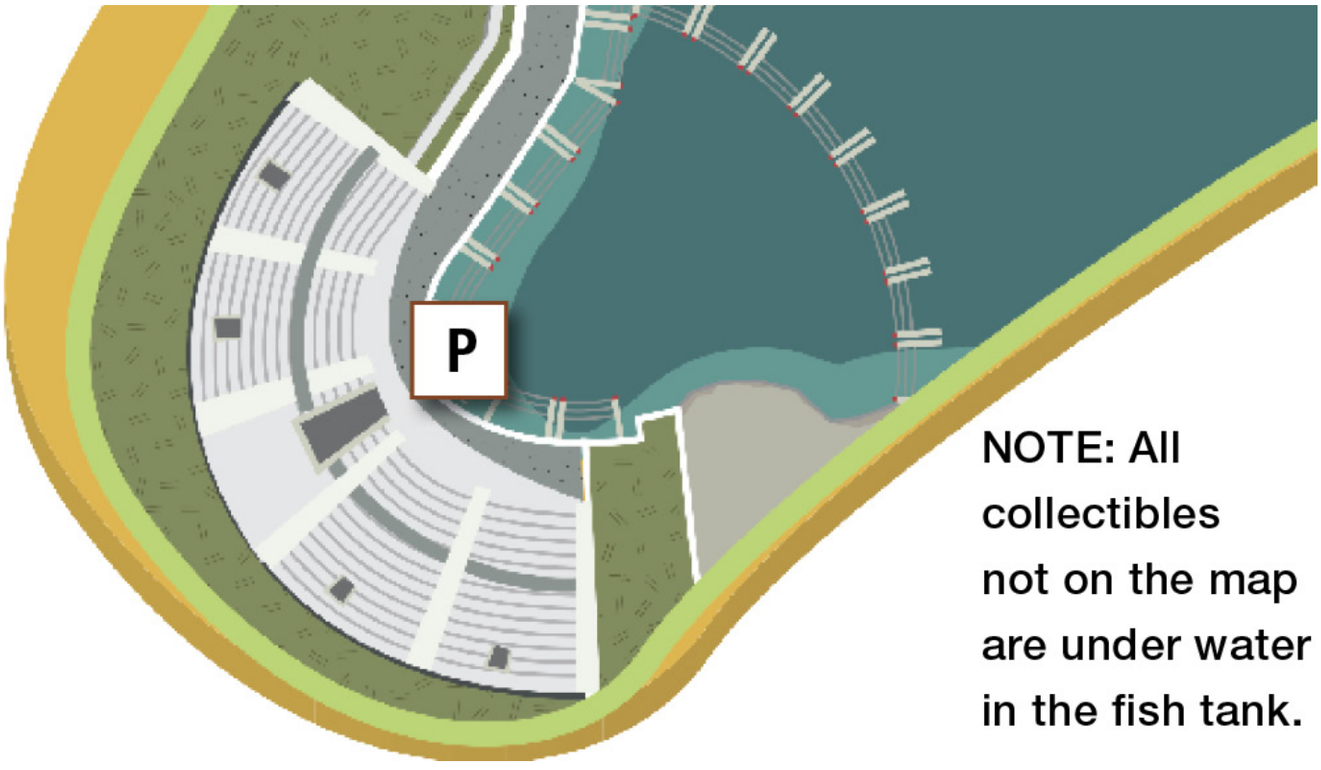
© 2015 The LEGO Group. ™ & © Universal Studios and Amblin. ™ & © Warner Bros. Entertainment Inc. (s15)

Hub Area Challenges: Jurassic World

Mosasaurus Arena

Mosasaurus Arena

This area is similar to the Isla Sorna Aviary in Hub 3 in that you enter a separate, self-contained habitat. Here, you get to play as a massive prehistoric fish in a large, open tank.



Mosasaurus Arena Challenges

Icon	Type	Notes
P	Photograph	See “A Killer Shot.”
G1	Gold Brick	When you arrive at the underwater observation chamber, switch to a Bone-Build character and assemble the big bone pieces at right into a Mosasaurus skull.
G2	Gold Brick	Snag the Gold Brick floating in the middle of a circle of gold studs.
G3	Gold Brick	Knock out six of the sharks in the tank.
G4	Gold Brick	Smash the three brown sea creatures floating in the tank. One is an ammonite shellfish, one is a starfish, and one is a trilobite. Just swim right through them.
R	Race	Swim through the first gate to trigger a checkpoint race. Get through each gate in time!
RB	Red Brick	Roar to shatter all three amber rock clusters in the tank to get the Red Brick.

© 2015 The LEGO Group. ™ & © Universal Studios and Amblin. ™ & © Warner Bros. Entertainment Inc. (s15)

Hub Area Challenges: Jurassic World

Gyrosphere Valley

Gyrosphere Valley

This sweeping, open valley features roaming dinosaurs that you can observe from the comfort of your Gyrosphere. You'll need to hop out, though, in order to scoop up most of the collectibles in the area.

Gyrosphere Valley Challenges		
Icon	**Type**	**Notes**
P1	Photograph	Snap a shot of the Gyrosphere Valley sign near the kiosk.
R	Race	Hop in the Gyrosphere near the entrance and roll into the starting gate. Press Activate and race through the gates!
P2	Photograph	Hop out of your sphere near the Compy pack that swarms around the tripod. Switch to Eric Kirby and toss a bottle of T. rex scent to scatter the Compys. Switch to a character with a camera and snap the photo.
G1	Gold Brick	Step onto the small dock and toss a hook to the orange grapple plug on a raft out in the water. Haul in the raft and hop aboard to nab the brick.
G2	Gold Brick	Drive your Gyrosphere onto the launch pad here to get flung across the lake. The sphere flies right through a Gold Brick floating in the air!
D	Sick Dino	The sick Triceratops lies on the dino spawner. Rummage in the droppings pile on the right to find out what the dino needs; then rummage the pile on the left to find a carrot. Sharpshoot the bull's-eye in the tree to get an apple. Drive the Gyrosphere onto the nearby launch pad to get flung into the banana tree. Feed the banana that falls out to the dino.
G3	Gold Brick	After you heal the sick dino, repair the dino spawner and spawn a dinosaur who can destroy quake LEGO objects. Take control of this big dino and stomp on the three cracked ground patches in the area to earn a brick.
RB	Red Brick	See "Terrace Brick."

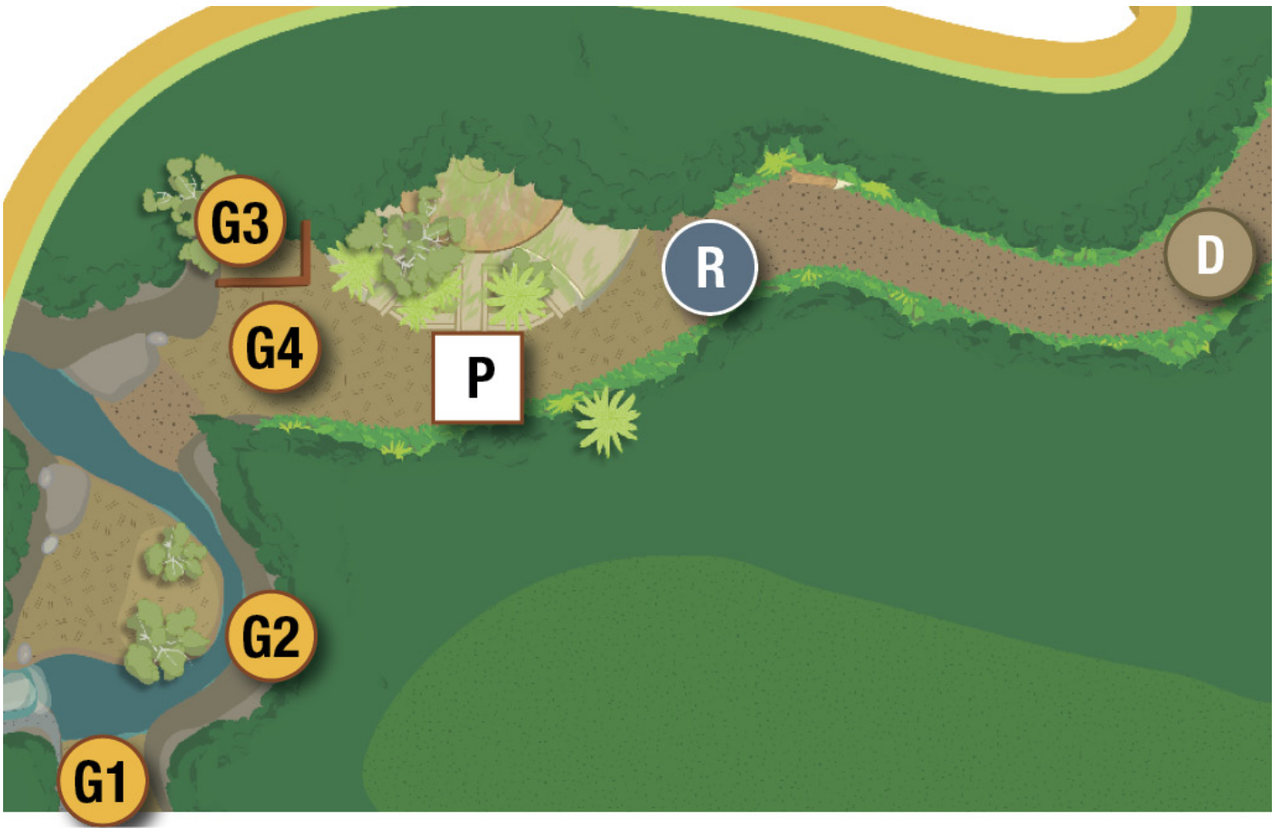
© 2015 The LEGO Group. ™ & © Universal Studios and Amblin. ™ & © Warner Bros. Entertainment Inc. (s15)

Hub Area Challenges: Jurassic World

Shady Grove

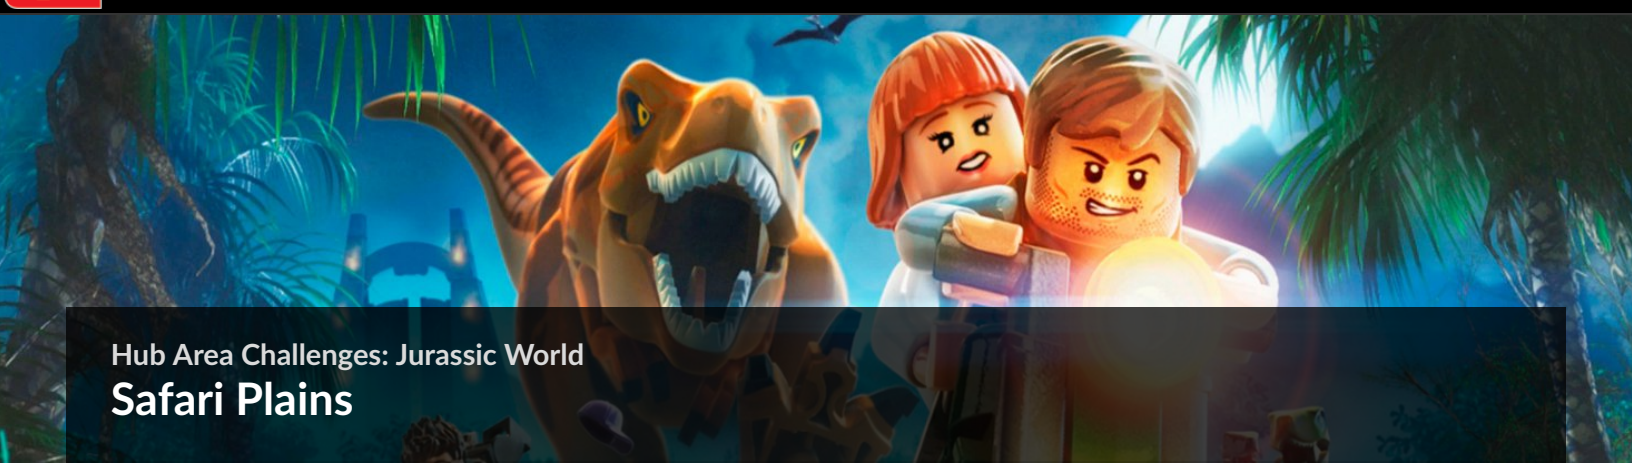
Shady Grove

This shady area is where Zach and Gray Mitchell found the old InGen vehicle maintenance facility in the “Parking Garage” mission of Level 18, Out of Bounds. This time you work along the road outside the structure.



Shady Grove Challenges		
Icon	**Type**	**Notes**
G1	Gold Brick	When you exit Gyroscope Valley and drop to the riverside ledge, turn around to see a dark cave directly behind you. Use an illumination character to get the Gold Brick inside.
G2	Gold Brick	See “Spit & Glide.”
G3	Gold Brick	Use a character with bolt cutters to slice the chain on the big brown gate next to the area entrance. A Gold Brick is just inside.
G4	Gold Brick	As you approach the facility, KO the lone Compy in the road to trigger waves of Compy attackers. Knock out 12 Compys within 45 seconds to earn the brick.
P	Photography	Use the photo spot near the staircase leading into the facility.
D	Sick Dino	Before trying the race (which takes you far from Shady Grove), find the sick Pachycephalosaurus just down the road. Rummage the small droppings pile nearby to find the leaf. Shoot the bull’s-eye in the tree to knock down the apple. Then use a Dilophosaurus to goo spit on the nearby black LEGO block to find the banana.
R	Race	Use the vehicle spawner at the facility to spawn your favorite car. Then drive into the starting gate and press Use to start the countdown. Get through all gates in time to earn a Gold Brick. You end up on the waterfront walkway next to the Petting Zoo!

© 2015 The LEGO Group. ™ & © Universal Studios and Amblin. ™ & © Warner Bros. Entertainment Inc. (s15)

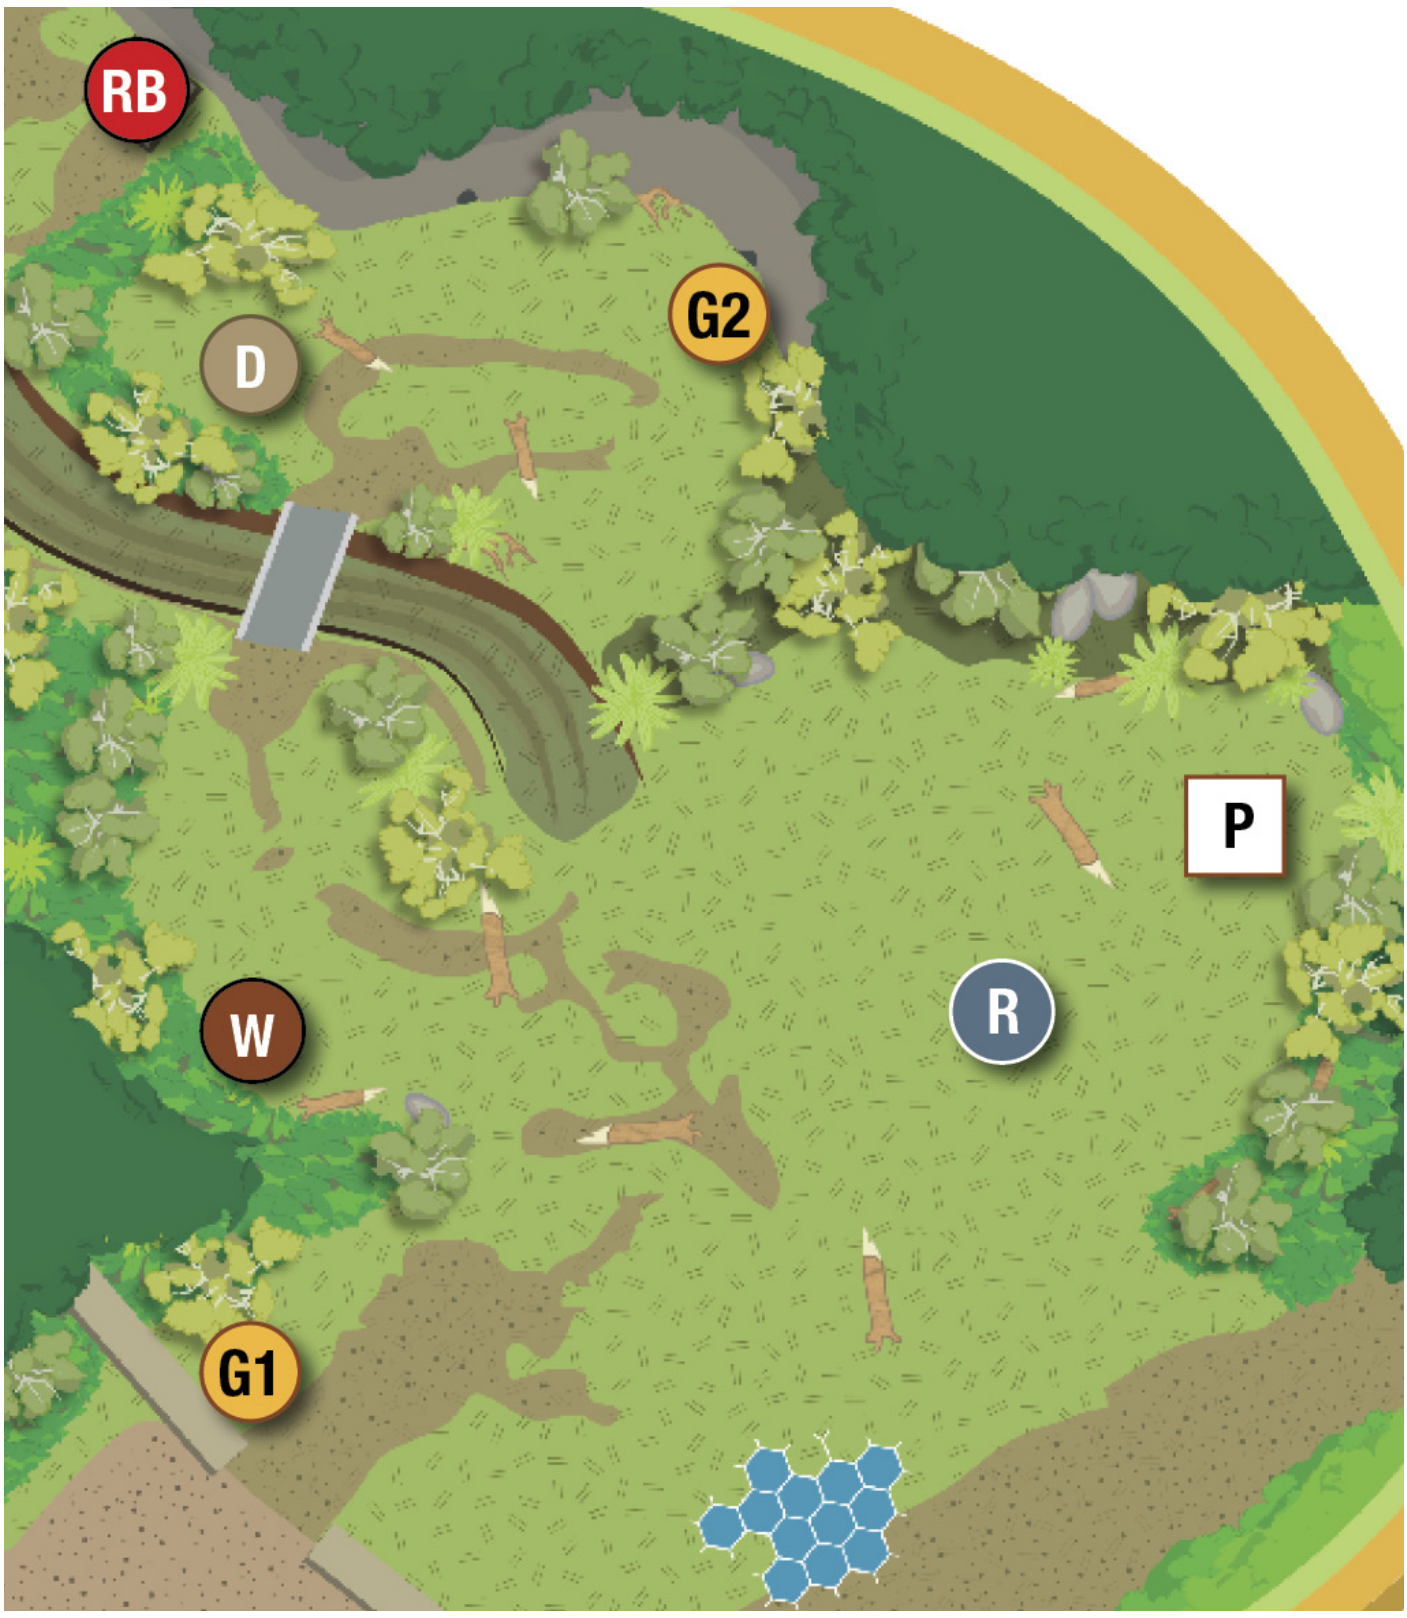


Hub Area Challenges: Jurassic World

Safari Plains

Safari Plains

This area features a pair of meadow-like clearings, one larger and one smaller. You find another sick dino in the smaller clearing, and an annoying pack of Compys.



Safari Plains Challenges		
Icon	**Type**	**Notes**
G1	Gold Brick	Switch to a charging dinosaur and smash all four of the cracked LEGO boulders in the area to earn a brick.
P	Photograph	Switch to a Velociraptor and follow the yellow scent marker that starts here. You end up next to the dino spawner, where the raptor digs up a camera tripod. Use a character with a camera to take a photo to earn yourself a Gold Brick.
W	Worker In Peril	Use the dino spawner to make a “roar” dinosaur. Use its roar to shatter the amber block near the worker in the truck being harassed by dinosaurs. The harassers run off and you earn a Gold Brick.
R	Race	Switch to a fast dinosaur like the Gallimimus and step into the race starting gate in the big clearing. Hit the gates within their time limits to win a Gold Brick. The route takes you underneath the bridge.
RB	Red Brick	After finishing the race, you end up next to a shack with a red-striped awning folded up and a Red Brick on the roof. Use a raptor to pull the dino switch on the shack’s left side. This lowers the awning. Jump onto the awning, then onto the roof, and collect the Red Brick.
G2	Gold Brick	Cross over the bridge to the smaller clearing and use a Dilophosaurus to spit at the black LEGO boulder. This triggers a stream of attacking Compys. Defeat them within the time limit to earn the brick.
D	Sick Dino	See “Gallimimus Healer.”

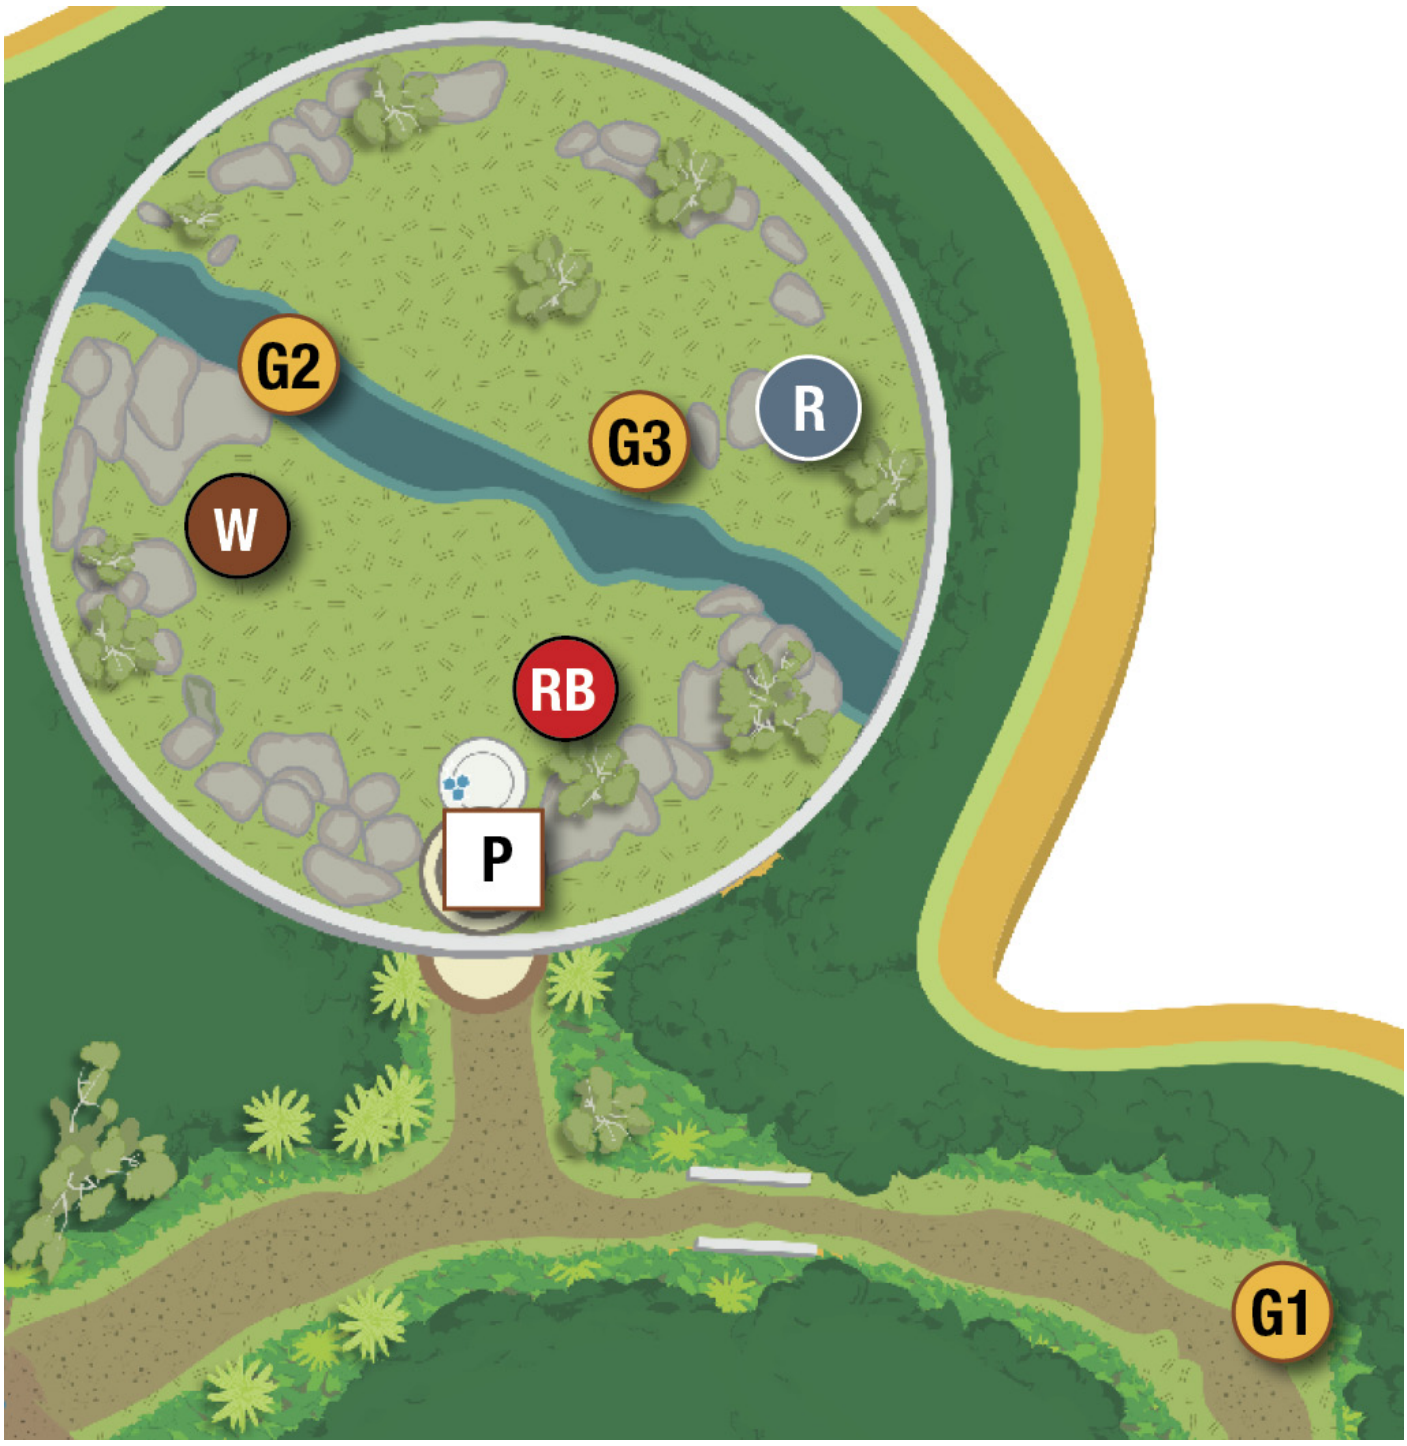
© 2015 The LEGO Group. ™ & © Universal Studios and Amblin. ™ & © Warner Bros. Entertainment Inc. (s15)

Hub Area Challenges: Jurassic World

Isla Nebular Aviary

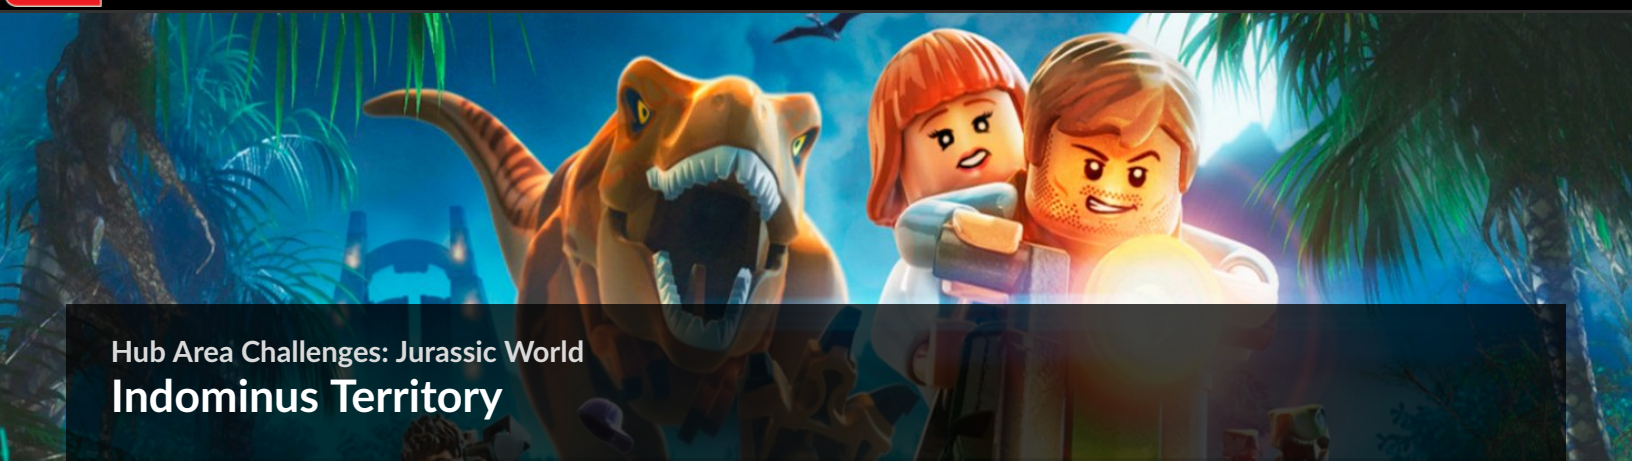
Isla Nublar Aviary

This aviary is considerably smaller than the one in the Movie 3 hub on Isla Sorna. Its primary features are a series of dino switches for a Pteranodon and a racecourse with tight turns best navigated by a Dimorphodon. Don't miss the Gold Brick on the path before you even reach the aviary structure!



Isla Nublar Aviary Challenges		
Icon	**Type**	**Notes**
G1	Gold Brick	On the road between the Aviary and Safari Plains, find a large black LEGO rock. Spit on it with a Dilophosaurus to uncover the yellow scent source. Follow it with a raptor until it digs up a Gold Brick.
P	Photography	Take a photo from the tripod spot on the aviary's observation deck. You get a Gold Brick reward.
G2	Gold Brick	Pick a flyer from the dino spawner and fly down to the rickety wooden bridge over the stream. Glide underneath the bridge to collect the Gold Brick floating there.
R	Race	Pick a Pterosaur at the dino spawner and fly to the gate's far side on the high rock to the right. (We like the Dimorphodon for its finer controls on the course's tight turns, but the Pteranodon is a good flyer too.) Fly through the gate to start the race automatically, following the line of silver studs from gate to gate. When you fly through the final gate a Gold Brick is earned.
W	Worker In Peril	See "Rescue Masrani."
RB	Red Brick	See "Platform, Switch, Cage."

© 2015 The LEGO Group. ™ & © Universal Studios and Amblin. ™ & © Warner Bros. Entertainment Inc. (s15)

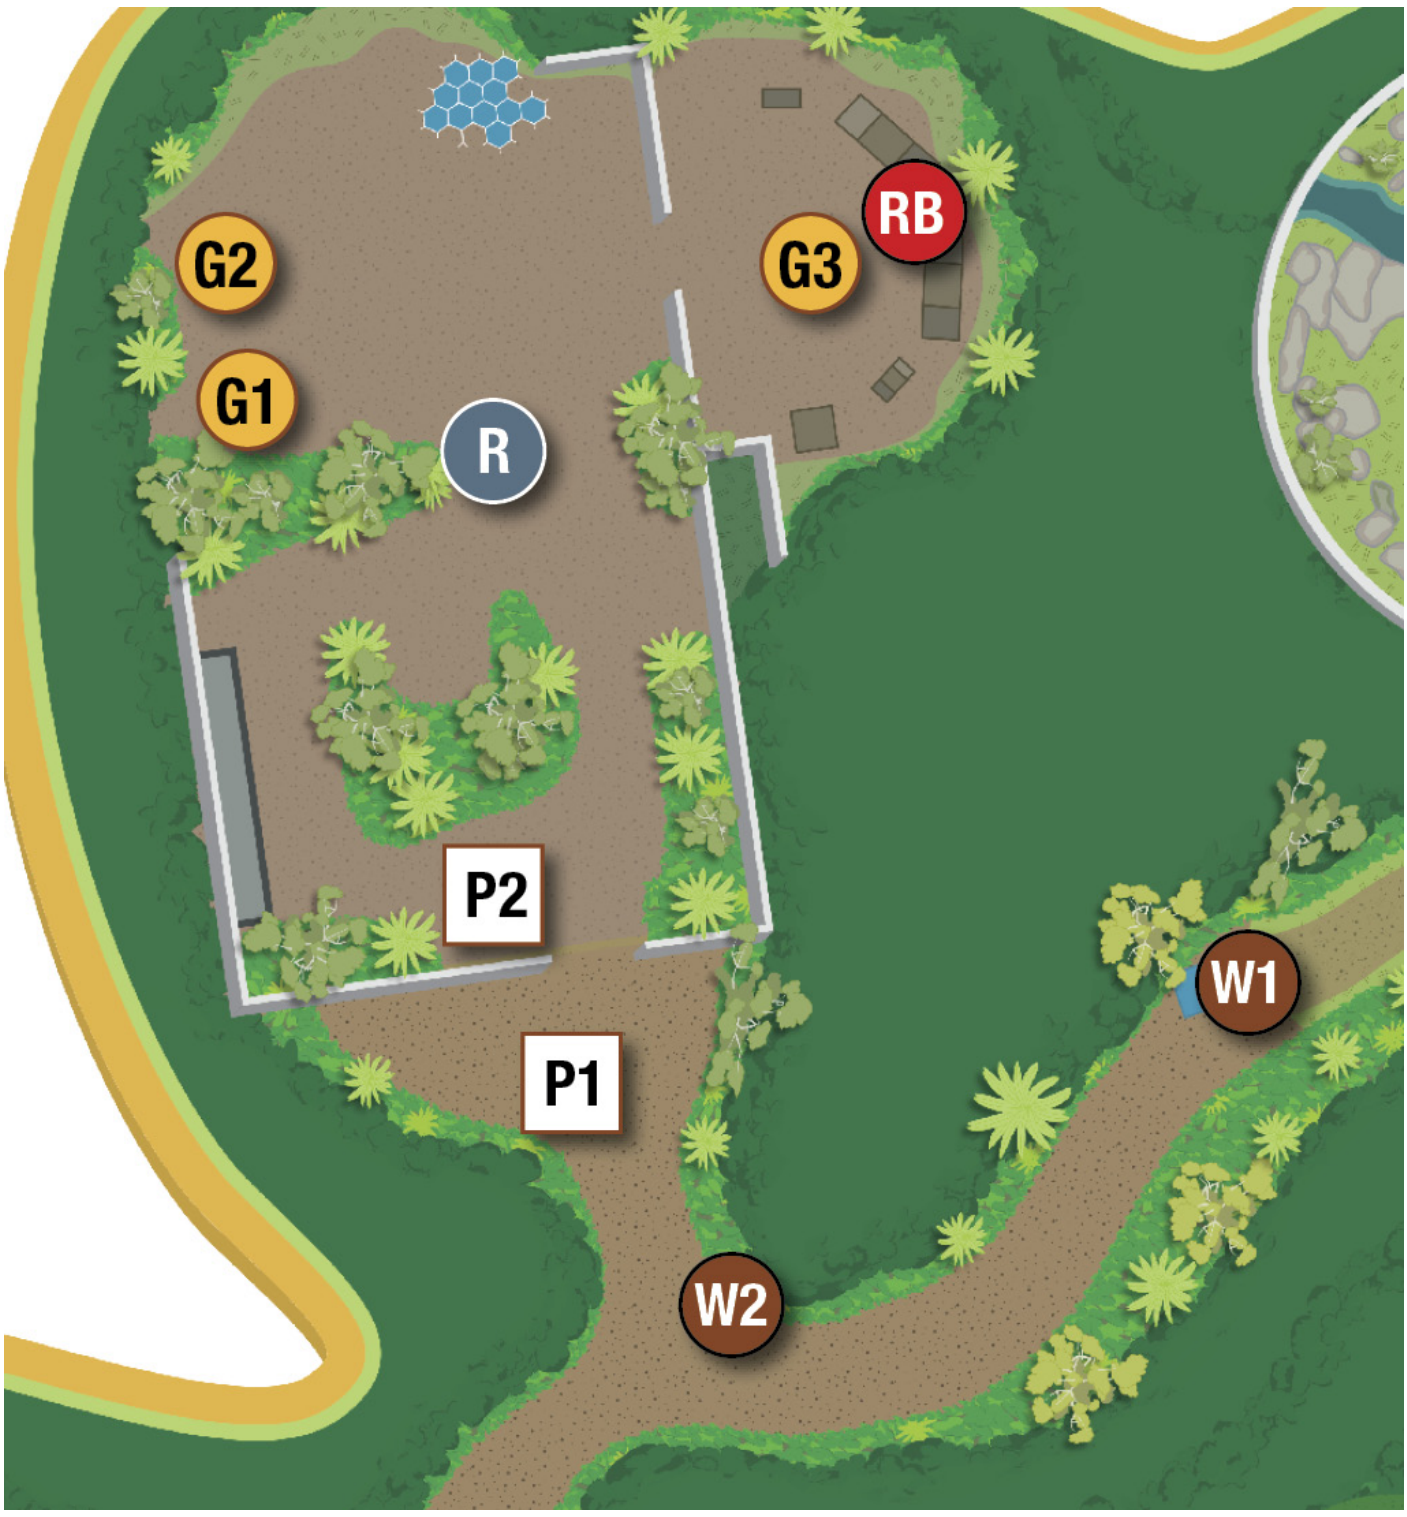


Hub Area Challenges: Jurassic World

Indominus Territory

Indominus Territory

This big enclosure houses a dino spawner. You'll need to spawn a powerful but stealthy Indominus Rex for two of the challenges in this area.



Indominus Territory Challenges		
Icon	**Type**	**Notes**
W1	Worker In Peril	Look for a chain-locked blue shipping container on the path from the Aviary to the Indominus Rex paddock. Use a bolt cutter character to slice the chain and release the worker trapped inside. You get a Gold Brick as reward.
W2	Worker In Peril	On the entry path, slice through the winch rope to cut down the worker caught by his foot in the snare. Again, you get a Gold Brick reward.
P1	Photography	Use a tracker character to pick up the blue tracking item (a banana) and follow the trail until he unearths build-it pieces for a tripod. Assemble them and take the photo to earn a Gold Brick.
P2	Photography	Just inside the paddock, switch to Eric Kirby and toss a bottle of T. rex scent at the swarm of Compys around the camera tripod. Then switch to a photographer and take the photo there.
R	Race	You can switch to a dinosaur and try the race that starts at the gate in the center of the main enclosure. But we suggest you use a crowbar to free the speedy cow from its cage near the dino spawner. Then ride the cow through the race gates. When the race is completed, you win a Gold Brick.
G1	Gold Brick	Switch to a charging dinosaur and smash into all four of the cracked LEGO trees in the main enclosure to earn a brick.
G2	Gold Brick	Use the dino spawner to make a "quake" dinosaur like the Apatosaurus. Stomp on the cracked ground section across the enclosure. A Gold Brick pops out of the water basin next to where you stomp.
G3	Gold Brick	See "Indominus Stealth."
RB	Red Brick	See "Indominus Stealth."

© 2015 The LEGO Group. ™ & © Universal Studios and Amblin. ™ & © Warner Bros. Entertainment Inc. (s15)

Characters

Characters

LEGO Jurassic World covers four different eras. As you can imagine, there are a lot of different characters in those eras—and nearly a hundred characters in the game! The characters for the Story Mode levels are all unlockable, but there are many more characters with unlockable challenges. Some require you to collect a certain amount of studs before you can unlock them. Others require you to complete the Tour Survivor challenge. Other characters are unlocked by Red Bricks, and Minikits.

Check a character's unlocked, you do not automatically get to use it. Many require you complete the character at the LEGO Shop (or the Interactive Center's second floor before you can use them. Until you unlock them, they are not available for purchase. Before purchasing a character check, it is usually available, and you need to pick characters that have abilities you cannot collect collection of characters so that you have the right abilities when needing buttons in Free Play and for collectibles and unlock even more characters!

Characters

Icon	Character	Cost	How Unlocked?	Abilities
	ACU Trooper Female	250000	Complete challenge in Modern Dinosaur Pedlock	Agility, Sharpshoot Electric Rifle
	ACU Trooper Male	250000	Complete Tour Survivor challenge in Raptor Pursuit (Jurassic World)	Sharpshoot Electric Rifle
	Ajay Sidhu	50000	Find Fossil Piece A in The Long Grass East (Jurassic World)	Sharpshoot Rifle, Tracking
	Alan Grant	N/A	Complete 7 Lego Exclusives (Jurassic Park)	Bone Build, Excavate, Raptor Claw
	Alan Grant (Mentalist)	N/A	Complete The Dig Site (Jurassic Park)	Bone Build, Excavate, Raptor Claw
	Alan Grant (Survivor)	N/A	Complete Main Hall (Jurassic Park)	Bone Build, Excavate, Raptor Claw
	Alan Grant (Isla Nublar)	50000	Complete Spinosaurus Excape (Jurassic Park III)	Bone Build, Excavate, Raptor Claw
	Amanda Kirby	N/A	Complete Spinosaurus vs. T. rex (Jurassic Park III)	Agility, Scream
	Barry	N/A	Complete Raptor Research Area (Jurassic World)	Rope Pull, Electric Rifle, Tracking
	Ben Hildebrand	250000	Find Fossil Piece A in The Pteranodon Elevation Post 3B	Camera, Glide
	Billy Brennan	N/A	Complete Spinosaurus Excape (Jurassic Park III)	Camera, Glide
	Carlos	50000	Find Fossil Piece A in Middle Lab (Jurassic World)	Bolt Cutter, Crowbar
	Carter	150000	Complete challenge in Large Dinosaur Paddock	Bolt Cutter, Crowbar
	Cathy Bowman	100000	Find the Fossil Piece B in Feeding Level 1 (Jurassic World)	Crowl Access, Scream
	Charlie Degler	50000	Find Fossil Piece B in San Diego Streets (Lost World)	Crowl Access
	Cheryl Logan	200000	Collect Amber Brick from The Dig Site (Jurassic Park)	Bone Build, Excavate, Agility
	Claire Dearing	N/A	Complete Indominus Escape (Jurassic World)	Jurassic World Access, Agility, Scanner
	Claire Dearing (Lab)	250000	Find Fossil Piece A in Raptor Research Area (Jurassic World)	Jurassic World Access, Agility, Scanner

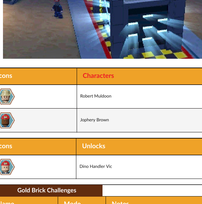
Walkthrough: Movie 1

Level 01: Raptor Transfer



Icons	Characters
	Robert Muldoon
	Jophery Brown

Icons	Unlocks
	Dino Handler Vic

Gold Brick Challenges		
Name	Mode	Notes
Level Complete	Any	Complete the level.
True Survivor	Any	Collect 17,000 studs.
Fossil Piece A	Any	Collect the first raptor fossil piece.
Fossil Piece B	Any	Collect the second raptor fossil piece.
Minikit	Free Play	Collect the Minikit.

Get Up to the Raptor Pen

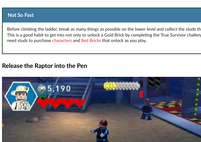
Robert Muldoon and Jophery Brown are stuck on a lower level and need to find a way up to the raptor pen. Walk to the right and break up a generator into a pile of bricks. Then assemble the bricks into another generator along the wall.

Switch to Jophery Brown and use his stun rod to kick start the generator. Once the generator is running, a ladder descends. When you're ready to continue, climb the ladder.

Not So Fast

Before climbing the ladder, break as many things as possible on the lower level and collect the studs that are released. This is a good habit to get into not only to unlock a Gold Brick by completing the True Survivor challenge, but you also need studs to purchase characters and Red Bricks that unlock as you play.

Release the Raptor into the Pen



At the upper level, select Robert Muldoon and grab a map near the ladder. He has the ability to track footprints. Follow the prints to uncover a pile of bricks. Then assemble the bricks to build part of a checkered floor for the raptor cage.

Some tiles are still missing from the checkered floor, so use Muldoon's rifle and take aim at the target on the raptor pen's left side. When you hit it, more bricks are dropped. Assemble them to finish the checkered floor.

Walk into the raptor cage to push it along the checkered floor toward the pen. It will slide right into position. However, the job is not yet complete. As Muldoon, walk to the access panel on the pen's left side. While using the panel, a series of colored codes appear. Enter the three colored codes in the same order to activate the panel.

Finally, you need to charge the generator on top of the cage in order to open the gate into the pen. Switch to Jophery Brown. Climb the ladder on the cage's side and use his stun rod on the generator to open the gate. Once this is done, the raptor in the cage moves into the raptor pen to complete the level.

Challenges

Minikit

A Minikit is available on this level during Free Play. Near the fenced area by the raptor pen's left, select a character with bolt cutters. Use them to cut the lock to access the fenced area. Next, switch to a character with the ability to rummage through droppings. Inside a large pile of dino droppings, find the Minikit for the Ankylosaurus Head.

Fossil Piece A

In the first three levels, you collect a total of six fossils so you can view the Velociraptor in the Holoscape. To get the first fossil, use Robert Muldoon and shoot the target on the raptor pen's right side. Once you hit it, the fossil piece falls to the ground. Plus, you unlock the Dino Handler Vic character. Note: Pushing the raptor cage against the wall before shooting the target prevents you from collecting this fossil piece.

Fossil Piece B

The second Velociraptor fossil is acquired by charging three light generators using Jophery Brown. The first generator is at the lower level's far right side. The other two are on the upper level, to the left and right of the raptor pen. When you charge the third generator, the fossil appears.

Hub Visit

After completing the raptor Transfer level, you are taken to the Velociraptor Pen, which serves as the game's main hub. Here you have access to three new characters: Gray Mitchell, Zach Mitchell, and Zara. There are many things you can do here, however, the main function is to allow access to different levels of the game. The door to the Jurassic Park levels is already unlocked, along with the door to the Isla Sorna levels. Earn more Gold Bricks to open the doors to the other two movies' levels.

Head through the Jurassic Park door to continue with those levels. At the Jurassic Park hub's first zone, break apart a generator and assemble the bricks into a level access terminal. You can use this terminal to select levels. By completing the raptor Pen level, you have now unlocked The Dig Site level.

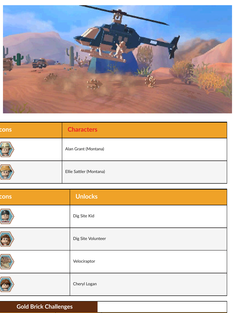
Walkthrough: Mode 1

Level 02: The Dig Site



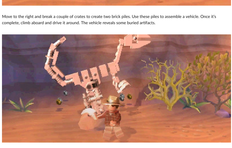
Icons	Characters
	Alan Grant (Montana)
	Ellie Sattler (Montana)

Icons	Unlocks
	Dig Site Kid
	Dig Site Volunteer
	Velociraptor
	Cheryl Logan

Gold Brick Challenges		
Name	**Mode**	**Notes**
Level Complete	Any	Complete the level.
True Survivor	Any	Collect 24,000 studs.
Fossil Piece A	Free Play	Collect the third raptor fossil piece.
Fossil Piece B	Free Play	Collect the fourth raptor fossil piece.
Amber Brick	Free Play	Collect the Amber Brick.

Find the Raptor Claw

Move to the right and break a couple of crates to create two brick piles. Use these piles to assemble a vehicle. Once it's complete, climb aboard and drive it around. The vehicle reveals some buried artifacts.



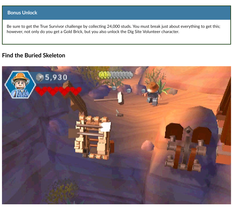
Use Alan Grant and his trowel to dig in this spot to reveal a pile of bones. Since Alan is a paleontologist, he can rebuild bone piles. Once he assembles the skeleton of a Velociraptor, he picks up one of its sharp claws, which he can then use as a tool.

Move back to the left near the level's beginning. Use Alan's raptor claw to cut through the rope. This releases a couple of wooden crates that drop to the lower level.

Bonus Unlock

Be sure to get the True Survivor challenge by collecting 24,000 studs. You must break just about everything to get this; however, not only do you get a Gold Brick, but you also unlock the Dig Site Volunteer character.

Find the Buried Skeleton

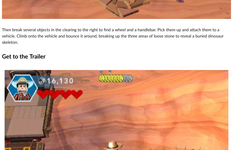


Switch to Ellie Sattler. Since she is agile, she can jump really high. Jump onto the small crate and continue onto the larger crate. From there, use Ellie's Agility ability to reach the top of the ledge. Move to the left and break a crate into a brick pile. Assemble the bricks into a ladder so Alan can get to the top of the ledge as well.

Take control of Alan and use the raptor claw to cut through the vines that block the way to the ledge's right side.

Then break several objects in the clearing to the right to find a wheel and a handlebar. Pick them up and attach them to a vehicle. Climb onto the vehicle and bounce it around, breaking up the three areas of loose stone to reveal a buried dinosaur skeleton.

Get to the Trailer



Someone has arrived at the dig site in a helicopter. You need to get to the trailer and meet this person. Switch to Ellie and jump to grab onto the back of a truck on a higher ledge. This pulls down a pile of bones. You need Alan now to assemble the bones into a dinosaur. However, this skeleton is not just for looks—you can also use it for bouncing high. Jump onto the skeleton and it launches you to the top of the ledge. Now head into the trailer to meet your mysterious visitor.

Challenges

Amber Brick

Once you get to the highest ledge, go through the blue tent's small doorway (you must use a small character for this). This takes you to an area on the helicopter's other side. Destroy a crate and build the front of a vehicle. Climb on and drive it around to find the Amber Brick. It unlocks the Velociraptor and Cheryl Logan.

Fossil Piece A

You must break three rocks and then use the bricks to make sand castles. The first rock is located on the middle ledge. The second is on the highest ledge near the trailer. The third is on the third ridge to the helicopter's left, so it's necessary to use a small character to get through the doorway in the blue tent. In addition to the third raptor fossil, you also unlock the Dig Site Kid character.

Fossil Piece B

On the second ledge, there is a dark cave. This requires a character who has a source of light such as a flare. Use the light to enter the cave and find the fourth raptor fossil.

Walkthrough: Movie 1

Level 03: Raptor Enclosure

Icons	Characters
	Robert Muldoon
	Dino Handler Bob

Gold Brick Challenges		
Name	**Mode**	**Notes**
Level Complete	Any	Complete the level.
True Survivor	Any	Collect 18,000 studs.
Fossil Piece A	Free Play	Collect the fifth raptor fossil piece.
Fossil Piece B	Free Play	Collect the sixth raptor fossil piece.
Red Brick	Free Play	Collect the Red Brick.

Prepare a Meal for the Raptors

This level takes you back to the raptor pen. Your job is to feed the raptors. Move toward the bottom of the level to find a couple of cages. Break them into brick piles and then reassemble them into a feeding platform.

As Robert Muldoon, move to the left to find a small brick. This is the start of a footprint trail for Muldoon to track. At the end, assemble the bricks you find into an access panel. Use the panel and enter the three color code that appears to activate it and open the gate to a fenced area.

Switch to Dino Handler Bob. Use his stun rod to charge the generator on the truck. This releases a cow into the fenced area.

As either character, climb onto the cow and ride it out of the fenced area and onto the feeding platform. The meal has been prepared.

Use the Crane

Now that the meal is ready, you must serve the meal to the raptors. The crane operator has fallen down, so you need to use the crane yourself.

Switch to Muldoon and use his rifle to shoot the target on the crane. This lowers a ladder.

Climb the ladder onto the crane; then get in and take control of it. Move the crane boom to the right to pick up the platform containing the cow. Then move it to the left to place the platform into the raptor pen. Dinner is served.

Challenges

Red Brick

This Red Brick is inside the fenced area. After you open the gate, switch to a character who can dig. Dig up the small pile in the corner of the fence to find the *Red Brick* that can activate Nedry Mode. It dresses all human characters in Denis Nedry's shirt.

Fossil Piece A

The fifth raptor fossil is on the level's right side, near the large red container. Use a character capable of rummaging through droppings on the pile of dino droppings to find this fossil piece.

Fossil Piece B

The sixth and final raptor fossil is in the level's upper left-corner, where a plant can be found. Select a character with the grow ability and use them to water the plant. As it grows, it releases the fossil piece.

Hub Visit

After completing the raptor Enclosure level, you return to the Jurassic Park hub. A gate has opened, granting access to the second zone. Walk through it and move all the way to the right. Select Alan Grant and use the raptor claw to cut through the vines to get to the goat.

Climb onto the goat and ride it to the platform. After it is taken away, use Alan to dig through the dirt and find some bricks. Assemble them into another level access terminal. Use it to access the next three levels.

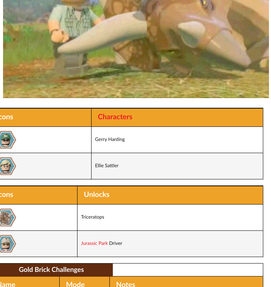
Level 04: Triceratops Recovery

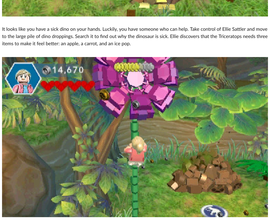


Icons	Characters
	Gerry Harding
	Ellie Sattler

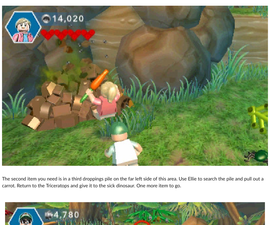
Icons	Unlocks
	Triceratops
	Jurassic Park Driver

Gold Brick Challenges		
Name	**Mode**	**Notes**
Level Complete	Any	Complete the level.
True Survivor	Any	Collect 24,000 studs.
Fossil Piece A	Free Play	Collect the first Triceratops fossil piece.
Fossil Piece B	Free Play	Collect the second Triceratops fossil piece.
Amber Brick	Any	Collect the Amber Brick.

Treat the Sick Triceratops

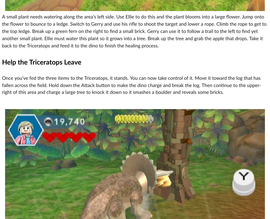


It looks like you have a sick dino on your hands. Luckily, you have someone who can help. Take control of Ellie Sattler and move to the large pile of dino droppings. Search it to find out why the dinosaur is sick. Ellie discovers that the Triceratops needs three items to make it feel better: an apple, a carrot, and an ice pop.



Switch to Gerry Harding and look for a small brick to the dinosaur's right. Harding can use it to follow some tracks that lead to a small plant. Ellie must water it with her watering can. After the plant grows to a large flower, climb the stalk to get to a ledge. There Ellie can jump into another pile of dino droppings to find the ice pop. Grab it and feed it to the Triceratops.

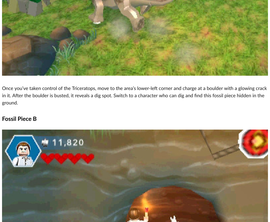
The second item you need is in a third droppings pile on the far left side of this area. Use Ellie to search the pile and pull out a carrot. Return to the Triceratops and give it to the sick dinosaur. One more item to go.



A small plant needs watering along the area's left side. Use Ellie to do this and the plant blooms into a large flower. Jump onto the flower to bounce to a ledge. Switch to Gerry and use his rifle to shoot the target and lower a rope. Climb the rope to get to the top ledge. Break up a green fern on the right to find a small brick. Gerry can use it to follow a trail to the left to find yet another small plant. Ellie must water this plant so it grows into a tree. Break up the tree and grab the apple that drops. Take it back to the Triceratops and feed it to the dino to finish the healing process.

Help the Triceratops Leave

Once you've fed the three items to the Triceratops, it stands. You can now take control of it. Move it toward the log that has fallen across the field. Hold down the Attack button to make the dino charge and break the log. Then continue to the upper-right of this area and charge a large tree to knock it down so it smashes a boulder and reveals some bricks.



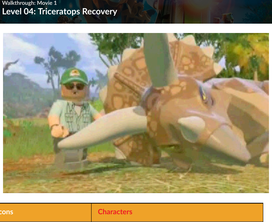
Switch to Gerry and assemble the bricks into an access panel. Use the panel and enter the three colored codes as they appear on the screen to activate the panel and open the gate. Move through the gate to complete the level.

Challenges

Amber Brick

After toppling the large tree with the Triceratops, an Amber Brick appears when the boulder is crushed. Walk over and grab it to unlock the Triceratops for Free Play.

Fossil Piece A



Once you've taken control of the Triceratops, move to the area's lower-left corner and charge at a boulder with a glowing crack in it. After the boulder is busted, it reveals a dig spot. Switch to a character who can dig and find this fossil piece hidden in the ground.

Fossil Piece B

A character that can go into the dark is needed to get this fossil piece. Use the bouncy flower to get onto the ledge; then venture into this dark cave to find what you seek.

Level 05: T. Rex Enclosure

Icons	Characters
	Alan Grant
	Ian Malcolm
	Lex Murphy (Survivor)

Icons	Unlocks
	Timmy Murphy
	Dennis Nedry (Raincoat)
	Henry Wu

Gold Brick Challenges		
Name	**Mode**	**Notes**
Level Complete	Any	Complete the level.
True Survivor	Any	Collect 12,000 studs.
Fossil Piece A	Free Play	Collect the third Triceratops fossil piece.
Fossil Piece B	Any	Collect the fourth Triceratops fossil piece.
Minikit	Free Play	Collect the Minikit.

Rescue Lex Murphy

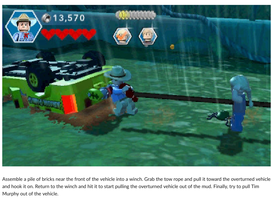
Lex and Timmy Murphy are caught inside the overturned vehicle with a T. rex trying to get to them. You must save them! Take control of Alan Grant and head to the area's left side. Cut down the vines with the raptor claw. Then break up an object to find a valve wheel.

Pick up the wheel, carry it to the right, and put it on the valve. Turn the wheel to operate a pump that removes the water from a large puddle. Move into the remaining water and assemble a pile of bricks into a giant box. Turn the handle on the box and a giant bone pops up and distracts the T. rex for a while.

Move to the pile of dirt near the tail of the T. rex and start digging to find a pile of bricks. Assemble them into a jack, which you can use on the overturned vehicle. Jump on the pad on the jack a few times to lift the vehicle a bit. Then help pull Lex Murphy to safety.

Rescue Tim Murphy

Switch to Lex Murphy. Walk behind the vehicle on the right and use her ability to scream to break the vehicle's back window. Unfortunately, the car alarm goes off and alerts the T. rex. Ian grabs a flare and leads it away for now.



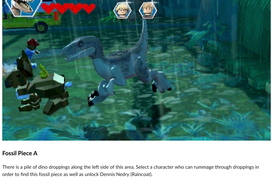
Assemble a pile of bricks near the front of the vehicle into a winch. Grab the tow rope and pull it toward the overturned vehicle and hook it on. Return to the winch and hit it to start pulling the overturned vehicle out of the mud. Finally, try to pull Tim Murphy out of the vehicle.

Challenges

Minikit

This Minikit has a few steps in order to collect it. First break the red fern plant near the right side of the area to reveal a scent cloud. Switch to the Velociraptor character and follow a trail of scent clouds.

When you get to the last scent cloud, a pile of bricks appears. Assemble them into a mechanical rabbit. As it moves around the area, chase it down and break it. The Minikit is released and you also unlock Henry Wu.



Fossil Piece A

There is a pile of dino droppings along the left side of this area. Select a character who can rummage through droppings in order to find this fossil piece as well as unlock Dennis Nedry (Raincoat).

Fossil Piece B

After cutting down the vines with the raptor claw as Alan and finding the wheel, find a dig spot in this corner and then dig up the fossil piece. You also unlock Tim Murphy as a character at the same time.

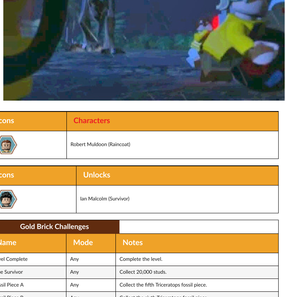
Level 06: T. Rex Chase



Icons	Characters
	Robert Muldoon (Raincoat)

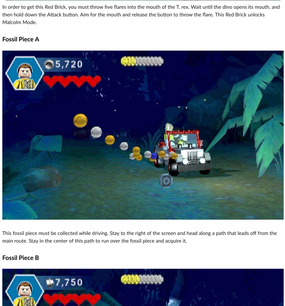
Icons	Unlocks
	Ian Malcolm (Survivor)

Gold Brick Challenges		
Name	**Mode**	**Notes**
Level Complete	Any	Complete the level.
True Survivor	Any	Collect 20,000 studs.
Fossil Piece A	Any	Collect the fifth Triceratops fossil piece.
Fossil Piece B	Any	Collect the sixth Triceratops fossil piece.
Red Brick	Any	Collect the Red Brick.

Escape from the T. Rex

This is a driving level where you must escape from a hungry dinosaur. Steer the truck to the left and right to try and avoid the T. rex.

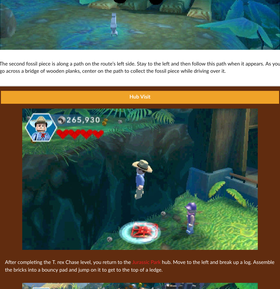
In order to complete the True Survivor challenge, you must collect 20,000 studs. Unlike other levels where you can take your time, this level requires gathering as many studs as possible while driving. Look for trails of individual studs and steer toward them. A circle of studs with a blue stud in the middle is at the end of the short trail. You must hit several of these circles to complete this challenge.



While collecting studs, you must also dodge the T. rex's attacks. If it hits your truck, you lose some of your studs—and it's difficult to make up these losses. Make sure to steer away from the T. rex when it's near.

Challenges

Red Brick



In order to get this Red Brick, you must throw five flares into the mouth of the T. rex. Wait until the dino opens its mouth, and then hold down the Attack button. Aim for the mouth and release the button to throw the flare. This Red Brick unlocks Malcolm Mode.

Fossil Piece A

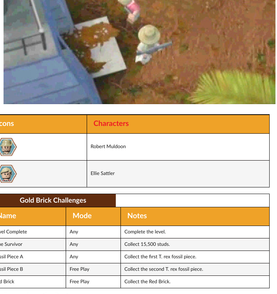
Walkthrough: Mode 1

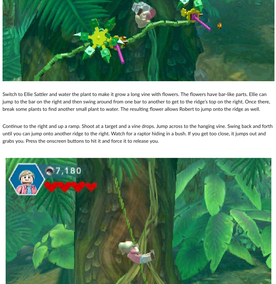
Level 07: The Raptor Pack



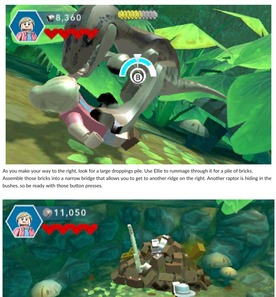
Icons	Characters
	Robert Muldoon
	Ellie Sattler

Gold Brick Challenges		
Name	**Mode**	**Notes**
Level Complete	Any	Complete the level.
True Survivor	Any	Collect 15,500 studs.
Fossil Piece A	Any	Collect the first T. rex fossil piece.
Fossil Piece B	Free Play	Collect the second T. rex fossil piece.
Red Brick	Free Play	Collect the Red Brick.

Escape from the Raptors

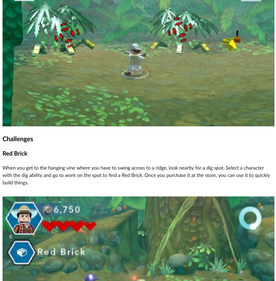


When the power was shut down at Jurassic Park, the raptors escaped from their enclosure. Now you have to move out in the open to get to safety. Make your way to the right, destroying objects as you go to collect studs. When you get to a ridge, break a plant. Using Robert Muldoon, pick up a brick and begin tracking some prints which lead to a small plant.

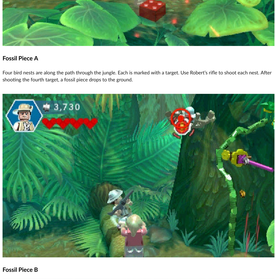


Switch to Ellie Sattler and water the plant to make it grow a long vine with flowers. The flowers have bar-like parts. Ellie can jump to the bar on the right and then swing around from one bar to another to get to the ridge's top on the right. Once there, break some plants to find another small plant to water. The resulting flower allows Robert to jump onto the ridge as well.

Continue to the right and up a ramp. Shoot at a target and a vine drops. Jump across to the hanging vine. Swing back and forth until you can jump onto another ridge to the right. Watch for a raptor hiding in a bush. If you get too close, it jumps out and grabs you. Press the onscreen buttons to hit it and force it to release you.



As you make your way to the right, look for a large droppings pile. Use Ellie to rummage through it for a pile of bricks. Assemble those bricks into a narrow bridge that allows you to get to another ridge on the right. Another raptor is hiding in the bushes, so be ready with those button presses.



Where is the Raptor Hiding?

Continue to the right, and then down a path that leads further into the jungle. Once at a lower clearing, Robert can pick up a raptor claw and begin following some tracks. As you get to the trail's end, a raptor attacks. Press the correct buttons shown onscreen to fight it off.

The raptor runs back to hide. It moves between three different bushes. Watch carefully as each bush is rustled. The last bush to rustle is where the raptor is located. Use Robert's rifle and take aim at the bush to hit the raptor and cause some damage. If you shoot the wrong bush, the raptor takes the chance to attack again. You must hit the raptor three times in order to defeat it and complete the level.

Challenges

Red Brick

When you get to the hanging vine where you have to swing across to a ridge, look nearby for a dig spot. Select a character with the dig ability and go to work on the spot to find a Red Brick. Once you purchase it at the store, you can use it to quickly build things.

Fossil Piece A

Four bird nests are along the path through the jungle. Each is marked with a target. Use Robert's rifle to shoot each nest. After shooting the fourth target, a fossil piece drops to the ground.

Fossil Piece B

The second fossil piece is near the level's end. Before heading down the path to the final fight with the raptor, you find several vines. Switch to a character with a raptor claw or knife and slice through the vines to find the fossil piece.

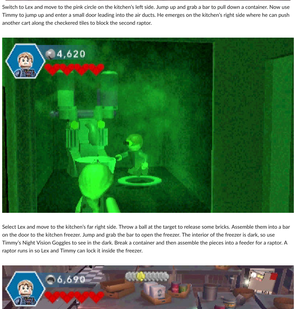
Minikit	Free Play	Collect the Minikit.

Escape from the Kitchen

Lex and Timmy are stuck in a kitchen with some raptors. There are no adults to help, so they must survive on their own. Take control of Lex and move to the left. As you approach the counter's end, use her ability to throw balls to hit a target along the back wall. This will distract a raptor so you can keep moving.

Move away from the raptor and then as far to the right as possible. Switch to Timmy and move through the small door to get past some serving carts blocking the way. Now move to the left a bit and turn on a stove.



As the pot on the stove boils, the lid pops up to reveal a target. Switch back to Lex and throw a ball at the target to distract the second raptor. Select Timmy and move away from the raptor to another row between counters. Continue all the way to the kitchen's left side and push a cart forward along the checkered tiles to block a raptor and open a path for Lex.

Switch to Lex and move to the pink circle on the kitchen's left side. Jump up and grab a bar to pull down a container. Now use Timmy to jump up and enter a small door leading into the air ducts. He emerges on the kitchen's right side where he can push another cart along the checkered tiles to block the second raptor.

Select Lex and move to the kitchen's far right side. Throw a ball at the target to release some bricks. Assemble them into a bar on the door to the kitchen freezer. Jump and grab the bar to open the freezer. The interior of the freezer is dark, so use Timmy's Night Vision Goggles to see in the dark. Break a container and then assemble the pieces into a feeder for a raptor. A raptor runs in so Lex and Timmy can lock it inside the freezer.

One raptor remains in the kitchen. Move to the kitchen's left side again. The raptor knocks some bricks into a pile. Assemble them into a lever. Push on the green part of the lever. When it releases, it hits the raptor. With the raptor stunned, Lex and Timmy can finally escape from the kitchen.

Challenges

Minikit

The Minikit is in the center of the kitchen inside a broken oven. You need a character with the Repair ability. Once the oven is fixed, the Minikit appears.

Fossil Piece A

Three rats are hiding in the kitchen. Find all three to get this fossil piece. Each is hiding underneath a kitchen cart. Hit the carts to find them. The first is near the small door in the middle of the kitchen. The second is under the carts on the kitchen's left side by the pink jump circle. The final rat is under a cart that is smashed by the raptor that runs into the freezer. Just walk to the left to pick up the piece.

Fossil Piece B

A white board with some equations is near the freezer door. In order to solve this, you need a character with the Academic ability. Panels on the board light up. You then need to press those same panels in the correct order to solve the equation and get the fossil piece. You also unlock Dennis Nedry (Costa Rica).

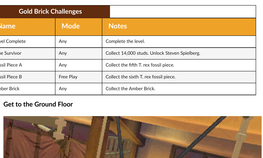
True Survivor	Any	Collect 14,000 studs. Unlock Steven Spielberg.
Fossil Piece A	Any	Collect the fifth T. rex fossil piece.
Fossil Piece B	Free Play	Collect the sixth T. rex fossil piece.
Amber Brick	Any	Collect the Amber Brick.

Get to the Ground Floor



You have access to four different characters for this level. Take control of Alan Grant and drop onto another platform. Use the raptor claw to cut through a rope. As the platform drops, you jump across to a walkway.

Destroy the LEGO planter, switch to Ellie Sattler, and water the plant near a small door. The plant sprouts a vine, which secures the raptor. Now take control of Timmy and go through the small door. When you get to the other side, break all the objects to collect studs. Assemble the build-it pieces into a narrow bridge so other characters can get across.

Select either Lex or Ellie and walk to the pink circle. Carefully jump onto a narrow bridge along the top of a dinosaur skeleton. This is a tough jump. If you miss, you fall down and lose a lot of studs, so be sure to land on the bridge. Walk along the bridge to the left until a raptor jumps on and brings the skeleton crashing to the ground.

Defeat the Raptors

All of your characters are now on the ground. However, you have an ally against the raptors—the T. rex. You gain control of this dinosaur for fighting the raptors. Press the buttons that appear onscreen in the correct sequence. They are different each time, so pay close attention. With the correct button inputs, the T. rex throws the raptor and temporarily stuns it.

After the raptor is stunned for the first time, select Alan and move to the left. Use the raptor claw to cut another rope and drop a crate on the raptor's head. Once this is done, you take control of the T. rex and fight the raptor again.

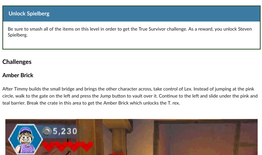
Stun the raptor. Then switch to Lex, move to the left, and throw a ball at the target on top of the scaffolding. This drops another object on the raptor. As the T. rex, defeat the raptor one more time to complete the level.

Unlock Spielberg
Be sure to smash all of the items on this level in order to get the True Survivor challenge. As a reward, you unlock Steven Spielberg.

Challenges

Amber Brick

After Timmy builds the small bridge and brings the other character across, take control of Lex. Instead of jumping at the pink circle, walk to the gate on the left and press the Jump button to vault over it. Continue to the left and slide under the pink and teal barrier. Break the crate in this area to get the Amber Brick which unlocks the T. rex.



Fossil Piece A

Once you have the Amber Brick, use Lex's scream ability to break the glass at the back of this area. After it shatters, move through the opening and to the right to collect this fossil piece.

Fossil Piece B

When on the ground floor, select a character with an electric rifle and shoot the blue target on the level's far left. This drops a large crate which hits the ground and shatters, leaving behind the fossil piece.

Walkthrough: Movie 2

Introduction

Hub Visit

Upon walking through the doors in the Innovation Center that lead to The Lost World: Jurassic Park, you enter a new hub area. Continue to the left and break some objects until they form a pile of bricks. Assemble the bricks into a bouncy platform and use it to jump to the top of a high ledge.

Switch to Nick Van Owen and use his bolt cutters to cut the lock to the gate. Now you can get to the level access terminal.

However, there are a few Compys in the area around the terminal. Defeat them quickly. Though they are small, their bites and attacks can damage your characters. Clear them out; then get ready to start the first level of the second movie!

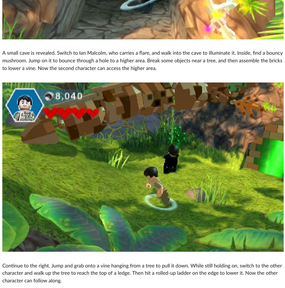
Fossil Piece A	Free Play	Collect the first Stegosaurus fossil piece.
Fossil Piece B	Free Play	Collect the second Stegosaurus fossil piece.
Red Brick	Free Play	Collect the Red Brick.

Get Through the Jungle



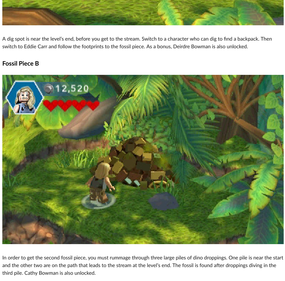
Three different characters are accessible for this level—and you need the abilities of each to find Sarah. While crossing the stream, you're attacked by little Compys. Use the Attack button to defeat them. Each takes a few hits. Take control of Nick Van Owen and use his crowbar to pull apart a rock to the stream's right.

A small cave is revealed. Switch to Ian Malcolm, who carries a flare, and walk into the cave to illuminate it. Inside, find a bouncy mushroom. Jump on it to bounce through a hole to a higher area. Break some objects near a tree, and then assemble the bricks to lower a vine. Now the second character can access the higher area.

Continue to the right. Jump and grab onto a vine hanging from a tree to pull it down. While still holding on, switch to the other character and walk up the tree to reach the top of a ledge. Then hit a rolled-up ladder on the edge to lower it. Now the other character can follow along.

Take a Picture

Move to the right and fight off the Compys. They are coming out of a small hole in the side of a short ledge. While continuing to deal with the Compys, break a rock into pieces and reassemble it to block the hole. Switch to Eddie Carr and shoot the target. Assemble the bricks that fall to make a wood chopper. Jump up and down on the platform to make the chopper cut some wood. Grab the small object left behind and use it to follow some prints. The prints lead to bricks that can be assembled into a bouncy platform. Jump on it to grab onto a bar and pull some logs down. Use the logs as steps to get to the top of a ledge.



Switch to Nick Van Owen and progress to the left. As you approach a stream, more Compys attack. Defeat the Compys, and then use Nick's crowbar to break open a rock to make a step.

Use the step to jump onto a larger rock. Move to the photo icon on the rock and press the Action button to take a photograph of a couple Stegosauruses. Once this is accomplished, you find Sarah...or perhaps Sarah finds you.

Challenges

Red Brick

At the spot where you pull a vine to lower the tree, select the Dilophosaurus. Use its ability to spit venom at the green glowing rock. After a few times, the venom eats through the rock and exposes the Red Brick. Once unlocked, you can purchase it at the shop to use the Stud Magnet ability. In addition to the Red Brick, Paul Bowman is also unlocked.

Fossil Piece A

A dig spot is near the level's end, before you get to the stream. Switch to a character who can dig to find a backpack. Then switch to Eddie Carr and follow the footprints to the fossil piece. As a bonus, Deirdre Bowman is also unlocked.

Fossil Piece B

In order to get the second fossil piece, you must rummage through three large piles of dino droppings. One pile is near the start and the other two are on the path that leads to the stream at the level's end. The fossil is found after droppings diving in the third pile. Cathy Bowman is also unlocked.

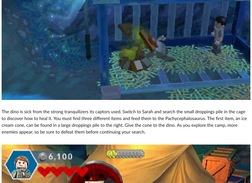
True Survivor	Any	Collect 30,000 studs.
Fossil Piece A	Free Play	Collect the third Stegosaurus fossil piece.
Fossil Piece B	Free Play	Collect the fourth Stegosaurus fossil piece.
Amber Brick	Free Play	Collect the Amber Brick.

The Lower Camp

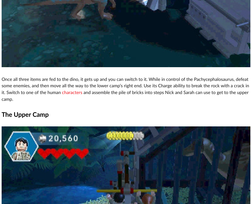
Someone is capturing dinosaurs and putting them into cages. Sarah and Nick must free the dinos and defeat anyone that gets in their way. Clear out the enemies near the first cage. Then use Nick's bolt cutters to cut the lock and free the Pachycephalosaurus.



The dino is sick from the strong tranquilizers its captors used. Switch to Sarah and search the small droppings pile in the cage to discover how to heal it. You must find three different items and feed them to the Pachycephalosaurus. The first item, an ice cream cone, can be found in a large droppings pile to the right. Give the cone to the dino. As you explore the camp, more enemies appear, so be sure to defeat them before continuing your search.

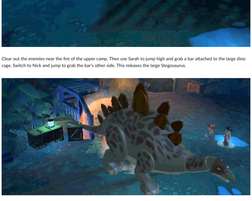
The next item, a mushroom, is cooking over a fire. To get it, break an object to the fire's right and reassemble it into a turning mechanism. Use the mechanism to get the mushroom, then take it to the dino.

The last item, a banana, is at the lower camp's far-right end. Switch to Nick and use his crowbar to open a large metal crate and get the banana.



Once all three items are fed to the dino, it gets up and you can switch to it. While in control of the Pachycephalosaurus, defeat some enemies, and then move all the way to the lower camp's right end. Use its Charge ability to break the rock with a crack in it. Switch to one of the human characters and assemble the pile of bricks into steps Nick and Sarah can use to get to the upper camp.

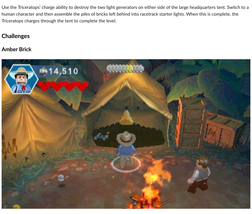
The Upper Camp



Clear out the enemies near the fire of the upper camp. Then use Sarah to jump high and grab a bar attached to the large dino cage. Switch to Nick and jump to grab the bar's other side. This releases the large Stegosaurus.

Take control of the Stegosaurus and use it to defeat the enemies that appear. Pressing the Action button causes it to use its power tail swing attack. Use the tail to open the small cage with a baby dino inside. Once you do, the Stegosaurus clears a path to the right so you can continue.

Clear out some more enemies in the camp's far-right side. Take control of Sarah and search a large droppings pile for a key. Use it to open a large lock on a cage to the left in order to release a Triceratops.



Use the Triceratops' charge ability to destroy the two light generators on either side of the large headquarters tent. Switch to a human character and then assemble the piles of bricks left behind into racetrack starter lights. When this is complete, the Triceratops charges through the tent to complete the level.

Challenges

Amber Brick

There is a small tent in the upper camp that is locked. Select a character with a raptor claw or a hunting knife and cut through the rope to open the tent. An Amber Brick is inside. It unlocks the Stegosaurus.

Fossil Piece A

Throughout the two camps are three blue generators. Use a character with a stun rod to charge all three generators to acquire this fossil piece.

Fossil Piece B

In order to get this fossil, you need the Dilophosaurus. Three glowing wheelbarrows must be destroyed by several venom attacks. One wheelbarrow is in the lower camp and the other two are in the upper camp. Destroy all three to get the fossil piece.

	Ian Malcolm
	Eddie Carr

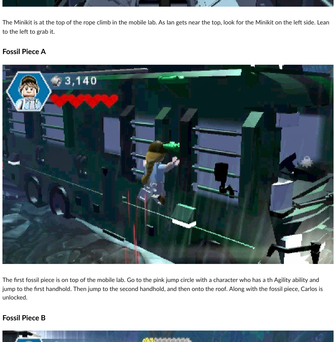
Icons	Unlocks
	Carlos

Gold Brick Challenges		
Name	**Mode**	**Notes**
Level Complete	Any	Complete the level.
True Survivor	Any	Collect 8,000 studs.
Fossil Piece A	Free Play	Collect the third Stegosaurus fossil piece.
Fossil Piece B	Free Play	Collect the fourth Stegosaurus fossil piece.
Minikit	Any	Collect the Minikit.

Rescue Ian

As this level begins, Ian Malcolm is dangling from a rope as half of the mobile lab is hanging over a cliff. Start moving up the rope. You can move right or left to avoid falling objects; however, when you see a string of studs falling, move toward it. The first few are silver. They are followed by gold studs, and then a final blue stud. To complete the True Survivor challenge, you must get these studs and avoid getting hit (since getting hit causes you to lose studs).

After climbing a bit, the lab starts to fall over the cliff. Switch to Eddie Carr on solid ground. Grab a hook under the mobile lab, and use it to track a pile of bricks. Assemble them into a winch on the lab. Then move to the truck and grab the tow cable. Pull it until it connects with the winch on the lab.



Now hop into the truck. You must keep the truck centered in the meter on the screen. Move left and right. When it is in the blue area, you are pulling the mobile lab off the cliff. Keep doing this until the front half of the lab is back on the ground.

Switch back to Ian and begin climbing some more. Watch for falling obstacles. Keep going until the mobile lab begins to fall over the cliff again; then take control of Eddie. The winch on the truck is busted. Before fixing it, defeat several Compys that attack. Once they are cleared out, fix the winch. Climb back into the truck and steer left and right to keep it centered while pulling on the lab again. Finally, switch back to Ian and climb to the rope's top to complete the level.

Challenges

Minikit

The Minikit is at the top of the rope climb in the mobile lab. As Ian gets near the top, look for the Minikit on the left side. Lean to the left to grab it.

Fossil Piece A

The first fossil piece is on top of the mobile lab. Go to the pink jump circle with a character who has a th Agility ability and jump to the first handhold. Then jump to the second handhold, and then onto the roof. Along with the fossil piece, Carlos is unlocked.

Fossil Piece B

Look for a dig spot near the truck. Select a character with this ability and dig up this fossil piece for your collection.

Hub Visit

After completing the Mobile Lab level, you can access the second part of The Lost World: Jurassic Park hub. From the first level access terminal, walk to the right, past the large boulders which are now broken up. Continue until you get to some crates near a stream.

In order to get the second level access terminal, you must set up a camp. Break the crates and assemble them into a tent.

Select a character who can rummage in droppings and search the large pile to the tent's right. Inside, find a pile of bricks. Assemble them into a cot and the camp is complete. You can now access the next three levels.

Fossil Piece A	Any	Collect the first Compsognathus fossil piece.
Fossil Piece B	Any	Collect the second Compsognathus fossil piece.
Minikit	Any	Collect the Minikit.

Run Away from the T. Rex

This is a chase level. The people from the camp are being pursued by a T. rex. You must guide Sarah as she makes an escape. While running, focus on collecting studs and completing the challenges. Keep going all the way to the end to complete the level.

To complete the True Survivor challenge, you need 12,000 studs. This can be tough your first time through, so you may need to play this level a few times in order to get enough. Watch for trails of studs. The silver studs lead to gold and then a blue. Move left and right to get enough studs to meet the requirement. Completing this challenge also unlocks Roland Tembo.

Challenges

Minikit

Near the level's end, the view changes to one where you are behind the characters. The Minikit is hovering over a log. Adjust your trajectory to hit the Minikit as you jump over the log.

Fossil Piece A

The first fossil piece is alongside the path as you are running. When the view starts to turn from head-on to a side view, stay to the path's left (the character's right) to pick it up.

Fossil Piece B

To collect the second fossil piece, run into two palm trees. During the side-view portion, move to the top of the screen to hit and break the first tree. Then quickly drop to the bottom of the screen and hit the second tree to get the fossil piece.

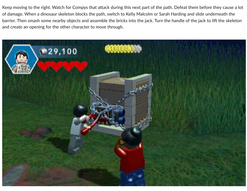
Fossil Piece B	Free Play	Collect the fourth Compsognathus fossil piece.
Amber Brick	Free Play	Collect the Amber Brick.

Survive the Raptors

In this level, you must move through tall grass while avoiding raptors and their Compys. Smash objects to collect studs while advancing to the right. When you come to a large pile of dino droppings, switch to Sarah Harding and dive in to find some bricks. Assemble them into a lawn mower. The mower cuts a path for you and distracts a raptor as well.

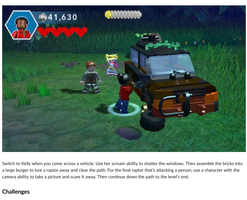
While following the path to the right, watch for raptors. They are often near blue studs waiting to ambush you. Follow the onscreen prompts and press the correct buttons to break away.

When a large log blocks your path, switch to Nick Van Owen and use his crowbar to break it open. Walk through the log's hollow interior to get to the other side.



Keep moving to the right. Watch for Compys that attack during this next part of the path. Defeat them before they cause a lot of damage. When a dinosaur skeleton blocks the path, switch to Kelly Malcolm or Sarah Harding and slide underneath the barrier. Then smash some nearby objects and assemble the bricks into the jack. Turn the handle of the jack to lift the skeleton and create an opening for the other character to move through.

Switch to Nick and use his bolt cutters to open a locked crate. This releases some Compys. However, you don't have to worry about them. They run off and hold a raptor away from the path as they go. When a raptor attacking a person blocks your way, use Nick's camera to take a picture and scare it away.



While approaching a couple of raptors attacking people, switch to Sarah and go diving into the dino droppings. Assemble the bricks she finds into a miniature ice cream truck that distracts the raptors.

Switch to Kelly when you come across a vehicle. Use her scream ability to shatter the windows. Then assemble the bricks into a large burger to lure a raptor away and clear the path. For the final raptor that's attacking a person, use a character with the camera ability to take a picture and scare it away. Then continue down the path to the level's end.

Challenges

Amber Brick

After breaking the windows in the vehicle, instead of taking the upper path toward the exit, follow the tower path. Use a character with a raptor claw to cut through the vines. Continue to the cave and switch to a character capable of going into dark places. Inside, find the Amber Brick that unlocks the Compsognathus.

Fossil Piece A

While advancing along the path through the long grass, you come across four different spots where raptors are attacking people. A few have to be rescued to continue down the path. Rescue all five people at these four spots to get the fossil piece. Ajay Sidhu is also unlocked.

Fossil Piece B

After the lawn mower clears a path, select a character with the dig ability and use it on a dig spot. Break open the box that is found to get the fossil piece, as well as unlock an InGen Hunter.

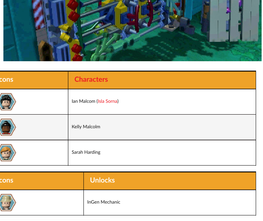
Walkthrough: Movie 2

Level 15: Compound



Icons	Characters
	Ian Malcom (Isla Sorna)
	Kelly Malcolm
	Sarah Harding

Icons	Unlocks
	InGen Mechanic

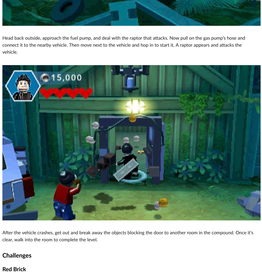
Gold Brick Challenges

Name	Mode	Notes
Level Complete	Any	Complete the level.
True Survivor	Any	Collect 19,000 studs.
Fossil Piece A	Free Play	Collect the fifth Compsognathus fossil piece.
Fossil Piece B	Free Play	Collect the sixth Compsognathus fossil piece.
Red Brick	Free Play	Collect the Red Brick.

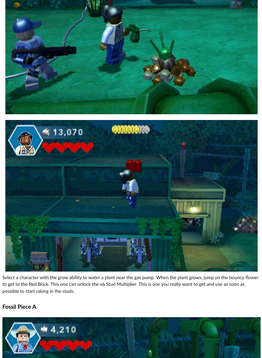
Find Safety in the Compound

Your characters need to get into the compound, but it's protected by a large gate. Break some objects by the gate and assemble the bricks into a bar on the wall. Switch to Kelly Malcolm or Sarah Harding and jump to the bar and then over the wall.

Switch to Sarah Harding, move to the left, and fight off the Compys. Then find a large pile of dino droppings. Rummage through it to find a hook. Return to the vehicle by the gate and put the hook on the winch. Pull on the tow cable and attach it to the gate. Give the winch on the vehicle a kick and the gate is pulled open.



Switch to Ian Malcolm and move toward the building. It's dark inside, so Ian can use his flare. Walk to the back of the building and press the button at the correct time to start the generator and provide power to the building. This also opens the garage door, providing access to the level's next area.



Switch to Kelly and use here scream to shatter the glass door near the vehicle. Enter the building and defeat some Compys before starting a generator to provide power to the gas pump outside.

Head back outside, approach the fuel pump, and deal with the raptor that attacks. Now pull on the gas pump's hose and connect it to the nearby vehicle. Then move next to the vehicle and hop in to start it. A raptor appears and attacks the vehicle.

After the vehicle crashes, get out and break away the objects blocking the door to another room in the compound. Once it's clear, walk into the room to complete the level.

Challenges

Red Brick

Select a character with the grow ability to water a plant near the gas pump. When the plant grows, jump on the bouncy flower to get to the Red Brick. This one can unlock the x6 Stud Multiplier. This is one you really want to get and use as soon as possible to start raking in the studs.

Fossil Piece A

There are some vines near the level's beginning. Select a character with a raptor claw or hunting knife and cut through the vines. On the other side, find the fossil piece.

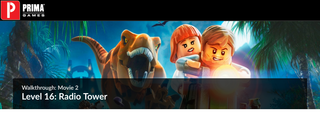
Fossil Piece B

Break an object behind the vehicle with the winch. Then select a character with the tracking ability and follow the prints to find the second fossil piece. The InGen Mechanic is also unlocked.

Hub Visit

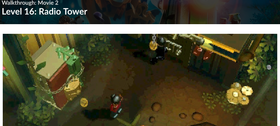
Once this level is complete, you return to the Jurassic Park Visitor Center hub. Move to the right and turn the red wheel. This shuts off the steam blocking the entrance to the compound area.

Switch to Kelly or another agile character and walk jump near the wheel to get to the platform's top. Push the crate off the platform, then drop down and assemble the pieces into the third level access terminal.



Walkthrough: Movie 2

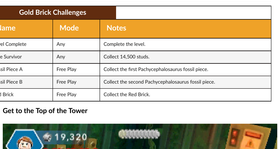
Level 16: Radio Tower



Icons	Characters
	Sarah Harding
	Kelly Malcolm

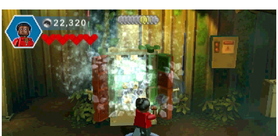
Gold Brick Challenges		
Name	**Mode**	**Notes**
Level Complete	Any	Complete the level.
True Survivor	Any	Collect 14,500 studs.
Fossil Piece A	Free Play	Collect the first Pachycephalosaurus fossil piece.
Fossil Piece B	Free Play	Collect the second Pachycephalosaurus fossil piece.
Red Brick	Free Play	Collect the Red Brick.

Get to the Top of the Tower



The helicopters are coming to evacuate your group from the island. However, you must reach the top of the radio tower for them to pick you up. raptors are all around. While Ian holds them off at the door, you must find a way to the top. First, you need the key next to a skeleton. As you approach, a raptor sticks its head through a hole. Use Sarah's camera to drive it away, and then grab the key.

Put the key into the large lock and turn it to open the cabinet. Switch to Kelly and scream to break the glass in the cabinet. Assemble the resulting bricks to create a wall jump. Use the wall jump to access the tower's second floor.



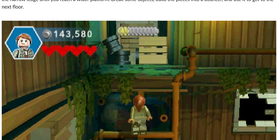
Follow the walkway to the left. Use the Action button to knock a plank over the gap. Walk on the plank as far as possible, then jump across and grab a chain. This brings another plank down to create a narrow bridge. Switch to the other character and continue across the bridge.

Once on the other side, break the gate into a pile of bricks. As soon as you do this, a raptor attacks. Fight the raptor off. Then assemble the bricks into a ladder, which you lower to the ground floor. Move forward and climb a pipe to the next floor.

Switch to Sarah and move to the left. As a raptor pops its head through a hole, use the camera to make it leave. Proceed along the narrow ledge until you reach a wider platform. Break some objects, build the pieces into a bouncer, and use it to get to the next floor.

As you get to the top, another raptor attacks. Fight it off with the correct button presses. Then move to the right and jump across to a bar extending from the wall. Swing around it, and then jump to the next bar. Jump again into a wall jump and reach the top.

Use Kelly's scream to shatter the glass in the cabinet. Assemble the resulting bricks to fix an elevator platform for Ian to use. Switch to Sarah and move to another pile of bricks on the left side. A raptor tries to stop you, so flash him with the camera. Then assemble the bricks into a button and press it to send the elevator to Ian. Once he gets in, the level comes to an end.



Challenges

Red Brick

After getting across the pole swings, drop to the platform on the right. Select a character with a projectile attack, such as a ball or rifle. Hit the target above the hanging skeleton. This reveals a Red Brick for helium voices.

Fossil Piece A

After the raptor attacks and you jump on the bouncer, select a character for going into dark areas. Walk into the area where the raptor emerged to find a fossil piece.

Fossil Piece B

Break a container on the top floor's left to reveal a small door. Switch to a small character and enter. Move to the left to get the fossil piece; then return the way you came.

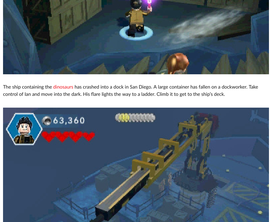
Level 17: San Diego Docks

Icons	Characters
	Ian Malcolm (San Diego)
	Sarah Harding (San Diego)

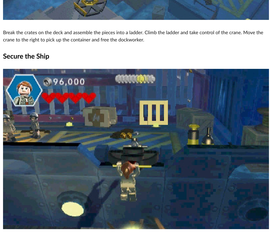
Icons	Unlocks
	Pachycephalosaurus

Gold Brick Challenges		
Name	**Mode**	**Notes**
Level Complete	Any	Complete the level.
True Survivor	Any	Collect 31,500 studs.
Fossil Piece A	Any	Collect the third Pachycephalosaurus fossil piece.
Fossil Piece B	Any	Collect the fourth Pachycephalosaurus fossil piece.
Amber Brick	Free Play	Collect the Amber Brick.

Rescue the Dockworker

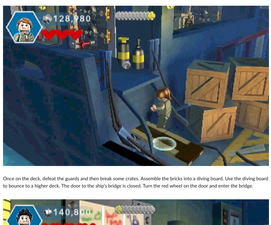


The ship containing the dinosaurs has crashed into a dock in San Diego. A large container has fallen on a dockworker. Take control of Ian and move into the dark. His flare lights the way to a ladder. Climb it to get to the ship's deck.

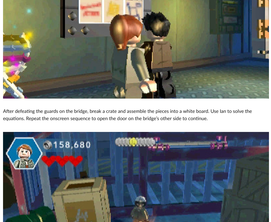


Break the crates on the deck and assemble the pieces into a ladder. Climb the ladder and take control of the crane. Move the crane to the right to pick up the container and free the dockworker.

Secure the Ship

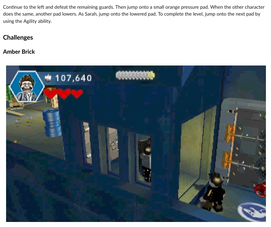


Drop to the dock and move to the left. Jump across to a floating container and then to another section of dock. Defeat the guards here. Switch to Sarah and jump to grab a bar and pull the anchor down so it can be used as a ladder to get back onto the ship.



Once on the deck, defeat the guards and then break some crates. Assemble the bricks into a diving board. Use the diving board to bounce to a higher deck. The door to the ship's bridge is closed. Turn the red wheel on the door and enter the bridge.

After defeating the guards on the bridge, break a crate and assemble the pieces into a white board. Use Ian to solve the equations. Repeat the onscreen sequence to open the door on the bridge's other side to continue.

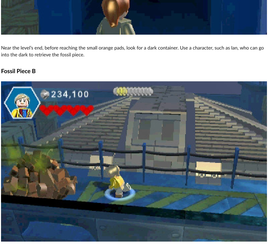


Exit the bridge and descend the stairs to the left. Break some crates and assemble the bricks into a bar. Select Sarah and vault over the bar and into a dino cage. Move left and then vault out using another bar. Defeat the guards on this side. Then move to the right and push a crate to the right so Ian can join you.

Continue to the left and defeat the remaining guards. Then jump onto a small orange pressure pad. When the other character does the same, another pad lowers. As Sarah, jump onto the lowered pad. To complete the level, jump onto the next pad by using the Agility ability.

Challenges

Amber Brick



Near the bridge, find the second door. Switch to a character with InGen access and use the access panel to unlock the door. Then continue to the back of the ship. Switch to a character with a stun rod and use it on the generator panel to open a container. The Amber Brick inside unlocks the Pachycephalosaurus.

Fossil Piece A

Near the level's end, before reaching the small orange pads, look for a dark container. Use a character, such as Ian, who can go into the dark to retrieve the fossil piece.

Fossil Piece B

After using the crane and before dropping down to the dock, descend the stairs to the crane's left to reach a small deck area with a large pile of dino droppings. Use Sarah, or another character with this ability, to rummage through the droppings to find a fossil piece.

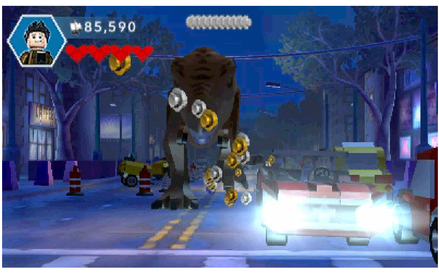
Fossil Piece A	Any	Collect the fifth Pachycephalosaurus fossil piece.
Fossil Piece B	Any	Collect the sixth Pachycephalosaurus fossil piece.
Minikit	Any	Collect the Minikit.

Get the Baby T. Rex to the Docks



This level is a race to the San Diego docks with a T. rex on your tail. While driving, steer back and forth to collect as many of the studs as possible to complete the True Survivor challenge.

Make your way to the docks and crash through this building to complete the level.

Challenges

Minikit

As the T. rex is chasing you, hold down the Attack button to aim. Release when the T. rex's mouth is open with the target over it. This will throw a chicken into its mouth. Get three chickens in the dino's mouth to earn the Minikit. Ellie Degler is also unlocked.

Fossil Piece A

When the view changes from head-on to a view of the car's back, steer to the road's right side. As you approach a truck, drive up its ramp to get the fossil piece and unlock Mark Degler.

Fossil Piece B

Three pizza delivery bikes are along the route. Hit all three to earn this fossil piece and unlock Charlie Degler. The first is along the screen's right side during the first driving segment. It's nearly impossible to see until you drive past it, so hug the screen's right side until you hit it. The second bike is to the truck's left where you get the first fossil piece. The third bike is on the left when you're once again in a head-on view.

Walkthrough: Movie 3

Introduction

Hub Visit

After walking through the Jurassic Park III door in the Innovations Center, you arrive at the first hub for this movie. Take control of Paul Kirby and use his grappling hook to grab onto the orange attachment on the airplane fuselage.

Pull on the grappling hook to cause some bricks to drop from the plane. Assemble them into the first level access terminal for this movie. Use it to play the first level.

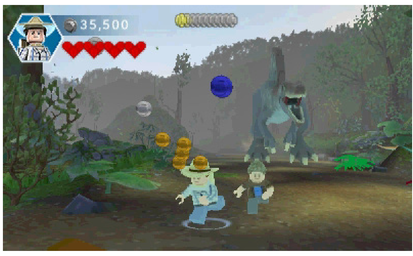
Walkthrough: Movie 3

Level 19: Spinosaurus Escape

Icons	Characters
	Alan Grant (Isla Sorna)

Gold Brick Challenges		
Name	**Mode**	**Notes**
Level Complete	Any	Complete the level.
True Survivor	Any	Collect 8,000 studs.
Fossil Piece A	Any	Collect the first Gallimimus fossil piece.
Fossil Piece B	Any	Collect the second Gallimimus fossil piece.
Red Brick	Any	Collect the Red Brick.

Run Away from the Spinosaurus



This is a chase level. As Alan Grant, avoid being eaten by the Spinosaurus while running through the jungle and trying to gather as many studs as possible. As in previous chase levels, look for rows of studs. They start out with silver, then gold, and finally a blue stud at the end. Many have a log directly after the blue stud. Be ready to jump just before the blue stud to grab it and avoid the log.

In addition to collecting studs, move back and forth to avoid taking damage from the Spinosaurus. When it gets close, move! Or it snaps at you and makes you drop studs.

Challenges

Red Brick

After the path splits and then comes back together again, stay to the screen's left side. A rock appears in your path. Run directly into it to break the rock. It releases a Red Brick that unlocks the x8 Stud Multiplier.

You definitely want this one and should purchase it from the store as soon as possible.

Fossil Piece A

This fossil piece is just before the Red Brick. Stay to the left after the split and rejoining of the trail. There is a trail of studs and a log, then this fossil piece is just over the next log.

Fossil Piece B

Look for a ramp at the top of the screen after the trail splits and the view changes to a side view. Go up the ramp and follow it a short distance to get the second fossil piece.

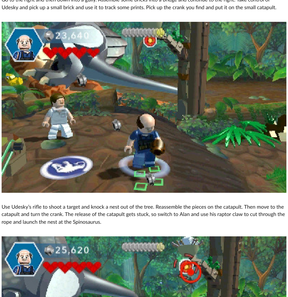
Fossil Piece A	Free Play	Collect the third Gallimimus fossil piece.
Fossil Piece B	Free Play	Collect the fourth Gallimimus fossil piece.
Amber Brick	Any	Collect the Amber Brick.

Help the T. Rex

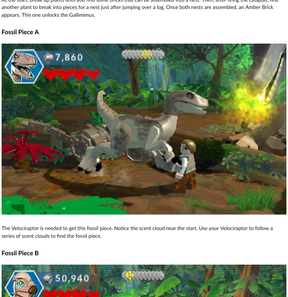
The Spinosaurus is in a fight with a T. rex. While they are keeping each other occupied, you must try to get away from this clearing. Start off by helping Alan Grant. He is trapped between a couple logs. Pull him out.



The T. rex is not doing so well in the fight. Since the fight needs to keep going until your escape, help the T. rex. Switch to Alan and dig up a pile of dirt to find some bricks. Assemble them into a giant rubber ducky. Switch to Paul and throw his grappling hook at the orange attachment on a tree. This launches the ducky into the clearing and distracts the Spinosaurus.

Go to the right and then down into a gully. Assemble some bricks into a bridge and continue to the right. Take control of Udesky and pick up a small brick and use it to track some prints. Pick up the crank you find and put it on the small catapult.

Use Udesky's rifle to shoot a target and knock a nest out of the tree. Reassemble the pieces on the catapult. Then move to the catapult and turn the crank. The release of the catapult gets stuck, so switch to Alan and use his raptor claw to cut through the rope and launch the nest at the Spinosaurus.

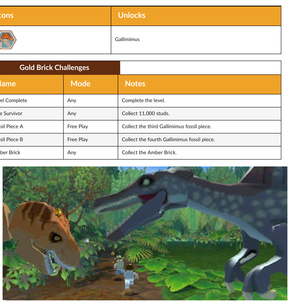


Move to the right and break the plants near a tree. Assemble the bricks into a lever on a large tree stump. Climb onto the stump and push the lever's green side in a circle to pull back a tree; release it to hit the Spinosaurus.

You now take control of the T. rex. Press the onscreen buttons to attack the Spinosaurus and throw it to the ground. When the fight resumes, you again have control of the human characters. Run between the two large dinos to get to safety.

Challenges

Amber Brick



At the start, break up plants until you find some bricks that can be assembled into a nest. Then, after firing the catapult, find another plant to break into pieces for a nest just after jumping over a log. Once both nests are assembled, an Amber Brick appears. This one unlocks the Gallimimus.

Fossil Piece A

The Velociraptor is needed to get this fossil piece. Notice the scent cloud near the start. Use your Velociraptor to follow a series of scent clouds to find the fossil piece.

Fossil Piece B

Near the end of the level, find a large cracked rock. Charge the rock with a capable dinosaur to break it and retrieve this fossil piece.

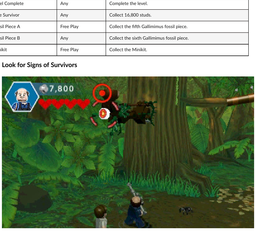
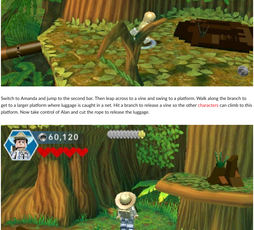
Fossil Piece A	Free Play	Collect the fifth Gallimimus fossil piece.
Fossil Piece B	Any	Collect the sixth Gallimimus fossil piece.
Minikit	Free Play	Collect the Minikit.

Look for Signs of Survivors



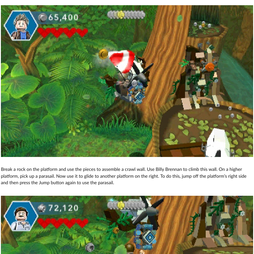
Paul and Amanda Kirby have come to Isla Sorna to find their son. Their party is looking for evidence that he is still alive. Start by taking control of Udesky and using his rifle to shout the target in a tree. Assemble the bricks that fall into a bar on the tree.

Switch to Amanda and jump to the second bar. Then leap across to a vine and swing to a platform. Walk along the branch to get to a larger platform where luggage is caught in a net. Hit a branch to release a vine so the other characters can climb to this platform. Now take control of Alan and cut the rope to release the luggage.

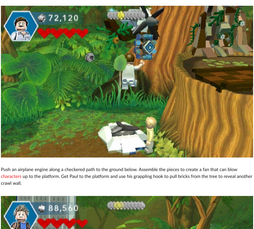


Break the luggage and switch to Udesky. Use one of the bricks from the luggage to start tracking. This leads to a pile of bones. Use Alan to assemble the bones into a bouncy pad, then use it to get to another platform in a tree.

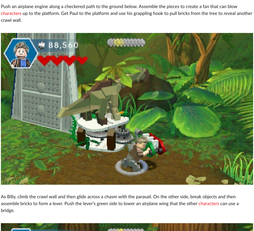
Break a rock on the platform and use the pieces to assemble a crawl wall. Use Billy Brennan to climb this wall. On a higher platform, pick up a parasail. Now use it to glide to another platform on the right. To do this, jump off the platform's right side and then press the Jump button again to use the parasail.



Push an airplane engine along a checkered path to the ground below. Assemble the pieces to create a fan that can blow characters up to the platform. Get Paul to the platform and use his grappling hook to pull bricks from the tree to reveal another crawl wall.



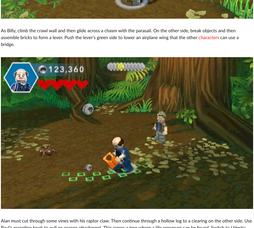
As Billy, climb the crawl wall and then glide across a chasm with the parasail. On the other side, break objects and then assemble bricks to form a lever. Push the lever's green side to lower an airplane wing that the other characters can use a bridge.



Alan must cut through some vines with his raptor claw. Then continue through a hollow log to a clearing on the other side. Use Paul's grappling hook to pull an orange attachment. This opens a tree where a life preserver can be found. Switch to Udesky and track a trail to some bricks. Assemble them into a movie projector to compete the level.

Challenges

Minikit

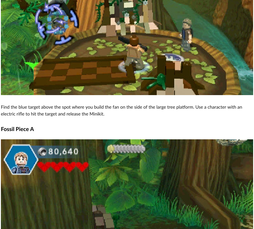


Find the blue target above the spot where you build the fan on the side of the large tree platform. Use a character with an electric rifle to hit the target and release the Minikit.

Fossil Piece A

In the bowl's final area, a small door is in the side of a tree. Select a small character to crawl through and access a small platform up in the tree. Find the fossil piece here, as well as unlock Ben Hildebrand.

Fossil Piece B

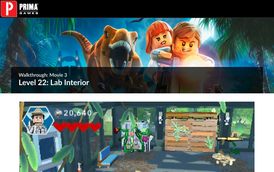


This fossil piece is awarded for shooting three nests with Udesky's rifle (or with projectiles from another character). The first nest is above the first tree platform. The second nest is above the tree platform near the chasm where Billy has to parasail. The final nest is in a tree near the bowl's end. Just look for the targets.

Hub Visit

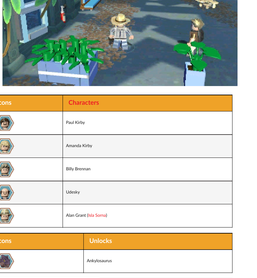
After completing this level, you return to the hub area. Take control of Billy Brennan and move to the right toward a chasm. Glide across to the narrow structure using his parasail. Break some objects and use the pieces to assemble a small bridge for other characters to use.

Bring Alan Grant across to hack away at some vines with his raptor claw. Then continue to the second level access terminal to begin the next level.



Walkthrough: Mode 1

Level 22: Lab Interior



Icons	Characters
	Paul Kirby
	Amanda Kirby
	Billy Bronnan
	Udoisy
	Alan Grant (Ida Sonia)

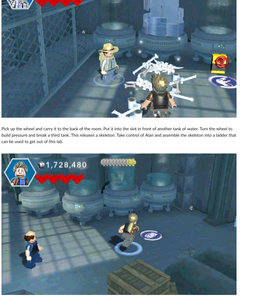
Icons	Unlocks
	Ankylosaurus

Gold Brick Challenges		
Name	**Mode**	**Notes**
Level Complete	Any	Complete the level.
True Survivor	Any	Collect 33,500 studs.
Fossil Piece A	Free Play	Collect the first Ankylosaurus fossil piece.
Fossil Piece B	Any	Collect the second Ankylosaurus fossil piece.
Amber Brick	Free Play	Collect the Amber Brick.

Advance through the Lab

As your team continues looking for Eric, they must search the laboratory. Start by using Alan to cut through the vines on the vending machine. Switch to Amanda and use her scream to shatter the glass and release an object.

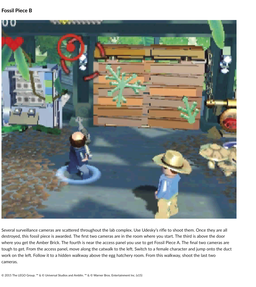
Switch to Udoisy and use the object to track through the room to find a pile of bricks. Assemble them into some gears with a crank. Turn the crank to open the door and enter the laboratory. Be ready to fight off some Compys that attack once the door is opened.



Advance down the hallway to the right and then descend the stairs to the first lab room's main floor. Use Paul to fix the blue robotic arm at the back of the room. Build part of a walkway. Switch to Billy and climb back up the stairs, lighting Compys as you go. Follow the walkway to the back and then use the parasol to glide across to the walkway on the right.

Push a crate along checkered tiles until it gets stuck. Then switch to Paul on the floor of the lab. Use his grappling hook to grab onto the crate and pull it down. It breaks into a pile of bricks on the floor. Use these bricks to repair a green robot arm. After it closes a batch of dino eggs in an incubator, jump onto the incubator and bounce to the walkway on the right.

Drop to the ground floor of the second lab and turn the red wheel next to the tank of water. Use Alan's raptor claw to cut away vines covering some broken pipes. Switch to Paul and repair the pipes. As the pressure builds, it blows off a red wheel.



Pick up the wheel and carry it to the back of the room. Put it into the slot in front of another tank of water. Turn the wheel to build pressure and break a third tank. This releases a skeleton. Take control of Alan and assemble the skeleton into a ladder that can be used to get out of this lab.

After climbing the ladder, continue to the right until a raptor is hiding behind some tanks. Switch to Billy and use his camera to dust the raptor. Now your group can get past it and complete the level.

Challenges

Amber Brick

In the room with the two robotic arms, move to the far left on the ground floor. Fire an electric rifle at the blue target to open a door. Enter the room with a character capable of going into dark places and retrieve the Amber Brick that unlocks the Ankylosaurus.

Fossil Piece A

Near the level's end, find an access panel. Switch to a character with InGen access to use the panel. Repeat the onscreen code. Next, complete the puzzle. The fossil piece is in a bank of water. Use the switches on the floor to transfer the fossil to the broken tank. If you number the switches from one to four starting on the left, jump on the switches in this order: three, one, two.

Fossil Piece B

Several surveillance cameras are scattered throughout the lab complex. Use Udoisy's rifle to shoot them. Once they are all destroyed, this fossil piece is awarded. The first two cameras are in the room where you start. The third is above the door where you get the Amber Brick. The fourth is near the access panel you use to get Fossil Piece A. The final two cameras are tough to get. From the access panel, move along the catwalk to the left. Switch to a female character and jump onto the duct work on the left. Follow it to a hidden walkway above the egg hatchery room. From this walkway, shoot the last two cameras.

	Amanda Kirby

Gold Brick Challenges		
Name	**Mode**	**Notes**
Level Complete	Any	Complete the level.
True Survivor	Any	Collect 8,000 studs.
Fossil Piece A	Any	Collect the third Ankylosaurus fossil piece.
Fossil Piece B	Any	Collect the fourth Ankylosaurus fossil piece.
Minikit	Any	Collect the Minikit.

Escape from the Raptors

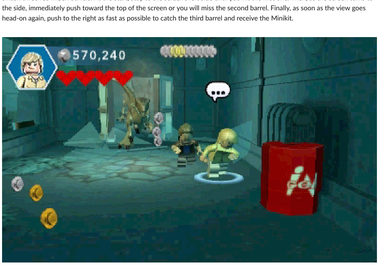
Once again, you are being chased by dinosaurs. This time it's raptors in a lab. In addition to trying to complete the challenges, the main focus is to accumulate as many studs as possible.

The level starts with your character running from a head-on perspective. Then it changes to a side view, before returning to head-on, and then finally a view from behind as the level's end approaches.

Challenges

Minikit

These challenges are tricky to complete, even when you know where the objects are located. To get the Minikit, run into and smash three red InGen barrels. At the start, stay to the screen's left side until you hit the first one. Then, as the screen turns to the side, immediately push toward the top of the screen or you will miss the second barrel. Finally, as soon as the view goes head-on again, push to the right as fast as possible to catch the third barrel and receive the Minikit.



Fossil Piece A

As the view changes to the side, move to the middle of this area. As soon as this fossil piece is visible near the ceiling, jump to get it. If you have trouble with timing, just keep jumping in the middle of this area and you should grab it.

Fossil Piece B

This fossil piece is in a crate during the second time the view is head-on. As soon as you hit the red barrel on the screen's right side, move to the left and run directly into the crate and get the fossil.

Walkthrough: Movie 3

Level 24: Eric's Hideout

Icons	Characters
	Alan Grant (Iris Sorrul)
	Eric Kirby (Disguise)

Gold Brick Challenges		
Name	**Mode**	**Notes**
Level Complete	Any	Complete the level.
True Survivor	Any	Collect 16,000 studs.
Fossil Piece A	Free Play	Collect the fifth Ankylosaurus fossil piece.
Fossil Piece B	Any	Collect the sixth Ankylosaurus fossil piece.
Red Brick	Free Play	Collect the Red Brick.

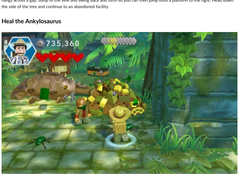
Get to the Facility

After emerging from the lab, Alan gets separated from the group. As he is surrounded by raptors, Alan is rescued by Eric. Eric has the ability to camouflage himself. Hold down the Action button to use this ability, then move to the right and sneak past a raptor. Once past the dino, press the Action button again to return to normal mode and break some crates. Assemble the pieces into a toy that distracts the raptor.

Take control of Alan and move to Eric. Cut away the vines around the front of the vehicle with the raptor claw, then pull on the tow hook. Attach it to the tree, return to the vehicle, and use the winch to reveal a small door.

Eric can crawl through the small door and get to a platform high in the tree. Break some objects and assemble the pieces into a ladder for Alan to climb onto the platform. Then use Alan's raptor claw to cut away some vines. While doing this, one vine hangs across a gap. Jump to the vine and swing back and forth so you can then jump onto a platform to the right. Head down the side of the tree and continue to an abandoned facility.

Heal the Ankylosaurus



A sick Ankylosaurus is in the facility. Cut away the vines over the large pile of dino droppings with Alan's raptor claw. Then use Eric to search the pile to see what the dino needs to be healed.

The first item is a carrot. Move to the facility's right side and have Alan dig up the carrot from a dig spot. Carry it back to the dino.

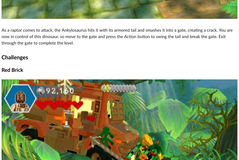
Cut away the vines on the vending machine with the raptor claw. Then use the vending machine to get a chocolate bar. This is the second item the dino needs.

Locate a vine to the vending machine's right. Jump and grab onto the vine to shake a banana loose. Deliver this last ingredient to the dino and it will be healed.

As a raptor comes to attack, the Ankylosaurus hits it with its armored tail and smashes it into a gate, creating a crack. You are now in control of this dinosaur, so move to the gate and press the Action button to swing the tail and break the gate. Exit through the gate to complete the level.

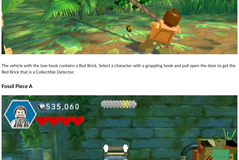
Challenges

Red Brick



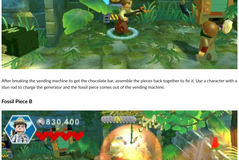
The vehicle with the tow hook contains a Red Brick. Select a character with a grappling hook and pull open the door to get the Red Brick that is a Collectible Detector.

Fossil Piece A



After breaking the vending machine to get the chocolate bar, assemble the pieces back together to fix it. Use a character with a stun rod to charge the generator and the fossil piece comes out of the vending machine.

Fossil Piece B



Before leaving the facility, use the Ankylosaurus to break open a room with a cracked wall—it's to the right of the vending machine. Inside, find the second fossil piece.

Hub Tool

Once you've completed this level and returned to the hub, you now have Eric Kirby. Send him through the small door to the lab's right. Once he gets to the other side, push a boulder along some checkered tiles and into the water.

Switch to Alan and get across the water by jumping onto the floating boulders. Once on the other side, dig up some bricks and assemble them into the third level access terminal.

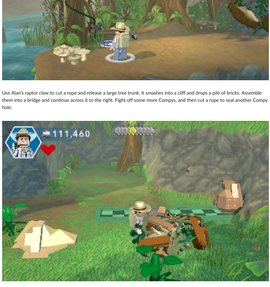
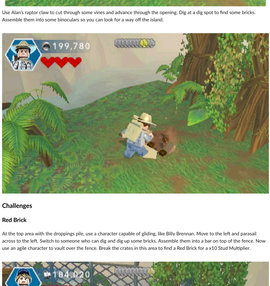
Fossil Piece A	Any	Collect the first Spinosaurus fossil piece.
Fossil Piece B	Free Play	Collect the second Spinosaurus fossil piece.
Red Brick	Free Play	Collect the Red Brick.

Look for a Way Off the Island



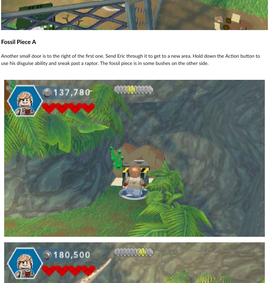
From the start, head to the right. After crossing a stream, some Compys attack. Fight them off, then knock down the large tree to block their hole and prevent more from emerging. Now break up a skeleton and use Alan to reassemble it into a bouncer. Use it to get to the higher ledge.

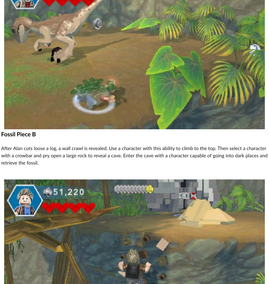
Use Alan's raptor claw to cut a rope and release a large tree trunk. It smashes into a cliff and drops a pile of bricks. Assemble them into a bridge and continue across it to the right. Fight off some more Compys, and then cut a rope to seal another Compy hole.



Continue to the right and slash some vines with the raptor claw to move through a cave. Fight more Compys on the other side; then push a stone along some checkered tiles to seal another Compy hole. Dig up some bricks from a pile of dirt and assemble them into a ladder.

Take control of Eric and climb the ladder. Hop up some step-like ledges to get to a flat area with a small door. Crawl through the door to get to a higher area. Fight off some Compys, break a rock near some vines, and assemble the pieces to seal the Compy hole. Then search a dino droppings pile for some bricks. Place them together to create a ladder for Alan.





Use Alan's raptor claw to cut through some vines and advance through the opening. Dig at a dig spot to find some bricks. Assemble them into some binoculars so you can look for a way off the island.

Challenges

Red Brick

At the top area with the droppings pile, use a character capable of gliding, like Billy Brennan. Move to the left and parasail across to the left. Switch to someone who can dig and dig up some bricks. Assemble them into a bar on top of the fence. Now use an agile character to vault over the fence. Break the crates in this area to find a Red Brick for a x10 Stud Multiplier.

Fossil Piece A

Another small door is to the right of the first one. Send Eric through it to get to a new area. Hold down the Action button to use his disguise ability and sneak past a raptor. The fossil piece is in some bushes on the other side.

Fossil Piece B

After Alan cuts loose a log, a wall crawl is revealed. Use a character with this ability to climb to the top. Then select a character with a crowbar and pry open a large rock to reveal a cave. Enter the cave with a character capable of going into dark places and retrieve the fossil.

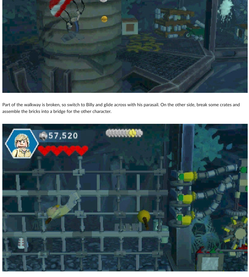
Level 26: Pteranodon Nests

Icons	Characters
	Alan Grant (Ida Sorna)
	Amanda Kirby
	Paul Kirby
	Billy Brennan

Icons	Unlocks
	Spinosaurus

Gold Brick Challenges		
Name	**Mode**	**Notes**
Level Complete	Any	Complete the level.
True Survivor	Any	Collect 22,500 studs.
Fossil Piece A	Free Play	Collect the third Spinosaurus fossil piece.
Fossil Piece B	Any	Collect the fourth Spinosaurus fossil piece.
Amber Brick	Free Play	Collect the Amber Brick.

Rescue Eric from the Pteranodons



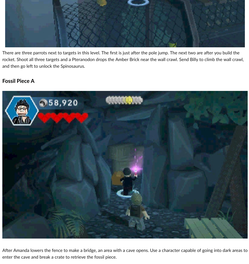
A Pteranodon has caught Eric and carried him back to its nest to feed its babies. Start by moving forward along the walkway. Use Alan's raptor claw to cut through some vines and then continue to the right.

Part of the walkway is broken, so switch to Billy and glide across with his parasail. On the other side, break some crates and assemble the bricks into a bridge for the other character.

Continue to the right. Switch to Amanda and leap up and twirl around the poles to get across another gap in the walkway. Upon landing, break some objects near the gap and assemble them into a lever. Push on the lever's green side to make it go around in a circle. This lowers a fence that can function as a bridge.

Advance forward to the right and a Pteranodon blocks your way. Select Alan and use his raptor claw to cut a rope and drop a crate on the dino to get it to fly away. Now use Paul's grappling hook to pull on an orange attachment. This drops some bones that Alan can assemble into a bridge.

Cross the bone bridge and continue to the right. The Pteranodon returns. Break a red light generator and assemble the pieces into an air rocket. Jump onto the pump and continue jumping until the rocket launches and scares away the flying dino.



Switch to Billy and climb a wall crawl. Then parasail across a gap to the right. Push a crate along some checkered tiles and off the edge. When it breaks, assemble the pieces into a ladder for the other characters.

Use Alan to cut through some vines with the raptor claw. Then continue to a white light generator. Break it into pieces and build a diving board out of it.

Billy leaps off the diving board and parasails through a canyon. Avoid hitting the sides and steer to the rock structure in the center where the Pteranodon nest is located. Now Billy can get Eric and glide him to safety.

Challenges

Amber Brick

There are three parrots next to targets in this level. The first is just after the pole jump. The next two are after you build the rocket. Shoot all three targets and a Pteranodon drops the Amber Brick near the wall crawl. Send Billy to climb the wall crawl, and then go left to unlock the Spinosaurus.

Fossil Piece A

After Amanda lowers the fence to make a bridge, an area with a cave opens. Use a character capable of going into dark areas to enter the cave and break a crate to retrieve the fossil piece.

Fossil Piece B

As Billy is parasailing through the canyon, look for a fossil piece floating in the middle. Maneuver your character to run into it and add it to your collection.

Level Complete	Any	Complete the level.
True Survivor	Any	Collect 13,000 studs.
Fossil Piece A	Free Play	Collect the fifth Spinosaurus fossil piece.
Fossil Piece B	Free Play	Collect the sixth Spinosaurus fossil piece.
Minikit	Any	Collect the Minikit.

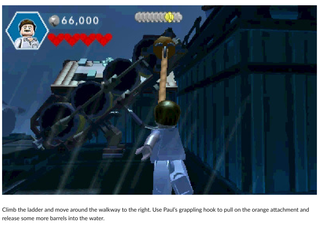
Rescue Paul Kirby

Alan and the Kirby family make it to a boat. However, the Spinosaurus finds them and attacks. While most of the group make it to shore, Paul Kirby is stuck on some floating wreckage. At the start, you can only control Alan. Fight off some Compys, and then dig up some bricks from a large pile of dirt.

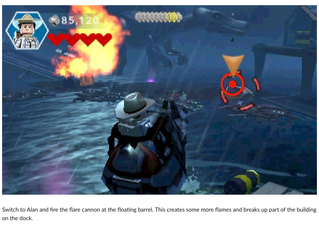
Assemble the bricks into a flare cannon and climb onto it to take control.

An orange arrow indicates a barrel, which is your target. Aim and fire a flare at the barrel to make it explode. The flames keep Spinosaurus away from Paul for a moment.

Take control of Paul. Jump from one piece of floating wreckage to another to get to the dock on the right. However, you are not safe yet.



Climb the ladder and move around the walkway to the right. Use Paul's grappling hook to pull on the orange attachment and release some more barrels into the water.



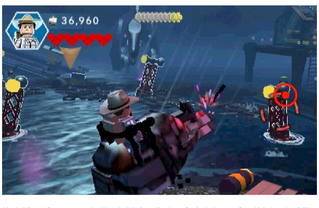
Switch to Alan and fire the flare cannon at the floating barrel. This creates some more flames and breaks up part of the building on the dock.

As Paul, assemble the pieces from the building into a bouncer. Use it to access a higher part of the building where a crane is located. Climb into the crane and move it to the left to grab a large explosive barrel, which is then maneuvered near the Spinosaurus.

Switch to Alan and fire a flare from the cannon at the hanging barrel. It explodes and completes the wall of flames to prevent the Spinosaurus from getting Paul or the other group members. This completes the level as well as the movie.

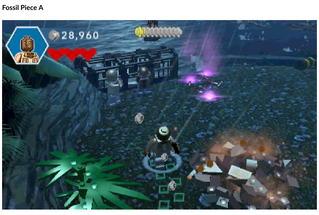
Challenges

Minikit



After building the flare cannon, use it to hit each of the four yellow buoys floating in the water. Once this is done, the Minikit appears in the water near Paul. Pick it up to add it to your collection.

Fossil Piece A



Destroy all the objects on the beach to find a small brick. Select a character with the tracking ability and follow the prints around the beach to get the fossil piece.

Fossil Piece B

When on the dock, switch to a female character with the Agility ability. Jump to the highest part of the building and destroy a crate. It releases a crab that crawls around and then goes off the edge into the sea, leaving behind a fossil.

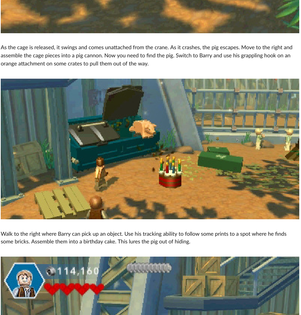
Name	**Mode**	**Notes**
Level Complete	Any	Complete the level.
True Survivor	Any	Collect 11,500 studs.
Fossil Piece A	Free Play	Collect the first Dilophosaurus fossil piece.
Fossil Piece B	Free Play	Collect the second Dilophosaurus fossil piece.
Red Brick	Free Play	Collect the Red Brick.

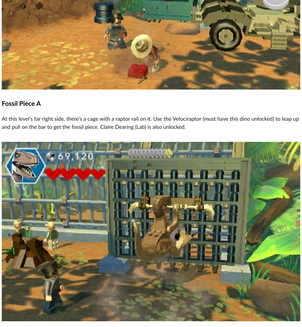
Get the Pig



It's feeding time at the raptor research area. However, the cage with the pig inside is stuck in some vines. As Owen Grady, break some nearby rocks and assemble the pieces into parts of a wall climb. Climb the cliff wall and get to the top. Use Owen's knife to cut the vine and release the cage.

As the cage is released, it swings and comes unattached from the crane. As it crashes, the pig escapes. Move to the right and assemble the cage pieces into a pig cannon. Now you need to find the pig. Switch to Barry and use his grappling hook on an orange attachment on some crates to pull them out of the way.

Walk to the right where Barry can pick up an object. Use his tracking ability to follow some prints to a spot where he finds some bricks. Assemble them into a birthday cake. This lures the pig out of hiding.



Hop onto the pig's back and ride it to the left and into the pig cannon's barrel.

Finally, use Barry's grappling hook to pull the orange attachment on the pig cannon. This raises the barrel, rotates the cannon, and fires the pig into the raptor enclosure.

Challenges

Red Brick

Near the level's start, find a dumpster. Select a character with bolt cutters to cut the lock and reveal a shovel. Switch to a character with the tracking ability and follow some prints to a dig spot. Now use a character with the dig ability to find this Red Brick, which provides the Confetti Effects.

Fossil Piece A

At this level's far right side, there's a cage with a raptor rail on it. Use the Velociraptor (must have this dino unlocked) to leap up and pull on the bar to get the fossil piece. Claire Dearing (Lab) is also unlocked.

Fossil Piece B

Locate a large dig spot near the area where you build the birthday cake. Select a character capable of digging to find the fossil piece.

Hunt for the Pig

The pig was launched into the raptor enclosure. Now, you control the raptors and must hunt for the pig. Head to the right and break up a pile of tires. Since raptors are intelligent, they can assemble pieces. Build a bouncy platform and use it to reach the top of the cages. Continue to the right and drop into a clearing.

Follow the pig to the right and break up some bricks on the ground by the ledge. Assemble them into a raptor rail. Hold down the Attack button to aim at the rail, then release to grab the rail and use it to get onto the ledge's top.

Climb a net ramp, jump over water onto a small island, then across to a pathway. Continue to the right and find an incomplete control panel. Destroy a nearby tree and assemble the pieces into a raptor rail on the panel. Grab the rail and pull to break the controls and reveal another raptor rail. Use it to get to the top of another ledge.

To get through the next area, use both of your raptors. Move one of them into an open cage. Tag to the other and pull on the switch next to the cage. When the door to the cage closes, another door opens inside. Tag to the raptor in the cage and move to the right. Pull on another switch to open another door so both raptors can enter the cage.

Then stand on the orange floor switches to the right to open the final door. Exit the cage. Next, you come across a scent trail. Use the Action button on the scent cloud and follow it to two other scent clouds until the pig is found.

The pig escapes again, but it leaves behind a pile of bricks. Assemble them into a pull switch and move a raptor onto the elevator platform. Switch to the other raptor and pull on the switch to raise the first raptor up.

Select the raptor on top, and pull on the switch next to some explosives. This blows up a tree. Switch to the raptor below and break the tree pieces. Assemble them into a raptor rail and use it.

The pig can through a small door in a large metal gate. There are two pull switches—one on each side of the gate. Have your raptors pull on these switches to open the gate. Then follow a scent trail to find the pig.

Help the Pig Escape

Owen and Barry arrive on the scene. Use Owen to rummage through a large dino-dropping pile to find some pieces. Assemble them into a dino target. Switch to Barry and use his electric rifle to charge the generator with the blue target.

The generator powers up a large mobile. As it turns, a raptor snaps at a key and it falls to the ground. Grab it and put it into a lock next to the gate. Turn the key to open the gate and release the pig, completing the level.

Challenges

minikit

Before using the tire bouncy, move to the cage's right side and break up some plants. Enter the cage and follow it around to get the Minikit. This also unlocks Lowery.

Fossil Piece A

At the level's final area, look for a grow spot on the left side. Select a character with this ability and water the spot to grow a bouncy mushroom. Jump on the mushroom to bounce high into the air to get this fossil piece.

Fossil Piece B

There is a dig spot in the level's final area. Use a character with this ability to dig up a fossil piece.

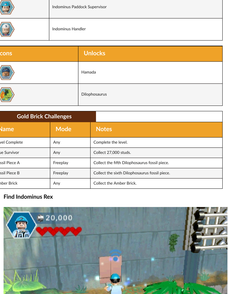
Level 30: Indominus Paddock



Icons	Characters
	Owen Grady
	Indominus Paddock Supervisor
	Indominus Handler

Icons	Unlocks
	Hamada
	Dilophosaurus

Gold Brick Challenges		
Name	**Mode**	**Notes**
Level Complete	Any	Complete the level.
True Survivor	Any	Collect 27,000 studs.
Fossil Piece A	Freeplay	Collect the fifth Dilophosaurus fossil piece.
Fossil Piece B	Freeplay	Collect the sixth Dilophosaurus fossil piece.
Amber Brick	Any	Collect the Amber Brick.

Find Indominus Rex

Indominus Rex is missing. Owen is sent to find it. Select the Indominus Paddock Supervisor and move to the right toward the glowing blue dots. Use the supervisor's scanner to find an access panel. When using the panel, press the sprint flat anyone in the correct order and a ladder to a catwalk lowers.

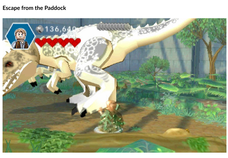
Climb the ladder and move to the right before dropping back down to the ground. Switch to Owen and rummage a pile of dino droppings to find some pieces to a wall climb. Climb the wall and then across to get to the large tag's other side.

Use Owen's knife to cut some vines and release the log for the other character. Move to the right and walk past a small pool and onto a flat area, which breaks as it's stepped on.

The pit dug by Indominus is too deep. Select the Paddock Supervisor and fix the pump next to the pool. Once it's fixed, the pump fills the pit with water and floats a log to the top. Walk across the log to get to the pit's other side.

After seeing some giant claw marks, switch to the Indominus Handler and move to the right. Use his stun rod to charge a generator, which opens a door to exit the paddock. However, an area do this, Indominus appears and grabs the handler.

Escape from the Paddock



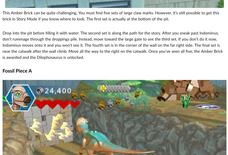
Switch to Owen, use his camouflage ability to sneak past Indominus, and continue to the right. At the pile of dino droppings, cut the vines away and rummage it for bricks. Assemble them into a toy. This lures the dino to the area near the large gate.

Switch to the Paddock Supervisor and move to the right now that Indominus is out of the way. Near the far wall, use the scanner to rotate a series of panels and create a wall climb.

Take control of Owen and climb the wall to a catwalk. Cut a rope to the right, and then assemble some pieces into a large treat for Indominus. While it's distracted, move to the large gate. Use the Paddock Supervisor for the access panel, and correctly input the code to exit the paddock and complete the level.

Challenges

Amber Brick



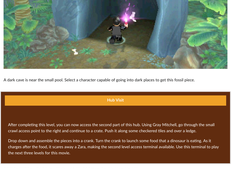
This Amber Brick can be quite challenging. You must find five sets of large claw marks. However, it's still possible to get this brick in Story Mode if you know where to look. The first set is actually at the bottom of the pit.

Drop into the pit before filling it with water. The second set is along the path for the story. After you sneak past Indominus, don't rummage through the dropping pile. Instead, move toward the large gate to see the third set. If you don't do it now, Indominus moves onto it and you won't see it. The fourth set is in the corner of the wall on the far right side. The final set is near the catwalk after the wall climb. More all the way to the right on the catwalk. Once you've seen all five, the Amber Brick is awarded and the Dilophosaurus is unlocked.

Fossil Piece A

Near the level's beginning, find a deep trench with a cracked rock at the end. Select a dinosaur that can break these rocks and get the fossil piece. This also unlocks Hamada.

Fossil Piece B



A dark cave is near the small pool. Select a character capable of going into dark places to get this fossil piece.

HUB 3

After completing this level, you can now access the second part of this hub. Using Gray Mitchell, go through the small road across point to the right and continue to a crate. Push it along some checkered tiles and over a ledge.

Drop down and assemble the pieces into a crank. Turn the crank to launch some food that a dinosaur is eating. As it plunges after the food, it scares away a Zara, making the second level access terminal available. Use this terminal to play the next three levels for this movie.

Name	**Mode**	**Notes**
Level Complete	Any	Complete the level.
True Survivor	Any	Collect 23,000 studs.
Fossil Piece A	Any	Collect the first Apatosaurus fossil piece.
Fossil Piece B	Any	Collect the second Apatosaurus fossil piece.
Amber Brick	Any	Collect the Amber Brick.

Escape from Indominus Rex

This chase level involves riding in a gyrosphere while being pursued by a giant dinosaur!

The main challenge is to collect enough studs to complete True Survivor. If you're not using any Red Bricks to help with stud collection or multiplication, you really need to focus on hitting those chains of studs and be sure to get the blue stud at the end. Collecting enough studs to be a True Survivor unlocks Jimmy Fallon.

Challenges

Amber Brick

To get the Amber Brick, run into and smash three sign posts. As soon as you go under the concrete monorail track, steer to just a little right of center to hit the first sign post. The second is in the same position, just after the second monorail track. The last sign post is after the screen changes to a side view. Follow the trails of studs and you should hit it. The Amber Brick unlocks the Apatosaurus.

Fossil Piece A

This is a tough fossil to acquire. After passing the first sign post, and as the screen changes to a side view, move toward the top of the screen and be ready to jump as soon as you see a bush with a fossil piece floating over it.

Fossil Piece B

After the third sign post, the screen changes to a partial rear view. Keep following the trails of studs. For this object, you can actually see the fossil ahead and have a bit of time to maneuver to get it.

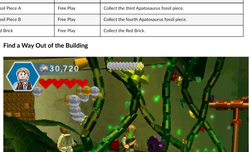
Fossil Piece B	Free Play	Collect the fourth Apatosaurus fossil piece.
Red Brick	Free Play	Collect the Red Brick.

Find a Way Out of the Building



Indominus Rex escaped its paddock and is terrorizing the place. Owen and Claire have taken shelter in a building. However, it won't last long with Indominus trying to break in. They must find a way out. Start by moving to the right. When you come across some vines, use Owen's knife to cut through them.

Switch to Claire and use her Agility ability to reach a series of bars on some scaffolding to access a walkway that leads to safety. However, Indominus breaks the scaffolding. You must find another way up to the walkway. Assemble the pieces from the scaffolding into a giant chainsaw. Use Claire's Agility ability to reach the bar on the saw. The saw cuts through a log to clear a path.

Use Owen's knife to cut some vines in the next area. This releases some bricks. Assemble them into a balance beam to walk over the next obstacles. Continue to the left and have Owen rummage through a large pile of dino droppings to find some pieces. Assemble them into a wall jump.

As Claire, use the wall jump to get to the top of another scaffold. Move to a crank and wait for Owen to climb onto a lift. Turn the crank to raise the lift and bring Owen to the walkway. Switch to Owen and use the wall climb to reach the walkway on the left.

Push a crate along some checkered tiles and off the walkway. Switch to Claire and assemble the pieces of the smashed crate into a ladder. Climb the ladder and slide under a pink and blue fence gap to get to the other side. Jump up and pull down on a handle to lift a gate blocking the walkway.

As you are trying to advance, Indominus sticks his head through a hole in the wall and blocks your path. Take control of Owen and hold down the Action button to put on his disguise. Now sneak past Indominus to get to the other side. Remove the disguise and break up a container into pieces.

Assemble the pieces into a giant container of bug spray. Then jump up and down on the pump next to the gate several times to spray Indominus in the face and get him to leave.

Take control of Claire, move to the right, and vault over a high fence. Break a crate and build the bricks into a jack to open the gate for Owen. Use Owen's knife to cut through some vines and knock over a pillar. Move to the far walkway and exit the building to complete the level.

Challenges

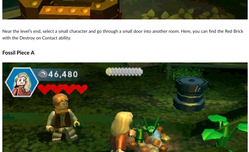
Red Brick

Near the level's end, select a small character and go through a small door into another room. Here, you can find the Red Brick with the Destroy on Contact ability.

Fossil Piece A

There are three grow spots in this level. The first is in the same area as the chainsaw, and the others are along the way to the dino droppings. Use a character with the grow ability to grow flowers in this area. After growing three, the fossil piece is released.

Fossil Piece B



Near the level's start, you walk past a closed door. Select a character with a crowbar and pry it open to get this fossil piece. This also unlocks Pilot Pet.

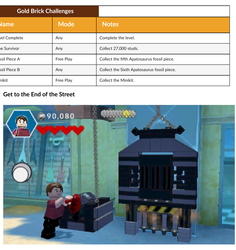
Walkthrough: Movie 4

Level 33: Main Street

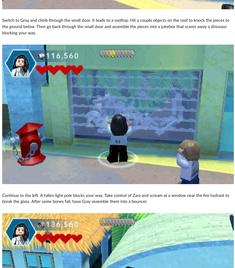
Icons	Characters
	Zara
	Gray Mitchell (Survivor)
	Zach Mitchell (Survivor)

Icons	Unlocks
	Vivian
	Jurassic World Veterinarian



Gold Brick Challenges		
Name	**Mode**	**Notes**
Level Complete	Any	Complete the level.
True Survivor	Any	Collect 27,000 studs.
Fossil Piece A	Free Play	Collect the fifth Apatosaurus fossil piece.
Fossil Piece B	Any	Collect the Sixth Apatosaurus fossil piece.
Minikit	Free Play	Collect the Minikit.

Get to the End of the Street

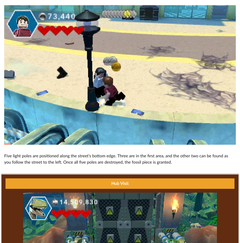


Dinosaurs have been released and are terrorizing the people visiting Jurassic World. You must reach the far end of the street. Head to the left and break an umbrella in front of the music store. Grab the crank that appears and carry it to a winch to the right. Put it in the winch and turn it to reveal a small door.

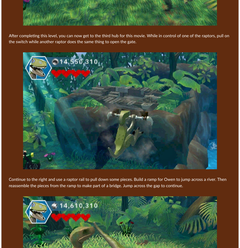
Switch to Gray and climb through the small door. It leads to a rooftop. Hit a couple objects on the roof to knock the pieces to the ground below. Then go back through the small door and assemble the pieces into a jukebox that scares away a dinosaur blocking your way.

Continue to the left. A fallen light pole blocks your way. Take control of Zara and scream at a window near the fire hydrant to break the glass. After some bones fall, have Gray assemble them into a bouncer.

As Zara, jump onto the bouncer and reach the ivy's poles. Swing around three of them to get over the light pole. When you land, break some blue barriers and assemble the pieces into a balance beam for the other character.



Switch to Gray and take a picture to scare away a dinosaur. Move to the left and use the ride-on car. Select Zara and vault over a fence. Then push the crate along the checkered tiles so Zach can arrive and fix the generator and start it up. This sends extra power to the car, forcing it to drive off its base and clear a path.



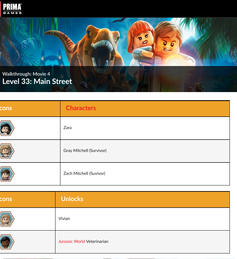
A fire blocks your final escape from the dinosaur attacks along the street. Time to put out that fire! Move to the fountain and turn the red wheel. This causes the fountain to burst at the top. Assemble the pieces in the fountain into a lever and push the green side around. The fountain puts out the fire. You can now reach safety and complete the level.

Challenges

Minikit

Near the level's end, look for a rope next to the buildings. Use a character to cut the rope and the Minikit drops to the street. The Jurassic World Veterinarian is also unlocked.

Fossil Piece A



Use a character capable of screaming to break a window to the right of the window containing the bouncy pieces. Inside, water a plant with a character who has the grow ability. After a flower grows, jump onto the flower to get the fossil. Vivian is also unlocked.

Fossil Piece B

Five light poles are positioned along the street's bottom edge. These are in the first area, and the other two can be found as you follow the street to the left. Once all five poles are destroyed, the fossil piece is granted.

Park Visit

After completing this level, you can now get to the third hub for this movie. While in control of one of the raptors, pull on the switch while another raptor does the same thing to open the gate.

Continue to the right and use a raptor call to pull down some pieces. Build a ramp for Owen to jump across a river. Then reassemble the pieces from the ramp to make part of a bridge. Jump across the gap to continue.

In the clearing to the right, follow a raptor scent trail to find bricks for a level access terminal. Assemble them and you can play the next three levels for this movie.

Level Complete	Any	Complete the level.
True Survivor	Any	Collect 213,000 studs.
Fossil Piece A	Any	Collect the first Indominus Rex fossil piece.
Fossil Piece B	Free Play	Collect the second Indominus Rex fossil piece.
Red Brick	Free Play	Collect the Red Brick.

Rescue the Workers

Owen planned on using the raptors against Indominus. However, it is the Alpha and now the raptors are attacking the Jurassic World workers. Move to the left and have Owen rummage through a large pile of dino droppings. Assemble the bricks he finds into a bouncy and use it to get onto the top of the vehicle.

Unlock a Character

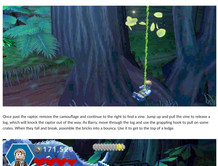
Be sure to collect enough studs to complete the True Survivor challenge. Not only will you earn a Gold Brick, but you will also unlock the Jurassic World Ranger.

Take control of Barry and use his grappling hook to grab onto a tree and pull it down to make a balance beam. Switch to Owen and cross the beam to reach a small platform on a tree. Jump to the right and grab onto a vine. Swing across to the right to another small platform. Cut the vines with his knife to free a worker and an ATV caught in a tree.

Drop down and assemble the bricks from the ATV into a rocket. Jump onto the pump to launch the rocket and score away one of the raptors that has a worker pinned.

Continue to the right and rescue a worker caught under a fallen tree by pulling them out. Jump on the tree trunk to get to a higher area and rummage through the dropping pile there to find pieces of a ladder. Assemble the ladder and climb it to continue.

Switch to Barry and use his grappling hook to pull on an orange attachment. This creates an opening in a large log. However, a raptor is standing on the log blocking your way. Take control of Owen and hold down the Action button to activate his camouflage ability. Now sneak under the raptor to the other side.

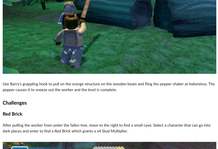


Once past the raptor, remove the camouflage and continue to the right to find a vine. Jump up and pull the vine to release a log. Climb the nearby vine to reach the top of the log. Use the log to cross the gap. Jump to the right and pull to pull an some cranes. When they fall and break, assemble the bricks into a bouncy. Use it to get to the top of a ledge.

Head up the hill to a camp where Indominus has a worker in trouble and a raptor is patrolling. As Owen, activate his camouflage ability and sneak to the right. Near a vehicle, break up an object and then reassemble it into a generator.

Switch to Barry and use his electric rifle to shoot the blue target on the generator and charge it. This starts the vehicle and scares away the raptor.

After the vehicle crashes, move to the center of the clearing and assemble the pile of bricks into a giant pepper shaker. As Barry, pick up a small object on the ground and follow the tracks to find some more pieces. Build them onto the wooden beam.



Use Barry's grappling hook to pull on the orange structure on the wooden beam and fling the pepper shaker at Indominus. The pepper causes it to sneeze out the worker and the level is complete.

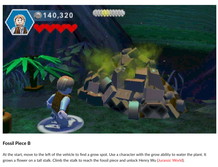
Challenges

Red Brick

After pulling the worker from under the fallen tree, move to the right to find a small cave. Select a character that can go into dark places and enter to find a Red Brick which guards a set Soul Multiplier.

Fossil Piece A

After pulling on the vine to knock the raptor off of a log, use Owen to rummage through a large pile of dino droppings to find this fossil piece.



Fossil Piece B

At the start, move to the left of the vehicle to find a grow spot. Use a character with the grow ability to water the plant. It grows a flower on a tall stalk. Climb the stalk to reach the fossil piece and unlock Henry Wu (Jurassic World).

Fossil Piece B	Any	Collect the fourth Indominus Rex fossil piece.
Minikit	Any	Collect the Minikit.

Help Claire and the Kids Escape from the Raptors

This is a chase level that combines driving and shooting. While Owen is the driver, Barry does the shooting. The level is divided into three parts. In the first part, you follow Claire's truck. A raptor is on top. Shoot at the raptor to reduce its health until it falls off. The raptor also throws objects at you, so you must shoot the objects as well as the raptor.

During the second part of the level, the screen shows a side view. This time, the raptors are chasing the truck. Shoot at the raptors. After hitting them a few times, they start chasing you. Keep shooting because you lose studs if they attack your vehicle. The raptors alternate between the truck and you, so just keep shooting until its health is depleted.

For the final part, you're in front of Claire's truck, shooting at a raptor. As before, keep shooting until its health is gone. If you have not completed the True Survivor challenge yet, focus on collecting as many studs as possible and take an occasional shot at the raptor. The reward is unlocking the ACU Trooper Male.

Challenges

Minikit

The Minikit can be found in either the second or third part of the level. In the second part, just drive in the middle to get it. If you miss it, keep driving in the second part until it comes around again. On the other hand, if you get to the third part of the level and still haven't collected it, the Minikit appears on the right side of the screen.

Fossil Piece A

While in the first part of the level, when you are chasing Claire's truck, watch for a ramp on the left side of the road. Drive up the ramp to get the fossil piece at the top.

Fossil Piece B

This fossil piece can be found in the second part. Drive in the middle while shooting at the raptor and you will eventually run into it.

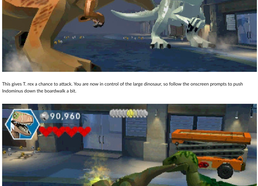
Help the T. Rex Defeat Indominus Rex

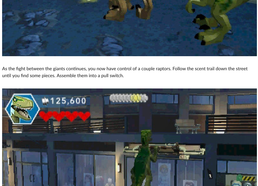
The T. rex emerges onto the boardwalk to fight Indominus. However, Indominus appears like it will defeat the T. rex... and then there will be no stopping it! You need to give the T. rex some help. Start by having Owen rummage through the nearby dino droppings to find a crank.

Pick up the crank and take it to the left. Lower a platform by inserting the crank and turning it. Use Claire's high-jump ability to reach the platform. From there, jump to a balcony where she can use the access panel. Press the spots in the same order they appear to deploy a bar for the other characters.

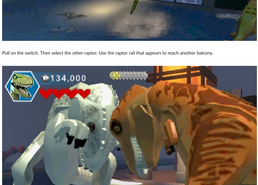
Switch to Owen and jump on the bar and then onto the balcony. Crawl up the wall climb to reach a higher balcony. Now use Owen's knife to cut a rope and drop a large sign on the head of Indominus.



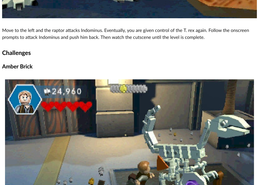
This gives T. rex a chance to attack. You are now in control of the large dinosaur, so follow the onscreen prompts to push Indominus down the boardwalk a bit.



As the fight between the giants continues, you now have control of a couple raptors. Follow the scent trail down the street until you find some pieces. Assemble them into a pull switch.



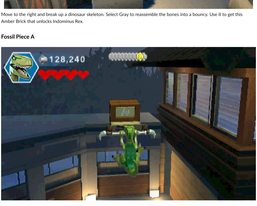
Pull on the switch. Then select the other raptor. Use the raptor rail that appears to reach another balcony.



Move to the left and the raptor attacks Indominus. Eventually, you are given control of the T. rex again. Follow the onscreen prompts to attack Indominus and push him back. Then watch the cutscene until the level is complete.

Challenges

Amber Brick



Move to the right and break up a dinosaur skeleton. Select Gray to reassemble the bones into a bouncy. Use it to get this Amber Brick that unlocks Indominus Rex.

Fossil Piece A

Once you reach the balcony as the raptor, locate another raptor rail to the right and use it to make a crate fall. When it breaks, get the fossil piece inside.

Fossil Piece B

There is a locked door on the balcony between the access panel and the wall climb. Select a character with a crowbar and pry open the door. Enter the room and break the file cabinet along the back wall to get this fossil piece.

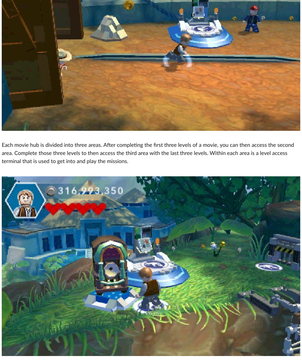
Hub Areas

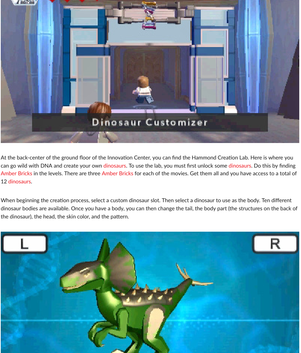
Innovation Center

When beginning the game, you are taken into the first Jurassic Park level. Once you complete it, you are taken to the Innovation Center. This serves as the main hub area for the game and there are several things you can do here. In addition, the Innovation Center connects to all of the other hub areas. There are two floors in this area with staircases on the left and right.

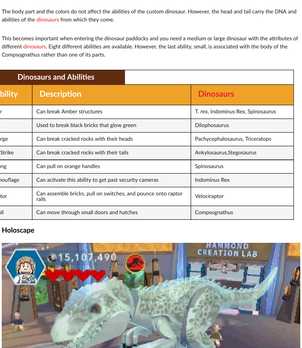
Movie Hubs



The ground floor of the Innovation Center has gates that allow access to each of the four movie hubs. At the start, the gates to Jurassic Park and Jurassic World are unlocked. You can enter those hubs and begin playing the nine levels for each of those movies. In order to unlock the gates to The Lost World: Jurassic Park and Jurassic Park III hubs, you need to earn some Gold Bricks. Each time you play a level, you can earn Gold Bricks. You get one for completing the level, one for earning the True Survivor award, one for each of the two fossil pieces, and one for the Red Brick, Amber Brick, or Minikit. Therefore, you can earn up to five Gold Bricks per level.

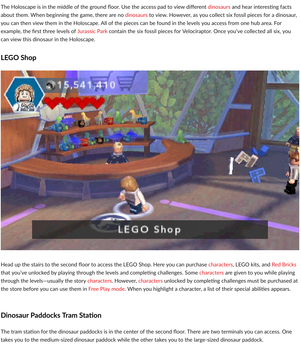


Each movie hub is divided into three areas. After completing the first three levels of a movie, you can then access the second area. Complete those three levels to then access the third area with the last three levels. Within each area is a level access terminal that is used to get into and play the missions.



Collecting Minikits during the levels only unlocks them. You must go to the store and then purchase the Minikits using studs. Once you've purchased a kit, you can then place your kits onto pedestals in the movie hub areas. This allows you to decorate your hubs with the collectibles you've found.

Hammond Creation Lab



At the back center of the ground floor of the Innovation Center, you can find the Hammond Creation Lab. Here is where you can go wild with DNA and create your own dinosaurs. To use the lab, you must first unlock some dinosaurs. Do this by finding Amber Bricks in the levels. There are three Amber Bricks for each of the movies. Get them all and you have access to a total of 12 dinosaurs.

When beginning the creation process, select a custom dinosaur slot. Then select a dinosaur to use as the body. Ten different dinosaur bodies are available. Once you have a body, you can then change the tail, the body part (the structures on the back of the dinosaur), the head, the skin color, and the pattern.

The body part and the colors do not affect the abilities of the custom dinosaur. However, the head and tail carry the DNA and abilities of the dinosaurs from which they come.

This becomes important when entering the dinosaur paddocks and you need a medium or large dinosaur with the attributes of different dinosaurs. Eight different abilities are available. However, the last ability, small, is associated with the body of the Compsognathus rather than one of its parts.

Dinosaurs and Abilities		
Ability	**Description**	**Dinosaurs**
Roar	Can break Amber structures	T. rex, Indominus Rex, Spinosaurus
Spit	Used to break black bricks that glow green	Dilophosaurus
Charge	Can break cracked rocks with their heads	Pachycephalosaurus, Triceratops
Tail Strike	Can break cracked rocks with their tails	Ankylosaurus,Stegosaurus
Strong	Can pull on orange handles	Spinosaurus
Camouflage	Can activate this ability to get past security cameras	Indominus Rex
Raptor	Can assemble bricks, pull on switches, and pounce onto raptor rails	Velociraptor
Small	Can move through small doors and hatches	Compsognathus

Holoscape

The Holoscape is in the middle of the ground floor. Use the access pad to view different dinosaurs and hear interesting facts about them. When beginning the game, there are no dinosaurs to view. However, as you collect six fossil pieces for a dinosaur, you can then view them in the Holoscape. All of the pieces can be found in the levels you access from one hub area. For example, the first three levels of Jurassic Park contain the six fossil pieces for Velociraptor. Once you've collected all six, you can view this dinosaur in the Holoscape.

LEGO Shop

Head up the stairs to the second floor to access the LEGO Shop. Here you can purchase characters, LEGO kits, and Red Bricks that you've unlocked by playing through the levels and completing challenges. Some characters are given to you while playing through the levels—usually the story characters. However, characters unlocked by completing challenges must be purchased at the store before you can use them in Free Play mode. When you highlight a character, a list of their special abilities appears.

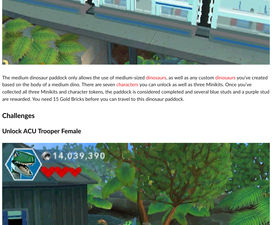
Dinosaur Paddocks Tram Station

The tram station for the dinosaur paddocks is in the center of the second floor. There are two terminals you can access. One takes you to the medium-sized dinosaur paddock while the other takes you to the large-sized dinosaur paddock.

Each paddock is a hub area in which you can complete a variety of challenges to unlock characters and Minikits. You need Gold Bricks to use these terminals, and until you unlock some dinosaurs by collecting Amber Bricks, there's not much you can do at the paddocks. So get some levels under your belt and find those Amber Bricks before venturing into the paddocks.

© 2015 The LEGO Group. ™ & © Universal Studios and Amblin. ™ & © Warner Bros. Entertainment Inc. (s15)

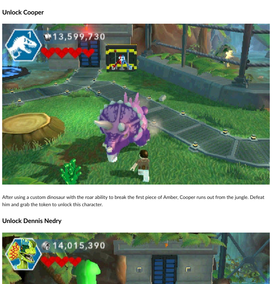
Medium Dinosaur Paddock



The medium dinosaur paddock only allows the use of medium-sized dinosaurs, as well as any custom dinosaurs you've created based on the body of a medium dino. There are seven characters you can unlock as well as three Minikits. Once you've collected all three Minikits and character tokens, the paddock is considered completed and several blue studs and a purple stud are rewarded. You need 15 Gold Bricks before you can travel to this dinosaur paddock.

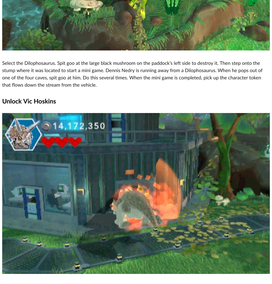
Challenges

Unlock ACU Trooper Female



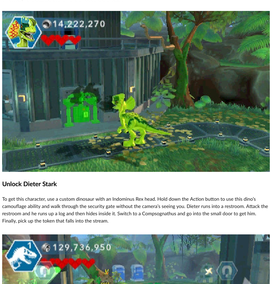
Choose a raptor and move all the way to the paddock's right side. There is a raptor rail with a Pteranodon sitting on it. Pounce to the rail to scare the flying dinosaur away. It picks up the ACU Trooper Female and carries her away, dropping a character token for you to pick up to unlock her.

Unlock Cooper



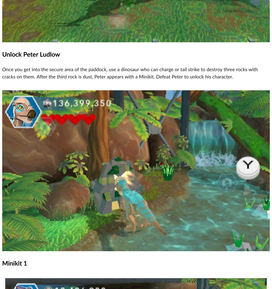
After using a custom dinosaur with the roar ability to break the first piece of Amber, Cooper runs out from the jungle. Defeat him and grab the token to unlock this character.

Unlock Dennis Nedry



Select the Dilophosaurus. Spit goo at the large black mushroom on the paddock's left side to destroy it. Then step onto the stump where it was located to start a mini game. Dennis Nedry is running away from a Dilophosaurus. When he pops out of one of the four caves, spit goo at him. Do this several times. When the mini game is completed, pick up the character token that flows down the stream from the vehicle.

Unlock Vic Hoskins



Break a cracked block on the lab at the paddock's right side with a charge or tail strike. Vic runs out of the lab and next to a raptor rail. Switch to a raptor and then pounce onto the rail to knock Vic to the ground. Attack him and then unlock his character.

Unlock Ray Arnold

After breaking the cracked block on the lab, switch to the Dilophosaurus and spit goo at the black block. After doing this a few times, Ray runs out. Defeat him and unlock the character.

Unlock Dieter Stark

To get this character, use a custom dinosaur with an Indominus Rex head. Hold down the Action button to use this dino's camouflage ability and walk through the security gate without the camera's seeing you. Dieter runs into a restroom. Attack the restroom and he runs up a log and then hides inside it. Switch to a Gampsognathus and go into the small door to get him. Finally, pick up the token that falls into the stream.

Unlock Peter Ludlow

Once you get into the secure area of the paddock, use a dinosaur who can charge or tail strike to destroy three rocks with cracks on them. After the third rock is dust, Peter appears with a Minikit. Defeat Peter to unlock his character.

Minikit 1

At the start, use a dinosaur that can charge or strike with its tail to hit the cracked console to the right. A tram arrives with InGen hunters. Defeat nine of these hunters and the Minikit appears.

Minikit 2

Three large lumps of Amber are around the paddock. You will need a dinosaur with the roar ability. Since none of the medium dinos have this, you will need to create a custom dinosaur in the lab with the head of a T. rex. Then find each Amber and hold down the Attack button to roar and shatter them. The Minikit appears when the third Amber is shattered.

Minikit 3

Destroy the three cracked rocks in the secure area of the paddock.

Hub Areas

Large Dinosaur Paddock

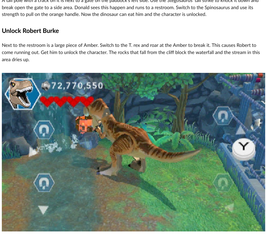
The large dinosaur paddock only allows the use of large-sized dinosaurs, as well as any custom dinosaurs you've created based on the body of a large dino. There are eight characters to unlock and three Minikits. Once you've collected all of the collectibles, the paddock is considered completed and several blue studs are awarded. You need 30 Gold Bricks before you can travel to this dinosaur paddock.

Challenges

Unlock Donald Gennaro

A tall pole with a crack on it is next to a gate on the paddock's left side. Use the Stegosaurus' tail strike to knock it down and break open the gate to a side area. Donald sees this happen and runs to a restroom. Switch to the Spinosaurus and use its strength to pull on the orange handle. Now the dinosaur can eat him and the character is unlocked.

Unlock Robert Burke



Next to the restroom is a large piece of Amber. Switch to the T. rex and roar at the Amber to break it. This causes Robert to come running out. Get him to unlock the character. The rocks that fall from the cliff block the waterfall and the stream in this area dries up.

Unlock Carter

After the stream dries up, a dino stomp location is revealed. Switch to the Apatosaurus and stomp on it to break it. Carter appears in the process. Defeat him to unlock the character.

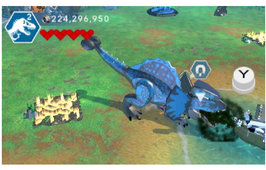
Unlock Juanito Rostagno

Another piece of Amber is in a cliff-side near the fence on the left. Use a T. rex roar to destroy it. When this happens, Juanito runs out. Get him to unlock the character.

Unlock Jurassic World Worker

A secure area of the paddock is on the right side. Switch to Indominus Rex and use his camouflage ability to sneak past the security cameras. As you do, the worker runs away and hides under a truck. Destroy the truck to get him.

Unlock Enrique Cardosa



At the lab, make a custom large dinosaur with the head of a Dilophosaurus so that it can spit. A boat is near the bottom of the paddock. Spit goo at the black part of the boat until it sinks. When Enrique swims ashore, eat him to unlock his character.

Unlock Nash

A wrecked airplane is stuck in a tree. Select Spinosaurus and use its strength to pull on the orange handle to get it out of the tree. Now switch to the custom dinosaur that can spit and spit goo on the airplane's black front to break it up. When Nash comes crawling out, get him to unlock the character.

Unlock Simon Masrani

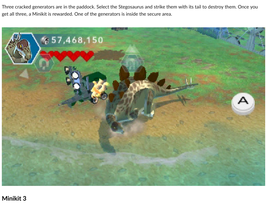
Inside the secure area, look for a crashed helicopter. You need to spit goo at it first; then switch to Spinosaurus to pull on the orange handle to bring it to the ground. This is your chance to get Simon as he climbs out of the wreckage.

Minikit 1

Several dino stomp areas are throughout this paddock. They look likes squares in the ground with cracks. Use the Apatosaurus to stomp on them and break them up. There are a total of four; however, one is in the secure area. Stomp on all four to get this Minikit.

Minikit 2

Three cracked generators are in the paddock. Select the Stegosaurus and strike them with its tail to destroy them. Once you get all three, a Minikit is rewarded. One of the generators is inside the secure area.



Minikit 3

This Minikit is in the same wrecked plane as Nash. After spitting goo on it to get Nash out, keep breaking up the plane to find the Minikit.

PlayStation Vita Trophies

PlayStation Vita Trophies

Name	Description	Trophy
Life, uh... finds a way	Complete all other trophies	Platinum
Welcome to Jurassic Park	Complete Chapter 1	Bronze
Objects In Mirror Are Closer Than They Appear	Complete Chapter 2	Bronze
I've Decided Not To Endorse Your Park	Complete Chapter 3	Bronze
...And an apple turnover!	Complete Chapter 4	Bronze
Don't Go Into The Long Grass!	Complete chapter 5	Bronze
Just Follow the Screams	Complete Chapter 6	Bronze
Nobody Move a Muscle	Complete Chapter 7	Bronze
Is This How You Make Dinosaurs?	Complete Chapter 8	Bronze
Let's Go Home	Complete Chapter 9	Bronze
The Park Is Open	Complete Chapter 10	Bronze
Are You Following The Dinosaur?	Complete Chapter 11	Bronze
We Need More Teeth	Complete Chapter 12	Bronze
Must go faster...	Complete the Movie 1 bonus level	Bronze
Mommy's Very Angry	Complete the Movie 2 bonus level	Bronze
Just like a flock of birds	Complete the Movie 3 bonus level	Bronze
Evacuate the Island	Complete the Movie 4 bonus level	Bronze
65 Million Bricks In The Making	Complete All Story Levels	Gold
Bingo! Dino DNA!	Collect an Amber Brick	Bronze
This is how you play God	Collect All Amber Bricks	Silver
I Understand How to Read a Schematic	Collect all Minikits	Silver
One Big Pile Of Bricks	Collect All Red Bricks	Silver
What Lysine Contingency?	Heal All Dinosaurs	Silver
The Full Jurassic World Experience	Unlock all Dino Holograms	Bronze
When Dinosaurs Ruled the Earth	Collect All Collectibles in the Medium Paddock	Bronze
The (Not So) Lost World	Collect All Collectibles in the Large Paddock	Bronze
Next Time It'll Be Flawless!	Achieve 100% Completion	Gold
The Concept Of Attraction	Enable Stud Magnet Red Brick	Bronze
Spared No Expense	Collect 65,000,000 LEGO studs	Silver
Hold Onto Your Studs	Collect 2,000,000,000 LEGO Studs	Gold
Our First Genetically Modified Hybrid	Place a custom Dinosaur in a Paddock	Bronze
The Rest is Classified	Use the Camouflage ability as a custom Dinosaur	Bronze
I Don't Remember That On InGen's List	Customize a Spinosaurus	Bronze
Remember To Wash Your Hands	Rummage in some Dinosaur droppings	Bronze
Not Machine Compatible	Try to use an InGen Panel as Alan Grant	Bronze
Ah ah ah!	Fail an InGen Panel Once	Bronze
Clever Girl	Solve two Equation Solves	Bronze
Building Blocks Of Life	Build a LEGO object using Mr. DNA	Bronze
The Human Piece Of Toast	Get zapped by electricity in the raptor Enclosure level	Bronze
Anybody want a Soda?	As Dennis Nedry, throw a soda can at an enemy	Bronze
No wonder you're extinct	Complete Dennis Nedry's shooting gallery in the Medium Paddock	Bronze
Observe And Document	Complete All Photographs	Silver
Hello John!	Set both Free Play characters as John Hammond (or variant of him)	Bronze
Do-You-Think-He-Saurus?	Sneak past a Dinosaur using Camouflage	Bronze
Something Has Survived	Obtain "True Survivor" in any level	Bronze
Survival Expert	Collect "True Survivor" on all levels	Silver
Reason To Fear Man	Defeat 50 Compys	Bronze
